I direct that pursuant to CPR PD 39A para 6.1 no official shorthand note shall be taken of this Judgment and that copies of this version as handed down may be treated as authentic.

Covid-19 Protocol: This judgment was handed down by the judge remotely by circulation to the parties' representatives by email and release to Bailii. The date and time for hand-down is deemed to be at 13:00 on 09 November 2020.

.....

THE HON. MR JUSTICE TURNER

The Hon Mr Justice Turner :

INTRODUCTION

1. On 5 November 2015, the Fundão dam in south eastern Brazil collapsed and over 40 million cubic metres of iron ore mine tailings were released into the Doce River. The consequences were catastrophic.

2. The polluting waste eventually found its way to the Atlantic Ocean over 400 miles away. It destroyed, damaged or contaminated everything in its path. Nineteen people died. Hundreds of thousands suffered loss. Entire villages were obliterated.

3. In these proceedings, about 202,600 individual, corporate and institutional claimants contend that the defendants are liable to compensate them for losses sustained as a result of the disaster.

4. The defendants not only deny liability but now seek to persuade the court, on four distinct grounds, that the case against them should be allowed to proceed no further. This judgment is my determination of those issues.[1]

SOME PRELIMINARY OBSERVATIONS

5. The amount of documentary material which has been deployed by the parties to date is vast.

6. In particular, much of the evidence relates to the question of whether full and timely redress is available to these claimants in Brazil and what impediments stand in their way of achieving it. The following factors, among others, have played a part in explaining (but not wholly excusing) the quantity of material which the parties have chosen to deploy:

   (i) The huge number of claimants;

   (ii) The disparate nature of the claims which they bring;

   (iii) The significant contrasts between Brazilian procedural law and the English Civil Procedure Rules;

   (iv) The complex history of proceedings to date in Brazil and competing predictions as to their likely future.

7. These features, however, go only some way towards justifying the accumulation of huge swathes of documentation. The trial bundles comprise 2,085 items set out in 30,015 pages which have been "distilled" into no fewer

[1] At the risk of being accused of self-plagiarism, I must admit that some of the introductory material in this judgment has been taken from my earlier judgment to be found at Município de Mariana v BHP Group Plc [2020] EWHC 2471 (TCC). I have incorporated this material in order to save the reader the inconvenience of otherwise having to cross-refer to the earlier case.

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

than five core bundles. There are nine further bundles containing 127 authorities. The defendants' skeleton argument was 187 pages long and was the product of the collective endeavours of three leading and four junior counsel. The claimants, not to be outdone, deployed a skeleton argument which was 211 pages long and, by the end of the hearing, had been supplemented incrementally by no fewer than 22 appendices the steady flow of which gave rise to a growing frisson of resentment on the part of the defendants. Submissions lasted for eight full days and have been recorded in a transcript which is about 1,200 pages in length.

8. In this context, I am reminded of the observations of Lord Briggs in ***Lungowe v Vedanta Resources Plc*** [2019] 2 W.L.R. 1051:

> "6. It is necessary to say something at the outset about the disproportionate way in which these jurisdiction issues have been litigated. In Spiliada Maritime Corpn v Cansulex Ltd (The Spiliada) [1987] AC 460, 465, Lord Templeman said this, about what was, even then, the disproportionate manner in which jurisdiction challenges were litigated:
>
> > "In the result, it seems to me that the solution of disputes about the relative merits of trial in England and trial abroad is pre-eminently a matter for the trial judge. Commercial Court judges are very experienced in these matters. In nearly every case evidence is on affidavit by witnesses of acknowledged probity. I hope that in future the judge will be allowed to study the evidence and refresh his memory of the speech of my noble and learned friend Lord Goff of Chieveley in this case in the quiet of his room without expense to the parties; that he will not be referred to other decisions on other facts; and that submissions will be measured in hours and not days. An appeal should be rare and the appellate court should be slow to interfere."
>
> That dictum is, in my mind equally applicable to all the judges in what are now the Business and Property Courts of England and Wales, including, as in this case, the Technology and Construction Court."

9. During the course of the hearing, I expressed concern to Mr Gibson QC, representing the defendants, about the quantity of material which had been deployed by both sides. His explanation relied partly upon the complexity of the proceedings in Brazil and partly upon the need to respond to the submissions raised and evidence submitted on behalf of the claimants in what, to my mind, had deteriorated into a forensic arms race.

10. The first case management conference to be listed before me took place just three weeks before the hearing had been due to commence. I was presented

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

with a fait accompli in terms of the volume of material which had already been collated and deployed by the parties over the preceding period of seven months. I took the view that any attempt retrospectively, and at the eleventh hour, to limit such material would be likely to do more harm than good. The parties would be distracted from the task of preparing the case and there would almost inevitably have arisen time consuming disputes as to what material should be abandoned and what retained. The genie was already out of the bottle. For these reasons, I indicated that I would proceed on a "we are where we are" basis. I permitted the parties to serve further evidence to deal with specifically defined recent developments in the Brazilian proceedings but to be strictly confined to no more than 20 pages each.

11. Notwithstanding the superabundance of material before me, the claimants sought, close to the end of the hearing, to raise an entirely new issue. I refused to entertain the point and my ruling to this effect was challenged by way of an application to the Court of Appeal for permission to appeal. This application was subsequently abandoned but not before it was necessary for me to respond further to an application by the claimants that I should revisit my decision and change my mind. The resulting judgment, to which I have already referred in passing above, itself extends to 97 paragraphs and is to be found at ***Município De Mariana v BHP Group Plc*** [2020] EWHC 2471 (TCC).

12. I will say no more about the accumulation of documentation in this case, or the recent procedural distractions, and will not seek, at this stage at any rate, to allocate responsibility or blame for the state of affairs which has arisen. Nevertheless, I must (and will) resist the temptation to enter the lists of competitive prolixity with a substantive judgment of commensurate length. If I were to reproduce the detail of all the materials presented for my consideration and attempt to resolve every disputed issue of primary fact or secondary inference, the result would be a paradigm of the law of diminishing returns.

13. As the Court of Appeal held in ***Customs and Excise Commissioners v A and Another*** [2003] Fam. 55:

> "82 A judge's task is not easy. One does often have to spend time absorbing arguments advanced by the parties which in the event turn out not to be central to the decision-making process…
>
> 83 However, judges should bear in mind that the primary function of a first instance judgment is to find facts and identify the crucial legal points and to advance reasons for deciding them in a particular way. The longer a judgment is and the more issues with which it deals the greater the likelihood that: (i) the losing party, the Court of Appeal and any future readers of the judgment will not be able to identify the crucial matters which swayed the

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

> judge; (ii) the judgment will contain something with which the unsuccessful party can legitimately take issue and attempt to launch an appeal; (iii) citation of the judgment in future cases will lengthen the hearing of those future cases because time will be taken sorting out the precise status of the judicial observation in question; (iv) reading the judgment will occupy a considerable amount of the time of legal advisers to other parties in future cases who again will have to sort out the status of the judicial observation in question. All this adds to the cost of obtaining legal advice.
>
> 84 Our system of full judgments has many advantages but one must also be conscious of the disadvantages."

14. Where, therefore, I have omitted reference to any aspect of a party's case it is because I have considered that its importance is not sufficient to impact upon my central conclusions and that it would be disproportionate to include reference to it in my judgment. It does not mean, by such omission, that I have either not understood it or have failed to consider it. As I put it in similar circumstances in ***Kalma v African Minerals Ltd*** [2018] EWHC 3506:

> "63…for the sake of proportionality, I have had to leave a very considerable number of these points on the cutting room floor. This does not mean that I have failed to consider them or that I have discarded them as being entirely redundant but merely that the inclusion of their analysis or resolution in an already lengthy judgment would not have had a material impact on the determination of the central issues."

THE PARTIES

The Claimants

15. The vast majority of the claimants are individuals. Some, however, are businesses, Municipalities and other institutions. The numbers in each category are as follows:

    (i) 201,897 individuals;

    (ii) Around 517 small or micro sized businesses;

    (iii) Thirteen larger businesses;

    (iv) 145 members of the indigenous Krenak community;

    (v) 25 Municipalities comprising administrative divisions of the states covering the geographical areas in which 96% of the claimants live;

    (vi) Fifteen churches; and

    (vii) Five utility companies.

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

16. The rights and procedural routes to redress in Brazil which are open to these various groups of claimants are not identical.

17. Brazilian law, which, it is agreed, applies to all of these claims, distinguishes between moral and material damages which are broadly equivalent to general and special damages respectively in English law. Thus the individuals claim, for example, moral damages for personal injuries and interruption of water supplies and material damages for financial losses. Businesses are claiming material damages including loss of profit and damage to property. The claims of the Municipalities include compensation for increased public expenditure, loss of tax revenue and the like.

18. The only redress which the claimants seek in this jurisdiction is in the form of damages; as opposed to declaratory, injunctive or any other type of relief.

The Defendants

19. The owner and operator of the dam was, and is, Samarco Mineração SA ("Samarco") which is a Brazilian mining company. The corporate structure of which Samarco is a part is elaborate. Essentially, Samarco is a non-operated equal joint venture between Vale SA ("Vale") and BHP Billiton Brasil LTDA ("BHP Brasil").

20. Brazilian environmental legislation provides for categories of direct and indirect polluters. Samarco, as owner and operator of the dam, and Vale, which was responsible for storing its waste behind the dam, are both alleged to have been a direct polluters. BHP Brasil, is alleged to have been an indirect polluter, None of these, however, is a party to these proceedings.

21. Where, therefore, do the two defendants come into this?

22. The first defendant, BHP Group Plc ("BHP Plc") is a company incorporated in England. The second defendant, BHP Group Limited ("BHP Ltd"), incorporated in Australia, is a separate legal entity but linked with BHP Plc in a dual listed company arrangement which provides for a unified management structure. BHP Ltd is the ultimate owner of BHP Brasil.

23. The central substantive question on liability in these English proceedings, is as to whether, as a matter of Brazilian law, these two defendants are liable to the claimants, as indirect polluters or otherwise, in respect of the consequences of the failure of the dam. There are arguments both ways and so this issue is not susceptible to summary determination.

PROCEEDINGS IN BRAZIL

The broad framework

24. As I have already noted, the evidence deployed in respect of the Brazilian procedural position has been extremely extensive with lay and expert

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

evidence from both sides covering virtually every nuance of the issues as to what has occurred, what is occurring and what is likely to occur in future.

25. The defendants' experts are (i) Justice Rezek who was twice a Justice of the Supreme Court, a Judge of the International Court of Justice, and a Judge of the Permanent Court of Arbitration; and (ii) Professor Didier, an academic in Brazilian Civil Procedure Law. He is the author of a leading textbook on civil procedure and was responsible for co-ordinating the translation into English of the 2015 Brazilian Civil Procedure Code.

26. The claimants' experts are Professor Rosa and Dr Janot, both of whom are former distinguished Public Prosecutors with considerable experience of the operation of multi-party claims in Brazil.

27. Inevitably, in the context of these interim applications, none of these experts was cross-examined and it is important that I do not undertake a too finely grained approach to determining the relative merits of their respective opinions. This is not a trial.

28. Against the background of the sheer volume of material which has been generated on the topic, the greatest challenge faced by this Court is to see the wood for the trees. With this aim in mind, and at the risk of repetition, I will summarise the position but will not attempt to identify (or adjudicate upon) every point in dispute.

29. Under Brazilian law, any given claimant, being one of a group alleged to have suffered recoverable loss, has a choice as to how to proceed to bring her claim. One option is simply to bring an individual claim to be resolved by the court in the usual way. Alternatively, she may seek to take advantage of a CPA, which is the Brazilian procedural mechanism for facilitating group litigation. So far, both options continue to be pursued in Brazil by persons or institutions claiming to have suffered loss as a result of the dam collapse.

30. A CPA may, for example, be commenced by one of a number of qualifying public bodies with a view to establishing the right to redress of a group of individuals and smaller businesses. The remedies potentially available include, but are not limited to, compensation for what, in England, would be categorised as general and special damages. Where liability has been made out, the court will make a "generic sentence" which enables those falling within its scope to bring "liquidation proceedings" in respect of their loss and damage. There is a dispute between the experts, which I do not consider it necessary for me to resolve, as to the extent to which a CPA judgment is subsequently binding in respect of, for example, matters of causation and damage.

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

31. CPA proceedings can be resolved by settlement, a decision of the court or a combination of the two. Any agreement may be homologated by the court with the effect of ratifying its terms with formal approval. In the event of a favourable outcome for the group, any given claimant need only prove that she is a member of the class of persons on behalf of whom those proceedings were brought and that she has suffered causatively consequent loss. In contrast to GLO proceedings in England, it is not necessary for any given claimant to commence proceedings and be identified on a register before the proceedings are concluded. Where proceedings have been settled, the parties may enter into Conduct Adjustment Agreement ("TAC") under the provisions of which the members of the relevant class may claim compensation. There is a further dispute between the experts in this case as to whether it is only upon homologation that a TAC becomes legally binding and may then be relied upon by victims for the purpose of bringing liquidations. Again, this is a point which I do not consider it necessary to resolve.

32. Decisions in the context of CPAs may be appealed pending which the proceedings may be stayed but, even where stayed, potential unfairness to claimants may be mitigated by provisional liquidation of the generic sentence in the interim.

Proceedings relating to the dam failure

33. On 30th November 2015, within four weeks of the dam collapse, CPA proceedings had been launched. These proceedings, brought by several public bodies including the Federal Government of Brazil, came to be known as the "20bn CPA" because the fund to be established was expected to be in the region of 20 billion Brazilian reals (R$). A Brazilian real is presently worth about £0.15. The 20bn CPA was brought on behalf of the communities and individuals who had suffered loss and damage as a result of the dam collapse. The proceedings were assigned to the 12th Federal Court of the State of Minas Gerais under the management of Judge Mario de Paula Franco Jr ("Judge Mario"), of whom more later.

34. The 20bn CPA was duly settled under the terms of a TAC called the Transaction and Conduct Adjustment Agreement ("TTAC"). Under the TTAC, Samarco, BHP Brasil and Vale signed up to an arrangement involving the creation of an entity known as the Renova foundation ("Renova") the purposes of which included, and continue to include, the mitigation of the environmental consequences of the incident and the compensation of individuals (and some small businesses) claiming to have suffered loss and damage as a result of the collapse of the dam. Under the TTAC, it was intended that Renova should provide full redress to all those eligible under the scheme.

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

35. Matters, however, did not end there.

36. On 2 May 2016, the Federal Prosecutor's Office, which was not one of the public bodies which had launched the 20bn CPA, initiated a second CPA claiming, in particular, that the environmental damage which was intended to have been covered by the 20bn CPA was greater than that which had been allowed for under the terms of the TTAC and that the Federal Government itself, together with other public bodies, was liable for the consequences of the collapse. This CPA, for reasons which are too obvious to require further explanation, has been referred to as the 155bn CPA.

37. The 155bn CPA has been stayed since January 2017 but, in the interim, although the ratification of the TTAC was very heavily criticised and consequently annulled by the appellate court, compensation continues to be paid under the TTAC structure under the terms of a second agreement referred to as the GTAC which acknowledge the continuing commitment of Samarco, BHP Brasil and Vale to make full redress to those affected through the Renova mechanism. The GTAC was ratified by Judge Mario on 8 August 2018. The 155bn CPA has been stayed to allow for further negotiations to take place. It is likely that the stay will remain in place for another two years or more. In the meantime, experts, instructed by the prosecutors, have been appointed to address the environmental and economic damage caused by the dam collapse and to evaluate and monitor the various Renova programs.

38. The terms of the GTAC provide for a process of renegotiation failing which any outstanding issues within the scope of the 155bn CPA may be adjudicated upon by the 12th Federal Court.

39. It is to be noted that both the 20bn and 155bn CPAs cover the claims of a wide range of potential claimants but that neither includes within its scope: Municipalities, large businesses, utility companies or churches. Falling within these excluded categories are 58 (or 0.03%) of the claimants in this case. The potential value of such claims is likely, however, to be significantly higher than the average of the claimants as a whole. Nevertheless, although excluded from the scope of these two CPAs, these bodies are not thereby precluded from bringing conventional individual claims in the Brazilian courts and, indeed, Municipalities are able to initiate their own CPAs. Ten of the Municipality claimants have already brought claims against Renova. The Archdiocese of Mariana and two of the utility companies have also brought claims in Brazil.

40. The task of ensuring that fair reparation is made to the victims covered by the CPA umbrellas is a vast one. One purpose of Renova is to meet this challenge and to this end it has made payments in response to a very

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

considerable number of claims for reparatory relief including, in the terminology of English law, both general and special damages. Nearly half of the claimants in this case have already received financial payments from Renova. Nevertheless, serious criticisms of its constitution and its speed and fairness of operation have been levelled against it from many quarters. These concerns, to which I pay full regard, are set out in detail in section C.4 of the claimants' skeleton argument. In particular, it is suggested that Renova is not sufficiently independent from Samarco, Vale and BHP Brasil. The claimants also rely on the fact many criticisms are levelled at Renova from reputable and high-level national and international sources.

41. About 70 other CPAs were also commenced in the aftermath of the dam collapse. Examples include claims on behalf of: members of the community of the municipality of Mariana and other geographical areas; members of the fishing communities; and many others. The Mariana CPA, for example, has been concluded by a final settlement agreement the terms of which apply to all those living in that Municipality and under which the Brazilian companies have acknowledged their liability to provide full redress. A full list of CPAs was appended to the defendants' skeleton argument and I do not consider that it would be helpful to reproduce it in this judgment.

42. Notwithstanding the existence of the CPAs, individuals are not precluded from bringing their own claims outside their structure. As at the beginning of 2019, no fewer than 67,316 of the claimants in the instant litigation had admitted to having already brought individual lawsuits in Brazil. About 20,000 claimants have conceded that these cases have been resolved in Brazil.

43. The defendants contend that for all of the claimants in the instant case the combination of available remedies, whether arising under the CPAs (including the Renova scheme) and/or via individual claims, provides a satisfactory means of redress which renders the claimants' involvement in litigation in England pointless. The claimants strongly disagree.

PROCEEDINGS IN ENGLAND

44. Initially, the claimants brought proceedings in this jurisdiction against six defendants. These included BHP Plc, Samarco and BHP Brasil but not BHP Ltd. A further claim was later made against BHP Ltd but proceedings against Samarco, BHP Brasil and the three other defendants were formally discontinued. The claimants' generic case was set out in Master Particulars of Claim ("MPoC") and particulars of each individual claim in Additional Particulars of Claim ("APoC"). In response, the defendants declared an intention to apply to the court for an order that the proceedings should be stayed or struck out.

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

45. The defendants mount a four-pronged attack. They contend:

(i) The claims should be struck out or stayed as an abuse of the process of the court;

(ii) The claims against BHP Plc should be stayed by the application of Article 34 of the Recast Brussels Regulation ("the Recast Regulation");

(iii) The claims against BHP Ltd should be stayed because England is forum non conveniens;

(iv) Alternatively, both claims should be stayed on case management grounds.

46. I propose to deal with each ground in turn.

ABUSE OF PROCESS

The legal starting point

47. The classic statement of the law with respect to striking out a claim as an abuse of the process of the court is to be found in the speech of Lord Diplock in ***Hunter v Chief Constable of the West Midlands Police*** [1982] A.C. 529 at p.536:

> "My Lords, this is a case about abuse of the process of the High Court. It concerns the inherent power which any court of justice must possess to prevent misuse of its procedure in a way which, although not inconsistent with the literal application of its procedural rules, would nevertheless be manifestly unfair to a party to litigation before it, or would otherwise bring the administration of justice into disrepute among right-thinking people. The circumstances in which abuse of process can arise are very varied; those which give rise to the instant appeal must surely be unique. It would, in my view, be most unwise if this House were to use this occasion to say anything that might be taken as limiting to fixed categories the kinds of circumstances in which the court has a duty (I disavow the word discretion) to exercise this salutary power."

48. A working definition of abuse of process was formulated by Lord Bingham, in ***Her Majesty's Attorney General v Barker*** [2000] 1 F.L.R. 759. At paragraph 19, he defined an abuse of the process as:

> "…a use of the court process for a purpose or in a way which is significantly different from the ordinary and proper use of the court process".

49. In ***Johnson v Gore Wood & Co*** [2002] 2 A.C. 1, Lord Bingham held at p22C-E:

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

> "The rule of law depends upon the existence and availability of courts and tribunals to which citizens may resort for the determination of differences between them which they cannot otherwise resolve. Litigants are not without scrupulous examination of all the circumstances to be denied the right to bring a genuine subject of litigation before the court… This does not however mean that the court must hear in full and rule on the merits of any claim or defence which a party to litigation may choose to put forward."

Particular caution to be exercised before striking out "first time" litigation

50. One recurrent theme, which has been articulated in a number of the decided cases, is the reluctance of the court to deprive a claimant, on procedural grounds, of a platform upon which to prosecute a claim of adequate substantive merit where she has not ventilated such a claim in earlier proceedings. For example, in **Johnson**, Lord Millett held, at page 59D, that refusing to allow a citizen to litigate for the first time required particular justification because it was, on the face of it, a denial of the citizen's right of access to the courts.

51. In ***Summers v Fairclough Homes Limited*** [2012] 1 W.L.R. 2004 Lord Clarke said:

> "46. The right to a fair and public hearing in the determination of civil rights is enshrined in Article 6 of the European Convention on Human Rights ("ECHR"). The right includes a right of access to a court: Golder v United Kingdom (1975) 1 EHRR 524. The court must act compatibly with Article 6: Human Rights Act 1998 section 6(1). The court is of course itself a public authority: section 6(3). The right of access is not absolute: Golder at para 38. In Ashingdane v United Kingdom (1985) 7 EHRR 528 the European Court of Human Rights accepted at para 57 that the right might be subject to limitations. Contracting States enjoy a margin of appreciation. However, the essence of the right of access must not be impaired, any limitation must pursue a legitimate aim and the means employed to achieve the aim must be proportionate.
>
> 47. In the instant case the claimant obtained judgment on liability for damages to be assessed. We accept that that judgment is a possession within the meaning of Article 1 Protocol 1 of the ECHR and that the effect of striking out his claim for damages would be to deprive him of that possession, which would only be permissible if "in the public interest and subject to the conditions provided for by law …" The State has a wide margin of appreciation in deciding what is in the public interest, but is subject to the principle of proportionality: Pressos Compania Naviera SA v Belgium (1995) 21 EHRR 301 at paras 31-39.

Número do documento: 21061720560691600000579986556

> 48. It is in the public interest that there should be a power to strike out a statement of case for abuse of process, both under the inherent jurisdiction of the court and under the CPR, but the Court accepts the submission that in deciding whether or not to exercise the power the court must examine the circumstances of the case scrupulously in order to ensure that to strike out the claim is a proportionate means of achieving the aim of controlling the process of the court and deciding cases justly."

52. I bear all of these observations fully in mind when approaching the arguments relating to abuse in this case.

Henderson v Henderson

53. The courts have shown less reticence in finding that there has been an abuse of process in circumstances in which a claimant has already taken (or forgone) the opportunity to bring her claim in other proceedings. An early and familiar example of a case in which such an abuse was found to have arisen was ***Henderson v Henderson*** (1843) 3 Hare 100 the modern significance of which was summarised with characteristic clarity by Lord Bingham in ***Johnson v Gore Wood & Co*** [2002] 2 A.C. at p 31 A-F:

> "…Henderson v Henderson abuse of process, as now understood, although separate and distinct from cause of action estoppel and issue estoppel, has much in common with them. The underlying public interest is the same: that there should be finality in litigation and that a party should not be twice vexed in the same matter. This public interest is reinforced by the current emphasis on efficiency and economy in the conduct of litigation, in the interests of the parties and the public as a whole. The bringing of a claim or the raising of a defence in later proceedings may, without more, amount to abuse if the court is satisfied (the onus being on the party alleging abuse) that the claim or defence should have been raised in the earlier proceedings if it was to be raised at all. I would not accept that it is necessary, before abuse may be found, to identify any additional element such as a collateral attack on a previous decision or some dishonesty, but where those elements are present the later proceedings will be much more obviously abusive, and there will rarely be a finding of abuse unless the later proceeding involves what the court regards as unjust harassment of a party. It is, however, wrong to hold that because a matter could have been raised in earlier proceedings it should have been, so as to render the raising of it in later proceedings necessarily abusive. That is to adopt too dogmatic an approach to what should in my opinion be a broad, merits-based judgment which takes account of the public and private interests involved and also takes account of all the facts of the case, focusing attention on the crucial question whether, in all the circumstances, a party is misusing or abusing the process of the

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

> court by seeking to raise before it the issue which could have been raised before. As one cannot comprehensively list all possible forms of abuse, so one cannot formulate any hard and fast rule to determine whether, on given facts, abuse is to be found or not…While the result may often be the same, it is in my view preferable to ask whether in all the circumstances a party's conduct is an abuse than to ask whether the conduct is an abuse and then, if it is, to ask whether the abuse is excused or justified by special circumstances. Properly applied, and whatever the legitimacy of its descent, the rule has in my view a valuable part to play in protecting the interests of justice."

54. Seen in this light, the "rule" in ***Henderson v Henderson***, as interpreted and applied in later cases, provides the court with a flexible guide to the sort of circumstances in which, for example, attempts to run the same case twice may properly be categorised as an abuse of court. It is not, as May LJ pointed out in ***Manson v Vooght (No.1)*** [1999] B.P.I.R. 376, to be "picked over semantically as if it were a tax statute".

55. A helpful generic summary of the principles to be applied is to be found in ***Dexter Limited v Vlieland-Boddy*** [2003] EWCA Civ 14 in which Clarke L J said:

> "49. The principles to be derived from the authorities, of which by far the most important is Johnson v Gore Wood & Co [2002] 2 AC 1, can be summarised as follows:
>
> i) Where A has brought an action against B, a later action against B or C may be struck out where the second action is an abuse of process.
>
> ii) A later action against B is much more likely to be held to be an abuse of process than a later action against C.
>
> iii) The burden of establishing abuse of process is on B or C or as the case may be.
>
> iv) It is wrong to hold that because a matter could have been raised in earlier proceedings it should have been, so as to render the raising of it in later proceedings necessarily abusive.
>
> v) The question in every case is whether, applying a broad merits based approach, A's conduct is in all the circumstances an abuse of process.
>
> vi) The court will rarely find that the later action is an abuse of process unless the later action involves unjust harassment or oppression of B or C.

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

> 50. Proposition ii) above seems to me to be of importance because it is one thing to say that A should bring all his claims against B in one action, whereas it is quite another thing to say that he should bring all his claims against B and C (let alone against B, C, D, E, F and G) in one action. There may be many entirely legitimate reasons for a claimant deciding to bring an action against B first and, only later (and if necessary) against others.
>
> 51. Those reasons include, for example, the cost of proceeding against more than one defendant, especially where B is apparently solvent and the case against B seems stronger than against others. More defendants mean more lawyers, more time and more expense. This is especially so in large commercial disputes. It by no means follows that either the public interest in efficiency and economy in litigation or the interests of the parties, including in particular the interests of C, D and E, is or are best served by one action against them all.
>
> 52. It seems to me that the courts should be astute to ensure that it is only in a case where C can establish oppression or an abuse of process that a later action against C should be struck out. I could not help wondering whether the defendants in this case would have given their lawyers the same instructions on the question whether they should have been sued in the first action if they had been asked before that action began as they have given now that a later action has been begun.
>
> 53. It is clear from the speeches of both Lord Bingham and Lord Millett that all depends upon the circumstances of the particular case and that the court should adopt a broad merits based approach, but it is likely that the most important question in any case will be whether C, D, E or any other new defendant in a later action can persuade the court that the action against him is oppressive. It seems to me to be likely to be a rare case in which he will succeed in doing so."

56. I see no reason in principle why ***Henderson*** considerations should not be relevant in circumstances in which a claimant seeks to run two sufficiently related actions in two different jurisdictions whether sequentially or in parallel. Of course, the issue as to whether such circumstances amount to an abuse will inevitably turn on the particular facts of the case.

Group actions and the impact on the court

57. The various factual backgrounds to the authorities dealing with the scope and content of the inherent jurisdiction of the court in respect of the abuse of its process are, predictably, many and varied and there lies a danger in attempting to infer generic guidance from those cases in which the conclusions of the court are necessarily very fact sensitive. More

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

specifically, the flexibility of the application of the inherent jurisdiction is such that its deployment in the context of group actions, whilst preserving the essence of the purpose for which the power to strike out for abuse is to be deployed, must inevitably take particular account of the exigencies of multi-party proceedings.

58. For example, claims involving very considerable numbers of parties and issues inevitably place a burden on the court which may be very much greater than that which would be assumed in the context of a unitary action. Thus considerations of the allocation of court resources and the procedural practicability of accommodating the ambitions of the parties are liable to come more strongly into play.

59. In ***AB v John Wyeth & Brother (No.4)*** [1994] P.I.Q.R. P109 thousands of plaintiffs (as they then were) claimed damages for personal injuries against the manufacturers and distributors of benzodiazepine drugs.[2] In a relatively small number of cases, those who had prescribed the drugs had also been joined in the proceedings as alternative defendants. The prescribers applied to strike out the claims against them as an abuse of the process of the court.

60. The application succeeded at first instance and the Judge's decision was upheld by the Court of Appeal. Stuart-Smith LJ observed at p. 114:

> "Nor do we accept Mr. Scrivener's analysis that the plaintiff must be guilty of unreasonable or blameworthy conduct before his action is struck out. In none of the cases is this the test. Quite plainly, unreasonable or blameworthy conduct in the course of litigation is not by itself sufficient to constitute an action as an abuse of process. There is nothing unreasonable in a plaintiff wishing to sue the police for assault (Hunter's case) or to sue a solicitor for negligently advising a plea of guilty (Somasundaram v. Julius Melchior & Co. [1988] 1 W.L.R. 1394) or in seeking to recover damages for personal injuries which should have been, but were not, claimed in earlier proceedings (Talbot v. Berkshire County Council [1993] 3 W.L.R. 708). The principle in those cases is that it is contrary to public policy that the same issues should be relitigated, thereby wasting the time of the courts, running the risk of inconsistent verdicts and because it is vexatious to a defendant to have to face the same or similar issues twice, even where he may obtain an order for costs if the relevant litigation is unsuccessful (see: Ashmore's case at p. 348H–349C)."

[2] It may be recalled that the benzodiazepine litigation ran over the course of about a decade (from 1986 to 1996) and, at one stage, had been pursued by about 17,000 plaintiffs. By the time the Legal Aid Board had withdrawn its support, each side had spent more than £35 million on costs and not one of the substantive issues in the case had by then been resolved.

Num. 585973371 - Pág. 17

And, in particular:

> "It is the effect on the courts themselves and the defendant that is important."

61. Furthermore, group litigation may also give rise to greater complexity in the nature of the challenges facing the claimants as Stuart-Smith LJ later went on to note at p.116:

> "There was a good deal of evidence in the case of the general practitioner prescribers which pointed to difficulties faced by the plaintiffs in their actions. For example, in over 90% of the cases there is a Limitation Act defence, which the plaintiffs will have to overcome by obtaining a direction under section 33 of the Limitation Act 1980 or showing that their date of knowledge was within three years of action brought. There are very considerable problems on causation; these involve distinguishing between the effects of the drug and the underlying condition for which it was prescribed, the problems caused by previous addiction to benzodiazepine drugs other than those prescribed by the defendants, and distinguishing between symptoms due to the drugs or, in some cases, other drugs or excess alcohol, and the fact that many plaintiffs may suffer at least some withdrawal symptoms in any event. There is the difficult question of balancing the benefit of the drug against the undesirable consequences of taking it. We accept Mr. Scrivener's submission that the judge did not take these matters into account in reaching his decision. He did not need to do so because there was ample other material upon which he could act. But, in our judgment, he would have been entitled to take them into consideration had he wished to. This would not involve considering the merits of each individual case; that would have been quite inappropriate. But any judge experienced in this type of litigation, and especially Ian Kennedy J. with his knowledge of these cases, would be able to appreciate that these considerations may present real problems in many, if not all, of the cases, quite apart from the modest quantum of the claims if successful."

62. In the instant case, the claimants make two general categories of complaint about the option of suing in Brazil. In broad summary, they say that getting full and timely redress in Brazil against any potential defendant or through Renova is little short of impossible. Secondly, they contend that there are very significant, if not insurmountable, procedural hurdles in the way of bringing claims against these two defendants in Brazil.

63. The second objection would, in my view, carry far more force if the claimants had any compelling reason to seek to sue these two defendants in Brazil rather than, or in addition to, the present Brazilian defendants. In this regard, the claimants are in a similar position to the plaintiffs in ***AB*** who, by

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556
Num. 585973371 - Pág. 18

and large, had no understandably personal or objectively sustainable reason to sue the practitioners rather than, or in addition to, the manufacturers or distributors of the drugs. Usually, as I readily accept, a claimant can choose to sue whom she wants to but the claimants in this case appear to have wrongly purported to elevate this proposition into an absolute right. Where, as in ***AB***, the choice of defendant brings no benefit to a claimant but the pursuance of a claim against such a defendant would result in the oppression of that defendant and/or would take a disproportionate toll on the court's resources the court is entitled to intervene. In this case, the claimants have simply no interest in, or intention of, suing these two defendants in Brazil and I regard the conflicting evidence of the respective experts as to how this could (or could not) be theoretically procedurally achieved to have given rise to a largely sterile debate. This is a civil claim for damages in the Queen's Bench Division of the High Court and not a public inquiry. Put simply, even if I were to proceed hypothetically on the basis they could not practicably sue these two particular defendants in Brazil, this would not change my conclusion on the issue of abuse of the process of this Court.

64. The challenges which are alleged to face the claimants in getting redress from any source in Brazil (as opposed to just these two defendants) give rise to a different issue and one to which I will turn in due course.

65. ***AB*** was decided before the introduction of the CPR but I find no basis upon which it could be argued that the present procedural regime would be expected to give rise to a narrower approach to the way in which courts are expected to deal with abuse of process applications in the context of multi-party litigation. On the contrary, and in particular, the need to take into account the resources of the court has been accorded specific weight in the overriding objective. In the context of this application, I do not apologise for setting out CPR Part 1.1 in full:

> "**The overriding objective**
>
> 1.1 (1) These Rules are a new procedural code with the overriding objective of enabling the court to deal with cases justly and at proportionate cost.
>
> (2) Dealing with a case justly and at proportionate cost includes, so far as is practicable –
>
> (a) ensuring that the parties are on an equal footing;
>
> (b) saving expense;
>
> (c) dealing with the case in ways which are proportionate –
>
> (i) to the amount of money involved;

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

(ii) to the importance of the case;

(iii) to the complexity of the issues; and

(iv) to the financial position of each party;

(d) ensuring that it is dealt with expeditiously and fairly;

(e) allotting to it an appropriate share of the court's resources, while taking into account the need to allot resources to other cases; and

(f) enforcing compliance with rules, practice directions and orders."

66. Under Part 1.2, the court must seek to give effect to the overriding objective when exercising any power given to it by the Rules.

67. The power to strike out a statement of case is set out in CPR 3.4 the relevant parts of which provide:

> "3.4(2) The court may strike out a statement of case if it appears to the court-
>
> (b) that the statement of case is an abuse of the court's process or is otherwise likely to obstruct the just disposal of the proceedings…"

68. I will, of course, have the substance of these rules in the forefront of my mind when adjudicating on the issue of abuse.

Proof and discretion

69. The question arose during the course of oral submissions as to whether the decision of this court on the issue of abuse should involve either (i) an adjudication in respect of which there is only one right answer or (ii) one which involves the exercise of a discretion.

70. In ***Aldi Stores Ltd v WSP Group Plc*** [2008] 1 W.L.R. 748, Thomas LJ (as he then was) said:

> "16. In considering the approach to be taken by this court to the decision of the judge, it was rightly accepted by Aspinwall that the decision to be made is not the exercise of a discretion; WSP were wrong in contending otherwise. It was a decision involving the assessment of a large number of factors to which there can, in such a case, only be one correct answer to whether there is or is not an abuse of process. None the less an appellate court will be reluctant to interfere with the decision of the judge where the decision rests upon balancing such a number of factors…"

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

71. On the issue of proof, in ***Alpha Rocks Solicitors v Alade*** [2015] 1 W.L.R. 4535, Vos J (as he then was) observed:

> "24…litigants should not be deprived of their claims unless the abuse relied upon has been clearly established. The court cannot be affronted if the case has not been satisfactorily proved."

72. There will, however, arise cases in which, even though an abuse has been proved, the court retains a discretion in choosing the appropriate response thereto.

73. In ***Cable v Liverpool Victoria Insurance Co Ltd*** [2020] EWCA Civ 1015 Coulson LJ held:

> "63. In the recent case of Asturion Foundation v Alibrahim [2020] EWCA Civ 32, [2020] 1 WLR 1627 , this court was considering a unilateral decision by the claimant not to pursue its claim for a period of time whilst maintaining an intention to do so at a later date. The court found that this may well constitute an abuse of process, but did not necessarily do so (see paragraph 61 of the judgment of Arnold LJ). More importantly for present purposes, the court set out the correct approach to an application to strike out for an abuse of process. It said that it was a two-stage test. First the court has to determine whether the claimant's conduct was an abuse of process. Secondly, if it was, the court has to exercise its discretion as to whether or not to strike out the claim (see paragraph 64). It is at that second stage that the usual balancing exercise, and in particular considerations of proportionality, becomes relevant.
>
> 64. Furthermore, it seems to me that applying this two-stage test in circumstances like this not only provides clarity and simplicity, but it also avoids the sort of confusion that was identified by Turner J in Liddle v Atha. In that case the judge noted at paragraph 20 of his judgment that, in the lower court, the parties had agreed that, if there was an abuse of process, the application to strike out would automatically succeed. The judge was not satisfied with that, saying that he remained to be persuaded that the finding of abuse automatically gave rise to the striking out of the claim. As Asturion has subsequently demonstrated, Turner J was right to be doubtful: they are different questions and the finding of abuse of process does not lead inexorably to the striking out of the claim."

74. In those cases in which the court has appeared to treat the question of its adjudication upon an application to strike out for abuse of process as admitting to only one answer, one may readily infer that it has taken this approach because the nature of the abuse is such that, once found, there can be no real question but that only a strike out is appropriate. For example, in cases in which the court has decided that the very pursuance of the

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

proceedings under consideration amounts to an irredeemable abuse it is likely to be that no response short of striking out can be justified. However, in cases in which a less draconian response may be appropriate, the court has room thereafter within which to exercise a discretion.

75. I would add, for the sake of completeness, that my decision on the issue of striking out in this case would have been the same regardless as to what, if any, part of the decision had rested upon matters in respect of which there is only one right answer and which had involved the exercise of a discretion. I have, however, in my analysis later in this judgment drawn the line where I believe it to lie.

General points

76. From the above, I derive the following non-exhaustive propositions of particular relevance to this case:

    (i) The hallmark of an abuse of process is a use of the court process for a purpose or in a way which is significantly different from the ordinary and proper use of the court process;

    (ii) Although plainly a relevant factor, bad faith on the part of the party against whom the point is taken is neither a necessary nor sufficient condition for the finding of an abuse of process;

    (iii) Litigants should not be denied the right to bring a genuine subject of litigation before the court save upon a scrupulous examination of all the circumstances which leads the court to the conclusion that the claim should, nevertheless, be struck out;

    (iv) Cases in which a claimant has already taken (or forgone) the opportunity to bring her claim in other proceedings may, depending very much upon the facts, properly be categorised as giving rise to an abuse of court whether as a standalone consideration or when taken into account with other material factors;

    (v) The court is entitled (and indeed duty bound) to take into consideration the likely impact upon the business of the courts themselves in the event that the claims were permitted to go ahead;

    (vi) The court must take a two stage approach. Firstly, it must address the question of whether or not an abuse has been clearly proved. If it has not, then, subject to its residual, free-standing case management powers, that is an end of the matter. If it has, then it must thereafter exercise its discretion in determining what, if any, procedural consequences should follow. There may be some cases in which it is plain that striking out is the only appropriate response.

Grounds

77. I will now proceed to examine the various features of these claims upon which the defendants rely in support of their case that they amount to an abuse and the claimants' response thereto. For convenience, I have approached the task by categorising the central contentions under individual headings but recognise that the value of taxonomy lies mainly in convenience of presentation and orderly analysis and that, ultimately, the Court must stand back and take a broad view which takes into account the balance of the competing arguments as a whole.

The practicability of managing the claims in England

78. The present case is not merely unusual but unique in a number of respects. One of its most distinctive features is that, if it were allowed to proceed, the action in England would involve closely related group claims moving forward in parallel in two different jurisdictions with many of the same claimants in each seeking identical remedies in England and Brazil concurrently. The challenge of managing a GLO, even in the most favourable of forensic conditions, is often by no means straightforward. How the English court would be able to cope, if at all, with the problems likely to be generated by the simultaneous progress of its Brazilian counterpart is an issue which warrants particular scrutiny.

Irreconcilable judgments, collateral attack and cross-contamination of issues

79. The defendants contend that allowing this action to proceed would give rise to the risk of irreconcilable judgments in Brazil and England. The claimants reject this assertion but argue further that it is a factor which the court is required to disregard against BHP Plc in the context of the abuse argument on the basis that the scope of its relevance should be confined to the consideration of BHP Plc's reliance upon the Recast Regulation. I will deal in greater detail with the application of the Recast Regulation later in this judgment but, in summary, the court has jurisdiction under Article 34 thereof to stay proceedings brought against a defendant in the court in the jurisdiction in which it is domiciled in certain defined circumstances in which there arises a risk of irreconcilable judgments between the courts of a member and a non-member state.

80. Furthermore, ***Owusu v Jackson*** [2005] QB 801 established that it was not open to the United Kingdom (or any other contracting state) to bypass the regime imposed by the Brussels Convention on the ground that, although the defendant was domiciled in the UK, jurisdiction could be declined by the application of the English common law principle of forum non conveniens.

81. I would thus readily accept, and the defendants concede, that it would be impermissible to deploy an abuse of process argument in order to achieve through the back door that which the Recast Regulation bars through the

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

front. Nevertheless, in cases in which the risk of irreconcilable judgments is just one of a number of factors relevant to the exercise of the abuse jurisdiction it should not be ignored.

82. As Coulson J (as he then was) held in ***Lungowe v Vedanta Resources Plc*** [2016] EWHC 975 (TCC):

> "84. In my view, in an appropriate case, and notwithstanding Owusu, the court must be able to exercise its case-management powers to grant a stay. The court remains the master of its own process and procedure, and it would be a very odd result if the court was obliged to do something that was contrary to good and sensible case management."

And as Lord Briggs held in ***Vedanta***, on the appeal in the same case:

> "17. This does not, of course, prevent any defendant from seeking to have a claim struck out as an abuse of process or as disclosing no reasonable cause of action, or from seeking reverse summary judgment upon the basis that the claim discloses no triable issue against that defendant."

83. I respectfully agree with these observations and can see no basis upon which a court should be required, by the application of ***Owusu*** or otherwise, to wave through what would otherwise be an abusive claim on the basis that the application to dismiss is based partly upon matters which overlap with considerations of the risk of irreconcilable judgments or, for that matter, the doctrine of forum non conveniens. In any event, it would normally be very difficult, if not impossible and artificial, to attempt to distil out the Recast Regulation and forum non conveniens considerations arising in any given case and to analyse the residue alone for signs of abuse.

84. Furthermore, the risk of irreconcilable judgments is merely one of the mischiefs to which the aim of avoiding a multiplicity of litigation is directed. As Potter LJ observed in ***Divine-Bortey v Brent London Borough Council*** [1998] I.C.R. 886:

> "The basis of the rule in Henderson is the avoidance of multiplicity of litigation in relation to a particular subject or set of circumstances in order to avoid the prejudice to a defendant which inevitably results in terms of wasted time and cost, duplication of effort, dispersal of evidence and risk of inconsistent findings which are involved if different courts at different times are obliged to examine the same substratum of fact which gives rise to the subject of litigation."

85. To this I would add only that the prejudice identified in this passage may, in any given case, impact not only upon the defendant but also upon the court.

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

86. Having closely considered the evidence relating to the issues likely to be adjudicated upon in both Brazil and England, I am satisfied that the risk of inconsistent judgments would be acute in this case in the event that these proceedings were permitted to go ahead in England.

87. An important example relates to the alleged status of BHP Brasil as an indirect polluter. This is an issue which has a potentially significant bearing on the controversial question of whether or not the defendants in the present proceedings owe the claimants what, in English legal terminology, would amount to a duty of care.

88. In Brazil, BHP Brasil continues to deny that it is an indirect polluter. Under the 20bn CPA, it accepted, without prejudice, an obligation to fund Renova but only to the level of 50%; with Vale being under a several liability to provide the balance. One of the issues in the 155bn CPA, however, is whether BHP Brasil should, as the Public Prosecutor asserts, be jointly liable with Vale for the whole of the funding. This question remains, as yet, unresolved. If BHP Brasil is liable as an indirect polluter then this provides an important stepping stone in one of the potential routes to establishing the existence of the Brazilian equivalent of a duty of care on the part of the defendants in this jurisdiction. Both sides in the hearing before me accept that if the matter were to proceed in this jurisdiction then this point would very likely fall to be determined as a preliminary issue.

89. The wasted time, costs and duplication of effort involved in advancing the same case simultaneously in the two jurisdictions would be considerable and liable to give rise to incompossible findings. It would take little creative imagination to foresee many similar issues arising of which this is only one example. This is a matter to which I will return in due course with respect to the Article 34 issue.

90. Furthermore, the prospect of attempting to manage the claims of over 200,000 claimants where such a high proportion of them are taking (or have taken, or reserve the right to take) steps to achieve compensation in Brazil for the same losses as those in respect of which they wish to establish a right to damages against the defendants in England is nothing short of alarming.

91. By early 2019, no fewer than 154,766 of claimants in this case disclosed that they had already received money from Renova or had brought their own private proceedings. Significantly, although they concede that they must give credit for compensation already received, they have not, with one exception, relinquished their right to pursue further any claims they may have in Brazil. In an FAQ sheet distributed to potential claimants by the claimants' solicitors is to be found the following:

> "Can the clients file lawsuits in Brazil and in England?

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

> Yes. Customers will not be at a disadvantage in pursuing claims in England and Brazil. Customers cannot be compensated twice. If clients receive compensation in England, the judge in Brazil will probably take this into account when awarding compensation in the same way a judge in England will take into account the compensation granted in Brazil."

92. It can safely be predicted that this unremitting cross-contamination of proceedings would lead to utter chaos in the conduct of litigation in both jurisdictions the procedural position of each of which would be in a near constant state of flux. In particular, the utility of the selection of lead cases would be seriously imperilled by the risk that the issues to which they were directed would, as the litigation progressed, be undermined, made redundant or transmogrified by developments in Brazil.

93. The task facing the managing judge in England would, I predict, be akin to trying to build a house of cards in a wind tunnel.

94. During the course of submissions, counsel for the claimants floated the suggestion that in the event that these claims were allowed to continue (but not before) then consideration could be given to requiring some or all claimants to relinquish proceedings in Brazil as a condition of proceeding further in England. However, this, in my view, provides no adequate solution to the broader problem of jurisdictional cross-contamination not least because many claimants have already recovered some level of damages in Brazil. Questions are bound to arise as to whether (and to what extent) damages already received in Brazil relate to, or are distinct from, heads of damage which are later pursued in England. Furthermore, in circumstances in which awards have already been made under certain heads of loss in Brazil and the same claim is brought in England, but seeking a higher level of compensation, the English Court is effectively being asked to mark the homework of the judges of a foreign sovereign power.

95. Moreover, as I have already noted, potential claimants were reassured in the FAQ sheet distributed to them by the claimants' solicitors that, by joining the group, they would remain entitled to pursue their remedies in Brazil. The implications of later seeking to row back on this important incentive could well, regardless of all the other challenges which it faces, threaten the integrity and future viability of the whole group.

96. It is not necessary, in my view, to pronounce upon whether or not the invitation to the English court to adjudicate on any or all of the claimants' claims is capable of falling into the category of "collateral attack" on decisions in Brazil. It is the practical implications of parallel proceedings which are important. In effect, the Brazilian and English judges would constantly be stepping on each other's toes regardless of the aptness of the

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

label of "collateral attack". For example, the Brazilian proceedings have undergone a considerable number of potentially significant new developments over the last year which have prompted both the claimants and defendants significantly to revise and add to their evidence and written submissions in the run up to this hearing. The very considerable challenges which this presented both to the Court and to the parties give only a flavour of the magnitude of the (in my view, insuperable) problems which would be generated in the event that these claims were allowed to proceed in England.

97. Furthermore, the English court would have to face further challenges, if any such were needed, beyond even those that I have already outlined.

98. In particular, it is confidently predicted that if these proceedings were allowed to go forward in England then the ranks of those presently seeking to make a claim would be swollen still further by many others thereby encouraged to throw in their lot with the existing cohort. But that is not all. Since proceedings were commenced, the claimants' solicitors have lost contact with no fewer than 37,000 of those on whose behalf they have already commenced proceedings.[3] The risk of claimants dropping out of the litigation is increased by the fact that, in the event of future success in Brazil, they may be tempted to disengage from further prosecution of the English claims. This they may do without adequately or promptly informing their own solicitors of the position. Of course, there will be a degree of ebb and flow of claimants in the context of any group action but the level and rate of turnover in this case would, in practice, be likely to be unmanageable.

99. Of course, the claimants are right to point out that, generally speaking, a claimant is entitled to choose to sue who she wants in the event that more than one party may be liable in respect of the same losses. It is not normally for the court to dictate where such choice must fall. This rule, however, is not absolute as is illustrated by the decision *in* ***AB v John Wyeth & Brother (No.4)*** to which I have referred earlier. And as Lord Phillips MR said in ***Jameel v Dow Jones & Co Inc*** [2005] Q.B. 946 at para 54:

> "An abuse of process is of concern not merely to the parties but to the court. It is no longer the role of the court simply to provide a level playing field and to referee whatever game the parties choose to play upon it. The court is concerned to ensure that judicial and court resources are appropriately and proportionately used in accordance with the requirements of justice."

[3] This is, to put the figure in perspective, roughly equivalent to the entire population of Bletchley or Port Talbot.

Num. 585973371 - Pág. 27

100. There is no reference at all to ***AB*** in the claimants' skeleton argument and this might go some way towards explaining how they came to misunderstand and understate the extent to which the impact on the Court is a relevant factor. As paragraph 8 of their skeleton argument boldly declares:

> "Moreover, any suggestion that the burden on the Court itself is a ground on which the Court can refuse to entertain properly arguable claims for substantial sums is also wrong in principle; the answer is simply that the Court can and should devise appropriate procedures to deal with the claims proportionately."

101. In this context, it is to be noted just how thin were the claimants' suggestions as to "appropriate procedures to deal with the claims proportionately". Little more was predicted than the need for the formation of a GLO and the determination of a preliminary issue relating to the existence of the defendants' alleged status as indirect polluters and the selection of lead cases. Beyond that, I was airily assured that, particularly if I were to be appointed to be the managing judge, any difficulties would be readily surmountable. I was as flattered as I was unconvinced. Robust case management is a tool not a magic wand.

102. Of course, it may be speculated that, if the claims were permitted to proceed, then the defendants could seek to bring them to a conclusion by offering, for example, a lump sum by way of settlement. However, this is by no means guaranteed and, in any event, it would be wrong, in the circumstances of this case, to permit an abusively unmanageable claim to proceed in the hope that its abusive unmanageability would catalyse a compromise.

103. It is simply not good enough in the context of group actions generally to seek to outsource all or most of the responsibility for devising a workable procedural mechanism for resolving the claims to the court. In any event, had the claimants attempted to provide more assistance on this point, I am satisfied that such detail would have fared badly under scrutiny. It is not, however, an option to avoid such scrutiny through silence.

104. In all the circumstances, I am entirely satisfied that these claims would be not merely challenging but irredeemably unmanageable if allowed to proceed any further in this jurisdiction.

105. Even if, contrary to my findings above, proceedings in England were practically workable, they would still have a very significantly deleterious impact indeed upon the scarce resources of the English courts. The serious further collateral complications arising from the practical consequences of the fact that very many similar or identical claims are proceeding in Brazil would pile Pelion on Ossa. I will, however, deal with the remaining practical

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

challenges, albeit briefly, for the sake of completeness. They should, however, not be underestimated.

106. Management of the group would be allocated to a High Court Judge. The selection of lead cases would not be from a homogeneous group but from an immense pool of claimants with grossly disparate interests. To reflect this, the number of such lead cases would be likely to be far in excess of those selected in any GLO to date. Repeated visits to the Court of Appeal generating further costs, delays and uncertainties would be almost inevitable. There has already been one such expensive and abortive initiative in this case which was launched even before I had handed down this substantive judgment. In the meantime, developments in Brazil over the time which it would be likely to take for any given appeal to reach the Court of Appeal would be liable to complicate matters still further with applications by the parties to rely on fresh evidence. The prospect of almost interminable transatlantic iteration is both stark and real.

107. Attempts may be made to mitigate these consequences but I am wholly satisfied that they would achieve very little, if anything. For example, a scheme of compensation (the very formation of which would, in any event, depend upon the doubtful cooperation of the parties) would run the risk of either significantly duplicating the work of Renova or of generating mutually irreconcilable methods of claim resolution.

108. Then there is the challenge of language.

109. Almost all of the claimants and many of the potential witnesses for both sides speak Portuguese as their first or only language. Proceedings would be inevitably and very significantly lengthened and rendered more expensive by the need for the extensive involvement of interpreters.

110. Moreover, there can be no question that litigation in England would require the translation of a very considerable quantity of documents from Portuguese into English. The costs of translation would be bound to be very high and the delays generated significant.

111. There also arises the very real danger of mistranslation leading to error. The existence of such a risk, which I do not seek to exaggerate, is illustrated by the following extract from the transcript of proceedings on the morning of the last day of the hearing before me:

> "MR HOLLANDER QC Your Lordship asked about the translation of the bit in the 155bn CPA, where the words "strictly affected" were used.
>
> We have -- the translation is completely wrong.

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

> It means something quite different. We haven't raised that with the other side yet. We need to do that. We will write to your Lordship, perhaps early next week, once we've had a chance to show what we think it means."

112. In short, had I not raised the issue directly, the construction of an important part of a potentially significant document in the case would have been based on a translation which was "completely wrong" and the inaccuracy of which had remained undiscovered until the Court had already heard seven days of submissions. It is fortunate, in the event, that my decision does not turn upon the meaning of this passage.

113. The English court would be further disadvantaged in having to apply Brazilian law with which it had had no previous familiarity whereas the courts in Brazil are fully acquainted with, and experienced in, its scope and application. If the expert evidence deployed for the purposes of this hearing, which sprawls dispiritingly over 600 pages of reports (not counting appendices), is anything to go by, then the chances of complete agreement between the parties as to what the law of Brazil might be in any given circumstances are remote indeed.

114. Furthermore, it is very unlikely, under Brazilian law, that any claimant or witness would be permitted to give evidence to an English court remotely from Brazil. Even less likely is it that an English judge would ever be permitted to sit in Brazil. It must follow that the time and expense involved in transporting claimants and witnesses to England, accommodating them here and flying them back is likely to be very high. The real possibility of quarantine restrictions arising from the Covid 19 pandemic has the potential, at least in the short term, to exacerbate these challenges.

115. Moreover, whatever the chances of any given claimant obtaining full redress in Brazil it is almost a certainty that she will not achieve it in England. With limited exceptions, the claimants have agreed to pay their solicitors a success fee of up to 30% out of any damages recovered in these proceedings. There is nothing improper (by modern standards) in such an arrangement and the claimants obviously and seriously believe that it is a sacrifice worth making. However, even taking into account any shortcomings of the Brazilian processes, of which more later, there is no need for any claimant there to forfeit a high proportion of her damages in order to fund her claim. Legal aid is available for individual claims and engagement in the Renova scheme gives rise to no costs liability.

116. On the face of it, these factors might lead the casual observer to wonder what perceived advantages could lure 202,600 claimants into agreeing to participate in proceedings in England. The defendants claim that much of their enthusiasm is likely to have been kindled by misunderstandings arising

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

from over-optimistic claims made either by their solicitors or those purporting to speak on their behalf.

117. It has been reported, for example, that suggestions have been made that awards of damages will be very much more generous in England than in Brazil. This is notwithstanding the fact that the damages would, in fact, be calculated here by the application of Brazilian law. It has also been said that, conveniently, the English judge would come to sit in a hotel in Minas Gerais to hear evidence from claimants and witnesses when, as an encroachment on national sovereignty, this is simply not permissible under Brazilian law.

118. It has even been suggested (but on what possible basis I know not) that, in general, claimants are likely to get a more sympathetic hearing in Liverpool than in London.

119. I indicated at an early stage of the hearing that I did not consider that it would be a proportionate use of my time to seek to draw any relevant conclusions from these allegations. Accordingly, having noted them, I do not take them into account in my adjudication. Nevertheless, whatever the source of the claimants' enthusiasm for the prospect of litigation in England, which I assume to be genuinely felt, I consider their collective optimism to be deeply and irredeemably flawed.

120. It follows that I am satisfied that it has been clearly proved that these claims amount to an abuse of the process of the court. In the words of Lord Bingham in ***Barker***, they amount to "a use of the court process for a purpose or in a way which is significantly different from the ordinary and proper use of the court process".

Full redress

121. A central plank of the claimants' case in response to the defendants' applications is that they will not, or are most unlikely to, get full redress in Brazil. A huge volume of evidence and argument on both sides has been devoted to the challenges which face any individual or organisation seeking compensation in Brazil. It is a topic upon which no cul-de-sac has remained unexplored.

122. There are, however, two points of overarching significance:

    (i) Regardless of the level of the problems alleged to face the claimants in Brazil, these will not be alleviated by the opening up of a second front in England where any proceedings would be expensive, almost interminable, unfocussed, unpredictable and unmanageable;

    (ii) So far, I have concentrated on the likely impact which proceedings in England would be likely to have on the courts of this jurisdiction. However, I ought not to overlook the consequences in Brazil. There

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

would be an inevitable and fearful symmetry about the disruption caused by proceeding with the two processes in parallel. Decisions of this Court would inevitably be fed back into the Brazilian resolution mechanisms. They would not, of course, be binding in Brazil but the risk of inconsistency is acute. Furthermore, were a claimant to benefit from any sum awarded in England, the Brazilian assessment of quantum would have to be adjusted accordingly. This may not simply be a question of subtracting one figure from another. Issues are likely to arise about whether any award in England is referable to a particular head of loss still outstanding in Brazil and thus as to whether any or some credit needs to be given at all. In cases in which the number of claimants is much lower, such adjustments and recalculations might be more straightforward but with tens of thousands of potential conflicts, the impact is likely to be significant. Furthermore, the Brazilian courts and lawyers would face similar translation challenges in determining what was happening in England as the English courts would in respect of developments in Brazil.

123. I do not doubt that very many people have experienced considerable challenges in obtaining what they consider to be just and prompt compensation through the procedures available in Brazil but it would be difficult to exaggerate the enormity of the task which any jurisdiction would face in achieving this object to the satisfaction of all. The 12th Federal Court to which the 20bn and 155bn CPAs have been allocated is, through the efforts of Judge Mario, seeking to devise and deploy several procedural innovations in order to improve and streamline the process. These include the implementation of what have been described as Priority Axes under which, as their name suggests, certain categories of outstanding matters under the 155bn CPA are intended to be fast tracked. The most relevant of these is Priority Axis No.7 which is concerned with compensation. Furthermore, Local Commissions, to be assisted by Technical Advisers, have been formed to represent the interests of the populations of the geographical areas to which they apply. Within this context, Judge Mario has recently sought to introduce the concept of "rough justice" under which claimants, who do not have the necessary documentation to prove, for example, their loss of earnings, can still be compensated on a broad brush basis rather than risk losing their claims for want of strict proof. It has been estimated that about 96% of the English claimants fall within geographical areas potentially covered by Local Commissions. Judge Mario seeks to insist that any claimant wishing to take advantage of the rough justice scheme must give up any claims which they have brought in England. He is clearly very concerned that running the claims in parallel would have a deleterious

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

impact on the fair and just resolution of claims in Brazil. I share those concerns.

124. There are issues between the experts as to whether the Priority Axes fall to be categorised as separate proceedings and, if not, whether they are to be regarded as part of the 20bn CPA or the 155bn CPA. I do not intend to resolve this dispute because the result would not make any difference to my conclusions on the central issues.

125. Predictions as to the likely progress of the Brazilian compensation claims (including those falling within the scope of the Priority Axes and Local Commissions) have generated a huge amount of evidence in this case. It would be inappropriate for me to attempt to adjudicate on the detail of the issues arising. I repeat, this is not a trial. Suffice it to say that the claimants' case is that the satisfactory resolution of outstanding claims in Brazil, if ever achieved, will take a very long time and the defendants take a much more sanguine view. Nevertheless, it is, in my view, permissible to make a number of observations.

126. Firstly, the suggestion that the various Brazilian routes to compensation are effectively broken or stalled is contradicted, at least in part, by the evidence of the number of claimants who have already received compensation many of whom now seek to have a second bite of the cherry in England. By the end of 2019, no fewer than 27,000 claims had been adjudicated upon in the state of Minas Gerais in an average of 414 days. On the evidence presently available, just under half of the claimants have already accepted payments from Renova.

127. It is the case that a considerable number of individual claims in Brazil have been stayed but in very many cases this is because they relate to compensation for interruption to the water supply. As may be expected in the aftermath of an environmental disaster leading to pollution of watercourses on a vast scale, a large number of victims claim compensation under this head either alone or in conjunction with other types of claim. The attractions of providing for a generic means of evaluating water interruption claims are thus obvious and the Brazilian court has deployed a mechanism called an IRDR in an attempt to make binding rulings in this regard. The IRDR in respect of Minas Gerais has been stayed pending an appeal upon which the quantification of no fewer than 43,742 claims depend. There is a dispute as to the likely outcome of the appeal and the length of time it may take for the issue to be resolved but litigating in England is most unlikely to provide a prompter or more effective solution. Either the English court would await the resolution of the issues in Brazil in which case no time would be saved or it would reach separate conclusions on the same issues prior to or simultaneously with the Brazilian courts with potentially chaotic

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556
Num. 585973371 - Pág. 33

consequences. It is to be noted that no fewer than 192,000 claimants in the English proceedings are bringing claims in respect of water interruption.

128. The claimants also point to Article 104 of the Brazilian Consumer Protection Code (Law 8078/1990) which purports to provide for any individual action to be stayed in favour of a related CPA. My enquiries during the course of the hearing revealed, however, that the claimants were unable to point to a single claimant in the present action whose individual claim had been stayed on this basis. Nor was I provided with any persuasive evidence that this position was likely to change.

129. Secondly, regardless of the scale of the problems in Brazil, the solutions are not to be found in England where, as I have already concluded, the further progress of proceedings would make matters worse not better for all concerned.

130. Thirdly, where complaints are made that Renova and/or Samarco are repeatedly taking points in Brazil on (as an English lawyer would put it) issues such as duty of care, causation and quantum, I am aware of no basis upon which it could safely be assumed that similar points would not also be taken, with equal persistence and enthusiasm, by the defendants to the English proceedings.

131. Fourthly, it is apparent that Judge Mario is doing his utmost to progress the process of compensating victims. His task is indeed challenging but his persistence and determination is evident both from the tone, content and timing of his judgments and the procedural initiatives he is seeking to introduce. He is intolerant of delay and his approach is a cause for confidence that the impetus he is giving to the process will continue. I agree with the defendants' point that a very high proportion of the complaints made by the claimants, especially in respect of the operation of Renova, are historical and that the evidence, taken as a whole, justifies the inference that lessons are being learnt in Brazil and improvements are being implemented.

132. Fifthly, without adjudicating upon the accuracy of their strictly legal conclusions, I perceive a tendency on the part of the claimants' experts to rely upon fears for the future which are more pessimistically speculative than can reasonably be sustained by the evidence upon which they may comfortably rely. For example, one argument enthusiastically advanced by the claimants is that, on a close examination of the documentation, Renova is under no express obligation to compensate those who seek to participate in its scheme. As a matter of strict legal interpretation, I will assume this to be correct but the reality of the matter is that there is no recorded case of Renova ever having refused to provide compensation on the ground that it is not bound to provide full redress to those who qualify for it. The practical

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

operation of the Renova scheme is heavily criticised by the claimants but not because it has ever denied a legal liability to pay out on what it has otherwise accepted to be a legitimate claim. It is also the case that the Public Prosecutor, who has taken the strong and determined initiative to intervene in the 155bn CPA, has not, to date, articulated any concerns about this hypothetical lacuna.

133. By way of another example of undue pessimism, it has been argued on behalf of the claimants that Samarco has, at least for the most part, avoided explicitly accepting legal liability for the consequences of the collapse of the dam[4]. Again, however, the reality of the position is that Samarco's liability is undeniable. As Mr Hollander QC said during the course of his submissions:

> "…Samarco actually owns and operates the dam and therefore there is no issue that they have personal liability as direct polluters… So there is no question of any liability so far as Samarco is concerned."

Furthermore, there is no evidence that any claimant who has brought an individual claim in Brazil has faced a denial of liability on the grounds that Samarco is not a direct polluter. This position is, of course, to be contrasted with the likely defences of these two defendants in the event that proceedings in England were permitted to continue.

Renova

134. Judge Mario feared that the process of compensation via Renova had been slow and bureaucratic and much criticism of the foundation has been levelled by witnesses whose statements have been served for use in resisting these applications. Nevertheless, the following points may be made:

(i) The Public Prosecutor who has been astute to protect the interests of victims of the disaster and who initiated the 155bn CPA has not sought to dismantle the Renova scheme. Of course, this does not mean that the scheme is, or was, regarded as meeting all reasonable expectations and an element of fait accompli inevitably arises. Nevertheless, the scheme was not considered so deeply flawed that scrapping it and starting again was seen as an outcome to be preferred to the carrying out of improvements;

(ii) The task of compensating victims and mitigating the damage caused by the failure of the dam was, and continues to be, a vast undertaking. It would be astonishing if, along the way, problems,

[4] An exception is to be found in the agreement resulting from the CPA launched by the Municipality of Mariana in which liability was expressly acknowledged by the Brazilian defendants.

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556
Num. 585973371 - Pág. 35

even serious problems, were not to arise in managing the scheme in a fully coherent and effective way;

(iii) Complaint is made that Renova is effectively controlled by Samarco and its corporate relations. Nevertheless, the evidence demonstrates that internal governance comprises: a Board of Trustees; an Advisory Council; a Fiscal Council; the Ombudsman; and Compliance. External governance includes: an Inter-Federative Committee and an independent auditor. Local Commissions, Regional Chambers and a Forum of Observers are in the process of being established. There may be room for argument as to where the right balance should lie but it is apparent that a number of public and independent stakeholders now have a significant role to play in guiding the work of the foundation;

(iv) Inevitably, some steps must be taken to ensure, in so far as is fair and practicable, that claims are genuine. There is some evidence that not all claims have been so. Those with bona fide claims may well be understandably resentful of the requirement to demonstrate good faith with proof;

(v) Matters of disputed factual causation arise. Claimants may, for example, be convinced that some damage to their business may be traced back to the failure of the dam and may be frustrated by this being called into question;

(vi) A balance must be struck between providing compensation which accurately reflects the losses suffered but without overburdening the claimants with bureaucratic demands for documentary proof and disproportionate form filling. Renova has sought to achieve this balance by applying a damage matrix the application of which is intended to provide consistency and manageability. The claimants do not appear to challenge the suggestion that, at least conceptually, this is an appropriate mechanism to deploy in order to set about the calculation of the quantum of loss although they do make specific criticisms of the length of the forms, the scope of the categories of relief provided for and the adequacy of the figures paid at the end of the process;

(vii) There is some dispute as to whether the categories of claim falling within the scope of the Renova programme are broad enough to cover every single potential category of legitimate claim arising out of the dam failure. However, I am satisfied, in the absence of compelling and concrete examples, that any such discrepancy is more apparent than real and, in any event, any claimant dissatisfied

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

with an offer made by Renova is free to pursue her remedy for full redress in the courts.

135. Permitting the claimants to bring proceedings against these defendants in England would not provide a panacea. None of the concerns identified on behalf of the claimants are liable to be significantly obviated. Indeed, English proceedings would, on balance, generate even greater challenges. I note:

    (i) The claimants would have no chance of any redress until the issue of the liability of these defendants had been resolved as a matter of Brazilian law. This question, of itself, would take a considerable time to resolve. If they were to fail then the whole process would have given rise to a massive waste of time and money;

    (ii) Even if they were to succeed on this preliminary point, they would not thereby emerge onto the sunlit uplands of swift redress. On the contrary, they would find themselves embroiled in what I am satisfied would be a GLO the management of which would almost certainly be fatally impracticable for the reasons I have already given and which would foul the progress of parallel proceedings in Brazil.

Hiving off the 58

136. As an alternative to striking out the whole of the claims, the claimants invite me to allow the 58 institutions which are unable to benefit from Renova and the 20bn and 155bn CPAs to proceed in England alone.

137. I am not attracted by this suggestion. I do not doubt that the average potential value of these claims is very likely to be higher than those of the majority of other claimants. Nevertheless, to allow them to proceed in this jurisdiction would still give rise to the acute risk of irreconcilable judgments and, in a broader sense, conflicting developments in the parallel jurisdictions.

138. By way of example, many of the Municipalities and utility companies stand to benefit from the Renova programmes of infrastructure and environmental works. The defendants have assisted me with a schedule of such programmes linking them to the claims which are sought to be advanced in the English proceedings. It reveals a significant overlap.

139. In any event, the 58 are not precluded from seeking redress on their own account in the courts of Brazil outside the scope of the 20bn and 155bn CPAs.

Stepping back

140. I pay full regard to the challenges which face those wishing to bring claims in Brazil. It would not be appropriate in the context of an application in which the calling and cross-examination of witnesses, both lay and expert,

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

is precluded to descend into any detailed adjudication upon the precise extent of such challenges but I do not underestimate them. As I have already noted, for the purposes of this judgment, I am prepared to accept that the subjective concerns of the witnesses are genuine. On the other hand, I am entirely satisfied that their confidence that anything of value is to be achieved in England is illusory.

Discretion

141. My primary conclusion, on all of the evidence, is that these proceedings amount to a clear abuse of process. In particular, the claimants' tactical decision to progress closely related damages claims in the Brazilian and English jurisdictions simultaneously is an initiative the consequences of which, if unchecked, would foist upon the English courts the largest white elephant in the history of group actions.

142. In addition, it would, in my view, be manifestly unfair to the defendants to be required to engage in massively expensive and protracted litigation devoid of any realistic promise of substantive advantage to the claimants.

143. In these circumstances, it is difficult to conceive of any way to exercise the discretion of the court other than to bring about the immediate curtailment of these proceedings whether by a strike out or stay.

144. One option might be to stay the claims pending resolution of the 155bn CPA and for further consideration thereafter. I am not, however, attracted by this solution. I note the following:

    (i) Even upon the settlement or adjudication of the 155bn CPA there would still remain the risk that earlier findings of causation and quantum in any given claim in Brazil would be liable to give rise to cross-jurisdictional contamination. I am satisfied that, even after the resolution of the 155bn CPA, proceedings in England would remain unmanageable;

    (ii) When the 155bn CPA has been concluded, it is inevitable that the background circumstances, particularly in Brazil, will have undergone considerable change. Any application to lift the stay at that stage would almost certainly be met with the same level of determined resistance as in the hearing before me but on different material;

    (iii) The conclusion of the 155bn CPA is not likely to mark the end of relevant litigation in Brazil in any event with a strong risk that a rump of individual claims will still fall to be resolved;

    (iv) There is significant merit in providing the parties with finality rather than to cause both sides to proceed with the uncertainty which would

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

follow from a stay which would, in any event, be likely to be in place for two years or longer;

(v) Whilst the proceedings remained stayed in England, the potential for resurrecting them in future would serve potentially to distort the progress of proceedings in Brazil by the deployment of tactical decisions prioritising the hope of reengaging with claims in this jurisdiction rather than concentrating on making the best of what the Brazilian routes to redress can offer;

(vi) All of the practical issues which I have already identified concerning, for example, language and Brazilian sovereignty would remain.

145. It must follow that, having adjudged these claims to amount to an abuse of the process of the court, I have further determined that the only proper procedural consequence of this is that they should be struck out. In reaching this view, I cannot emphasise too strongly that I am not in any way whatsoever seeking to trivialise the hardships suffered by the many victims of the collapse of the dam. But what they need and deserve is a mechanism by which to obtain a fair and just outcome. I am entirely satisfied that this would not be served up at the table of an English Barmecide feast.

THE REMAINING GROUNDS

146. My decision to strike out all of the claims in these proceedings for abuse of the process of the court means that it is strictly unnecessary for me to consider, in the alternative, what approach I would have otherwise taken to the defendants' applications under the remaining Article 34 Recast, forum non conveniens and case management stay grounds respectively. Nevertheless, out of deference to the industry of the legal teams who have assisted me on these topics and lest, on appeal, my findings on the question of abuse should be overturned, I will go on to resolve these issues in the alternative.

ARTICLE 34 RECAST

147. By the operation of a series of instruments, collectively referred to as the Brussels Regime and starting with the Brussels Convention (1968), participating nations are bound by a set of rules governing which courts have jurisdiction in legal disputes of a civil nature between individuals resident in different states. These instruments include Brussels I Regulation (EC) No 44/2001 and the Lugano Convention 2007.

148. In 2012, the EU institutions adopted a Recast Brussels I Regulation which replaced the 2001 Regulation with effect from 10 January 2015. The Recast Regulation includes, for the first time, provisions relating to parallel proceedings in a Member State and non-Member State respectively. It is this Regulation which applies to the proceedings against BHP Plc in this case.

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

Although the UK has formally left the European Union, the Regulation continues to apply under the transitional arrangements provided for under the Withdrawal Agreement.

149. The more recent instruments comprising the Brussels Regime often replicate, or at least follow closely, the wording of rules set out in the texts of their predecessors. Accordingly, it is permissible in such instances to have regard to authorities which relate to those instruments which pre-date the Recast Regulation as a guide to interpretation.

150. The jurisdictional default position is set out in Article 4 of the Recast Regulation which provides:

> "The general principle of the Regulation is that individuals should only be sued in their member state of domicile."

151. This general principle is designed not only for the protection of EU domiciliaries but also to enable any given claimant to know, with reasonable certainty, where she may sue.

152. Prima facie, therefore, England is the proper jurisdiction in which to commence proceedings against BHP Plc because it is domiciled here. BHP Ltd, however, is domiciled in Australia and thus, by the application of Article 6(1) of the Recast Regulation, the jurisdiction of England is to be determined by the application of English law.

153. Article 4 may therefore be seen as promoting considerations of certainty over those of flexibility. Nevertheless, there are exceptions to the general rule. One of these is provided by Article 34 and it is this exception which is relied upon by BHP Plc. It provides:

> "1. Where jurisdiction is based on Article 4 or on Articles 7, 8 or 9 and an action is pending before a court of a third State at the time when a court in a Member State is seised of an action which is related to the action in the court of the third State, the court of the Member State may stay the proceedings if:
>
> (a) it is expedient to hear and determine the related actions together to avoid the risk of irreconcilable judgments resulting from separate proceedings;
>
> (b) it is expected that the court of the third State will give a judgment capable of recognition and, where applicable, of enforcement in that Member State; and
>
> (c) the court of the Member State is satisfied that a stay is necessary for the proper administration of justice.
>
> 2. The court of the Member State may continue the proceedings at any time if:

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

(a) it appears to the court of the Member State that there is no longer a risk of irreconcilable judgments;

(b) the proceedings in the court of the third State are themselves stayed or discontinued;

(c) it appears to the court of the Member State that the proceedings in the court of the third State are unlikely to be concluded within a reasonable time; or

(d) the continuation of the proceedings is required for the proper administration of justice.

3. The court of the Member State may dismiss the proceedings if the proceedings in the court of the third State are concluded and have resulted in a judgment capable of recognition and, where applicable, of enforcement in that Member State.

4. The court of the Member State shall apply this Article on the application of one of the parties or, where possible under national law, of its own motion."

154. The broad object of Article 34 is identified in Recital 23:

> "This Regulation should provide for a flexible mechanism allowing the courts of the Member States to take into account proceedings pending before the courts of third States, considering in particular whether a judgment of a third State will be capable of recognition and enforcement in the Member State concerned under the law of that Member State and the proper administration of justice."

155. For the purposes of this case, BHP Plc, during the course of the hearing, narrowed its case so as to identify the 155bn CPA (of which the Priority Axes and Local Commission Proceedings were to be treated as part) as the sole action upon which it relies for the purposes of Article 34. I did not consider it necessary in reaching my central conclusions to determine the controversial issue as to whether the Priority Axes and Local Commission Proceedings formed part of the 155bn CPA. There remains no need for me therefore to consider the status of these, the other CPAs or legal proceedings.

156. It is to be noted that, where Article 34 is found to apply, the proceedings in the Member State are to be stayed. The court is not afforded the option of declining jurisdiction.

157. Accordingly, the analysis with respect to the application of Article 34 in this case may be considered in the following stages all of which must result in a determination in favour of the defendants in order for a stay to be granted:

(i) Are the English proceedings related to the 155bn CPA?

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556
Num. 585973371 - Pág. 41

(ii) Is the 155bn CPA pending in Brazil?

(iii) Is it expedient to hear and determine the 155bn CPA and the claim against these two defendants together to avoid the risk of irreconcilable judgments resulting from separate proceedings?

(iv) Would a Brazilian judgment in the 155bn CPA be capable of recognition and enforcement in England?

(v) Is the stay necessary for the proper administration of justice?

(vi) Ought the court to exercise its discretion in favour of a stay?

158. I will deal with each factor in turn.

Related action

159. The defendants pray in aid the wording of Article 30 of the Recast Regulation. This Article deals with actions in two different member states as opposed to those between a member state and a third party state. Nevertheless, in so far as is relevant to the issue of relatedness, the terminology deployed is nearly identical.

160. Article 30 provides:

> "1. Where related actions are pending in the courts of different Member States, any court other than the court first seised may stay its proceedings.
>
> 2. Where the action in the court first seised is pending at first instance, any other court may also, on the application of one of the parties, decline jurisdiction if the court first seised has jurisdiction over the actions in question and its law permits the consolidation thereof.
>
> 3. For the purposes of this Article, actions are deemed to be related where they are so closely connected that it is expedient to hear and determine them together to avoid the risk of irreconcilable judgments resulting from separate proceedings."

161. In this context, it can be seen that the concept of relatedness is inextricably bound up with the risk of irreconcilable judgments.

162. I note that the words "so closely connected" which are found in Article 30(3) do not appear in Article 34(1)(a)). However, in my view, they do not give rise to any relevant interpretative distinction between the two Articles. The concept of "so closely connected" in Article 30.3 is no more than a descriptive consequence of the risk of irreconcilable judgments and not a freestanding and additional criterion which must be fulfilled. As Bean LJ observed in ***EuroEco Fuels (Poland) Ltd v Szczecin*** [2019] 4 W.L.R. 156:

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

> "44. I turn to the wording of article 30(3). "Closely connected" is a phrase which looks forward to the rest of the sentence and does not require separate analysis."

163. On this basis, I conclude that the issue of "relatedness" may properly be subsumed into that concerning the risk of irreconcilable judgments and thus requires no further or separate consideration.

Pending

164. There is no doubt that the Brazilian court had already been seised of the 155bn CPA by the time that the relevant proceedings in England had been commenced. The defendants have now accepted that it is the 155bn CPA alone which is relied upon under Article 34. Accordingly, as I have already observed, there is no need to consider the other CPAs in this context.

165. Furthermore, it is clear to me that the 155bn CPA remains pending. Many issues arising under that claim remain to be resolved and until they are, whether by agreement or by judgment of the court, it cannot be credibly asserted that the action is not pending. Even in circumstances in which an action has been dismissed, it is still pending whilst it remains subject to appeal (***PJSC Commercial Bank Privatbank v Kolomoisky*** [2020] 2 W.L.R. 993) and so too when it has been suspended or stayed (***In re Alexandros T*** [2014] 1 All E.R. 590).

Is it expedient to hear and determine the 155bn CPA and the claim against these two defendants together to avoid the risk of irreconcilable judgments resulting from separate proceedings?

166. The starting point in formulating the proper approach to assessing the risk of irreconcilable judgments is to be found in the case of ***Sarrio S.A. v Kuwait Investment Authority*** [1999] 1 A.C. 32. The dispute to be resolved involved the interpretation of Article 22 of the Brussels Convention (1968). Article 22 was the precursor to Article 30 of the Recast Regulation.

167. In that case, the Court of Appeal had taken a narrow view of those features of proceedings in the pending action which could properly give rise to the risk of irreconcilable judgments. Evans LJ sought to distinguish between, on the one hand, primary issues of fact and, on the other, issues of fact which the court in the pending proceedings may or may not decide and which are not essential to its conclusion.

168. This approach was robustly rejected by the House of Lords. Lord Saville observed at p40 C-E:

> "…it seems to me that the words of the article itself militate against the suggested limitation. The actions, to be related, must be "so closely connected that it is expedient to hear and determine them together" to avoid the risk of irreconcilable

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556
Num. 585973371 - Pág. 43

> judgments resulting from separate proceedings. To my mind these wide words are designed to cover a range of circumstances, from cases where the matters before the courts are virtually identical … to cases where although this is not the position, the connection is close enough to make it expedient for them to be heard and determined together to avoid the risk in question. These words are required if "irreconcilable judgments" extends beyond "primary" or "essential" issues, so as to exclude actions which, though theoretically capable of giving rise to conflict, are not sufficiently closely connected to make it expedient for them to be heard and determined together. The words would hardly be necessary at all if the article was to be confined as suggested. Indeed, in that event, it seems to me that quite different words would have been used."

169. He went on to conclude at p41 F:

> "…I am of the view that there should be a broad commonsense approach to the question whether the actions in question are related, bearing in mind the objective of the article, applying the simple wide test set out in article 22 and refraining from an over-sophisticated analysis of the matter."

170. I note, in passing, that in ***In re Zavarco Plc*** [2016] Ch. 128, the Deputy High Court Judge observed of Article 34.1 (a):

> "35. The premise of the first pre-condition is that the actions are related in the sense that they may result in irreconcilable judgments if allowed to proceed in parallel. Though that may arise from findings of fact as well as decisions of law: see Gascoine v Pyrah [1994] IL Pr 82 , para 42, they would have to be points which would or might form an essential part of the basis of the judgments, effectively part of their res judicata effect, absent which they would not be irreconcilable."

171. With all due respect, the analysis in this passage is irreconcilable with the decision in ***Sarrio*** and would appear to follow the ratio of decision of the Court of Appeal in that case as if had not been reversed. I note in this regard that, according to the official law report, although the decision of the House of Lords was referred to in argument it did not find its way into the judgment of the Court.

172. In ***Jalla v Royal Dutch Shell Plc*** [2020] EWHC 459 Stuart-Smith J said:

> "223. Because Articles 30 and 34 do not require the proceedings to involve the same cause of action and to be between the same parties, it is plain that the "risk of irreconcilable judgments" to which Articles 30(3) and 34(1)(a) refer cannot require that there be a risk that one judgment may give rise to an issue estoppel affecting the other. I am not aware of any binding authority that

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

> defines what would and would not amount to "irreconcilable judgments" for the purposes of Articles 30 and 34. In Blomqvist v Zavarco [2016] Ch 128, Mr David Donaldson QC (sitting as a Deputy High Court Judge) said obiter that:
>
> > "The premise of the first pre-condition is that the actions are related in the sense that they may result in irreconcilable judgments if allowed to proceed in parallel. Though that may arise from findings of fact as well as decisions of law: see Gascoigne v Pyrah [1994] IL Pr 82 para 42, they would have to be points which would or might form an essential part of the basis of the judgments, effectively part of their res judicata effect, absent which they would not be irreconcilable."
>
> 224. I think this passage means that not all points of difference would render judgments "irreconcilable" within the meaning of the Article; rather, the points of difference (whether arising from findings of fact or of law) would have to "form an essential part of the basis of the judgments", such as would (if all other prerequisites were satisfied) be capable of giving rise to an issue estoppel by operation of res judicata. Although I would not exclude the possibility that there might at least in theory be points of difference which do not meet this standard but which would be so significant as to make it expedient to hear the related actions together, I would adopt the approach advocated in ***Zavarco*** as a useful starting point when considering whether there is a risk of irreconcilable judgments within the meaning of the article. What appears clear from the different language used for Articles 29 and 33 on the one hand and for Article 30 and 34 on the other is that there may be a risk of irreconcilable judgments within the meaning of Article 34 even though the parties and the causes of action are not the same in the separate proceedings being considered on an application to stay."

173. It would appear that Stuart-Smith J had not been referred to ***Sarrio***. Certainly, no mention of it appears in his judgment. I would propose, therefore, to follow the approach of ***Sarrio*** and, with respect, decline to follow ***Zavarco*** to the extent that it would appear to depart from the "broad commonsense approach" advocated by Lord Saville.

174. Even if I were to have taken the narrower view, I would still have been satisfied that if the claim against BHP Plc were heard in England, there would arise the risk of irreconcilable judgments.

175. In this regard, I have already referred, in the context of the abuse of process issue, to the question of BHP Brasil's alleged status as indirect polluter.

176. In short, the Federal Prosecutor has explicitly asserted in the 155bn CPA that BHP Brasil is an indirect polluter and therefore should be jointly liable with Vale to fund Renova. BHP Brasil has denied, and continues to deny,

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

this. The matter was dealt with in an exchange between Mr Hollander QC and myself on the final day of the hearing:

> "MR JUSTICE TURNER: He might say that I want BHP [Brasil] to put its hands up and say whatever funds are required they will be jointly liable regardless of Vale's contribution.
>
> MR HOLLANDER: He could do that."

177. Of course, one may speculate that the issue may not be pursued by the Federal Prosecutor after all but, as matters presently stand, this is a question which, unless settled, will be the subject matter of a judgment of the Brazilian court.

178. In the English proceedings, at paragraph 275 of the Master Particulars of Claim, the claimants seek to trace the alleged liability of BHP Plc through the conduit of BHP Brasil. The point is made explicitly in paragraph 325 of the claimants' skeleton argument:

> "if it was [sic.] possible for there to be a combined trial in Brazil of the liability of BHP Plc along with the liability of the Brazilian Companies, that trial could never result in a generic sentence holding that BHP Plc was liable to pay compensation without the court also holding that the Brazilian Companies were also liable to pay compensation."

179. The claimants later submitted that there were other arguable bases on which the liability of BHP Plc could be founded without the same being parasitic upon a finding that BHP Brasil was also liable and to which earlier reference had been made in the Master Particulars of Claim. At no stage, however, was it contended that the status of BHP Brasil was not a relevant consideration to at least one way in which BHP Plc could be held liable to the claimants.

180. It would thus appear to be inevitable that the alleged status of BHP Brasil as an indirect polluter would fall to be determined as part of a preliminary issue in English proceedings and the risk of irreconcilable judgments is both real and acute. As the claimants accept in their skeleton argument:

> "484. It is accepted, however, that it is very likely that the first question for the Court in the English action will be the liability of the Defendants. That investigation will require a detailed examination of the knowledge and involvement of BHP's English and Australian senior management team in the activities of Samarco and the events leading to the Collapse over a period of several years. It will also involve an examination of the financial support given to, and derived from, Samarco's operations by the BHP Group as a whole, and an investigation into allegations of negligence and breach of duty by BHP executives."

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

The resolution of such an issue would thus need to address the issue of whether or not BHP Brasil (as part of "the BHP Groups as a whole") was an indirect polluter.

181. This feature alone is, in my view, sufficient to demonstrate the risk of irreconcilable judgments even on what I regard to be an impermissibly narrow approach to the interpretation of the Article. On a broader interpretation, the list of areas in which potentially irreconcilable judgments are liable to arise is almost endless. By way of example only:

    (i) What health consequences can and cannot be attributed to the pollution?

    (ii) What heads of damages are permissible as a matter of Brazilian law?

    (iii) What geographical areas were affected by the pollution?

    (iv) What is the appropriate quantum of damages in any individual case?

182. There is an issue between the parties as to whether factual findings in the 155bn CPA would be binding in the Brazilian jurisdiction. However, even if they were not, the claimants concede that, in the context of claims for in-kind relief, such findings could be taken into account by other courts in England or Brazil.

183. In any event, a Brazilian judgment does not have to be theoretically binding on an English court in order for it to be irreconcilable. As Stuart-Smith J observed in ***Jalla***:

> "241… It seems to be the Defendants' working assumption that the Nigerian Court should deliver judgment first, with a view to then lifting the Article 34 stay on the English proceedings. That will not avoid the risk of irreconcilable judgments because, although the English court would afford due attention and respect to the findings of the Nigerian courts, the findings of the Nigerian courts in the FEA and the other actions would not bind the English court to make equivalent findings even on the most basic matters such as whether the December 2011 Spill reached land. In practice, therefore, the risk of irreconcilable judgments would remain, though it might be somewhat reduced if the English court waited until after the Nigerian courts had given judgment."

184. Furthermore, whether or not the findings in a judgment in the 155bn CPA would be legally binding as to matters of fact arising in consequent individual claims in Brazil does not mean that any such judgment may not be still irreconcilable with a finding of fact on the same issue made by an English court. The argument that the risk of irreconcilable judgments on factual issues in Brazil mitigates the adverse impact of further irreconcilable

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07

Num. 585973371 - Pág. 47

judgments in England does not, in my view, carry significant weight in the circumstances of the instant case. I will turn later in this judgment to those matters which led me to a different conclusion, on the distinct and particular facts of this case, than that reached by the court in ***Jalla***.

185. The claimants sought to advance a case suggesting that it was all but inevitable that there would be no judgment arising from the outstanding disputes under the 155bn CPA. The reasoning behind this approach was, I have to say, elusive.

186. In this regard, I was invited to treat Judge Mario as fulfilling, by analogy, the role of an arbitrator doing no more than adjudicating upon matters the parties had been unable to agree. I found this approach to be unhelpful. In the event that agreement were not reached on any aspect of the 155bn CPA then Judge Mario would be acting as a judge and would be expected to deliver a judgment on the issue. On any view, this state of affairs justifies the conclusion that there remains a chance that, if the claims were to proceed in England, then there would arise the risk of irreconcilable judgments.

187. Furthermore, on the eighth and final day of the hearing, Mr Hollander QC conceded that, even on the evidence of his own expert, the possibility that Judge Mario would adjudicate on matters not agreed in the renegotiation process was not fanciful. This was an important and realistic concession. The prospect of irreconcilable judgments relates to a risk and not a likelihood. There will arise the chance of settlement in most civil claims but this does not, of itself, preclude the operation of Article 34. The remedy lies in a later application under Article 34(2) for the proceedings in the Member State to continue in the event of a compromise (or imminent compromise) of the claim in the third state.

188. I further took the view, although it is not necessary for my determination of this case and indeed was not a position advanced by the defendants, that the process of homologation (or ratification) by the Brazilian court of any agreement under the 155bn CPA would be, in itself, a judgment falling within the scope of Article 34. In this regard, the entirety of the issues arising under the 155bn CPA, whether or not subject to agreement between the parties, would fall within the range of potentially irreconcilable judgments.

189. As to what is meant by “expedient to hear and determine the related actions together”, two schools of thought have emerged. One requires there to be a practical procedural means by which the two actions could, in fact, be tried together. The other requires only that it be established that such a solution would be theoretically desirable regardless as to whether it would be achievable in practice. The defendants sought to persuade me that their case was so strong that, whichever strand of authority were to be followed, it

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

would be unnecessary for me to attempt to resolve the outstanding tensions between the two. However, having heard full argument on the question, I remain minded to explore the legal issue and reach a conclusion.

190. The broader view is that which is articulated in **Kolomoisky** in which the Court of Appeal concluded:

> "191. …The word "expedient" is more akin to "desirable"…that the actions "should" be heard together, than to "practicable" or "possible", that the actions "can" be heard together. We also consider that there is force in Ms Tolaney's point that, if what had been intended was that actions would only be "related" if they could be consolidated in one jurisdiction, then the Convention would have made express reference to the requirement of consolidation, as was the case in article 30(2) of the Recast Brussels Regulation.
>
> 192. Accordingly, on this threshold issue, we consider that the judge was right to conclude that the actions were related, even if they could not be consolidated, so that the judge did have jurisdiction to grant a stay in the present case. However, the fact that the actions could not be consolidated was relevant to the exercise of discretion… to which we now turn."

191. This decision was referred to with approval by the Court of Appeal in ***EuroEco Fuels (Poland) Ltd v Szczecin and Swinoujscie Seaports Authority*** [2019] 4 W.L.R. 156:

> "45. "Expedient" is a word whose meaning has been the subject of discussion in decisions of the Commercial Court in this jurisdiction as to whether it means "desirable" or "possible". In JSC Commercial Bank Privatbank v Kolomoisky [2019] EWCA Civ 1708 , a decision handed down the day before the hearing in the present case, this court held at para 191 that "expedient" is more akin to "desirable" than to "practicable" or "possible". The court approved the approach of Rix J in Centro Internationale Handelsbank AG v Morgan Grenfell Trade Finance Ltd [1997] CLC 870 that the question is not whether the actions can be brought together but rather whether they should be brought together.

192. Nevertheless, the court went on to find that:

> "48. Ms Page was right to remind us that the question is whether it is expedient that the two actions be "heard and determined" (not just "heard") together. This must in my judgment mean at least that, even if the two actions cannot be consolidated (which would bring article 30(2) into play), they will be tried by the same judge or panel of judges in the same court and that judgment will be given in both actions at the same time. It would no doubt be a question for the civil procedural law of the relevant

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07

Num. 585973371 - Pág. 49

member state how the evidence was handled. But I do not think that it can be said that two actions are "heard and determined together" if one takes place before Judge A, who gives a decision in (say) March, and the other takes place later before Judge B, who gives judgment in October."

193. In support of this approach, the Court of Appeal compared the background circumstances of ***Kolomoisky*** and those of the case before them:

> "49. In Kolomoisky, at paras 209–210, this court drew a distinction between two Ukrainian courts: a district court with defamation jurisdiction and the country's commercial court. Mr Kolomoisky, the first defendant in a fraud claim of very high value brought in the Business and Property Courts of England and Wales, sought a stay on the grounds that a defamation claim was proceeding in the Ukrainian district court and that the two actions were related. This court noted the expert evidence that the district court before which the defamation claims were proceeding did not have jurisdiction to hear the claimant Bank's fraud claim which would have to be brought before the Ukrainian commercial court. The court held, at para 210, that: "absent some strong countervailing factor, the fact that proceedings cannot be consolidated and heard together will be a compelling reason for refusing a stay."
>
> 50. In the present case Nicol J noted at para 91(iv) of his judgment:
>
> > "The defendants' Polish lawyers accept that it is very unlikely that there would be consolidation of the present proceedings for nuisance and any claims which the claimants were to bring for libel and/or malicious falsehood. Unless those expectations are wrong, there will, in any case, be two sets of proceedings even if they are continuing in the same jurisdiction."
>
> 51. It seems equally unlikely that the two actions could be tried in the same court before the same judge. The claimants' expert stated that a libel claim in Poland must be brought in the civil division of the general court, whereas the emissions lawsuit had to be brought in the commercial division. She stated that she had never in her professional experience seen such proceedings joined and she believed that it would be very rare for such joinder to occur. The defendants' expert agreed.
>
> 52. If the judge's decision to decline jurisdiction is upheld or even if the English claim for libel and malicious falsehood is stayed the claimants could, of course, start similar proceedings in Poland. But on the material before us there appears to be no real possibility of such a claim and the existing claim for

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07

Número do documento: 21061720560691600000579986556

> nuisance brought by the defendants being "heard and determined together".
>
> 53. In these circumstances I consider that the judge had no discretion to decline jurisdiction nor to order a stay under article 30 of the RBR, and that the appeal must be allowed."

194. To my mind, and with all due deference, there are two related sources of tension between ***Kolomoisky*** and ***EuroEco***:

(i) The Court of Appeal in ***Kolomoisky*** held that what is "expedient" is more akin to "desirable" than to "practicable" or "possible". The Court in ***EuroEco*** held that "the question is whether it is expedient that the two actions be "heard and determined" (not just "heard") together." It went on to interpret the phrase "heard and determined" as if it were not qualified by the concept of what is "expedient" as defined in ***Kolomoisky***.

(ii) The Court in ***EuroEco*** recognised that the position in ***Kolomoisky***, had the English claim been heard in the Ukraine, would have involved separate proceedings "in a district court with defamation jurisdiction and the country's commercial court". On this basis, it went on to hold that "the judge had no discretion to decline jurisdiction nor to order a stay". However, in ***Kolomoisky*** it is clear that the Court did not regard this state of affairs as one which went to jurisdiction but rather to discretion:

> "192. Accordingly, on this threshold issue, we consider that the judge was right to conclude that the actions were related, even if they could not be consolidated, so that the judge did have jurisdiction to grant a stay in the present case. However, the fact that the actions could not be consolidated was relevant to the exercise of discretion, the final issue on ground 2 to which we now turn."

Indeed, the Court in ***Kolomoisky*** only went on to consider the significance of the separate proceedings in the Ukraine expressly under the heading "discretion" and after it had accepted that the judge otherwise had jurisdiction to grant a stay.

195. I note also that the court in **Kolomoisky** expressly approved the approach of Eder J in **Nomura International plc v Banca Monte Dei Paschi Di Siena SpA** [2014] 1 W.L.R. 1584. In that case, it would have been impossible for the related actions to be either heard or determined together because the pending proceedings were ongoing in Italy and the related proceedings were subject to an exclusive English jurisdiction clause the

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556
Num. 585973371 - Pág. 51

effect of which would have precluded the latter from being litigated in Italy at all.

196. The tension between these two Court of Appeal authorities was referred to in ***SCOR SE v Barclays Bank Plc*** [2020] EWHC 133. The Deputy High Court Judge observed:

> "11. Finally, the Claimant pointed out that there had been a debate in the authorities as to what was meant by "expedient" in the Article, with some authorities taking the line that this meant possible or capable, and others suggesting that the relevant synonym was "desirable". At the hearing before me, both parties were agreed that this debate has now been resolved by the Court of Appeal in Privatbank v Kolomoisky [2019] EWCA Civ 1709…
>
> 12. However, following the hearing, my attention was drawn to the more recent Court of Appeal decision in Euroeco Fuels (Poland) Limited and others v Sczezin and Swinoujscie Seaports and others [2019] EWCA Civ 1932. In that case, the Court of Appeal referred, without apparent disapproval, to the decision in Privatbank. However the Court went on to hold that, on the facts of that case, the fact that the English action in issue could not be tried together in the same court by the same judge meant that the first instance judge in England had had no jurisdiction either to decline jurisdiction or to stay jurisdiction…
>
> 13. It was suggested by the Claimant that this case was authority for the proposition that if the two claims could not be heard and determined together in the same Court, then they could not be related. Accordingly, the suggestion was that this later Court of Appeal decision had reverted to the proposition that in order to be related actions, it must actually be possible for the actions to be heard and determined together, and that, in the event that this is not so, the English Court has no jurisdiction either to decline jurisdiction or to stay its own proceedings. The Claimant suggested various bases on which the later judgment could be read as consistent with the earlier one, even though it was accepted that each of these was not made explicit.
>
> 14. The Defendant, for its part, submitted that the Court of Appeal in Euroeco could not be regarded as disapproving Privatbank, since it referred to the earlier decision without any disapproval and indeed relied on it as setting out the relevant principle. Alternatively, the Defendant submits that if the later case is inconsistent with the earlier, it was decided per incuriam and is wrong."

197. The judge went on to conclude:

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

> "15…(c). It is uncertain whether expediency in this context is to be treated as meaning desirability, or whether it is a jurisdictional requirement of the grant of a stay that the two cases can in fact be heard together: see Privatbank and cases cited therein, on the one hand, but compare the Euroeco decision on the other. I do not need to decide this question in this case, since my decision would be the same whichever test is applied, and I propose to consider the matter by reference to the test as set out in Privatbank."

198. In ***The Federal Republic of Nigeria v Royal Dutch Shell Plc*** [2020] EWHC 1315, Butcher J observed:

> "77. As the FRN submits, it may not therefore greatly matter as to whether that stay is pursuant to the Court's case management powers or under Article 30. I would impose a stay under either or both. I say this on the following basis: (1) I consider that Article 30 is in principle potentially applicable. Though it was not suggested that the present proceedings could be consolidated with the Italian proceedings, in my judgment this is not of itself a complete bar to the application of Article 30.
>
> (2) In this regard, there was some debate as to the status of the decision of the Court of Appeal in JSC Commercial Bank Privatbank v Kolomoisky [2019] EWCA Civ 1708, [2020] 2 WLR 993 in relation to the circumstances in which Article 30 is potentially applicable, in light of the subsequent decision of the Court of Appeal in EuroEco Fuels (Poland) Ltd v Szczecin and Swinoujscie Seaports [2019] EWCA Civ 1932, [2019] 4 WLR 156. In the Kolomoisky case, it was decided that the word 'expedient' in the phrase 'it is expedient to hear and determine them together' which appears in Article 28.3 of the Lugano Convention (as it does in Article 30.3 of the Regulation), is more akin to 'desirable' that the actions 'should' be heard together, than to 'practicable or possible' that the actions 'can' be heard together: paras. [182]-[192]. In the EuroEco Fuels case, having referred to the Kolomoisky case, the Court of Appeal nevertheless appears to have proceeded on the basis that the court had no discretion to order a stay under Article 30 when there was no real possibility of the two claims being heard together in the same foreign court: paras. [52]-[53], [61].
>
> (3) The Court of Appeal in EuroEco Fuels did not suggest that it disagreed with the reasoning on this point in Kolomoisky or that it was not bound by it. I consider that it was not deciding that Kolomoisky was wrong. In any event, I consider that I am bound by the carefully-reasoned decision on this point in Kolomoisky, and would in any event, if I were at liberty and had to decide between the two, have followed it, as I am in respectful agreement with it."

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

199. I agree that, had the Court of Appeal in ***EuroEco*** intended to depart from the approach in ***Kolomoisky***, then it would have made that plain. On the contrary, it identified it to be good law. I would not necessarily go so far as to say that, had I been free to decide the issue in a vacuum of case law, I would have reached the same conclusion. I recognise, in particular, that the concept of a course of action which is expedient but not possible may not be free of all interpretive discomfort but I am unable to escape the conclusion that, as matters stand, I am bound to recognise its forensic legitimacy. Accordingly, I would, with due deference, treat ***Kolomoisky*** as representing binding authority on the issue which it purported to resolve.

200. Taking this approach, I am satisfied that whatever theoretical procedural hurdles may lie in the path of those seeking to have these claims against these defendants consolidated with the claims in the 155bn CPA in Brazil, it remains expedient to hear and determine the related actions together.

Would a Brazilian judgment in the 155bn CPA be capable of recognition and enforcement in England?

201. The issue at this stage is a conceptual one which does not require this court to determine whether the Brazilian court will, in fact, give such a judgment in future. As Fancourt J observed in ***Kolomoisky*** at first instance at [2018] EWHC 3308:

> "150. Under Article 34, the next question is whether it is expected that the Ukrainian courts will give a judgment capable of recognition and — where applicable — enforcement in England and Wales. This criterion relates to the recognition and enforceability of a judgment of the third State in principle. The court of the Member State cannot be expected to decide one way or the other whether the court in the third State will in fact give a judgment in future, though the apparent likelihood of its doing so or not doing so would be relevant to the exercise of discretion or the question of whether it was necessary in the interests of the proper administration of justice to grant a stay. At this stage of analysis, however, the question of recognition and enforcement is one of principle."

202. In this case, the claimants argue that any CPA judgment could not be recognised or enforced because it would not be final and conclusive to the extent that it could not bind the individuals on whose behalf it has been brought if the result were to be adverse to their interests.

203. However, if any claimants were to win in Brazil there is no reason why any judgment in their favour would not be capable of recognition and enforcement in England. Accordingly, and particularly in the absence of any authority to the contrary, I find this requirement to be fulfilled.

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

Is the stay necessary for the proper administration of justice?

204. Recital 24 of the Brussels Regulations provides:

> "When taking into account the proper administration of justice, the court of the Member State concerned should assess all the circumstances of the case before it. Such circumstances may include connections between the facts of the case and the parties and the third State concerned, the stage to which the proceedings in the third State have progressed by the time proceedings are initiated in the court of the Member State and whether or not the court of the third State can be expected to give a judgment within a reasonable time."

205. The claimants seek to argue that, even at this stage of the analysis, it is inappropriate for the court to consider factors which would overlap with a hypothetical application of the doctrine of forum non conveniens. I disagree.

206. The decision in ***Owusu***, to which I have already made reference in the context of the strike out application, was directed, at least in part, against the risk that the application of the broad discretion afforded by the common law doctrine of forum non conveniens was liable to undermine the predictability of the rules imposed by the Brussels Convention and its successors. It follows that a defendant cannot circumvent the requirements of Article 34, simply by taking a forum non conveniens shortcut however cunningly disguised. It does not mean, however, that, provided the jurisdictional prerequisites have been satisfied, the court is required when considering the proper administration of justice criterion to jettison any consideration of factors thereunder which might also have been theoretically relevant to a forum non conveniens argument. Such an approach would achieve the object only of throwing the baby out with the bathwater.

207. In this regard, I agree with the authors of chapter 11 of "The Brussels I Regulation Recast" Dickinson and Lein, Oxford Legal Research Library (2015) who observe at paragraph 11.78:

> "…Recital 24 gives some indication as to the factors that the courts of Member States should take into account to determine the proper administration of justice. These include what are recognizable to English lawyers as factors taken into account in the doctrine of *forum non conveniens*."

208. One of the central points raised on behalf of the claimants on the issue of what is necessary for the proper administration of justice relates to their contention that, as formulated in England, their claims could not be consolidated with the 155bn CPA in Brazil. A vast amount of material including expert evidence had been generated on this issue. It will be noted that I have already reached the conclusion that the practical availability of

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

procedural consolidation is not, of itself, a pre-requisite to the application of Article 34. It is a factor, however, which will normally weigh heavily in the balance against the application of the Article.

209. In this regard, the Court of Appeal in ***Kolomoisky*** said:

> "209. We consider that the judge also erred in his exercise of discretion in relation to the fact that the two sets of proceedings could not be consolidated and heard together in Ukraine. The expert evidence of Ukrainian law from Mr Beketov was that the Pechersky District Court, the court of first instance before which the defamation claims are proceeding, does not have jurisdiction to hear the bank's claim, which would have to be brought before the Ukrainian commercial court. That evidence was challenged by Mr Kolomoisky's expert who referred to certain cases where Ukranian civil courts had apparently heard claims for which they did not in fact have jurisdiction. We were not persuaded by any of that evidence and consider that the better view is that expressed by Mr Beketov that the claims could not be consolidated for the reasons he gives.
>
> 210. Whilst Ms Tolaney is no doubt correct that neither Rix J nor Eder J was laying down a rule of law, what para 45 of Eder J's judgment demonstrates is that, absent some strong countervailing factor, the fact that proceedings cannot be consolidated and heard together will be a compelling reason for refusing a stay. The problem here is that the judge seems to have considered the exercise of discretion from the wrong end of the telescope: he concluded that the availability of consolidation would be a strong reason to grant a stay, but its unavailability would not in itself be a reason not to grant a stay. He thus erroneously failed to consider that, as Eder J had held, unavailability of consolidation will usually be a compelling reason to refuse a stay. There was certainly no strong countervailing factor in this case pointing in favour of a stay."

210. In my view, one has to ask why the availability of consolidation, per se, is usually significant. The answer is to be derived from the broad purpose of Article 34 to avoid the risk of irreconcilable judgments. If a claim can be consolidated with another claim in the third party state then the prospects of achieving a consistent and coherent outcome ought to be assured. Where there is no consolidation then the risk of inconsistent judgments is more likely to arise, albeit within the same third party jurisdiction. As the Court of Appeal noted in ***Privatbank***:

> "211. In our judgment, although the appeal of Mr Kolomoisky in Ukraine has been allowed and the matter remitted to the court of first instance, so that this court should proceed on the basis that the proceedings in Ukraine will continue and be pursued to judgment, the unavailability in the Ukrainian court of

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07

Número do documento: 21061720560691600000579986556
Num. 585973371 - Pág. 56

> consolidation of the bank's current claim with Mr Kolomoisky's defamation claim remains a compelling reason for refusing to grant a stay. In particular, the fact that the bank's claim would have to be brought before the Ukrainian commercial court rather than before the Pechersky District Court in which the defamation proceedings are being heard means that if a stay were granted, the risk of inconsistent findings in these different courts would remain."

211. However, no risk of irreconcilable judgments within a third party state arises where claimants have no intention of ever bringing their claims in that state in the event that a stay were to be granted in England.

212. In this case, the claimants have made it clear that they are not interested in trying to consolidate their claims against these two defendants with the 155bn CPA. Thus it is that the claimants' evidence on the option of consolidation with the 155bn CPA amounts to little more than a paper exercise. No steps have been taken to test whether or not, for example, any public body would be willing to initiate such proceedings on behalf of the individuals and small businesses. I further note in this context that the defendants have conceded that if they were to succeed in these applications then they would not contest the jurisdiction of the Brazilian courts in the event that a new CPA were commenced against them by these claimants in Brazil.

213. The central reason why the claimants will not commence proceedings against these two defendants in Brazil is that they would there face the additional hurdle of having to prove that they were liable as indirect polluters or otherwise but with no attendant advantage. It would be pointless to assume such an additional burden when all the other means of redress in Brazil provide, in practice, no such challenge. This explains why, out of the many tens of thousands of actions commenced in Brazil, no more than a dozen or so have been commenced against BHP Plc or BHP Ltd.

214. If this court were to stay the proceedings in England, it is a matter of speculation as to what, if any, further action any given claimant might be tempted to take in Brazil against the Brazilian defendants (particularly when so many have already brought claims there). It can reasonably be expected, however, that any such action would be processed in accordance with the procedures which have already been there devised and that the risk of irreconcilable judgments within Brazil (even taking into account the level of procedural fragmentation there) is far lower than that which would arise in the event that matters were now permitted to proceed in England.

215. This is not to say that a claimant could not rely upon disproportionate challenges in obtaining a prompt and fair hearing in the third party state as

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07

Num. 585973371 - Pág. 57

part of the "proper administration of justice" criterion but the availability or otherwise of consolidation does not, of itself, provide the answer in the circumstances of this case.

216. Accordingly, I do not find it necessary to resolve the highly contentious issue as to whether any or all of the English claims could theoretically be consolidated, either as a matter of Brazilian procedure or broader practicability, within the 155bn CPA. I will assume, for the sake of argument, that such consolidation could or would not take place even if the claimants were interested in pursuing the option.

217. Despite the fact that the unavailability of consolidation is generally to be treated as a very strong factor against the exercise of a discretion to stay, it is not determinative in all cases.

218. On the very particular, if not unique, facts of this case I am satisfied that the strongly countervailing factors I have identified are more than sufficient to justify the exercise of my discretion in favour of a stay.

219. An example of the kinds of factors that may outweigh the unavailability of consolidation is to be found in ***The Federal Republic of Nigeria*** in which Butcher J observed:

> "(4) While I recognise that the impossibility of these proceedings being consolidated with the Italian proceedings is a factor militating against a stay under Article 30, I consider that in the present case it is outweighed by other considerations, and in particular by: (i) the degree of relatedness of the two proceedings; (ii) the reality of the risk of inconsistent decisions; (iii) the fact that the Italian proceedings are now considerably more advanced than the English proceedings; and (iv), which is connected with (iii), the fact that the Italian Courts and Italian legal teams are now immersed in the facts of the matter."

220. Similar considerations apply to the facts of the instant case.

221. Save, in particular, for the identity of the defendants (a factor which I do not overlook) the degree of relatedness between the Brazilian and English proceedings is very close indeed.

222. The risk of inconsistent decisions is, at the very least, a real one for reasons which I have already articulated earlier in this judgment.

223. The Brazilian proceedings are considerably more advanced than the English proceedings.

224. The Brazilian Courts and legal teams are now immersed in the facts of the matter.

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556
Num. 585973371 - Pág. 58

225. I do not overlook the considerable body of evidence relied upon by the claimants to establish that they will not receive full or timely redress in Brazil. I have already dealt with this assertion in detail under the heading of full redress above.

226. Furthermore, it is idle in these circumstances to characterise any stay imposed as a "consolidation stay". There will be no consolidation and so any stay to facilitate consolidation would be pointless. The real purpose of any stay would be to allow proceedings in Brazil to take their course until the risk of irreconcilable judgments had sufficiently attenuated or there had been some other development which justified lifting the stay.

227. As Recital 24 provides:

> "When taking into account the proper administration of justice, the court of the Member State concerned should assess all the circumstances of the case before it."

228. The breadth of this statement comfortably reflects the very large number of permutations which litigation may follow. In this case, particular weight must be given to the factors I have already identified with respect to the abuse of process argument as militating against any chance that proceedings in England running in parallel to the Brazilian proceedings would be procedurally manageable. At the risk of repetition, dealing with these 202,600 cases would be challenging enough even if untrammelled by the litigation proceeding in Brazil. The combination of the two would, I predict, lead to pandemonium. This would be the very antithesis of the proper administration of justice.

229. The claimants seek to derive some comfort from the decision of Stuart-Smith J in ***Jalla***. In that case, more than 27,500 individuals and 450 communities located close to the coast of Nigeria claimed damages in respect of losses alleged to have arisen as a result of pollution caused by an oil spill. Proceedings were brought in England which, following the customary procedural choreography as to the identity of the defendants, were ultimately directed against two defendants within the Shell group of companies. Of these two companies, STASCO was domiciled in England and SNEPCO was domiciled in Nigeria.

230. STASCO denied that it owed a duty of care to the claimants but the court concluded that the issue was not capable of being resolved summarily. The court, therefore, went on to consider whether the claim against it should be stayed by the application of Article 34. In this regard, STASCO relied upon a number of pending proceedings in Nigeria the most salient of which was the FEA brought by the Nigerian state (and others) pursuing the imposition of a compensatory and punitive "fine" on SNEPCO. To this extent, there

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556
Num. 585973371 - Pág. 59

are, at least, some parallels with the position of BHP Plc in the instant case. In ***Jalla*** the court declined to order a stay against STASCO.

231. Nevertheless, there remain a number of important distinctions to be drawn between the two actions. These include the following:

(i) There was no suggestion in ***Jalla*** that if the claims were permitted to proceed in England then they would prove to be unmanageable;

(ii) Resolution of the FEA was not likely to involve any consideration of the role of STASCO. This is to be contrasted with the position in Brazil in which the liability of BHP Brasil is strongly linked to the potential liability of BHP Plc;

(iii) STASCO did not invite the claimants to bring their claims against it in Nigeria. BHP Ltd, on the other hand, has volunteered to submit to the jurisdiction of Brazil on the terms which I have already identified;

(iv) SNEPCO was maintaining a "root and branch" opposition to the validity of the FEA and denying all liability thereunder. This is not the position in Brazil where, in all practical respects, no issues on liability arise;

(v) No overlap was discernible between the individuals' claims in England and the FEA. Such overlap was limited to the community claimants. Unlike the CPA procedure in Brazil, the FEA was not directed towards achieving a generic sentence which could be liquidated by the victims to achieve redress;

(vi) The claimants in ***Jalla*** had sought expressly to disavow the FEA action. Although there was a legal issue as to the effectiveness of such a move, their stance is in stark contrast to that of the claimants in this case many of whom aim to ride both jurisdictional horses at the same time.

232. I ought also to refer, once more, to the need to exercise caution in seeking to place too much weight upon cases the outcome of which is significantly dependent upon making a judgement or exercising a discretion in the context of an inevitably different factual background. On examination, the factual background to the instant case is very unusual indeed and bears little resemblance to the context in which other Article 34 applications have been founded. Stepping back from the detail of the competing contentions, I am satisfied that a stay is necessary for the proper administration of justice.

Número do documento: 21061720560691600000579986556

Discretion

233. The use of the word "may" in Article 34 connotes an overriding discretion to be exercised even when all other factors expressly set out in the Article, and with which I have already dealt, have been determined in favour of a stay. Nevertheless, the practical scope for the application of such a discretion is inevitably limited by the fact that the court must already have concluded that a stay is necessary for the proper administration of justice. I struggle to conceive of any circumstances in which it would be appropriate to decline to order a stay where the consequences would be contrary to the proper administration of justice. Whatever hypothetical circumstances might arise to square this circle, I am confident that they are not to be found in the instant case. Accordingly, I decline to exercise any residual discretion in favour of refusing the application.

CONCLUSION ON THE APPLICATION OF THE RECAST REGULATION

234. It will be recalled that my finding that the claims in this case should be struck out as an abuse of the process of the court have rendered it strictly unnecessary for me to consider the Recast Regulation. Indeed, in my view, a strike out is more appropriate than a stay for the reasons I have already given. Nevertheless, if I were to be found to have erred in reaching my conclusions on the abuse issue, I would, in any event, consider that a stay under the Recast Regulation would be the appropriate default conclusion. Any stay, at least in broad terms, would be defined so as to expire when the 155bn CPA had been concluded. Of course, it would remain open to the claimant to return to the court at any time to seek to persuade it to allow the proceedings to continue in the event that any of the other grounds under Article 24(2) could be made out. I would also accept that if any findings underpinning my conclusion on the issue of abuse were successfully challenged on appeal then, in so far as they may also form the basis of my Recast Regulation conclusion, the discretion to be exercised under the latter could fall to be exercised afresh.

FORUM NON CONVENIENS

235. As I have already noted, BHP Plc is domiciled in England and is precluded by the operation of the Recast Regulation, as interpreted in ***Owusu***, from deploying any freestanding argument to the effect that Brazil is the more convenient jurisdiction in which the claim against it in these proceedings should be brought. BHP Ltd, however, which is domiciled in Australia, faces no such constraint and is thus entitled to rely on the principle of forum non conveniens in seeking to persuade the court that the claims against it should be stayed. Further consideration of this issue only becomes relevant to the extent that I am found to have been wrong on the question of abuse of process. Nevertheless, for the sake of completeness, I will proceed on the hypothesis that this is the case.

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07

Número do documento: 21061720560691600000579986556

236. The leading case on forum non conveniens is ***Spiliada Maritime Corp v Cansulex Ltd*** [1987] AC 460 which identifies what is often referred to as the two stage test:

(a) At stage one, the court's task is to analyse whether the foreign forum is an available forum that is clearly or distinctly more appropriate for any trial of the dispute (i.e. the 'natural' forum). This typically requires analysis of the competing connecting factors as between England and the foreign forum. The burden of persuasion is on the applicant.

(b) If, following the first stage, it is established that the foreign forum is the natural forum, then the court will grant a stay subject to the second stage. At this second stage, the claimant may seek to establish that "there are circumstances by reason of which justice requires that a stay should nevertheless not be granted. In this enquiry, the court will consider all the circumstances of the case, including circumstances which go beyond those taken into account when considering connecting factors with other jurisdictions. One such factor can be the fact, if established objectively by cogent evidence, that the plaintiff will not obtain justice in the foreign jurisdiction". The claimant bears the burden on stage two.

237. When this matter came before HHJ Eyre QC on 13 September 2019, counsel for the claimants conceded (or all but conceded) that stage one of the ***Spiliada*** test had been satisfied. One can well understand why.

238. The following features are cumulatively significant:

(i) The tort (or Brazilian legal equivalent) took place in Brazil. As Lord Mance observed in ***VTB Capital Plc v Nutritek International*** [2013] 2 A.C. 337:

> "51. The place of commission is a relevant starting point when considering the appropriate forum for a tort claim. References to a presumption are in my view unhelpful. The preferable analysis is that, viewed by itself and in isolation, the place of commission will normally establish a prima facie basis for treating that place as the appropriate jurisdiction. But, especially in the context of an international transaction like the present, it is likely to be over-simplistic to view the place of commission in isolation or by itself, when considering where the appropriate forum for the resolution of any dispute is. The significance attaching to the place of commission may be dwarfed by other countervailing factors."

(ii) The governing law would be that of Brazil. In ***VTB*** Lord Mance said:

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556
Num. 585973371 - Pág. 62

> "46. The governing law, which is here English, is in general terms a positive factor in favour of trial in England, because it is generally preferable, other things being equal, that a case should be tried in the country whose law applies. However, that factor is of particular force if issues of law are likely to be important and if there is evidence of relevant differences in the legal principles or rules applicable to such issues in the two countries in contention as the appropriate forum…"

(iii) The court in England would be far less accessible to the majority of parties and witnesses for whom there would also be linguistic challenges. In ***Vedanta*** Lord Briggs observed:

> "66. The best known fleshed-out description of the concept is …as follows: "the task of the court is to identify the forum in which the case can be suitably tried for the interests of all the parties and for the ends of justice …" That concept generally requires a summary examination of connecting factors between the case and one or more jurisdictions in which it could be litigated. Those include matters of practical convenience such as accessibility to courts for parties and witnesses and the availability of a common language so as to minimise the expense and potential for distortion involved in translation of evidence."

(iv) Judge Mario has acquired a detailed knowledge of the complexities of the claims made in Brazil. In contrast, the English court would be virtually starting from scratch. As the authors of Dicey, Morris and Collins on The Conflict of Laws, (16th Edition) note at §12-035:

> "…if a court has acquired a special expertise in the resolution of a particularly complex species of dispute, so that it would be in the interests of justice to allow it to resolve the present case also, this may, in exceptional cases, affect the identification of the natural forum."

239. An issue, however, arises in cases in which a claimant may take advantage of the fact that a co-defendant of the party relying upon forum non conveniens is unable to escape the jurisdictional consequences of the operation of Article 4 of the Recast Regulation. The foreign defendant is thus exposed to the risk of being jurisdictionally tethered to the domiciled defendant to avoid the risk of irreconcilable judgments. Lord Briggs in ***Vedanta*** explained:

> "40. Two consequences flow from that analysis. The first is that, leaving aside those cases where the claimant has no genuine intention to seek a remedy against the anchor defendant, the fact that article 4 fetters and paralyses the English forum conveniens jurisprudence in this way in a necessary or proper party case cannot itself be said to be an abuse of EU law, in a context where

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

those difficulties were expressly recognised by the Court of Justice when providing that forum conveniens arguments could not be used by way of derogation from what is now article 4 . The second is that to allow those very real concerns to serve as the basis for an assertion of abuse of EU law would be to erect a forum conveniens argument as the basis for a derogation from article 4, which is the very thing that the Court of Justice held in Owusu v Jackson to be impermissible. In my view, if there is a remedy for this undoubted problem, it lies in an appropriate adjustment of the English forum conveniens jurisprudence, not so as to permit the English court to stay the proceedings against the anchor defendant, if genuinely pursued for a real remedy, but rather to temper the rigour of the need to avoid irreconcilable judgments which has, thus far, served to disable the English court from concluding that any jurisdiction other than its own is the forum conveniens or proper place for the litigation of the claim against the foreign defendant. As will appear, I consider that there is a solution to this difficulty along those lines, where the anchor defendant is prepared to submit to the jurisdiction of the domicile of the foreign defendant in a case where, as here, the foreign jurisdiction would plainly be the proper place, leaving aside the risk of irreconcilable judgments."

240. In ***Vendanta*** Lord Briggs went on the expand upon his proposed solution in the following terms:

"66. I have found this to be the most difficult issue in this appeal. It does raise an important question of law. CPR r 6.37(3) provides that: "The court will not give permission [to serve the claim form out of the jurisdiction] unless satisfied that England and Wales *is the proper place in which to bring the claim*" (my emphasis). The italicised phrase is the latest of a series of attempts by English lawyers to label a long-standing concept. It has previously been labelled forum conveniens and appropriate forum, but the changes in language have more to do with the Civil Procedure Rules' requirement to abjure Latin, and to express procedural rules and concepts in plain English, than with any intention to change the underlying meaning in any way. The best known fleshed-out description of the concept is to be found in Lord Goff of Chieveley's famous speech in the Spiliada case [1987] AC 460 , 475–484, summarised much more recently by Lord Collins JSC in the Altimo case [2012] 1 WLR 1804 , para 88 as follows: "the task of the court is to identify the forum in which the case can be suitably tried for the interests of all the parties and for the ends of justice …" That concept generally requires a summary examination of connecting factors between the case and one or more jurisdictions in which it could be litigated. Those include matters of practical convenience such as accessibility to courts for parties and witnesses and the availability of a common language so as to minimise the expense

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

and potential for distortion involved in translation of evidence. Although they are important, they are not necessarily conclusive. Connecting factors also include matters such as the system of law which will be applied to decide the issues, the place where the wrongful act or omission occurred and the place where the harm occurred.

67. Thus far, the search for these connecting factors gives rise to no difficult issues of principle, even though they may not all point in the same direction. The problems thrown up by this appeal all arise from the combination of two factors. The first is that the "case" involves multiple defendants domiciled in different jurisdictions. The second is that, following Owusu v Jackson [2005] QB 801, the court is disabled from the exercise of its traditional common law power to stay the proceedings against the domiciled anchor defendant by reason of article 4: see paras 23–41 above.

68. There can be no doubt that, when Lord Goff originally formulated the concept quoted above, he would have regarded the phrase "in which the case can be suitably tried for the interest of all the parties" as referring to the case as a whole, and therefore as including the anchor defendant among the parties. Although the persuasive burden was reversed, as between permission to serve out against the foreign defendant and the stay of proceedings against the anchor defendant, the court was addressing a single piece of multi-defendant litigation and seeking to decide where it should, as a whole, be tried. The concept behind the phrases "the forum" and "the proper place" is that the court is looking for a single jurisdiction in which the claims against all the defendants may most suitably be tried…

69. An unspoken assumption behind that formulation of the concept of forum conveniens or proper place, may have been (prior to Owusu v Jackson) that a jurisdiction in which the claim simply could not be tried against some of the multiple defendants could not qualify as the proper place, because the consequence of trial there against only some of the defendants would risk multiplicity of proceedings about the same issues, and inconsistent judgments. But the cases in which this risk has been expressly addressed tend to show that it is only one factor, albeit a very important factor indeed, in the evaluative task of identifying the proper place. For example, in Société Commerciale de Réassurance v Eras International Ltd (formerly Eras (UK)) (The Eras Eil Actions) [1992] 1 Lloyd's Rep 570, 591, Mustill LJ said: "in practice the factors which make the party served a necessary or proper party … will also weigh heavily in favour of granting leave to make the foreigner a party, although they will not be conclusive."

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

70. In cases where the court has found that, in practice, the claimants will in any event continue against the anchor defendant in England, the avoidance of irreconcilable judgments has frequently been found to be decisive in favour of England as the proper place, even in cases where all the other connecting factors appeared to favour a foreign jurisdiction: see e g OJSC VTB Bank v Parline Ltd [2013] EWHC 3538 (Comm) at [16], per Leggatt J.

71. That is a fair description of the judge's reasoning in the present case. Having found that, looking at the matter as between the claimants and KCM, all the connecting factors pointed towards Zambia, the judge concluded that, factoring in the closely related claim against Vedanta, which he found as a matter of fact that the claimants were likely to pursue in England in any event, the risk of irreconcilable judgments arising from separate proceedings in different jurisdictions against each defendant was decisive in identifying England as the proper place: see paras 160–168. He said that: "The alternative—two trials on opposite sides of the world on precisely the same facts and events—is unthinkable."

72. It is obvious from his analysis (assuming that substantial justice could be obtained in Zambia) that, had the English court retained its jurisdiction to stay the proceedings as against Vedanta, as it was thought it did prior to Owusu v Jackson [2005] QB 801, the judge would have done so, and thereby ensured that the case was brought to trial against both defendants in Zambia…

75. I have however been much more troubled by the absence of any particular focus by the judge upon the fact that, in this case, the anchor defendant, Vedanta, had by the time of the hearing offered to submit to the jurisdiction of the Zambian courts, so that the whole case could be tried there. This did not, of course, prevent the claimants from continuing against Vedanta in England, nor could it give rise to any basis for displacing article 4 as conferring a right to do so upon the claimants. But it does lead to this consequence, namely that the reason why the parallel pursuit of a claim in England against Vedanta and in Zambia against KCM would give rise to a risk of irreconcilable judgments is because the claimants have chosen to exercise that right to continue against Vedanta in England, rather than because Zambia is not an available forum for the pursuit of the claim against both defendants. In this case it is the claimants rather than the defendants who claim that the risk of irreconcilable judgments would be prejudicial to them. Why (it may be asked) should that risk be a decisive factor in the identification of the proper place, when it is a factor which the claimants, having a choice, have brought upon themselves?...

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

79. After anxious consideration, I have come to the conclusion that … the judge, is wrong. At the heart of [his approach] lies the proposition that, because a claimant has a right to sue the anchor defendant in England, there is "no reason why the claimant should be expected or required to relinquish that right in order to avoid duplication of proceedings". In my judgment, there is good reason why the claimants in the present case should have to make that choice, always assuming that substantial justice is available in Zambia (which is a necessary but hypothetical predicate for the whole of the analysis of this issue).

80. There is nothing in article 4 which can be interpreted as being intended to confer upon claimants a right to bring proceedings against an EU domiciliary in the member state of its domicile in such a way that avoids incurring the risk of irreconcilable judgments. On the contrary, article 4 is, as was emphasised in Owusu v Jackson [2005] QB 801, blind to considerations of that kind. The mitigation of that risk is available in a purely intra-EU context under article 8(1) (where that risk is expressly recognised). But it is unavailable where the related defendant is (as here) domiciled outside any of the member states.

81. Looking at the matter from an intra-member states perspective, a person wishing to bring related claims against a number of defendants which, if litigated separately, would give rise to a risk of irreconcilable judgments, has a choice. The claimant may bring separate proceedings against each related defendant in the member state of that defendant's domicile, thereby incurring a risk of irreconcilable judgments. Or the claimant may bring a single set of proceedings against all the defendants in the member state of the domicile of only one of them, so as to avoid that risk. That choice is what article 8(1) expressly permits.

82. If the risk of irreconcilable judgments is one which, as in the present case, exists to the prejudice only of the claimants, I can see no possible reason why a right to sue in England under article 4 should not give rise to the same choice, where the alternative jurisdiction lies outside that of the member states, in a place where the claimant may sue all the defendants, not because of article 8(1), but because they are all prepared to submit to that jurisdiction. The alternative view…that the right conferred by article 4 should not expose the claimants to the need to make such a choice would appear to convert the right conferred by article 4 to an altogether higher level of priority, where the alternative forum lies outside that of the member states, than it does where the alternative forum lies inside, under article 8. In short, if the article 4 right is not a trump card for the purpose of avoiding irreconcilable judgments within the confines of the

Número do documento: 21061720560691600000579986556

> member states, why should it become a trump card outside those confines?
>
> 83. The recognition that claimants seeking to avail themselves of their article 4 rights to sue an anchor defendant are none the less exposed to a choice whether to do so at the risk of irreconcilable judgments, even in cases where article 8 is not available, but another proper, convenient or natural forum is available for the pursuit of the case against all the defendants is, to my mind, the answer to the conundrum posed in para 40 above. It does not in any way bring into play forum conveniens considerations as a reason for denying the claimants access to the jurisdiction of England as a member state, against the anchor defendant. It simply exposes the claimants to the same choice, whether or not to avoid the risk of irreconcilable judgments, as is presented by the combination of article 4 and article 8 in an intra-EU context.
>
> 84. That analysis does not mean, when the court comes to apply its national rules of private international law to the question whether to permit service out of the jurisdiction upon KCM, that the risk of irreconcilable judgments is thereby altogether removed as a relevant factor. But it does in my view mean that it ceases to be a trump card…"

241. In this case, both defendants have offered to submit themselves to the jurisdiction of Brazil. Thus the force of any suggestion that there may be a risk of irreconcilable judgements against each defendant is attenuated. Notwithstanding the conspicuously close corporate relationship between the two defendants, I am satisfied that the remaining arguments concerning the appropriate forum are, when taken as a whole, so strong as to lead to no other conclusion than that the first stage of ***Spiliada*** is made out.

242. I accept that if BHP Ltd were to succeed in its forum non conveniens argument then the strong likelihood is that the claimants would not be interested in attempting to bring proceedings against it in Brazil and would, if BHP Plc had been otherwise unsuccessful in its applications, proceed in England against BHP Plc alone.

243. I must now turn to the second stage of ***Spiliada***.

244. The burden now shifts from BHP Ltd to the claimants. In order to succeed they must establish that "there are circumstances by reason of which justice requires that a stay should nevertheless not be granted. In this enquiry, the court will consider all the circumstances of the case, including circumstances which go beyond those taken into account when considering connecting factors with other jurisdictions. One such factor can be the fact,

Num. 585973371 - Pág. 68

if established objectively by cogent evidence, that the plaintiff will not obtain justice in the foreign jurisdiction."

245. It is not sufficient for the claimants to show that proceedings in Brazil would merely be less advantageous than proceedings in England. In ***Connelly v RTZ Corporation Plc (No 2)*** [1998] AC 854, 872G-873A, Lord Goff observed:

> "… if a clearly more appropriate forum overseas has been identified, generally speaking the plaintiff will have to take that forum as he finds it, even if it is in certain respects less advantageous to him than the English forum. He may, for example, have to accept lower damages, or do without the more generous English system of discovery. The same must apply to the system of court procedure, including the rules of evidence, applicable in the foreign forum. This may display many features which distinguish it from ours, and which English lawyers might think render it less advantageous to the plaintiff… But that is not of itself enough to refuse a stay. Only if the plaintiff can establish that substantial justice cannot be done in the appropriate forum, will the court refuse to grant a stay …"

246. Furthermore, the court must have regard to the strong desirability of achieving comity. As Lord Collins in ***AK Investment CJSC v Kyrgyz Mobil Tel Ltd*** [2011] UKPC 7 observed:

> "97 Comity requires that the court be extremely cautious before deciding that there is a risk that justice will not be done in the foreign country by the foreign court, and that is why cogent evidence is required."

In ***HRH Okpabi v Royal Dutch Shell Plc*** [2017] EWHC 89 (TCC), at para 121, Fraser J commented that the "the court has to be very careful before passing qualitative judgments on the legal systems of other sovereign nations".

247. I am of the view that the claimants' evidence falls far short of establishing, upon sufficiently cogent evidence, that substantial justice cannot be done in Brazil.

248. It is not in dispute that the Brazilian Courts would have jurisdiction to try an action brought against BHP Plc and BHP Ltd and which advanced the claims made in the Master Particulars of Claim. Much time and energy has been expended on analysing the relative ease or difficulty with which this could be accomplished and via what alternative procedural routes. For my own part, I found much of this part of the case to come close to generating a somewhat sterile debate. This is because no one is under any illusion that

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556

the claimants would ever be likely to contemplate bringing the proceedings in Brazil in any event.

249. In most of the decided cases, there is one dispute between unitary parties which may be resolved in one of two jurisdictions. In such circumstances it is natural that the approach of the court will be formulated in a way that is limited to considering the likely consequences of the claimant being required to proceed in the foreign jurisdiction against the same defendant. I am not, however, convinced that such a narrow approach is justified in this case. After all, the second stage of ***Spiliada*** requires the court to consider "all the circumstances of the case". In my view, such circumstances may include the availability of redress against other defendants. This, of course, is a feature of the case to which I have already had regard with respect to the abuse application. Usually, of course, as I have already acknowledged, claimants may choose the identity of those they wish to sue but this does not afford them procedural carte blanche in all circumstances. In the instant case, the claimants, all other things being equal, have no particular reason to prefer that compensation should be paid by these two defendants rather than any other company within the relevant corporate structure. This is not a defamation case in which the aim of personal reputational vindication against any given party is a factor. Accordingly, I take the view that, in this context, the Court is entitled, in the exercise of its discretion under stage two of ***Spiliada***, to take into account any option which a claimant may have to achieve comparable redress in respect of the same loss and damage against another defendant in the foreign jurisdiction. In this case, the claimants do not seek to join the two defendants within the Brazilian jurisdiction because, for perfectly understandable reasons, they simply do not want to. Therefore, I would place little weight upon the alleged *additional* challenges which would face the claimants were they to choose hypothetically to proceed against the English defendants in Brazil.

250. Even if I were found to be wrong on this point, it would not lead me to a different conclusion on this issue. The experts are agreed that the Brazilian courts would have jurisdiction to try an action brought against BHP Plc and BHP Ltd, which made the same claims as those which have been brought in the Master Particulars of Claim. Much time has been devoted to speculation about what may or may not be procedurally achievable, under the umbrella of the 155bn CPA or otherwise, but no efforts have been made by the claimants to take active steps to test the waters in this regard whether by approaching the public prosecutor or otherwise. The evidence relied upon thus lacks the cogency to be expected under stage two of ***Spiliada***.

Número do documento: 21061720560691600000579986556

251. I turn now to the claim that the challenges facing the claimants in Brazil are, or are likely to be, of a magnitude sufficient to persuade the Court to exercise its discretion in their favour.

252. For example, complaints are made concerning the delays facing the claimants in obtaining redress. Delay is certainly a factor to be considered under the stage two ***Spiliada*** test. However, the authorities demonstrate that a considerable amount of leeway ought to be given to accommodate the challenges facing foreign courts in this regard.

253. In ***Konamaneni v Rolls-Royce International Industrial Power (India) Ltd*** [2002] 1 W.L.R. 1269, Lawrence Collins J observed:

> "177. Delay has been a factor taken into account in cases involving applications to stay on the ground that India is the appropriate forum… It is well known that in the past there were substantial delays in the Indian legal system, caused by the combination of an enormous population and an overworked and understaffed judiciary, but it is also well known that very great efforts have been made in recent years to reduce the backlog of cases. The evidence in this case goes nowhere near showing that it is so serious as to amount to a substantial injustice, and nowhere near showing that it is such as to deprive the claimants of any remedy at all. It is not seriously arguable that "substantial justice cannot be done" in India in relation to claims by Indian residents and NRIs (and their companies) in relation to an Indian company and its affairs, and it would be a substantial breach of comity to stigmatise the Indian legal system in that way. This is typically the situation in which the claimant will have to "take [the appropriate] forum as he finds it"…"

254. In that case predictions as to the length of time it would take for the claims to reach trial in India varied from between about four and ten years.

255. In the context of delay in the Brazilian jurisdiction, I am entirely unpersuaded that proceedings in England would be more promptly concluded than would proceedings in Brazil. In particular:

    (i) It is by no means unusual for group litigation in England to continue for many years. By way of example only, the ***British Coal Coke Oven Workers' Group Litigation***, which was commenced over five years ago, has not yet been fully concluded (although it is hoped that it will be fairly soon). That case involves far fewer claimants and far less complex issues than would be engaged in attempting to deal with the instant claims[5];

[5] For what it is worth, Justice Rezek took a random sample of 100 Brazilian environmental CPAs and found that the median length of timing to judgment was two years and eight months. The median time for an appeal was

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07

Num. 585973371 - Pág. 71

(ii) It is difficult to overestimate the sheer enormity of the task which would face the English court. Even if it were to be assumed (contrary to my view) that such proceedings could be managed at all, they would be beset and delayed by chronic practical problems relating to: difficulties in translation; constraints on witnesses accessing the court; and challenges involved in applying the law of an unfamiliar jurisdiction;

(iii) The progress of the English proceedings would be likely to be hobbled at every turn by parallel developments in Brazil;

(iv) Any claims in England would be required, probably by way of preliminary issue, to surmount the hurdle of demonstrating that the defendants owe the claimants the requisite duty as indirect polluters. This issue, which is likely to be contested, would inevitably involve a very complex and lengthy process and, even if it were to culminate in success for the claimants, would set back the consideration of issues of causation and quantum. No such fermata would impede proceedings in Brazil;

(v) Notwithstanding the undoubtedly sinuous path which the litigation in Brazil has so far taken, there are strong indications that Judge Mario is injecting a strong sense of forward momentum into the proceedings. It is not surprising that his initiatives have not yet been fully worked out and may be (and indeed in some cases are) subject to appellate challenge. However, on any objective assessment, the prospects of matters henceforth progressing in Brazil so slowly that it would become a significant factor under stage two of ***Spiliada*** are remote;

(vi) The complaint of delay is further undermined by the fact that so many claimants have already achieved at least some, if not full, redress in Brazil.

256. There are some cases in which the Court has been persuaded that the claimants could not get redress in the foreign jurisdiction because any litigation could not be funded, either adequately or at all. For example, in ***Vedanta***, at para 90:

> "…the claimants were at the poorer end of the poverty scale in one of the poorest countries of the world, that they had no sufficient resources of their own (even as a large group) with

around four years and eight months. Cases in which the Public Prosecutor was involved tended to be resolved in a little over half that time. The evidence from Dr Janot on this point lacked cogency to the extent that it would appear that the cases upon which he relied were not random samples but were selected on criteria which were never identified.

Num. 585973371 - Pág. 72

> which to fund the litigation themselves, that they would not obtain legal aid for this claim and nor could it be funded by a Conditional Fee Agreement ("CFA") because CFAs are unlawful in Zambia."

257. The unavailability of legal aid in the foreign jurisdiction will not, however, as a matter of course provide a trump card to any given claimant. As Lord Goff observed in ***Connelly***, at para 873:

> "I therefore start from the position that, at least as a general rule, the court will not refuse to grant a stay simply because the plaintiff has shown that no financial assistance, for example in the form of legal aid, will be available to him in the appropriate forum, whereas such financial assistance will be available to him in England. Many smaller jurisdictions cannot afford a system of legal aid. Suppose that the plaintiff has been injured in a motor accident in such a country, and succeeds in establishing English jurisdiction on the defendant by service on him in this country where the plaintiff is eligible for legal aid, I cannot think that the absence of legal aid in the appropriate jurisdiction would of itself justify the refusal of a stay on the ground of forum non conveniens. In this connection it should not be forgotten that financial assistance for litigation is not necessarily regarded as essential, even in sophisticated legal systems. It was not widely available in this country until 1949; and even since that date it has been only available for persons with limited means….
>
> Even so, the availability of financial assistance in this country, coupled with its non-availability in the appropriate forum, may exceptionally be a relevant factor in this context. The question, however, remains whether the plaintiff can establish that substantial justice will not in the particular circumstances of the case be done if the plaintiff has to proceed in the appropriate forum where no financial assistance is available."

258. In this case, the evidence falls far short of establishing that impecuniosity would be a major factor in stifling legitimate claims. Legal aid is available in Brazil to support private claims and there are no costs implications of seeking redress through Renova. This is to be contrasted with the position in England in which the majority of claimants will be required to pay 30% of any winnings to their solicitors.

259. For the reasons given above, I am satisfied that the claimants have not discharged the burden of demonstrating that the second stage test of ***Spiliada*** has been met. Accordingly, even if I had found against the defendants on the abuse of process argument I would have refused jurisdiction in respect of the claims brought against BHP Ltd on forum non conveniens grounds.

A CASE MANAGEMENT STAY

260. Circumstances may arise in which the court may deploy its case management powers to further the overriding objective by staying a case.

261. The proper approach has recently been helpfully summarised by Bryan J, to whom I am duly grateful, in ***Mad Atelier International BV v Manes*** [2020] EWHC 1014 in the following terms:

> "82. The Court has a discretion to order a stay to await the outcome of foreign proceedings in the exercise of its case management powers pursuant to s.49(3) of the Senior Courts Act 1981 and/or CPR r.3.1(2)(f). The principles relevant to the exercise of this discretion can be summarised as follows: (1) The court has a discretion to stay an action pending the resolution of a claim pending in another forum, but a stay should only be granted in " rare and compelling circumstances ": Reichhold Norway ASA v. Goldman Sachs [2000] 1 W.L.R. 173 at 186 (C.A.).
>
> (2) "Exceptionally strong grounds" are required to justify a stay on case management grounds where the parties have conferred exclusive jurisdiction on the English court: Mazur Media Ltd v. Mazur Media GmbH [2004] 1 W.L.R. 2966 at [69]-[70] (Lawrence Collins J); Jefferies International Ltd v Landsbanki Islands HF [2009] EWHC 894 (Comm) at [26]. The danger of inconsistent judgments is not a legitimate consideration amounting to exceptional circumstances and does not justify a stay in a case where the court has jurisdiction under the Brussels I Regulation Recast ("BIR"), especially exclusive jurisdiction: Mazur, supra , at [71].
>
> (3) The court's power to stay proceedings cannot be used in a manner which is inconsistent with the Judgments Regulation: Mazur, supra, at [69]; Jefferies, supra, at [26]. A defendant should not be permitted "under the guise of case management, [to] achieve by the back door a result against which the ECJ has locked the front door": Skype Technologies SA v. Joltid Ltd [2009] EWHC 2783 (Ch) at [22] (Lewison J).
>
> (4) A stay will not, at least in general, be appropriate if the other proceedings will not bind the parties to the action stayed or finally resolve all the issues in the case to be stayed, or the parties are not the same: Klöckner Holdings GmbH v. Klöckner Beteiligungs GmbH [2005] EWHC 1453 (Comm) at [21] (Gloster J)."

262. In ***The Federal Republic of Nigeria*** Butcher J decided that the circumstances of that case would have justified the deployment of a case management stay even if the Recast Regulation argument had failed:

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560691600000579986556
Número do documento: 21061720560691600000579986556
Num. 585973371 - Pág. 74

> "(5) In any event, even if not under Article 30, there should be a stay under the Court's case management powers, and in particular pursuant to s. 49(3) Senior Courts Act 1981 and CPR 3.1(2)(f) . Such a stay would not, in my judgment, be inconsistent with the Regulation, and is required to further the Overriding Objective in the sense of saving expense, ensuring that cases are dealt with expeditiously and fairly, and allotting to any particular case an appropriate share of the Court's resources. Given that the Italian proceedings are well advanced, and that after the determination of the Italian proceedings English proceedings may well either be unnecessary or curtailed in scope, there appear good grounds to consider that a stay of the English proceedings will result in savings in costs and time, including judicial time."

263. In the particular circumstances of the instant case, I am not wholly convinced that the factors material to the exercise of a case management discretion and the weight to be given to them differ in any material sense from those arising under the abuse application. For example, I am unable to identify any matters which it would be proper to take into account in the exercise of case management discretion which I have not already considered under the abuse heading; although I fully recognise that the abuse analysis is one which, at least in part, involves reaching a judgment rather than exercising a discretion.

264. Suffice it to say that if I were to be found to have fallen into error (i) in striking the case out (or, in the alternative, imposing a stay) for abuse of process and (ii) in respect of my adjudications on the Recast Regulation and forum non conveniens I would expect that my conclusion on imposing a case management stay would be unlikely to be sustainable thereafter. It is so heavily parasitic upon my findings in respect of the other applications that I would not expect it to survive the death of its host.

CONCLUSION

265. In summary:

(i) I strike out the claims against both defendants as an abuse of the process of the court;

(ii) If my finding of abuse were correct but my decision to strike out were wrong, then I would stay the claims leaving open the possibility of the claimants, or some of them, seeking to lift the stay in future but without pre-determining the timing of any such application or the circumstances in which such an application would be liable to succeed;

(iii) If my finding of abuse were wrong, then I would, in any event, stay the claim against BHP Plc by the application of Article 34 of the Recast Regulation;

Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07

Número do documento: 21061720560691600000579986556

(iv) If my finding of abuse were wrong, then I would, in any event, stay the claims against BHP Ltd on the grounds of forum non conveniens regardless of whether the BHP reliance on Article 34 of the Recast Regulation had been successful or not;

(v) If my findings on the abuse of process point were wrong, then a free-standing decision to impose a stay on case management grounds would probably be unsustainable.

PTA Template 269C1 - CCT16 - First Appeal

IN THE COURT OF APPEAL, CIVIL DIVISION

REF: **A1/2021/0290**

Her Majesty's Court of Appeal [SEAL] 23 MAR 2021

Municipo de Mariana –v– BHP Group PLC

ORDER made by the Rt. Hon. Lord Justice Coulson

On consideration of the appellant's notice and accompanying documents, but without an oral hearing, in respect of an application for permission to appeal permission to appeal against the Order of 26.1.21 (sealed on 28.1.21)

Decision: Claimant's Application for permission to appeal against the Order of 26.1.21 (sealed on 28.1.21): **REFUSED**

Reasons

1 General

1. By his order, Turner J ("the judge") struck out the claims or alternatively stayed them. His reasons for so doing are set out in a careful judgment at [2020] EWHC 2930 (TCC) running to 265 paragraphs.

2. There were two broad reasons for his conclusions. The first was that these claimants could make claims – and in most/many cases were making such claims - in Brazil, where there was also a special compensation scheme in place. The second was that (as summarised at [104]) he was entirely satisfied that the claims were "irredeemably unmanageable if allowed to proceed any further in this jurisdiction."

3. Notwithstanding the careful attention paid by the judge to the law and the detailed submissions made by the parties, the claimants seek to challenge the judge on each and every point on which he found against them. By their grounds of appeal, they want to relitigate the entire eight day hearing in a new forum. That may be a reflection of what the judge elsewhere described as the "chronic forensic hyperactivity" endemic in this dispute, but it is impermissible. The hearing before the judge was, in the words of Lewison LJ in *Fage*, "the first and last night of the show".

4. To criticise the judge for every single conclusion, accepting and conceding nothing, reveals a complete lack of focus or discernment on the part of the claimants. It suggests that they have no individual points which are strong or clearly arguable; that all they can do is attack everything in the hope that something will stick. That is borne out by the proposed Grounds of Appeal in respect of the substance of the judge's conclusions. There is nothing there that leads me to think, even for a second, that the judge applied the wrong principles or came to any conclusions which he was not entitled to reach. On the contrary, I regard the judgment as impeccable. These claims were a paradigm example of an abuse of process.

5. Accordingly, the substantive appeal has no prospect of success. I deal very briefly with the individual grounds.

2. **Abuse of Process**

6. ***Ground 1***: The complaint is that the judge's approach to the abuse of process application was somehow novel and not in accordance with the law. That is wrong. The judge applied the principles from well-known authorities to the facts of this particular case. The judge did not create a category of "jurisdictional abuse". He simply concluded that these proceedings were pointless and wasteful, principally because of the myriad individual and group claims already being pursued in Brazil.

7. The suggestion that the judge should not have dealt with the abuse argument first is misconceived: it was front and centre in the disputes before the court. Moreover, in respect of ***Grounds 1-3***, I echo the second judgement (on costs and refusing permission to appeal [2021] EWHC 146 (TCC)) at [33]. The claimants' mechanistic division between what they consider to be the matters relevant to the *forum non conveniens* issues, on the one hand, and the abuse arguments, on the other, has led to a wholly artificial analysis of the central issues raised by these applications. This unreality pervades many of the individual grounds. It is to be deprecated.

Num. 585973372 - Pág. 1
Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07
http://pje1g.trf1.jus.br:80/pje/Processo/ConsultaDocumento/listView.seam?x=21061720560709700000579986557
Número do documento: 21061720560709700000579986557

8. For the avoidance of doubt, I agree with and endorse [20] – [28] of the second judgment, and do not repeat it here.

9. ***Ground 2***: The complaint is that the judge wrongly took into account the likelihood of irreconcilable judgments and the risk-contamination of parallel proceedings. I disagree. The judge properly took cross-contamination and the like into account in coming to his conclusions. Moreover, as he rightly said at [31] of his second judgment, there was no justification for drawing a distinction between those claimants who had already brought claims in Brazil and those who had not.

10. ***Ground 3***: The complaint is that the judge took into account the practical disadvantages of proceeding in England as opposed to Brazil. That is incorrect. The judge expressly said at [104] of his substantive judgment that he would strike the claims out as an abuse of process without considering these additional practical burdens.

11. The claimants' unrealistic division of the issues into separate and sealed categories arises again.

12. ***Ground 4***: This criticises the judge's conclusion that the proceedings would be unmanageable. This ground is misconceived. That was a view to which the judge was quite entitled to come on the material before him: as I have already indicated, I consider it was the correct conclusion. It was plainly, therefore, a matter which was relevant to the application to strike out as an abuse.

13. One strand of the criticism is that the judge should have considered this "at a glance" rather than undertaking a detailed analysis. As the judge said with considerable restraint at [34] of his second judgment, this is "an unpromising ground for challenge". The judge undertook a detailed analysis which had a clear conclusion. The claimants may not like the conclusion, but they cannot criticise the judge for undertaking the analysis.

14. ***Ground 5***: This is a criticism that the judge compared the difficulties with proceeding in England with the proceedings in Brazil. So he did, but that was a secondary observation. What mattered was his conclusion that proceedings in England would be "irredeemably unmanageable". The judge's conclusion was not linked to whether or not the claimants would obtain full redress in Brazil.

15. ***Ground 6***: This is a criticism that the judge wrongly took into account the claimants' tactical decision to progress closely-related damages claims simultaneously in Brazil and England. There is nothing in this criticism. At [126]-[127] of the judgment, the judge set out the extent to which the claimants had sought simultaneous redress, the judge having previously noted the individual Claimants had been assured that bringing proceedings in England would not preclude them from pursuing parallel remedies in Brazil. Furthermore, to the extent that the judge is criticised for taking into account the principles in *Henderson v Henderson*, I reject that criticism. That is plainly a relevant consideration when considering striking out duplicatory proceedings.

16. ***Ground 7***: This is a complaint that at [136]-[139], the judge struck out the claims of 58 large corporate and municipality claimants who could not benefit from certain schemes in Brazil. In my view, this is an attack on the judge's findings of fact which is impermissible. Moreover, the judge was right to say at [43] of his second judgment that he could not ignore the fact that conflicting developments in parallel jurisdictions would render the proceedings completely unmanageable. All of the 58 claimants referred to have made or are entitled to make claims of one sort or another in Brazil. The fact that those claims may fall outside the special compensation scheme is nothing to the point.

17. ***Even if there was anything in any of the individual grounds 8-15 inclusive, they would be entirely academic. Since I have refused permission to appeal on the abuse of process arguments (grounds 1-7), these claims will be struck out in any event.***

3. <u>Article 34</u>

18. ***Ground 8***: This appears to raise a criticism about whether a broad or narrow approach should be taken to the concept of irreconcilable judgments. That is an irrelevant issue because at [174] the judge said that, whichever approach was taken, the result would be the same.

HER MAJESTY'S COURT OF APPEAL E&W

Num. 585973372 - Pág. 2
Assinado eletronicamente por: MARIO DE PAULA FRANCO JUNIOR - 17/06/2021 20:56:07

Número do documento: 21061720560709700000579986557

19. ***Ground 9***: This is concerned with what is meant by "expedient to hear and determine the related actions together" and appears to set up an issue as to inconsistent Court of Appeal authorities. However that is again of academic interest only, because the judge followed the approach in *Kolomoisky* and reached a conclusion which is unimpeachable. I expressly agree with and endorse [189]-[200] of the substantive judgment and the conclusion that "it remains expedient to hear and determine the related actions together".

20. ***Ground 10***: This raises Article 34(1)(b). It is unarguable for the reasons set out at [52] and [53] of the second judgment.

21. ***Ground 11***: This criticises the judge for concluding that a stay was "necessary for the proper administration of justice". Again I consider this ground to be misconceived. The judge took into account the connections between the facts of the case, the parties and the third state in reaching his conclusion. That is precisely what he was obliged to do: see [204]-[207]. Moreover, in my judgment, he came to the right conclusion. Again, I agree with and endorse [54]-[58] of the second judgment.

22. ***Ground 12***: This is a criticism of the exercise of the judge's discretion. No proper basis is provided for any suggestion that the discretion exercised by the judge was somehow not open to him. It also appears to be parasitic on the preceding grounds, which I have rejected.

4. ***Forum non conveniens***

23. ***Ground 13***: This criticises the judge for his conclusion that Brazil remained the "natural forum" for the trial. In my view, this criticism borders on the absurd. The dam disaster happened in Brazil: the claimants all suffered damage in Brazil; and the claimants can pursue compensation in Brazil, and many of them can use a scheme especially set up for that purpose. The points listed at paragraph 35 of the Grounds of Appeal are matters which the judge weighed in the balance but, with respect, they were never going to outweigh the matters to which I have referred. I agree with and endorse [60]-[62] of the second judgment.

24. Further and in any event, I consider that ***ground I3*** is wrong in law. It is contrary to [239]-[241] of Lord Briggs in ***Vedanta***.

25. ***Ground 14***: This is a complaint that the judge somehow misapplied the second stage of ***Spiliada***. I disagree. The judge applied the practical, flexible approach in ***Vedanta***. There was no arguable error of law.

4 Case Management

26. ***Ground 15***: This is a criticism of the judge's alleged conclusion that he would have granted a stay on case management grounds. This is a clearly erroneous suggestion: the judgment expressly recognised that if the defendants had lost on the abuse/article 34/*forum* grounds, there would be no residual merit in the case management argument.

27. For all these reasons, the application for permission to appeal against the substantive Order of Turner J dated 26.1.21 is refused.

HER MAJESTY'S COURT OF APPEAL E&W

Information for or directions to the parties

Mediation: Where permission has been granted or the application adjourned:

Does the case fall within the Court of Appeal Mediation Scheme (CAMS) automatic pilot categories (see below)? Yes/No (delete as appropriate)

Pilot categories:

- All cases involving a litigant in person (other than immigration and family appeals)
- Personal injury and clinical negligence cases;
- All other professional negligence cases;
- Small contract cases below £500,000 in judgment (or claim) value, but not where principal issue is non-contractual;
- Boundary disputes;
- Inheritance disputes.
- EAT Appeals
- Residential landlord and tenant appeals

If yes, is there any reason not to refer to CAMS mediation under the pilot? Yes/No (delete as appropriate)

If yes, please give reason:

Non-pilot cases: Do you wish to make a recommendation for mediation? Yes/No (delete as appropriate)

Where permission has been granted, or the application adjourned

a) time estimate (excluding judgment)

b) any expedition

Signed:

Date: 23 MARCH 2021

By the Court

Notes

(1) Rule 52.6(1) provides that permission to appeal may be given only where –
   a) the Court considers that the appeal would have a real prospect of success; or
   b) there is some other compelling reason why the appeal should be heard.

(2) Where permission to appeal has been refused on the papers, that decision is final and cannot be further reviewed or appealed. See rule 52.5 and section 54(4) of the Access to Justice Act 1999.

(3) Where permission to appeal has been granted you must serve the proposed bundle index on every respondent within 14 days of the date of the Listing Window Notification letter and seek to agree the bundle within 49 days of the date of the Listing Window Notification letter (see paragraph 21 of CPR PD 52C).

Em razão da instabilidade do Editor de Texto do PJE, segue SENTENÇA em anexo.

JUSTIÇA FEDERAL
Seção Judiciária do Estado de Minas Gerais
12ª Vara Federal Cível e Agrária da SJMG

AÇÃO ORDINÁRIA

PJE nº 1055259-43.2020.4.01.3800

"CASO SAMARCO" (DESASTRE DE MARIANA)

TRAMITAÇÃO CONJUNTA - AUTOS PRINCIPAIS: 69758-61.2015.4.01.3400 (**PJE 1024354-89.2019.4.01.3800**) e 23863-07.2016.4.01.3800 (**PJE 1016756-84.2019.4.01.3800**) e Autos Físicos 10263-16.2016.4.01.3800

SENTENÇA

COMISSÃO DE ATINGIDOS DE PONTE NOVA
e
COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO)
SISTEMA INDENIZATÓRIO SIMPLIFICADO
MATRIZ DE DANOS

Vistos, etc.

Por intermédio de **PETIÇÃO CONJUNTA** (ID 405824361), a **COMISSÃO DE ATINGIDOS DE PONTE NOVA** e a **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) devidamente qualificadas nos autos, representadas pela Coordenadora Sra. Rosângela Sabino de Oliveira (CPF 033.315.406-17), pela Vice-Coordenadora Sra. Helena de Araújo Jorge (CPF 650.763.386-00) e pela Secretária Sra. Wanderleia Roberto de Moura Silva (CPF 018.306.576-07), requerem a

este juízo federal providências no sentido de se implementar, o mais rápido possível, o **pagamento integral** das Indenizações, Lucros Cessantes e Auxílios Financeiros Emergenciais das seguintes categorias: *"pescadores profissionais, protocolados, amadores, artesanais, informais, de subsistência, também os comerciantes e revendedores de pescados, artesãos, faisqueiros, agricultores, garimpeiros, produtores rurais e demais pessoas atingidas pelo rompimento da barragem do Fundão"*.

Com a mencionada PETIÇÃO CONJUNTA, subscrita pela advogada **Dr.ª Helena de Araújo Jorge** (OAB/MG n.º 110.854) vieram **PROCURAÇÃO** das Comissões de Atingidos (ID 405824364) e demais **DOCUMENTOS**, a saber:

- Ata de Formação registrada em Cartório (ID 405824367);
- Documentos de comprovação de acordos indenizatórios com os atingidos de Ponte Nova (ID 405824385);
- Ata de Reunião entre Fundação Renova e atingido de Rosário do Pontal (Distrito) (ID 405824391);
- Relatórios realizados pela Fundação Renova (ID's 405824394, 405829349 e 405829354);
- Abaixo assinado de Ponte Nova e Rosário do Pontal (Distrito) (ID 405824375).

Por ordem deste juízo federal (ID 405829356), procedeu-se à autuação e o processamento da petição junto ao PJE.

DECISÃO (ID 412611847) deferiu a gratuidade de justiça às COMISSÕES DE ATINGIDOS e, após a contextualização da presente demanda, reconhecendo sua legitimidade formal, procedimental e material, **inaugurou a discussão judicial** relacionada ao **cadastro** e **indenização** dos danos causados pelo rompimento da barragem de Fundão.

Foi determinada a intimação da **FUNDAÇÃO RENOVA** e das empresas rés (**SAMARCO, VALE e BHP**) para trazerem aos autos, no prazo até 21 de janeiro de 2021, razões de fato e de direito sobre a pretensão indenizatória das diversas categorias de atingidos elencadas na petição inicial, requerendo o que fosse de Direito, bem como restou autorizado que as partes estabelecessem mesas e rodadas de ***negociações diretas***, a fim de viabilizarem uma solução adequada (e negocial) das matérias trazidas a juízo.

Por meio da **PETIÇÃO** ID 422587873, a **COMISSÃO DE ATINGIDOS DE PONTE NOVA** e a **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (Distrito), em conjunto, retornaram ao juízo a fim de postularem pela aplicação das mesmas *categorias/valorações/requisitos/critérios* para fins de **QUITAÇÃO DEFINITIVA** aos atingidos de Ponte Nova e Rosário do Pontal, concernentes aos PJE's 1016742-66.2020.4.01.3800, 1017298-68.2020.4.01.3800, 1018890-50.2020.4.01.3800 (BAIXO GUANDU/ES, NAQUE/ES e SÃO MATEUS/ES, respectivamente), todavia, com ressalvas às categorias de "*faiscadores, mineradores e demais atingidos na cadeia de extração de ouro*", a qual apresentaram sugestão de matriz indenizatória.

Outrossim, trouxeram junto à PETIÇÃO (ID 422587873), **ATA DE REUNIÃO** (ID 422587874) e **ABAIXO ASSINADO** (ID 422587877) com a **concordância** dos atingidos pela aplicação da *matriz de danos* estabelecida por este juízo em outros precedentes do *sistema indenizatório simplificado*, bem como **ABAIXO ASSINADO** (ID 422587876) demonstrando a **concordância** dos atingidos com o *fechamento do cadastro*. Por fim, requereram a concessão de tutela provisória de urgência por entenderem estar preenchidos os requisitos constantes no art. 300 do CPC.

Mediante a **PETIÇÃO** ID 426143374, as empresas rés (**SAMARCO, VALE E BHP**), em cumprimento à DECISÃO (ID 412611847), após uma breve narrativa sobre o incidente instaurado, trouxeram aos autos suas razões de fato e de direito, de modo que requereram a extinção sem resolução do mérito, nos moldes do art. 485, inciso IV, do CPC ou, subsidiariamente, o reconhecimento da inexistência de nexo de causalidade entre os danos reivindicados pelas COMISSÕES DE ATINGIDOS e o rompimento da barragem de Fundão. *In verbis*:

> "(...) as Empresas e a Fundação Renova pugnam, preliminarmente, pelo acolhimento da preliminar de falta de interesse de agir, ante à inadequação da via eleita, para a extinção do cumprimento de sentença, nos termos do artigo 485, inciso IV, do Código de Processo Civil.
>
> 63. Subsidiariamente, caso não se entenda pelo acolhimento da preliminar, requer-se seja reconhecida a inexistência de nexo de causalidade entre os alegados danos e o Rompimento, afastando-se a responsabilização das Empresas e a necessidade de serem adotadas medidas pela Fundação Renova, especialmente no que diz respeito à prestação de informações sobre políticas indenizatórias e dados pessoais de cadastrados. Dessa forma, requer-se sejam os pleitos trazidos pela Comissão de Atingidos julgados em sua totalidade improcedentes, dada a ausência de nexo causal entre os danos alegados e o Rompimento.
>
> 64. Ainda subsidiariamente, as Empresas e a Fundação Renova requerem seja determinada a realização de perícia técnica por esse MM.

> Juízo, sob pena de cerceamento de defesa, para a confirmação da inexistência de impacto no município de Ponte Nova/MG e no distrito de Rosário do Pontal.
>
> 65. Além disso, requerem as Empresas que V.Exa. declare encerrado o Cadastro Integrado, na data de 15.12.2019, para o município de Ponte Nova/MG e para o Distrito de Rosário do Pontal, seja para qualquer outro território, reiterando-se os termos da petição de ID 164132882, apresentada nos autos do Eixo 7.
>
> 66. Por fim, as Empresas requerem seja concedido o sigilo processual à presente manifestação, assim como a todos os atos processuais que venham a ser praticados nestes autos, até que proferida sentença por esse MM. Juízo."

Nessa mesma ocasião, foi requerida a decretação de sigilo temporário da demanda, com exposição dos motivos.

Junto à **PETIÇÃO** ID 426143374, vieram **PROCURAÇÃO** (ID 426147351) e **DOCUMENTO** de ID 426143385.

Através da **PETIÇÃO** de ID 452685374, o **MINISTÉRIO PÚBLICO FEDERAL**, por intermédio dos Procuradores Dr.ª Silmara Cristina Goulart, Dr.º Edilson Vitorelli Diniz Lima, Dr.º Helder Magno da Silva, Dr.º Eduardo Henrique de Almeida Aguiar, Dr.ª Flávia Cristina Tavares Torres e, Dr.º Edmundo Antônio Dias Netto Júnior, compareceu em juízo, requerendo vista da integralidade dos autos e concessão de prazo para manifestação, utilizando-se como fundamento a necessidade de sua **intervenção obrigatória** na lide.

Posteriormente, a **COMISSÃO DE ATINGIDOS DE PONTE NOVA** conjuntamente com a **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (Distrito), através da PETIÇÃO ID 464810368 e DOCUMENTO de ID 464810394, requereram a decretação de ***sigilo temporário*** da demanda em consonância com o pedido das empresas rés (ID 426143374), bem como **concordaram e pleitearam** pela aplicação da *matriz de danos* estabelecida por este juízo no PJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**). Por fim, requereram a inclusão e, consequente pagamento integral das Indenizações, Lucros Cessantes e Auxílios Financeiros Emergenciais às categorias de "*Donos de Dragas (Informais) para Extração de Ouro*" e "*Garimpeiros Porcenteiros*", apresentando sugestão de *matriz indenizatória*.

É, no essencial, o relatório.

Vieram-me os autos conclusos.

Fundamento e DECIDO.

Cuida-se de pretensão deduzida pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO), devidamente qualificadas nos autos, em que requerem a este juízo federal providências no sentido de se implementar, com urgência, o **pagamento integral** das Indenizações, Lucros Cessantes e Auxílios Financeiros Emergenciais das seguintes categorias: FAISCADORES/GARIMPEIROS ARTESANAIS; LAVADEIRAS; ARTESÃOS; AREEIRO/CARROCEIRO/EXTRATOR MINERAL; PESCADORES (de subsistência, informais/artesanais/de fato, profissionais e protocolados); ATIVIDADES LIGADAS À CADEIA PRODUTIVA DA PESCA; REVENDEDORES DE PESCADO; PROPRIETÁRIOS DE LAVRAS DE EXPLORAÇÃO MINERAL DE AREIA E CASCALHO; ATIVIDADES LIGADAS À CADEIA PRODUTIVA DE EXPLORAÇÃO DOS AREAIS; REVENDEDORES DE OURO; COMERCIANTES DE AREIA E ARGILA; SETOR DE TURISMO; HOTÉIS/POUSADAS/BARES E RESTAURANTES; COMERCIANTES FORMAIS DE PETRECHOS DE PESCA; ASSOCIAÇÕES EM GERAL; AGRICULTORES/PRODUTORES RURAIS/ILHEIROS (para consumo próprio, comercialização informal, em grande porte); AMBULANTES EM GERAL/CAMELÔS/BARRAQUEIROS/FEIRANTES/PROMOTORES DE FESTAS E EVENTOS/PEQUENOS COMERCIANTES INFORMAIS; DIARISTAS/COLONOS/SAFRISTAS/AUTÔNOMOS/MÚSICOS/ARTISTAS/BORDADEIRAS/COSTUREIRAS/PROFISSIONAIS LIBERAIS/TRABALHADORES EM GERAL COM PERDA DE EMPREGO E RENDA; PROPRIETÁRIOS DE ALAMBIQUES E CACHAÇARIAS ARTESANAIS; DONOS DE DRAGAS INFORMAIS e; GARIMPEIROS PORCENTEIROS.

Examino, articuladamente, cada uma das pretensões constantes dos autos.

DECISÃO HISTÓRICA - DA CONTEXTUALIZAÇÃO DA PRESENTE DEMANDA

A presente demanda foi trazida a este juízo pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (Distrito), retratando de forma fidedigna o

sentimento geral de descrença, desilusão e desespero dos atingidos quanto ao ***tema da indenização*** pelos danos decorrentes do rompimento da barragem de Fundão.

Decorridos mais de 05 anos do Desastre de Mariana, constata-se que os atingidos **NÃO aguentam** mais esperar por promessas e discursos eternos da Fundação Renova.

Reitero: **os (legítimos) atingidos NÃO aguentam mais esperar!**

Não foi por outro motivo que, cansados de esperar por soluções, resolveram (eles próprios), **de forma organizada**, inaugurar, nesta via judicial, a discussão da **indenização dos danos das diversas categorias impactadas**, a fim de buscarem, de forma célere, a aplicação do Direito correspondente.

Não é demais repetir a postura firme e corajosa dos atingidos de **Ponte Nova** e **Rosário do Pontal (Distrito)** que, lutando contra todas as adversidades, e *trilhando o caminho percorrido por diversas outras Comissões,* fizeram prevalecer o seu direito à **auto-organização** e à **autodeterminação**, a fim de que pudessem (livremente) decidir sobre direitos e as suas vidas.

A inicial do presente incidente (ID 405824361), bem como as petições de ID's 422587873 e 464810368 corroboram a insatisfação geral no território.

Consigne-se, ademais, que diversas outras Comissões de Atingidos bateram à porta desse juízo federal trazendo a lume a insatisfação generalizada com a *ineficiência* do "PIM" e da Fundação Renova na resolução do tema das indenizações.

Constataram que há muita promessa, muito discurso vazio, muita mídia e publicidade, **mas nenhum resultado concreto que – verdadeiramente – mudasse a vida das pessoas.**

Por isso se libertaram, se organizaram e vieram a juízo (**eles próprios**), por intermédio de suas COMISSÕES e de sua advogada constituída, encontrar uma solução para o *complexo* e *delicado* tema das indenizações.

Após inúmeras rodadas de negociações (*em que não se logrou êxito na solução consensual*) a **COMISSÃO DE ATINGIDOS DE PONTE NOVA** e a **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (Distrito)** reiteraram o descontentamento dos atingidos quanto ao *sistema de indenização* previsto no TTAC e TAC-GOV, manifestando-se, *in verbis*:

> "(...)
>
> **Em razão da morosidade do processo de indenização perante o sistema de reparação de danos, principalmente no que se refere à Fundação Renova**, onde são realizados os cadastros e dado andamento aos processos indenizatório dos atingidos, estes têm se reunido com intuito de resolverem questões de seus processos indenizatórios. Já realizaram várias reuniões, inclusive perante a Câmara municipal de Ponte Nova e apresentaram abaixo assinado (em anexo). Não conseguido êxito nos andamentos das negociações, resolveram criar a Comissão através de ata constitutiva, registrada em cartório (em anexo), com fim de conseguirem mais celeridade e transparência nos processos indenizatórios."

A manifestação, *infelizmente*, retrata de forma adequada o contexto que vem sendo enfrentado **pelos atingidos de Ponte Nova** desde o rompimento da barragem de Fundão.

Sabe-se que o sistema criado pelo TTAC e TAC-GOV (*solicitação/registro, cadastro, entrevista, comprovação, laudo, elegibilidade e PIM a cargo da Fundação Renova*) mostrou-se inadequado e ineficiente!

Não há defesa possível para o sistema originariamente previsto no TTAC.

Ou o atingido se submete ao procedimento lento e burocrático do "PIM" ou ajuíza ação individual perante as diversas instâncias judiciária, **numa luta desigual, injusta e que, na prática, não resolve o problema da *pacificação social*.**

O grande desafio dos últimos 05 anos foi encontrar uma maneira de *endereçar* adequadamente (*de forma justa,* porém técnica e jurídica) a questão das indenizações das diversas categorias atingidas, **especialmente as informais**.

A população impactada, muitas vezes vulnerável, mormente pelo transcurso do tempo, **não consegue** trazer a comprovação categórica, incisiva e contundente, nos moldes exigidos pelo Direito Processual Civil, na esfera judicial **ou** naquele estabelecido pela Fundação Renova em âmbito administrativo interno.

O **sistema jurídico CLÁSSICO** (quer processual, quer administrativo) não estava (**e não está**) preparado para lidar com *demandas complexas* decorrentes de Desastres de grande magnitude, a exemplo do rompimento da barragem de Fundão, cujos danos *socioambientais* e *socioeconômicos* ultrapassam a extensão de 700 km, dezenas de municípios e milhares de atingidos.

Neste particular, reside **todo o mérito** da **COMISSÃO DE PONTE NOVA** e da **COMISSÃO DE ROSÁRIO DO PONTAL** (Distrito) e de sua advogada.

Tiveram o discernimento necessário de que era preciso encontrar um **novo caminho**, uma nova via de acesso à política indenizatória, que contemplasse as especificidades das demandas estruturais decorrentes do Desastre de Mariana.

O presente caso revela a atuação de um grupo de atingidos (simples e humildes) de um município de 59.875 habitantes, *segundo estimativa do IBGE/2021* que, juntamente com sua advogada, resolveu construir e apresentar **soluções possíveis** (técnicas e jurídicas) em um cenário tão complexo e sensível.

A presente demanda representa, portanto, a inauguração de uma nova via de acesso, instauração de um novo sistema indenizatório, simplificado, moderno e efetivo, diretamente na via judicial.

Certamente não se trata de um sistema perfeito, **mas sim justo e possível!**

Em breve síntese, esse é o contexto da presente demanda.

A presente decisão, neste particular, é histórica!

DO *LEADING CASE* – INÚMEROS PRECEDENTES DE SUCESSO

A pretensão, ora deduzida pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (Distrito) funda-se em diversos **outros** *precedentes de sucesso* já senteciados por este juízo, inaugurando um ***sistema indenizatório simplificado***, *ágil* e *flexibilizado*, a partir de uma abrangente *matriz de danos*, que - inclusive – teve excepcional aceitação por parte dos atingidos.

Trata-se, originariamente, do **PJE 1016742-66.2020.4.01.3800** relacionado à pretensão formulada pela COMISSÃO DE ATINGIDOS DE BAIXO GUANDU/ES, devidamente sentenciado, tornando-se – com isso – um autêntico ***leading case*** em toda a bacia do rio Doce, precedente de sucesso. *In verbis*:

A COMISSÃO DE ATINGIDOS DE BAIXO GUANDU/ES

SOBRE A SENTENÇA DA 12ª VARA DA JUSTIÇA FEDERAL

A Comissão vem, nesta data (02/07/2020), **trazer esclarecimentos aos atingidos** de nossa cidade acerca da referida **SENTENÇA da Justiça Federal**, proferida no dia 01/07/2020.

A Presente DECISÃO é INÉDITA e Histórica !!!!!

◆ Antes de mais nada, faz-se necessário esclarecer a situação em que se encontravam os atingidos de Baixo Guandu:

● **Após quase 5 anos do MAIOR DESASTRE AMBIENTAL DO PAÍS** (Rompimento da Barragem em Fundão/Mariana-MG), os atingidos de Baixo Guandu/ES se encontravam em um **AGUARDE INFINDÁVEL**, para o recebimento de suas respectivas indenizações. É **UM ABANDONO ABSOLUTO** por parte da Fundação Renova, suas mantenedoras e os instituições responsáveis pelo devido **ressarcimento/reparação de danos dos atingidos.**

● Importante relembrar que, foi apresentada a ADAI (Assessoria Técnica) para o Município de Baixo Guandu, há mais dois anos, e até o presente momento, continuamos sem auxílio e sem políticas reparatórias.

CANSADOS DE ESPERAR por solução, face a um **SISTEMA DE REPARAÇÃO INEFICAZ/FALHO/INJUSTO**, e frente às PROMESSAS VAZIAS de Instituições, Movimentos Sociais e Assessorias Técnicas durante todos estes anos, estávamos **TOTALMENTE DESPREZADOS e DESASSISTIDOS, e sem INFORMAÇÃO** alguma sobre o Processo Indenizatório. Diante disso, a Comissão de Atingidos de Baixo Guandu, por meio de sua procuradora legal, Dra. Richardeny Luíza Lemke Ott, buscou permanente interlocução com o Juiz federal, Excelentíssimo Dr. Mario de Paula Franco Júnior, responsável pelo Processo da Samarco, que corre na 12ª Vara de Justiça Federal, em Belo Horizonte/MG, **com o OBJETIVO DE VIABILIZAR O DIREITO DOS ATINGIDOS.**

◆ Foi instaurado um Processo Incidental para Baixo Guandu/ES, e no dia 04/05/20 obtivemos a primeira Decisão que reconheceu as diversas categorias de atingidos de nosso território (que em sua maioria não possuíam políticas indenizatórias), e assim **RESSURGIU NOSSA ESPERANÇA**, para um **procedimento CÉLERE, DIRETO E OBJETIVO, buscando uma DECISÃO JUSTA E DEFINITIVA.**

• É FATO QUE **OS ATINGIDOS NÃO AGUENTAM MAIS ESPERAR**, e precisam retomar suas vidas.

● **HOJE É DIA DE VITÓRIA** para os atingidos, pois, FINALMENTE, após todos esses anos de luta e de trabalho, e com as diversas instituições públicas envolvidas, foi diante

02/07/2020

da ilustre atuação da nossa Advogada, Dra. Richardeny Luiza Lemke Ott, a qual de forma CONCRETA levou uma solução efetiva e adequada para o tema Indenizações. Atuação que consta registrada na referida Sentença.

➢ Assim, **FOI PROFERIDA A PRIMEIRA DECISÃO JUDICIAL** que estabelece padrões de Indenização para os atingidos, e **servirá como PRECEDENTE** para os demais Territórios Atingidos. (Segue em anexo Sentença - Com as Categorias reconhecidas e suas Valorações)

➢ O **MM Juiz Dr. Mário de Paula Franco Júnior proferiu na data de 01/07/20**, **SENTENÇA RECONHECENDO diversas categorias** pleiteadas por esta Comissão, e aplicando um **valor DE QUITAÇÃO INDENIZATÓRIA**.

➢ Diante desta decisão tão esperada pelos atingidos**, viemos a público também externar nosso Agradecimento ao Excelentíssimo Juiz, Dr. Mário de Paula, que sempre recebeu esta e as demais Comissões com presteza e atenção, acolhendo os pleitos dos atingidos, e que em sua decisão trouxe nosso devido reconhecimento - trazendo JUSTIÇA aos atingidos !**

◆Importante dizer que os atingidos **não são obrigados** a aceitar o que foi determinado pelo Juiz. Aqueles que quiserem dar **o ACEITE nesta via judicial**, deverão ter advogado constituído, para viabilizar toda a questão legal que envolve o processo. Aqueles que não concordarem com a referida Sentença, poderão seguir com suas demandas nas esferas já existentes, ou seja no PIM ou com Ações Individuais.

Continuaremos a levar esclarecimentos aos atingidos sobre a referida Sentença!

Atenciosamente, **Comissão de Atingidos de Baixo Guandu/ES! 02/07/2020.**

BAIXO GUANDU/ES - Primeira Cidade que obteve o devido reconhecimento dos atingidos pelo rompimento da Barragem de Fundão/ Mariana.

No mesmo sentido, tem-se o **PJE 1017298-68.2020.4.01.3800** referente à COMISSÃO DE ATINGIDOS DE NAQUE/MG, também sentenciado e acolhido por este juízo, viabilizando a indenização para as diversas categorias daquela localidade. *In verbis*:

NAQUE 23, DE JULHO 2020

Prezado Doutor Mário de Paula Franco Júnior

Nós, membros da Comissão de Atingidos de Naque/MG, gostaríamos de agradecer toda a **nossa gratidão e dos demais moradores, ao senhor.**

Primeiro gostaríamos de ressaltar a importância em termos pessoas como o senhor, de uma **índole ilibada, de notório saber jurídico e intelectual**, mas sobretudo um grande homem. Um ser humano dotado de **empatia para com o próximo**. Algo que difere sua pessoa das demais, nesse momento de tão grande individualidade de interesses, na qual vivenciamos na humanidade dita como "moderna".

Sabe **Doutor Mário**, temos aqui, o privilégio em representar inúmeras famílias. Assim como nós, essas famílias sabem e querem agradecer a **nobreza de sua parte,** por reconhecer todo nosso sofrimento e os danos que nos foram causados, pelo rompimento da barragem de Fundão.

Ler **a decisão proferida pelo senhor,** fazendo prevalecer a lei, o Estado Democrático de Direito, nos encheu os olhos d'água, assim como os de muitos pais e mães de famílias, que viram ali o que uma pessoa pode fazer quando se tem **humanidade e olhar para com o próximo,** respeito e reconhecimento aos direitos humanos, assim como o senhor fez por nós atingidos, resgatando toda nossa dignidade.

Em nome de todos os atingidos, nós da **Comissão de Atingidos de Naque/MG,** agradecemos ao senhor Meretíssimo, em especial por todo seu olhar de carinho para com nós.

Agradecemos por ter recebido a **Valeriana Gomes de Souza, nossa liderança local,** em seu escritório em Belo Horizonte - MG, quando tudo já parecia sem sentindo, quando o cansaço na busca por fazer prevalecer nossos direitos se esgotava. **Temos a certeza que Deus nos concedeu a grata surpresa de colocar o senhor em nossas vidas,** por isso nós e os demais moradores de Naque, **agradecemos a Deus pela pessoa que o senhor é,** e por tudo que representa em nossas vidas.

Agradecemos também, pela recente decisão favorável aos atingidos, após a análise e avaliação dos embargos declaratórios, apresentados pelas **empresas causadoras do maior crime ambiental no Brasil: Samarco, Vale e BHP Biliton,** as quais tentaram tirar nossos direitos, e mais uma vez **o senhor fez prevalecer a justiça e a equidade**. Estamos agradecidos Dr. Mário,pelo senhor olhar, cuidar e guardar o direito de todos nós atingidos pelo rompimento da barragem de Fundão.

Terminamos essa carta, agradecendo ao senhor por tudo, por cada minuto de seu tempo, debruçado em cima das leis, deliberações, portarias, normativas, decretos e medidas provisórias, fazendo prevalecer a justiça a nós que nos sentíamos sem vida, sem fôlego, sem esperança, após a passagem da lama.

Gostaríamos de nos despedirmos nesse momento do senhor Dr. Mário, deixando um caloroso abraço. Queremos agradecer também a Karina, pessoa de nossa grande estima e admiração, sempre muito atenciosa e solicita para com nós atingidos de Naque.

Ao Meretíssimo Dr. Mário de Paula Franco Júnior e a Karina, ficam registrados aqui, todo nosso carinho, afeto e gratidão. E também nosso convite para que venham conhecer nossa cidade. Sentiremo-nos muito orgulhosos pela presença de vocês aqui conosco. Será motivo de alegria para todos nós.

Forte abraço, nossas saudações e até breve.

COMISSÃO DE ATINGIDOS DE NAQUE/MG, já qualificada nos autos do processo em epígrafe, por sua procuradora *in fine* assinada, vem mui respeitosamente, à presença de Vossa Excelência, expor o que segue.

Esta Comissão deseja, nesta peça, apenas manifestar nossa satisfação com o acatamento da Fundação Renova em cumprir o que foi determinado na Sentença dos presentes autos e parabenizar o andamento saudável do novel sistema indenizatório determinado por Vossa Excelência e implementado pela Fundação Renova, por meio da plataforma digital criada. Sempre que solicitado por esta procuradora da Comissão de NAQUE/MG, a Fundação Renova está se mostrando atenciosa e prestativa para aperfeiçoar o Portal do Advogado.

A implementação da plataforma (portal do advogado) está dando aos atingidos do Município ainda mais esperança para conseguirem acreditar e atingir o objetivo de finalmente serem ressarcidos/indenizados. Dezenas de atingidos da nossa cidade **JÁ ESTÃO** sendo indenizados, de forma que isto está consolidando ainda mais a eficácia do sistema indenizatório.

A cada dia que passa, milhares de atingidos estão aderindo ao mencionado sistema, principalmente em razão do bom funcionamento deste e dos pagamentos que estão sendo céleres e objetivos. Já são mais de 3.548 requerimentos (até a presente data).

A Comissão de Atingidos de NAQUE/MG agradece, em nome de todos os atingidos, por todo o empenho prestado pela Fundação Renova e, especialmente, por toda a sensibilidade e presteza deste Magistrado.

Termos em que pede e espera deferimento.

Naque/MG, 30 de Setembro de 2020.

Da mesma forma, tem-se o **PJE 1018890-50.2020.4.01.3800** concernente à pretensão elaborada pela COMISSÃO DE ATINGIDOS DE SÃO MATEUS/ES, *região estuarina*, devidamente sentenciado. *In verbis*:

INFORME URGENTE

COMISSÃO DE ATINGIDOS DE SÃO MATEUS/ES

SOBRE A SENTENÇA DA 12ª VARA DA JUSTIÇA FEDERAL

A Comissão, em 15 de setembro de 2020, vem trazer esclarecimentos aos atingidos de nossa cidade acerca da referida SENTENÇA da Justiça Feceral, proferida no dia 15/09/2020.

A Presente **DECISÃO** é **INÉDITA** e **Histórica** !!!

Primordialmente, faz-se necessário esclarecer a situação em que se encontravam os atingidos de São Mateus: Após quase 5 anos do **MAIOR DESASTRE AMBIENTAL DO PAÍS** (Rompimento da Barragem em Fundão/Mariana-MG), os atingidos de São Mateus se encontravam em um **AGUARDE INFINDÁVEL**, para o recebimento de suas respectivas indenizações. **É UM ABANDONO ABSOLUTO** por parte da Fundação Renova, suas mantenedoras e os instituições responsáveis pelo devido ressarcimento/reparação de danos dos atingidos.

Importante relembrar que, foi apresentada a ADAI (Assessoria Técnica) para o Município de São Mateus, há mais dois anos, e até o presente momento, continuamos sem auxílio e sem políticas reparatórias.

Cansados de esperar por solução, face a um sistema de reparação ineficaz/falho/injusto, e frente às **PROMESSAS VAZIAS** de Instituições, Movimentos Sociais e Assessorias Técnicas durante todos estes anos, estávamos TOTALMENTE DESPREZADOS e DESASSISTIDOS, e sem informação alguma sobre o Processo Indenizatório. Diante disso, a Comissão de Atingidos de São Mateus, por meio de sua procuradora legal, **Dra. Richardeny Luiza Lemke Ott**, **Dr. Getálvaro Gomes da Silva** e **Dr. Alexander Pereira Gomes da Silva**, buscaram permanente interlocução com o Juiz federal, Excelentíssimo Dr. Mario de Paula Franco Júnior, responsável pelo Processo da Samarco, que corre na 12ª Vara de Justiça Federal, em Belo Horizonte/MG, com o OBJETIVO DE VIABILIZAR O DIREITO DOS ATINGIDOS.

Foi instaurado um Processo Incidental para São Mateus e assim obtivemos a primeira Decisão que reconheceu as diversas categorias de atingidos de nosso território (que em sua maioria não possuíam políticas indenizatórias), e assim RESSURGIU NOSSA ESPERANÇA, para um procedimento CÉLERE, DIRETO E OBJETIVO, buscando uma DECISÃO JUSTA E DEFINITIVA. É FATO QUE OS ATINGIDOS NÃO AGUENTAM MAIS ESPERAR, e precisam retomar suas vidas.

HOJE É DIA DE VITÓRIA para os atingidos, pois, FINALMENTE, após todos esses anos de luta e de trabalho, e com as diversas instituições públicas envolvidas, foi diante da ilustre atuação dos nossos Advogados, Dra. Richardeny Luiza Lemke Ott, Dr. Getálvaro Gomes da Silva e Dr. Alexander Pereira Gomes da Silva, os quais de forma CONCRETA levou uma

solução efetiva e adequada para o tema Indenizações. Atuação que consta registrada na referida Sentença.
Assim, FOI PROFERIDA A DECISÃO JUDICIAL/ SENTENÇA que estabelece padrões de Indenização para os atingidos, e servirá como PRECEDENTE para os demais Territórios Atingidos. (Segue em anexo Sentença - Com as Categorias reconhecidas e suas Valorações)
O MM Juiz Dr. Mário de Paula Franco Júnior proferiu na data de 15/09/20 SENTENÇA RECONHECENDO diversas categorias pleiteadas por esta Comissão, e aplicando um valor DE QUITAÇÃO INDENIZATÓRIA.

Diante desta decisão tão esperada pelos atingidos, viemos a público também externar nosso Agradecimento ao Excelentíssimo Juiz, Dr. Mário de Paula, que sempre recebeu esta e as demais Comissões com presteza e atenção, acolhendo os pleitos dos atingidos, e que em sua decisão trouxe nosso devido reconhecimento - trazendo JUSTIÇA aos atingidos !

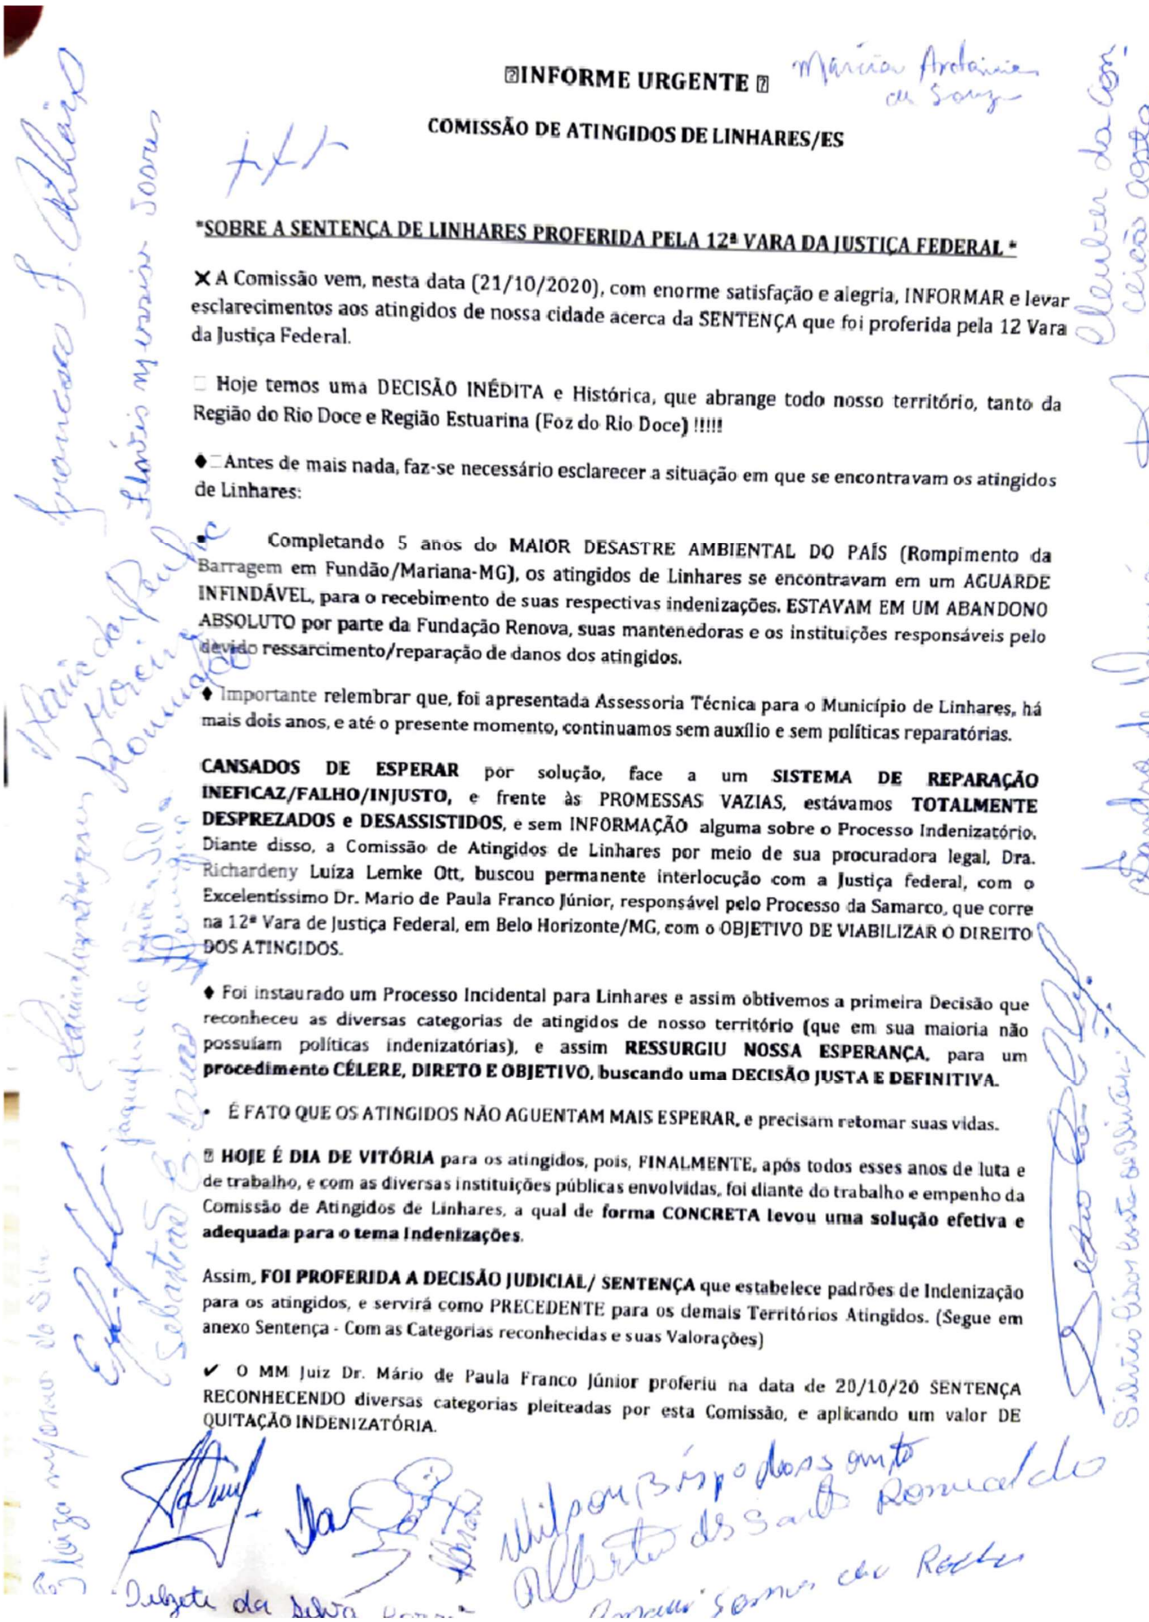

Importante dizer que os atingidos não são obrigados a aceitar o que foi determinado pelo Juiz. Aqueles que quiserem dar o ACEITE nesta via judicial, deverão ter advogado constituído, para viabilizar toda a questão legal que envolve o processo. Aqueles que não concordarem com a referida Sentença, poderão seguir com suas demandas nas esferas já existentes, ou seja no PIM ou com Ações Individuais. É FACULTATIVO ao atingido !

Continuaremos a levar esclarecimentos aos atingidos sobre a referida Sentença!

SÃO MATEUS/ES - Primeira Cidade DA REGIÃO ESTUARINA que obteve o devido reconhecimento dos atingidos pelo rompimento da Barragem de Fundão/ Mariana.

Atenciosamente, Comissão de Atingidos de SÃO MATEUS/ES! 15/09/2020.

O **PJE 1024973-82.2020.4.01.3800** referente à pretensão aduzida pela COMISSÃO DE ATINGIDOS DE LINHARES/ES, também já foi sentenciado por este juízo, acolhendo pretensão indenizatória de diversas categorias informais da região continental/rio Doce e região estuarina. *In verbis*:

INFORME URGENTE

COMISSÃO DE ATINGIDOS DE LINHARES/ES

***SOBRE A SENTENÇA DE LINHARES PROFERIDA PELA 12ª VARA DA JUSTIÇA FEDERAL ***

✕ A Comissão vem, nesta data (21/10/2020), com enorme satisfação e alegria, INFORMAR e levar esclarecimentos aos atingidos de nossa cidade acerca da SENTENÇA que foi proferida pela 12 Vara da Justiça Federal.

☐ Hoje temos uma DECISÃO INÉDITA e Histórica, que abrange todo nosso território, tanto da Região do Rio Doce e Região Estuarina (Foz do Rio Doce) !!!!!

♦ ☐ Antes de mais nada, faz-se necessário esclarecer a situação em que se encontravam os atingidos de Linhares:

• Completando 5 anos do **MAIOR DESASTRE AMBIENTAL DO PAÍS** (Rompimento da Barragem em Fundão/Mariana-MG), os atingidos de Linhares se encontravam em um **AGUARDE INFINDÁVEL, para o recebimento de suas respectivas indenizações. ESTAVAM EM UM ABANDONO ABSOLUTO por parte da** Fundação Renova, suas mantenedoras e os instituições responsáveis pelo devido ressarcimento/reparação de danos dos atingidos.

♦ Importante relembrar que, foi apresentada Assessoria Técnica para o Município de Linhares, há mais dois anos, e até o presente momento, continuamos sem auxílio e sem políticas reparatórias.

CANSADOS DE ESPERAR por solução, face a um **SISTEMA DE REPARAÇÃO INEFICAZ/FALHO/INJUSTO,** e frente às PROMESSAS VAZIAS, estávamos **TOTALMENTE DESPREZADOS e DESASSISTIDOS**, e sem INFORMAÇÃO alguma sobre o Processo Indenizatório. Diante disso, a Comissão de Atingidos de Linhares por meio de sua procuradora legal, Dra. Richardeny Luiza Lemke Ott, buscou permanente interlocução com a Justiça federal, com o Excelentíssimo Dr. Mario de Paula Franco Júnior, responsável pelo Processo da Samarco, que corre na 12ª Vara de Justiça Federal, em Belo Horizonte/MG, com o OBJETIVO DE VIABILIZAR O DIREITO DOS ATINGIDOS.

♦ Foi instaurado um Processo Incidental para Linhares e assim obtivemos a primeira Decisão que reconheceu as diversas categorias de atingidos de nosso território (que em sua maioria não possuíam políticas indenizatórias), e assim **RESSURGIU NOSSA ESPERANÇA**, para um **procedimento CÉLERE, DIRETO E OBJETIVO, buscando uma DECISÃO JUSTA E DEFINITIVA.**

• É FATO QUE OS ATINGIDOS NÃO AGUENTAM MAIS ESPERAR, e precisam retomar suas vidas.

☐ **HOJE É DIA DE VITÓRIA** para os atingidos, pois, FINALMENTE, após todos esses anos de luta e de trabalho, e com as diversas instituições públicas envolvidas, foi diante do trabalho e empenho da Comissão de Atingidos de Linhares, a qual de **forma CONCRETA levou uma solução efetiva e adequada para o tema Indenizações.**

Assim, **FOI PROFERIDA A DECISÃO JUDICIAL/ SENTENÇA** que estabelece padrões de Indenização para os atingidos, e servirá como PRECEDENTE para os demais Territórios Atingidos. (Segue em anexo Sentença - Com as Categorias reconhecidas e suas Valorações)

✔ O MM Juiz Dr. Mário de Paula Franco Júnior proferiu na data de 20/10/20 SENTENÇA RECONHECENDO diversas categorias pleiteadas por esta Comissão, e aplicando um valor DE QUITAÇÃO INDENIZATÓRIA.

Diante desta decisão tão esperada pelos atingidos, **viemos a público também externar nosso Agradecimento ao Excelentíssimo Juiz, Dr. Mário de Paula**, que sempre recebeu esta e as demais Comissões com presteza e atenção, **acolhendo os pleitos dos atingidos**, e que em sua decisão trouxe nosso devido reconhecimento - trazendo JUSTIÇA aos atingidos !

Importante dizer que os atingidos não são obrigados a aceitar o que foi determinado pelo Juiz. Aqueles que quiserem dar o ACEITE nesta via judicial, deverão ter advogado constituído ou defensor público, para viabilizar toda a questão legal que envolve o processo. Aqueles que não concordarem com a referida Sentença, poderão seguir com suas demandas nas esferas já existentes, ou seja no PIM ou com Ações Individuais. É FACULTATIVO ao atingido !

X LINHARES/ES - Cidade que envolve Região Continental (Rio Doce) e Região Estuarina (Foz do Rio Doce), **que obteve o devido reconhecimento dos atingidos** pelo rompimento da Barragem de Fundão/ Mariana. X

✔ **Consolida-se um NOVO PROCEDIMENTO, e a partir destes, muitos de atingidos serão finalmente reparados / indenizados !!!!***

Inúmeras vitórias ainda virão e permaneceremos UNIDOS na luta, pois assim nos tornamos ainda mais FORTES e seguiremos vencendo.

Continuaremos a levar esclarecimentos aos atingidos sobre a referida Sentença!

Atenciosamente, **Comissão de Atingidos de LINHARES /ES! 21/10/2020.**

COMUNICADO

Prezado Dr. Mário de Paula Franco Júnior

A Comissão de Atingidos de Rio Doce/MG vem a público agradecer o empenho e celeridade do nobre magistrado na fixação da matriz indenizatória do Território, a qual representa o novo paradigma da Bacia do Rio Doce, com reconhecimento e visibilidade jurídica a novas categorias de atingidos, tais como faiscadores, comprador informal de ouro, cadeia produtiva dos areais (mergulhadores, operadores de draga, motorista de caminhão). Trata-se da sentença mais completa, inédita e histórica para a reparação dos direitos dos atingidos.

Decorridos mais de 05 anos do Desastre, as famílias afetadas já estavam sem esperança e desacreditadas com a efetividade da reparação. A recente decisão, ao fixar a matriz de danos do nosso Município, reacendeu nos atingidos a possibilidade de acesso aos seus direitos, ao espírito de luta e engajamento coletivo para avanços da indenização.

Assim, a sentença representa uma VITÓRIA e grande CONQUISTA a toda população e seguiremos engajados para que o Novo Sistema Indenizatório Simplificado seja um sucesso de adesão e efetividade.

Atenciosamente

Comissão de Atingidos de Rio Doce/MG, 28 de janeiro de 2021.

O sucesso da plataforma *online* **(sistema indenizatório simplificado) em Baixo Guandu/ES, Naque/MG, São Mateus/ES, Linhares/ES, Aracruz/ES, Conceição da Barra/ES, Itueta/MG, Baguari/MG, Pedra Corrida/MG, Ipaba do Paraíso/MG, Cachoeira Escura/MG, Revés do Belém/MG, Colatina/ES, Itapina/ES, Rio Doce/MG, Aimorés/MG, Bugre/MG, Senhora da Penha/MG, Sem Peixe/MG, Caratinga/MG, Ipaba/MG, Resplendor/MG, Marilândia/ES, Periquito/MG, Galileia/MG, Pingo D'Água/MG, São José do Goiabal/MG e, Santa Cruz do Escalvado/MG tem sido extraordinário, comprovado pela ampla adesão por parte dos atingidos e seus advogados.**

De se ressaltar, por oportuno, que – em pouco mais de 07 meses – consoante PLANILHA ID 585973374, milhares de atingidos (das diversas categorias) já foram integralmente indenizados pela Fundação Renova.

Categorias INFORMAIS, abandonadas por mais de 05 anos, foram **judicialmente** reconhecidas pela primeira vez e já estão sendo INDENIZADAS

de forma simples, ágil e justa, **permitindo-lhes a retomada de suas vidas e a reconstrução de seus sonhos**.

A presente SENTENÇA – não obstante acatar a PETIÇÃO (ID 405824361) formulada pela COMISSÃO DE PONTE NOVA e pela COMISSÃO DE ROSÁRIO DO PONTAL (Distrito) – **apoia-se em precedentes exitosos já estabelecidos**, com fiel observância da *isonomia* entre os atingidos.

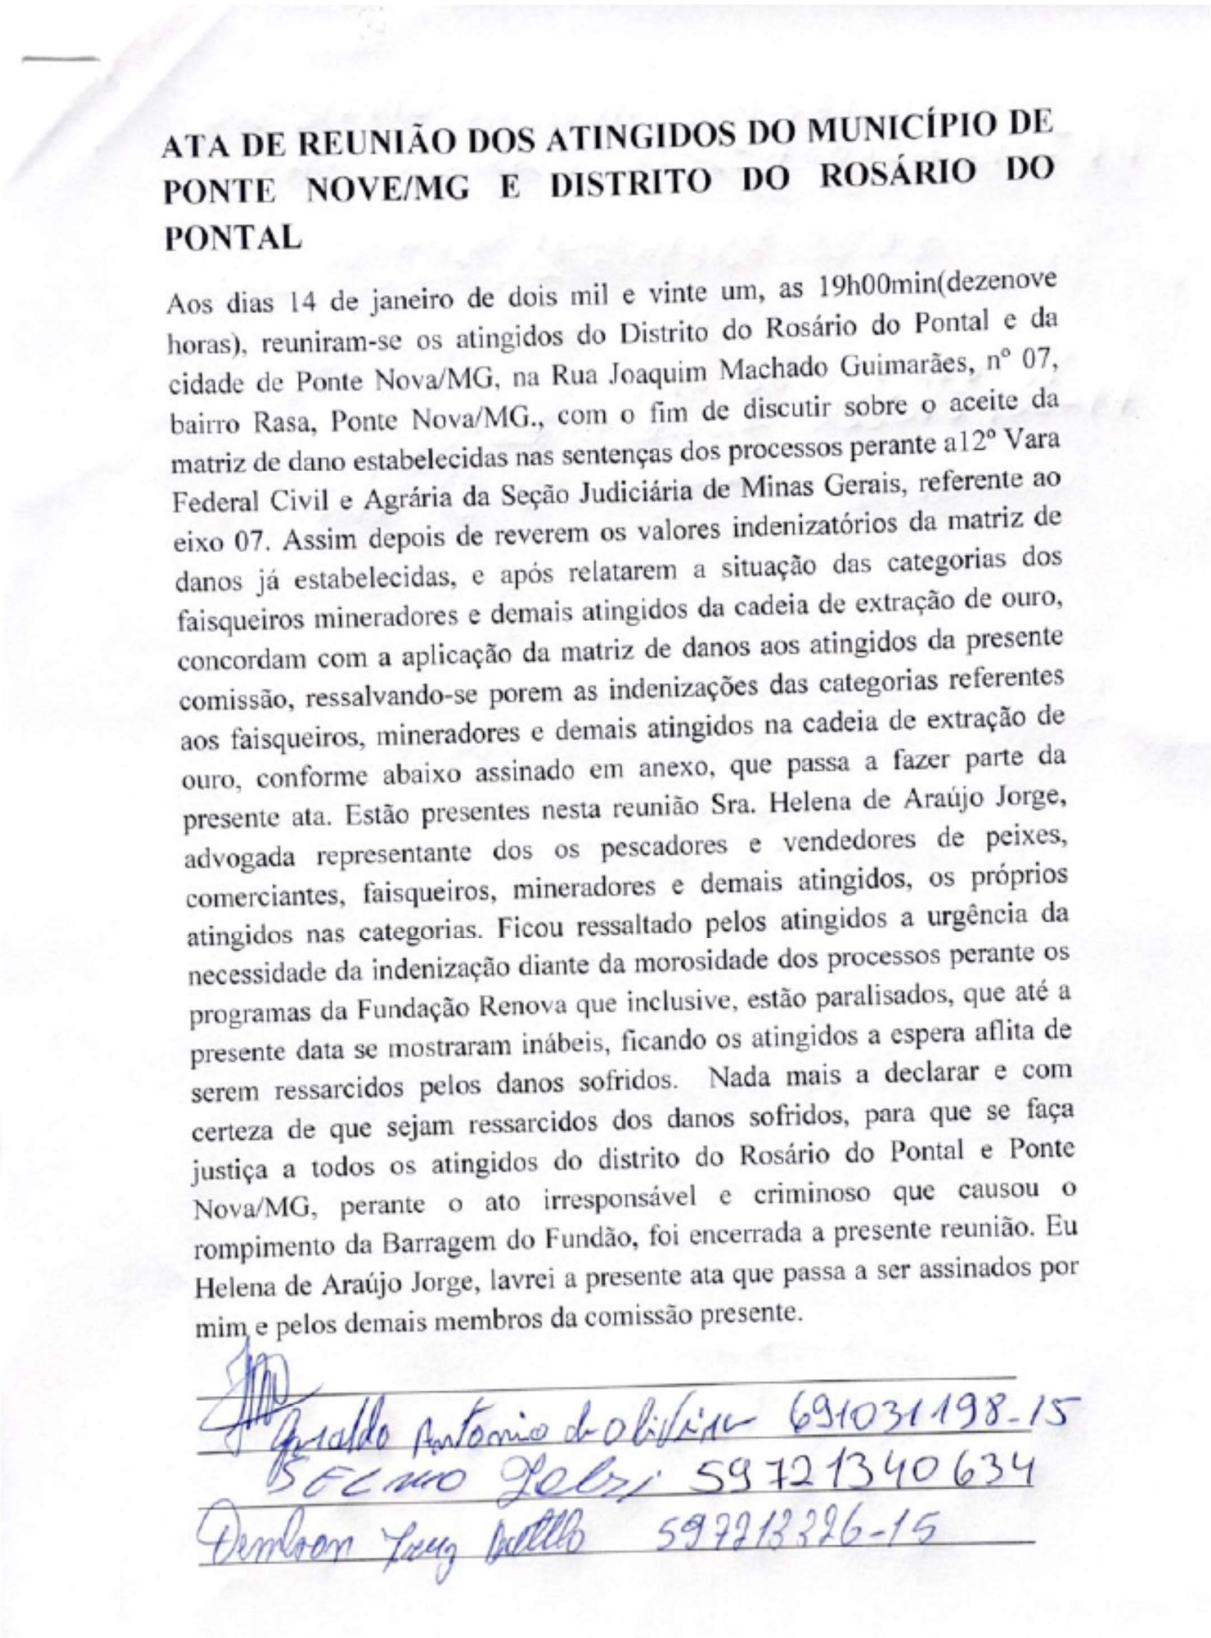

DO PEDIDO DE APLICAÇÃO DOS PRECEDENTES SENTENCIADOS POR ESTE JUÍZO AOS ATINGIDOS DE PONTE NOVA E ROSÁRIO DO PONTAL – OBSERVÂNCIA DA ISONOMIA – ENTREGA DA JUSTIÇA E PACIFICAÇÃO SOCIAL – CONCORDÂNCIA EXPRESSA DAS COMISSÕES DE ATINGIDOS

A **COMISSÃO DE PONTE NOVA** e a **COMISSÃO DE ROSÁRIO DO PONTAL** (Distrito), por intermédio da **PETIÇÃO** (ID 422587873), requereu a este juízo a replicação das mesmas categorias e *quantum* indenizatórios para fins de **QUITAÇÃO DEFINITIVA** aos atingidos daquelas localidades, concernentes aos *precedentes* já sentenciados por este juízo, a exemplo dos PJE's 1016742-66.2020.4.01.3800, 1017298-68.2020.4.01.3800, 1018890-50.2020.4.01.3800 (BAIXO GUANDU/ES, NAQUE/ES e SÃO MATEUS/ES, respectivamente), ressalvadas, apenas, as categorias de "*faiscadores, mineradores e demais atingidos na cadeia de extração de ouro*", a qual apresentaram sugestão de matriz indenizatória.

Posteriormente, as supracitadas COMISSÕES DE ATINGIDOS, por meio da **PETIÇÃO** (ID 464810368), concordaram e pleitearam pela replicação das mesmas categorias e *quantum* indenizatórios para fins de **QUITAÇÃO DEFINITIVA** aos atingidos do município de Ponte Nova, relativos ao **PJE 1055212-69.2020.4.01.3800 (RIO DOCE/MG)**.

O **DOCUMENTO** constante no ID 422587873, intitulado **ATA DE REUNIÃO DOS ATINGIDOS DE PONTE NOVA/MG E DISTRITO DO ROSÁRIO DO PONTAL** e o **ABAIXO ASSINADO** (ID 464810394) confirmam que, consoante deliberação entre os atingidos realizada em 14 de janeiro de 2021, devidamente lavrada pela Dr.ª Helena de Araújo Jorge, houve **concordância expressa** no sentido de aplicação imediata dos outros precedentes do *sistema indenizatório simplificado* sentenciados por

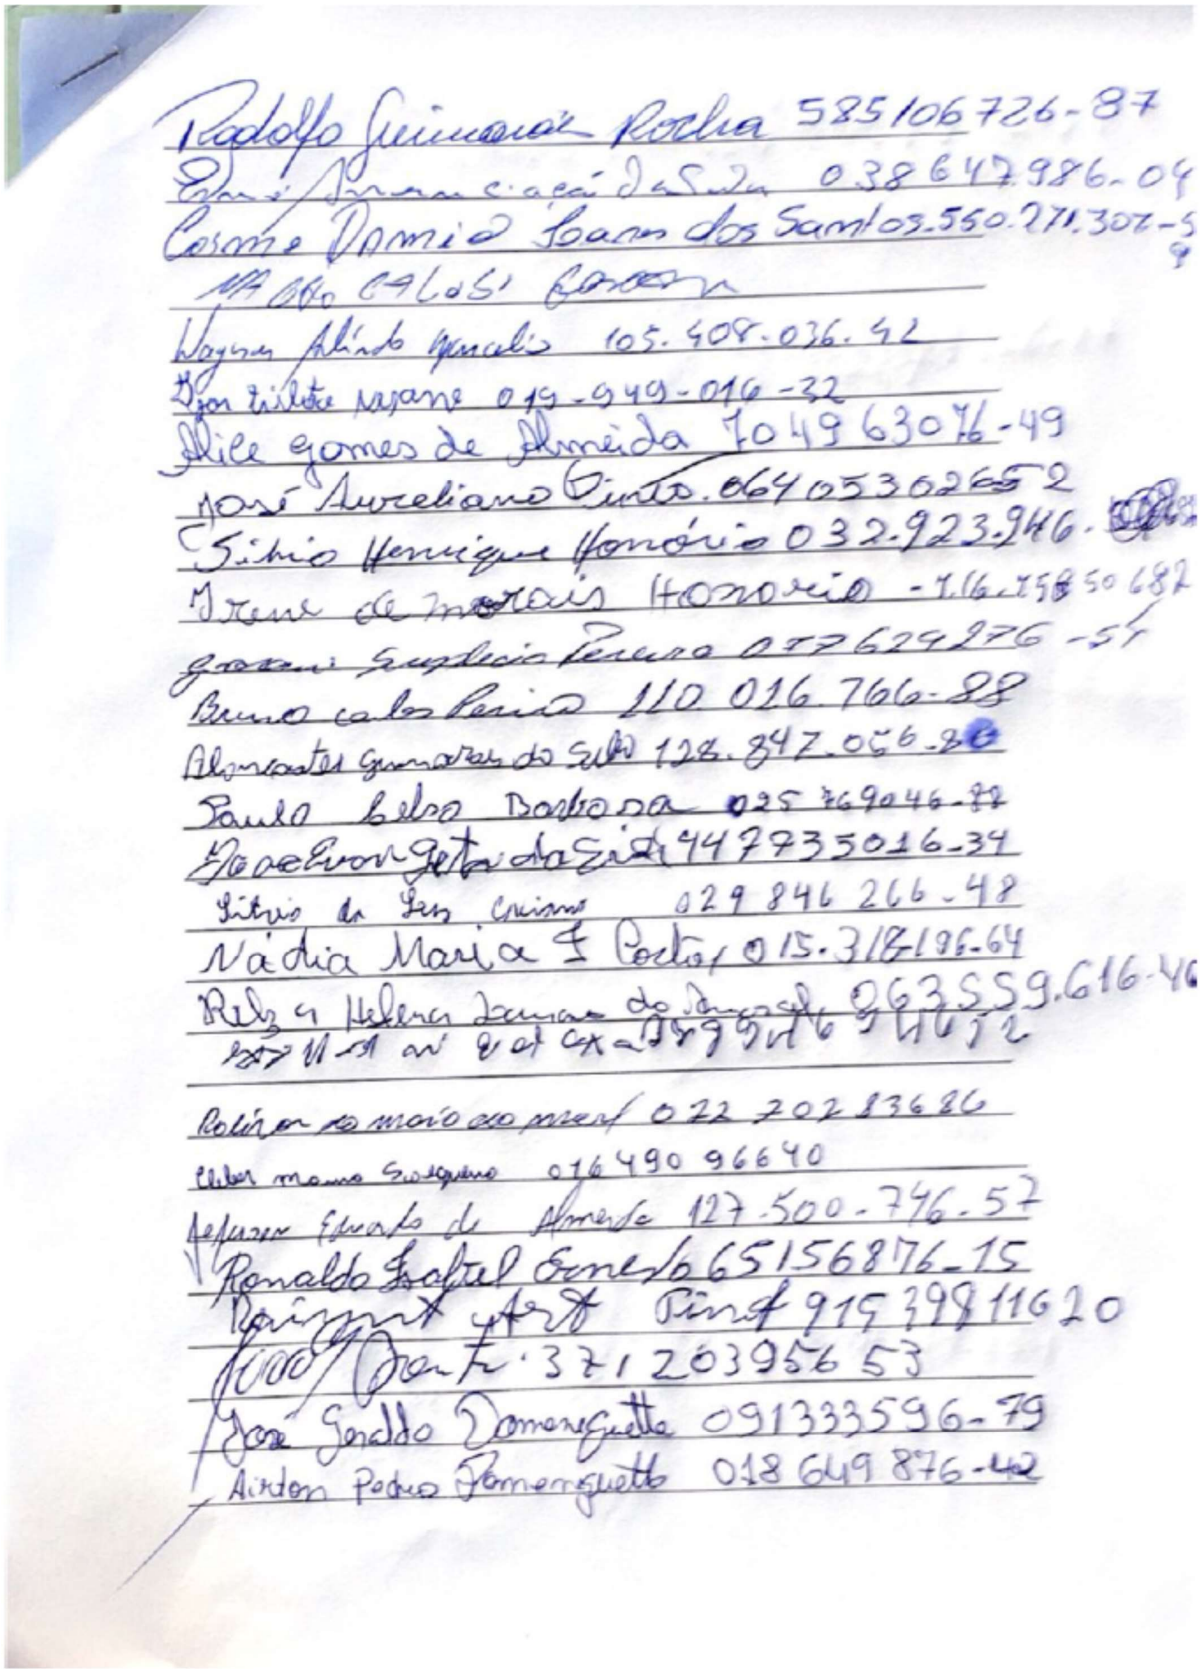

este juízo, em especial ao **PJE 1055212-69.2020.4.01.3800 (RIO DOCE/MG)**. *In verbis*:

ATA DE REUNIÃO DOS ATINGIDOS DO MUNICÍPIO DE PONTE NOVE/MG E DISTRITO DO ROSÁRIO DO PONTAL

Aos dias 14 de janeiro de dois mil e vinte um, as 19h00min(dezenove horas), reuniram-se os atingidos do Distrito do Rosário do Pontal e da cidade de Ponte Nova/MG, na Rua Joaquim Machado Guimarães, nº 07, bairro Rasa, Ponte Nova/MG., com o fim de discutir sobre o aceite da matriz de dano estabelecidas nas sentenças dos processos perante a12º Vara Federal Civil e Agrária da Seção Judiciária de Minas Gerais, referente ao eixo 07. Assim depois de reverem os valores indenizatórios da matriz de danos já estabelecidas, e após relatarem a situação das categorias dos faisqueiros mineradores e demais atingidos da cadeia de extração de ouro, concordam com a aplicação da matriz de danos aos atingidos da presente comissão, ressalvando-se porem as indenizações das categorias referentes aos faisqueiros, mineradores e demais atingidos na cadeia de extração de ouro, conforme abaixo assinado em anexo, que passa a fazer parte da presente ata. Estão presentes nesta reunião Sra. Helena de Araújo Jorge, advogada representante dos os pescadores e vendedores de peixes, comerciantes, faisqueiros, mineradores e demais atingidos, os próprios atingidos nas categorias. Ficou ressaltado pelos atingidos a urgência da necessidade da indenização diante da morosidade dos processos perante os programas da Fundação Renova que inclusive, estão paralisados, que até a presente data se mostraram inábeis, ficando os atingidos a espera aflita de serem ressarcidos pelos danos sofridos. Nada mais a declarar e com certeza de que sejam ressarcidos dos danos sofridos, para que se faça justiça a todos os atingidos do distrito do Rosário do Pontal e Ponte Nova/MG, perante o ato irresponsável e criminoso que causou o rompimento da Barragem do Fundão, foi encerrada a presente reunião. Eu Helena de Araújo Jorge, lavrei a presente ata que passa a ser assinados por mim e pelos demais membros da comissão presente.

Abaixo assinado do município Ponte Nova/MG e Distrito do Rosário do Pontal

Abaixo assinado dos atingidos de Ponte Nova/MG e Distrito do Rosário do Pontal, a qual a população expressa o desejo de realizar os acordos diretamente com a Fundação Renova e não por qualquer assessoria técnica! Ratificamos MM Juiz Dr. Mário de Paula Franco Junior, que concordamos com a Matriz de Danos e os valores de indenização por categoria estipulada para o Município de Rio Doce/MG, que deverá servir de parâmetro, requerendo que sejam arbitradas as indenizações nos mesmos moldes para os atingidos de Ponte Nova/MG e Distrito do Rosário do Pontal/MG ,. Por fim concordamos com o fechamento das solicitações de cadastros perante a Fundação Renova realizados até a data de 30/04/2020, conforme decisões proferidas por Vossa Excelência. Assim seguem os atingidos:

Vê-se, portanto, que as próprias COMISSÕES DE ATINGIDOS, em atenção ao *princípio da isonomia* entre todos os impactados, **concordaram** e requereram em juízo a replicação da *matriz de danos* estabelecida por este juízo em outros precedentes do *sistema indenizatório simplificado*, em especial o **PJE 1055212-69.2020.4.01.3800 (RIO DOCE/MG)**, **com os mesmos parâmetros, requisitos, critérios, limites e abrangência**, ressalvadas, **apenas**, as categorias de "*Garimpeiros Mergulhadores, proprietários e exploradores de lavras de minério e pedras preciosas, donos de draga informal na extração de ouro, e garimpeiros porcenteiros*", a qual apresentaram sugestão de matriz indenizatória.

Resta evidente que as SENTENÇAS proferidas nos demais *precedentes do sistema indenizatório* – inclusive ressaltadas pelas próprias Comissões – **têm cumprido adequadamente sua missão de entregar a prestação jurisdicional reivindicada, levando justiça e pacificação social.**

Consigno que os próprios atingidos possuem plena certeza, clareza e convicção dos termos das sentenças já proferidas e da *abrangência/eficácia* do novel sistema indenizatório implementado.

A pretensão (ID 464810368) formulada pela COMISSÃO DE PONTE NOVA e pela COMISSÃO DE ROSÁRIO DO PONTAL (Distrito) consiste em replicar os mesmos direitos, vantagens, parâmetros, critérios, valores e requisitos já aplicados nos demais territórios, **imprimindo-se, com isso, agilidade no processamento e pagamento das indenizações**. *In verbis*:

> "(...)
>
> Os Requerentes fazem juntada de abaixo assinado com aceitação do fechamento do cadastro em 30/04/2020 e a **aceitação da matriz de danos deferida em sentença referente aos Atingidos de Rio Doce/MG**, **com ressalva as categorias apresentadas pelos Requerentes na petição de ID 422587873**, referentes a categorias de Garimpeiros Mergulhadores, proprietários e exploradores de lavras de minério e pedras preciosas, donos de draga informal na extração de ouro, e garimpeiros porcenteiros, posto que estas categorias não estão abrangida na Matriz de dano de referência."

Prestigia-se, a um só tempo, a celeridade no processamento das indenizações e o indispensável tratamento uniforme (igualitário) entre <u>todos</u> os atingidos pelo rompimento da barragem de Fundão.

Assim sendo, considero absolutamente <u>pertinente</u> e <u>legítimo</u> o pedido formulado pela COMISSÃO DE ATINGIDOS DE PONTE NOVA <u>e</u> pela COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (<u>Distrito</u>) de aplicação imediata das mesmas *categorias/requisitos/valorações/critérios* aplicados nos demais *precedentes*, ante a observância ao **princípio da isonomia** e **igualdade jurídica** (art. 5º, caput, CF/88), com o devido estabelecimento de solução **técnica**, **justa** e **equilibrada**, sob a ótica do "*rough justice*".

SENTENÇA ESTRANGEIRA – JULGAMENTO INTERNACIONAL DO "CASO SAMARCO" – JUDICIÁRIO DO REINO UNIDO - HIGH COURT OF JUSTICE ENGLAND AND WALES – MANCHESTER - NEUTRAL CITATION NUMBER: [2020] EWHC 2930 (TCC) – JUDGE SIR MARK GEORGE TURNER (JUSTICE TURNER)

A presente SENTENÇA, ao juntar-se às demais já prolatadas por este juízo (BAIXO GUANDU/ES, NAQUE/MG,SÃO MATEUS/ES, LINHARES/ES, ARACRUZ/ES, CONCEIÇÃO DA BARRA/ES, ITUETA/MG, BAGUARI/MG, PEDRA CORRIDA/MG, IPABA DO PARAÍSO/MG, CACHOEIRA ESCURA/MG, REVÉS DO BELÉM/MG, COLATINA/MG, RIO DOCE/MG, AIMORÉS/MG, BUGRE/MG, FERNANDES TOURINHO/MG, IPABA/MG, CARATINGA/MG, SEM PEIXE/MG, RESPLENDOR/MG, PERIQUITO/MG, MARILÂNDIA/ES, GALILEIA/MG, PINGO D'ÁGUA/MG, SÃO JOSÉ DO GOIABAL/MG, SANTA CRUZ DO ESCALVADO/MG), concretiza a implementação do novo sistema de indenização no município de Ponte Nova/MG, e consequentemente, no distrito de Rosário do Pontal.

Consoante veremos no decorrer dessa decisão, o denominado "**Sistema Indenizatório Simplificado**", pensado e desenvolvido por este juízo, tem por finalidade *<u>flexibilizar</u>* os meios de prova (*standards probatórios*) em favor dos atingidos, simplificando o procedimento da indenização, tornando-o, com isso, mais acessível, simples e justo.

Categorias hipossuficientes e informais (*carroceiros, lavadeiras de beira de rio, faiscadores, garimpeiros artesanais, pescadores de subsistência, artesãos, ambulantes, revendedores de pescado,*

areeiros, pescadores artesanais e de fato, produtores rurais, proprietários de pequenos quiosques, pousadas, bares e hotéis) foram, pela primeira vez, em 05 anos, reconhecidas judicialmente como impactadas e elegíveis à indenização pelo rompimento da barragem de Fundão, com o consequente arbitramento das indenizações.

O **sistema indenizatório simplificado** implementado no "CASO SAMARCO" é o primeiro do país em causas do gênero e tornou-se *case de sucesso*, comprovado pela **ampla adesão** dos advogados, atingidos e familiares. Isto porque sua *construção teórica* e *prática* parte da premissa de que o Judiciário tem dificuldade em tratar, de forma célere e isonômica, casos individuais decorrentes de **indenizações em massa** que podem ultrapassar centenas de milhares de atingidos.

O sistema simplificado, de adesão facultativa, conforme veremos, tem sua inspiração no "***rough justice***" (justiça possível) do direito norte-americano.

Trata-se de um sistema totalmente digital, moderno, acessível por meio de *plataforma online* (via web), permitindo que categorias informais (*carroceiros, ambulantes, faiscadores, artesãos, areeiros, lavadeiras, etc*), desprovidas de provas materiais dos danos alegados, a partir das flexibilizações empreendidas, possam acessar o sistema e obter a sua justa e merecida indenização.

Em pouco mais de 07 meses, o novo sistema indenizatório obteve inúmeras adesões nos territórios onde já implantado, permitindo que milhares de atingidos recebessem suas indenizações.

O sucesso do ***sistema simplificado*** ultrapassou as fronteiras nacionais, obtendo o reconhecimento da justiça inglesa em um dos processos mais importantes da história do REINO UNIDO.

Em fato inédito, ao julgar a **maior ação** da história do judiciário do REINO UNIDO, também versando sobre o "CASO SAMARCO", a **HIGH COURT OF JUSTICE (MACHESTER-UK**), em decisão de 76 páginas, reconheceu a qualidade, a seriedade e a eficiência da **JUSTIÇA FEDERAL** brasileira, notadamente da 12ª Vara Federal de Belo Horizonte, em conduzir e implementar as melhores técnicas no julgamento do "*maior desastre ambiental do Brasil*".

Por ocasião da SENTENÇA ESTRANGEIRA (ID 585973371 e ID 585973372), o juiz inglês (JUSTICE TURNER) enfatizou seu reconhecimento à aplicação do novo sistema indenizatório, fundado no "*rough justice*".

A esse respeito, destaco a seguinte passagem da sentença estrangeira:

> "(...) **Fourthly, it is apparent that Judge Mario is doing his utmost to progress the process of compensating victims. His task is indeed challenging but his persistence and determination is evident both from the tone, content and timing of his judgments and the procedural initiatives he is seeking to introduce**. **He is intolerant of delay and his approach is a cause for confidence that the impetus he is giving to the process will continue**. I agree with the defendants' point that a very high proportion of the complaints made by the claimants, especially in respect of the operation of Renova, are historical and that the evidence, taken as a whole, justifies the inference that lessons are being learnt in Brazil and improvements are being implemented".
>
> "(...) Within this context, **Judge Mario has recently sought to introduce the concept of "rough justice" under which claimants, who do not have the necessary documentation to prove, for example, their loss of earnings, can still be compensated on a broad brush basis rather than risk losing their claims for want of strict proof**. It has been estimated that about 96% of the English claimants fall within geographical areas potentially covered by Local Commissions. Judge Mario seeks to insist that any claimant wishing to take advantage of the rough justice scheme must give up any claims which they have brought in England. He is clearly very concerned that running the claims in parallel would have a deleterious impact on the fair and just resolution of claims in Brazil. **I share those concerns**".

Após exaustiva instrução processual e oitiva das partes, o juiz inglês (JUSTICE TURNER) **rejeitou integralmente a ação no REINO UNIDO**, ressaltando, uma vez mais, a seriedade da JUSTIÇA FEDERAL no Brasil em processar e julgar,

com exclusividade, os fatos decorrentes do rompimento da barragem de Fundão. *In verbis*:

> "(...) The 12th Federal Courttowhichthe 20bn and 155bn CPAshave been allocatedis, **through the ef forts of Judge Mario, seeking to devise and deploy several procedural innovations in order to improve and stream line the process**".

O ***sistema indenizatório simplificado***, portanto, além da ampla adesão emprestada pelos atingidos e seus advogados, ostenta, também, o reconhecimento internacional da justiça do Reino Unido.

DA ABRANGÊNCIA TERRITORIAL DAS COMISSÕES DE ATINGIDOS – REPRESENTAÇÃO DOS ATINGIDOS – EXCLUSÃO DO TERRITÓRIO DE CHOPOTÓ

A **COMISSÃO DE ATINGIDOS DE PONTE NOVA** e a **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (Distrito) de forma legítima e livre, *com o sentimento de esperança de diversos atingidos introduzido pelo sistema indenizatório simplificado*, trouxeram à conhecimento deste juízo as demandas relativas ao **município de Ponte Nova e ao distrito Rosário do Pontal**, demonstrando plena auto-organização e autodeterminação, com o intuito de buscar a devida reparação quanto ao **tema indenização** pelos prejuízos patrimoniais e extrapatrimoniais sofridos em virtude do evento danoso.

Neste sentido, visualiza-se que de acordo com a **ATA DE FORMAÇÃO DAS COMISSÕES** (ID 405824367), formalmente constituída em 18 de novembro de 2020, **os atingidos do município de Ponte Nova e do distrito Rosário do Pontal**, reuniram-se, de forma legítima, para lutar por seus direitos – até então esquecidos no decorrer de mais de 05 anos – e, por consequência retomar suas vidas e seus sonhos.

Após estas considerações iniciais, esclareço que o município de Ponte Nova abrange vários distritos, como Rosário do Pontal, que, inclusive, possui COMISSÃO DE ATINGIDOS própria e devidamente constituída nestes autos, **bem como, ressalto que o referido município abrange o Distrito Chopotó**.

Todavia, embora o Distrito Chopotó pertença ao município de Ponte Nova, a COMISSÃO DE ATINGIDOS DE PONTE NOVA **não representa os atingidos de CHOPOTÓ**, composto por comunidade tradicional, com especificidades e anseios próprios e que – inclusive – já é representado por comissão própria, conforme verifica-se no **PJE 1020534-28.2020.4.01.3800**.

Com efeito, o DOCUMENTO constante de ID 405824367 (**ATA DE FORMAÇÃO DA COMISSÕES DE ATINGIDOS**), já validado por este juízo (ID 412611847), porque revestido de todas as formalidades legais, inclusive levado a registro perante o REGISTRO DE TÍTULOS E DOCUMENTOS (**presunção legal de certeza, ampla publicidade, eficácia erga omnes e fé pública do ato registral**), comprova que a COMISSÃO DE PONTE NOVA, conjuntamente com a COMISSÃO DE ROSÁRIO DO PONTAL (Distrito) tal como constituídas, **detêm plena e exclusiva legitimidade para,** excluídos os atingidos do Distrito de CHOPOTÓ**, representar todos os atingidos do município de Ponte Nova e seus distritos.**

Do mesmo modo, a ATA DE REUNIÃO constante de ID 422587874 comprova que diversos atingidos de **Ponte Nova** e **Rosário do Pontal (Distrito)** atuam como representantes dessas localidades/distritos nas COMISSÕES DE ATINGIDOS.

Diante do exposto, **RECONHEÇO**, desde já, a delimitação objetiva do universo de atingidos pela COMISSÃO DE ATINGIDOS DE PONTE NOVA e pela COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (Distrito) para representar todos os atingidos do **município de Ponte Nova e seus respectivos distritos**, **excetuando-se, unicamente, os atingidos de Chopotó (Distrito),** conforme **ATA DE FORMAÇÃO DAS COMISSÕES** (ID 405824367), de forma o princípio da autonomia da vontade privada, bem como preservar o princípio da segurança jurídica, em seu aspecto objetivo.

Ademais, consigno, desde já, que quaisquer referências ao município de Ponte Nova/MG, por si só, como espaço territorial político municipal, **ao longo desta SENTENÇA**, referir-se-á a **todos** os atingidos de Ponte Nova, **excetuando-se, unicamente, os atingidos de Chopotó (Distrito)**, já representado por comissão própria, conforme exposto acima.

DA *QUESTÃO PRELIMINAR* ADUZIDA PELAS EMPRESAS RÉS (SAMARCO, VALE E BHP)

As empresas rés (**Samarco, Vale e BHP**) vieram aos autos, por meio da PETIÇÃO ID 426143374, suscitar a impossibilidade de instauração de cumprimento de sentença para **área não abrangida pelo TTAC**, devido a inadequação da via eleita e a falta de interesse de agir das COMISSÕES DE ATINGIDOS. *In verbis*:

> "(...)
>
> 9. O TTAC reconhece taxativamente, na Cláusula 1, incisos IV a VIII, os municípios do Estado do Espírito Santo e de Minas Gerais incluídos na área de Abrangência Ambiental e Socioeconômica, nas quais devem ser implementados pela Fundação Renova os programas e as ações socioeconômicas e socioambientais previstas no acordo. Confira-se:
>
> > "CLÁUSULA 01: O presente ACORDO será delimitado e interpretado a partir das seguintes definições técnicas:
> >
> > (...)
> >
> > IV. ÁREA AMBIENTAL 1: as áreas abrangidas pela deposição de rejeitos nas calhas e margens dos rios Gualaxo do Norte, Carmo e Doce, considerando os respectivos trechos de seus formadores e tributários, bem como as regiões estuarinas, costeiras e marinha na porção impactada pelo EVENTO.
> >
> > V. ÁREA AMBIENTAL 2: os municípios banhados pelo Rio Doce e pelos trechos impactados dos Rios Gualaxo do Norte e Carmo, a saber: Mariana, Barra Longa, Rio Doce, Santa Cruz do Escalvado, Sem-Peixe, Rio Casca, São Pedro dos Ferros, São Domingos do Prata, São José do Goiabal, Raul Soares, Dionísio, Córrego Novo, Pingo d'Água, Marliéria, Bom Jesus do Galho, Timóteo, Caratinga, Ipatinga, Santana do Paraíso, Ipaba, Belo Oriente, Bugre, Iapu, Naque, Periquito, Sobrália, Fernandes Tourinho, Alpercata, Governador Valadares, Tumiritinga, Galileia, Conselheiro Pena, Resplendor, Itueta, Aimorés, Baixo Guandu, Colatina, Marilândia e Linhares.
> >
> > VI. ÁREA DE ABRANGÊNCIA SOCIOECONÔMICA: localidades e comunidades adjacentes à Calha do Rio Doce, Rio do Carmo, Rio Gualaxo do Norte e Córrego Santarém e a áreas estuarinas, costeira e marinha impactadas.
> >
> > VII. MUNICÍPIOS DO ESTADO DE MINAS GERAIS NA ÁREA DE ABRANGÊNCIA SOCIOECONÔMICA: Mariana, Barra Longa, Rio Doce, Santa Cruz do Escalvado, Rio Casca, Sem-Peixe, São Pedro dos Ferros, São Domingos do Prata, São José do Goiabal, Raul Soares,

Dionísio, Córrego Novo, Pingo-D'Água, Marliéria, Bom Jesus do Galho, Timóteo, Caratinga, Ipatinga, Santana do Paraíso, Ipaba, Belo Oriente, Bugre, Iapu, Naque, Periquito, Sobrália, Fernandes Tourinho, Alpercata, Governador Valadares, Tumiritinga, Galiléia, Conselheiro Pena, Resplendor, Itueta e Aimorés.

VIII. MUNICÍPIOS E LOCALIDADES DO ESTADO DO ESPÍRITO SANTO NA ÁREA DE ABRANGÊNCIA SOCIOECONÔMICA: Baixo Guandu, Colatina, Barra do Riacho em Aracruz, Marilândia e Linhares, além das áreas estuarinas, costeira e marinha impactadas."

10. Como se pode notar, o município de Ponte Nova/MG e o distrito de Rosário do Pontal não estão elencados nas referidas cláusulas, que, para fins indenizatórios, trazem a delimitação geográfica natural e necessária, na medida em que a Fundação Renova, instituída nos termos da Cláusula 5, inciso IV, bem como das Cláusulas 209 e seguintes do TTAC, tem o propósito específico de gerir e executar as medidas socioeconômicas e socioambientais de reparação e compensação dos danos decorrentes do Rompimento relativos às áreas consideradas como atingidas pelas partes que firmaram o TTAC.

11. Em outras palavras, Excelência, a execução pela Fundação Renova de qualquer medida que não esteja prevista no TTAC e/ou que se destine a região não prevista expressamente no TTAC - ou, ao menos, onde não houve comprovação efetiva de danos decorrentes do Rompimento -, configura desvirtuamento de sua finalidade específica, o que é vedado pelos artigos 62 e seguintes do Código Civil.

12. Diante da possibilidade, ainda que remota, (i) de existirem localidades atingidas ainda não listadas no TTAC; (ii) de ser identificada a necessidade de execução de Programa de reparação não previsto no TTAC; ou (iii) de ser identificada a necessidade de pactuar-se qualquer outro ajuste, foi previsto, nas Cláusulas 94ª a 100ª do Termo de Ajustamento de Conduta assinado em 25.6.2018 ("TAC-Gov"), o Processo Único de Repactuação dos Programas.

13. O processo de repactuação previsto no TAC-Gov é um procedimento único, complexo e extenso de revisão das cláusulas do TTAC. Não é possível, portanto, sejam ultrapassadas todas as etapas previstas – e homologadas judicialmente – no âmbito do TAC-Gov para se permitir o ingresso de incidente de cumprimento de sentença de Município não previsto no TTAC como área atingida.

14. Nesse contexto, considerando que o Cumprimento de Sentença nº 1000415- 46.2020.4.01.3800 ("Eixo 7") (i) é cumprimento da sentença que homologou o TAC-Gov; e (ii) foi instaurado para decidir temas relacionados aos programas de reparação e compensação previstos no TTAC, não se pode admitir o processamento de pleito específico, distribuído por dependência ao Eixo 7, para exigir o cumprimento forçado dos acordos por alegados descumprimento das demandas, tendo em vista que o Município não está listado no referido acordo.

15. À Comissão de Atingidos, dado entender representar indivíduos que preencheriam a condição de atingidos porquanto atingido pelo Rompimento teria sido o município de Ponte Nova, caberia buscar, em procedimento próprio de conhecimento, e preliminarmente ao que aqui pleiteia, o reconhecimento do território em que localizados os atingidos que representa como atingido pelo Rompimento, o que, de resto, desafiaria a verificação de sua legitimidade a tanto, ponto a ser enfrentado no procedimento próprio. Neste procedimento, à míngua do necessário reconhecimento prévio, submetido às regras do contraditório e ampla defesa, não pode a Comissão de Atingidos pleitear indenizações que terão por imprescindível requisito tal reconhecimento.

(...)

16. Ademais, não cabe à Comissão de Atingidos, que sequer fez parte da discussão ou mesmo da assinatura do TTAC, formular pleito para sua alteração. Não há fundamentos técnicos, jurídicos ou mesmo contratuais para que o pedido feito pela Comissão de Atingidos extrapole o que foi delimitado pelo título executivo judicial, isso é, o TTAC, exaustivamente discutido pelas partes que o firmaram e tecnicamente assegurado por estudos e análises de campo.

17. Com a devida vênia, é impossível, por meio de procedimento de cumprimento de sentença, menos ainda de petição isolada protocolada nos autos do Eixo 7, que a Comissão de Atingidos habilite-se para fins de recebimento de valores, como se constasse originalmente no TTAC. Qualquer inclusão de área como "atingida", nos termos do TTAC e do TAC-Gov, deve passar inicialmente pela análise, deliberação e concordância de seus signatários – que, frisa-se, constitui rol que não inclui a Comissão de Atingidos – para que, em momento seguinte, seja objeto da devida homologação judicial.

18. Em outras palavras, não cabe à Comissão de Atingidos pleitear, pela via inadequada do cumprimento de sentença, o recebimento de indenizações com base no TTAC, pois não há uma obrigação líquida e exigível, homologada em Juízo, que determine a recomposição de danos supostamente ocorridos no município de Ponte Nova/MG e no distrito de Rosário do Pontal. Do mesmo modo, não há previsão em acordo ou em decisão judicial que permita à Comissão de Atingidos utilizar-se da via executiva para levar adiante seus pleitos indenizatórios.

19. Não há como ignorar as etapas previstas nos mencionados instrumentos para que seja recebido o presente cumprimento de sentença. Eventual inclusão de uma Nova Área àquelas taxativamente expressas na Cláusula 01 do TTAC demandaria estudo técnico específico, com a participação de todos os envolvidos, respeitado o contraditório. Dessa forma, para que se admita inclusão de uma Nova Área ao TTAC, deve-se iniciar um verdadeiro processo de conhecimento, com etapas processuais incompatíveis com o trâmite de cumprimento de sentença.

20. Nessa esteira, é necessário analisar a inexistência de presunção de que danos relacionados ao Rompimento teriam ocorrido no município de

Ponte Nova/MG e no distrito de Rosário do Pontal – diferentemente do que ocorreu com os municípios listados na Área de Abrangência Socioeconômica do TTAC. Não obstante o que afirma a Comissão de Atingidos, não há qualquer obrigação assumida pelas Empresas ou pela Fundação Renova em implementar quaisquer programas nas referidas localidades, ao menos enquanto não restar comprovado o nexo causal entre os danos alegados e o Rompimento. E, repita-se, para provar nexo causal é necessário processo de conhecimento próprio.

21. Sobre o tema e corroborando ao extremo a falta de legitimidade da Comissão de Atingidos para o pleito aqui discutido, rememora-se que está em trâmite perante esse MM. Juízo a Ação Civil Pública de nº 1013159-44.2018.4.01.3800, por meio da qual o município de Ponte Nova requer sua inclusão na "lista de municípios atingidos" do TTAC, sob o pretexto de ter sofrido os mesmos impactos ambientais que os demais municípios lá previstos. Ora, o pleito da Comissão de Atingidos não só não merece prosperar pela ausência de legitimidade, como já se encontra corretamente endereçado pelo Município em ação própria, perante o foro competente, reforçando a necessidade de imediata extinção dessa demanda.

22. Diante do exposto, o ingresso com o presente cumprimento de sentença é inadequado, pois (i) o município de Ponte Nova/MG e o distrito de Rosário do Pontal não são listados no TTAC como áreas atingidas inclusas nos programas da Fundação Renova; (ii) eventual inclusão de Nova Área ao TTAC depende da concordância de seus signatários, com a devida homologação em Juízo e (iii) a comprovação de que houve danos ou impactos no município de Ponte Nova/MG e no distrito de Rosário do Pontal depende de prova técnica específica inerente a processo de conhecimento, não cabível no trâmite de cumprimento de sentença e devendo ser ajuizada pelo próprio município de Ponte Nova.

23. Desse modo, requer-se a extinção do presente cumprimento de sentença, nos termos do artigo 485, inciso IV, do CPC."

Por seu turno, as COMISSÕES DE ATINGIDOS, por meio da PETIÇÃO ID 405824361, salientaram a ausência de políticas indenizatórias para os atingidos de Ponte Nova, bem como que a paralisação dos processos indenizatórios em andamento evidencia a tentativa de procrastinação das empresas rés. Por fim, aduziram que houve **reconhecimento tácito** daquelas em relação ao programa indenizatório. *In verbis*:

"(...)

Os atingidos do Distrito do Rosário do Pontal e de Ponte Nova, têm tido impasse perante a Fundação Renova, para com seus processos indenizatórios, pois esta, a partir de meados de 2019, paralisou os processos indenizatórios da cidade de Ponte Nova, inclusive dos

atingidos do Distrito do Rosário do Pontal, alegando não haver políticas indenizatórias para estes atingidos, em razão da Cidade de Ponte Nova, não estar no TTAC.

As afirmativas da Fundação Renova de paralisação dos processos indenizatórios, não desenvolvendo mais uma política indenizatória para com os atingidos da cidade de Ponte Nova e especificamente para os atingidos do Distrito do Rosário do Pontal não tem qualquer fundamento e se mostra contraditória, pois **é fato incontroverso que já houve reconhecimento tácito das Rés e da Fundação Renova, de que Ponte Nova e especificamente o Distrito do Rosário do Pontal foram atingidos pelo rompimento da barragem do Fundão**.

Vejamos então:

1) o Rio Doce se forma em Ponte Nova, na junção do Rio do Carmo com o Rio Piranga, a pesca profissional no Rio Piranga é proibida, em razão das características do Rio. Assim os pescadores se dirigiam ao Rio Doce e Lagoa do Candonga para realizarem suas atividades pesqueiras.

2) Vários moradores da cidade de Ponte Nova e do Distrito do Rosário do Pontal, já foram beneficiados com o programa indenizatório da Fundação Renova. (em anexo).

3) Vários atingidos são beneficiados pelos programas do AFE (Auxílio Financeiro Emergencial).

4) A própria Fundação Renova, reconhece os moradores do distrito do Rosário do Pontal como atingido, e convoca-os para audiência pública, em 15 de outubro de 2020 (em anexo).

5) Existem relatórios de finalização de cadastro realizado pela Fundação Renova, onde atingidos pescadores do distrito do Rosário do Pontal, foram reconhecidos como impactados. (em anexo).

6) Há políticas indenizatórias para moradores do Chopotó pertencente ao Município de Ponte Nova. O distrito do Rosário do Pontal faz fronteira com o Chopotó, chegando a se confundirem.

Vemos assim, que a atitude da Fundação Renova de paralisação dos processos indenizatórios e falta de política indenizatória para os atingidos da cidade de Ponte Nova e do distrito do Rosário do Pontal é mais uma tentativa de procrastinação e de se eximir de sua responsabilidade, já constatada, para com os atingidos, já se passaram 5 (cinco) anos do fato, e não houve pagamento de uma indenização que já devia ter sido efetivada, sem que houvesse necessidade, sequer, de interposição de ações para que os atingidos fossem indenizados. Diante do TTAC firmado, as empresas responsáveis pelo rompimento da

> barragem do Fundão se comprometem a indenizar os atingidos. A realidade é, que, de forma negligente para com os atingidos, agem com empáfia e indiferença, mesmo sendo responsáveis por um dos maiores desastres ambientais da história do país, rompimento da barragem do Fundão."

Pois bem.

A preliminar formulada pelas empresas rés **não merece prosperar**.

Conforme o entendimento já exarado no **PJE 1013159-44.2018.4.01.3800** (**AÇÃO CIVIL PÚBLICA**) – o qual deve ser replicado nessa sentença – este juízo **deferiu** o pedido de tutela provisória de urgência formulado pelo município de Ponte Nova/MG, **reconhecendo-o como impactado, enquanto território diretamente atingido pelo rompimento da barragem de Fundão**. *In verbis*:

> "(...)
>
> **VI - DO PEDIDO LIMINAR - TUTELA PROVISÓRIA DE URGÊNCIA**
>
> Para a concessão da tutela provisória de urgência, os pressupostos acham-se previstos no art.300, caput, do CPC, quais sejam a probabilidade do direito invocado e o perigo de dano ou o risco ao resultado útil do processo.
>
> A parte autora pleiteou:

a) **LIMINARMENTE**, seja concedida a Tutela Provisória de Urgência, de natureza antecipada, em caráter i ALTERNATIVAMENTE, a Tutela Provisória de Evidência, para condenar as rés a:

a.1) incluir o Município de Ponte Nova no Termo de Transação e de Ajustamento de Conduta, notadam

- Área Ambiental nº 01 (Cláusula 01, IV),
- Área Ambiental nº 02 (Cláusula 01, V),
- Área de Abrangência Socioeconômica (Cláusula 01, VII),
- em outras áreas e/ou programas que se mostrarem necessários para a recuperação, mitigaçã reparação e indenização pelos impactos socioambientais e socioeconômicos causados ao m rompimento da barragem 2 da Represa Fundão, inclusive aqueles mencionados nesta petição inicial;

a.2) execução dos programas acima mencionados, além de outros programas/ações/projetos soci socioeconômicos previstos no TTAC, que se mostrarem necessários, em benefício do Município de inclusive aqueles mencionados nesta petição inicial, devendo apresentar relatório das medidas a serem n etapas, metas e cronograma de execução.

Vê-se, portanto, que o pleito liminar engloba: **a) inclusão** do Município de Ponte Nova no TTAC, como território atingido pelo rompimento da Barragem de Fundão em Mariana, em especial, na Área Ambiental n. 01, na Área Ambiental n. 02, na Área de Abrangência Socioeconômica, dentre outros; **b) execução** imediata de programas no referido território.

Examinando a questão, verifico que **estão configurados** os pressupostos que autorizam, em parte, a concessão da tutela provisória requerida pela parte autora.

No que concerne ao reconhecimento do **Município de Ponte Nova** enquanto território diretamente atingido pelo rompimento da Barragem de Fundão em Mariana (item a.1), **tenho que razão lhe assiste**.

Primeiramente, deve-se consignar que, nos termos do artigo 5º, inciso XXXV, da Constituição Federal, "a lei não excluirá da apreciação do Poder Judiciário lesão ou ameaça a direito". Outrossim, não obstante haja de ser prestigiado o princípio da segurança jurídica e da coisa julgada - tão caros ao Direito - (que, aliás, aqui, mantém-se incólumes), sobrevindo circunstância fático-jurídica [novos elementos], o pleito formulado há de ser apreciado pelo juízo.

Ademais, a leitura atenta do TTAC não contempla a interpretação (restritiva) no sentido de que o referido acordo teria se vinculado apenas aos municípios por ele listados (*numerus clausus*).

A esse respeito, cabe relembrar a sempre lúcida advertência de Carlos Maximiliano, mestre da exegese, para quem:

> "Deve o Direito ser interpretado inteligentemente: não de modo que a ordem legal envolva um absurdo, prescreva inconveniências, vá ter a conclusões inconsistentes ou impossíveis".

Vejamos.

Logo de início, já por ocasião de seus considerandos, o TTAC reconhece que o rompimento da barragem de Fundão trouxe impactos que atingiu **680 km de corpos d'água** nos estados de Minas Gerais e Espírito Santo. *In verbis:*

> (...)
>
> CONSIDERANDO que o rompimento da barragem de Fundão trouxe consequências ambientais e sociais, em um EVENTO que **atingiu 680 km de corpos d'água nos estados de Minas Gerais e Espírito Santo, além de impactos à regiões estuarinas do Rio Doce e regiões costeiras e marinha.**

Cumpre consignar, *de forma exemplificativa*, que, ao estabelecer as bases de definição técnica e de sua interpretação, o TTAC não se vinculou aos municípios expressamente listados, pois a cláusula 01, itens VI e VIII, expressamente incluiu na área de abrangência socioeconômica as *áreas estuarinas, costeiras e marinha impactadas*. E, ainda, "*comunidade adjacente à Calhas (...)*". *In verbis:*

> CAPÍTULO PRIMEIRO:
>
> CLÁUSULAS GERAIS
>
> CLÁUSULA 01: O presente ACORDO será delimitado e interpretado a partir das seguintes definições técnicas:
>
> (...)
>
> IV. ÁREA AMBIENTAL 1: **as áreas abrangidas pela deposição de rejeitos nas calhas e margens dos rios Gualaxo do Norte, Carmo e Doce, considerando os respectivos trechos de seus formadores e tributários**, bem como as regiões estuarinas, costeiras e marinha na porção impactada pelo EVENTO.
>
> V. ÁREA AMBIENTAL 2: **os municípios banhados pelo Rio Doce e pelos trechos impactados dos Rios Gualaxo do Norte e Carmo**, a saber: Mariana, Barra Longa, Rio Doce,

> Santa Cruz do Escalvado, Sem-Peixe, Rio Casca, São Pedro dos Ferros, São Domingos do Prata, São José do Goiabal, Raul Soares, Dionísio, Córrego Novo, Pingo d'Água, Marliéria, Bom Jesus do Galho, Timóteo, Caratinga, Ipatinga, Santana do Paraíso, Ipaba, Belo Oriente, Bugre, lapu, Naque, Periquito, Sobrália, Fernandes Tourinho, Alpercata, Governador Valadares, Tumiritinga, Galileia, Conselheiro Pena, Resplendor, Itueta, Aimorés, Baixo Guandu, Colatina, Marilândia e Unhares. VI. ÁREA DE ABRANGÊNCIA SOCIOECÔNÔMICA: localidades e comunidades adjacentes à Calha do Rio Doce, Rio doCarmo, Rio Gualaxo do Norte e Córrego Santarém **e a áreas estuarinas, costeira e marinha impactadas.**
>
> VI. ÁREA DE ABRANGÊNCIA SOCIOECONÔMICA: **localidades e comunidades adjacentes à Calha do Rio Doce, Rio do Carmo, Rio Gualaxo do Norte e Córrego Santarém e a áreas estuarinas, costeira e marinha impactadas**.
>
> (...)
>
> VIII. MUNICÍPIOS E LOCALIDADES DO ESTADO DO ESPÍRITO SANTO NA ÁREA DE ABRANGÊNCIA SOCIOECONÔMICA: Baixo Guandu, Colatina, Barra do Riacho em Aracruz, Marilândia e Linhares, além das áreas estuarinas, costeira e marinha impactadas.

Não há qualquer dúvida, portanto, que o TTAC não só autoriza, mas sim impõe o dever de levar a reparação integral , à comunidade adjacente "à Calha do Rio Doce, Rio do Carmo, Rio Gualaxo do Norte e Córrego Santarém (...)".

A **Nota Técnica nº13** da **Câmara Técnica de Economia e Inovação (CTEI)** - de maio de 2017, **reconheceu** os prejuízos ambientais, sociais e econômicos do Município de Ponte Nova, assim como a necessidade de sua **inclusão** no Termo de Transação e Ajustamento de Conduta, de modo a incluí-lo como destinatário dos programas socioambientais e socioeconômicos. Veja-se (ID 18029951, 82993552):

5. Conclusão

Diante do exposto, conclui-se que tanto o município quanto a microrregião de Ponte Nova foram afetados pelo rompimento da barragem de Fundão, notoriamente sob os aspectos:

I. **Ambiental;** pelos danos à da biota e ictiofauna dos rios Carmo e Piranga, que banham o município e a microrregião, e que fazem parte da bacia do Rio Doce, o que torna a recuperação destes, um requisito essencial para recuperação do Rio Doce.

II. **Sociais;** pelas comunidades rurais diretamente afetadas na divisa dos municípios de Barra Longa e Ponte Nova e pala inacessibilidade de moradores de comunidades da microrregião a serviços essenciais como os hospitalares e de seguridade social, através do cancelamento de linhas de ônibus para Ponte Nova, em decorrência do bloqueio das estradas.

III. **Econômicos;** pelas perdas de recitas dos setores de serviços, comercial e industrial de Ponte Nova, - a cidade é um importante centro regional de comércio e serviços - e consequente, perda de arrecadação do município.

Encaminhamos essas informações para definição do CIF e do Juiz da 12.ª Vara Federal em relação à inclusão do município de Ponte Nova no Termo de Transação e Ajustamento de Conduta (TTAC), no rol dos atingidos pelo Evento, sem prejuízo ao atendimento e à aplicação dos recursos disponíveis aos municípios já inseridos nas áreas de abrangência socioeconômica e ambiental.

Diante do exposto, encaminhamos essas informações para definição do CIF e do Juiz da 12.ª Vara Federal em relação à inclusão do município de Ponte Nova/MG na Área Ambiental 2 conforme Alínea V da Cláusula 1 do TTAC e na e na relação de Municípios e Localidades do Estado de Minas Gerais na Área de Abrangência Socioeconômica definida na Alínea VII da Cláusula Primeira do TTAC. Visando a reparação e a compensação das consequências socioeconômicas e ambientais do EVENTO, tal inclusão possibilita que o Município de Ponte Nova seja atendido pelos Programas Socioeconômicos e Socioambientais definidos nos Capítulo Segundo e Terceiro do TTAC, especificamente nos Programas previstos nas Cláusulas abaixo:

Programas Socioeconômicos

- Cláusulas 19 a 30. Programa de levantamento e de cadastro dos IMPACTADOS.
- Cláusulas 31 a 38. Programa de ressarcimento e de indenização dos IMPACTADOS.
- Cláusulas 54 a 58. Programa de Proteção Social.
- Cláusulas 59 a 72. Programa de Comunicação, Participação, Diálogo e Controle Social.
- Cláusulas 101 a 105. Programa de apoio ao turismo, cultura, esporte e lazer, de cunho reparatório e compensatório.
- Cláusulas 106 a 112. Programa de Apoio à Saúde Física e Mental da População Impactada.
- Cláusulas 113 a 115. Programa de apoio à pesquisa para desenvolvimento e utilização de tecnologias socioeconômicas aplicadas à remediação dos impactos, de natureza compensatória.
- Cláusulas 124 a 128. Programa de Retomada das Atividades Agropecuárias.
- Cláusulas 129 a 131. Programa de Recuperação e Diversificação da Economia Regional com Incentivo à Indústria, de cunho compensatório.
- Cláusulas 134 a 136. Programa de Estímulo à Contratação Local, de cunho Compensatório.
- Cláusulas 137 a 140. Programa de Auxílio Financeiro Emergencial aos IMPACTADOS.
- Cláusula 142. Ressarcimento de gastos públicos decorrentes do EVENTO.

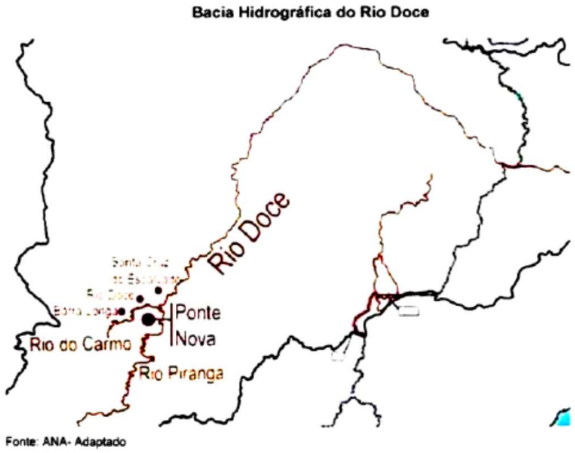

Programas Socioambientais

Em relação aos Programas Socioambientais, deverão ser feitos estudos para verificar os danos ambientais ocorridos no Município de Ponte Nova visando definir a sua inclusão em Programas definidos no Capítulo Terceiro do TTAC, (Cláusulas 145 a 184) conforme parecer a ser elaborado pelas Câmaras Técnicas pertinentes e aprovado por Deliberação do Comitê Interfederativo (CIF).

Cristiane Serpa
Diretora-Presidente

Cristiane Amaral Serpa
Câmara Técnica de Economia e Inovação
Belo Horizonte, 5 de maio de 2017

Consta da referida Nota Técnica, além de outros elementos fático-jurídicos, imagem que demonstra a localização geográfica do Município de Ponte Nova, para fins de corroborar as conclusões obtidas (cf. acima):

Os demais documentos constantes dos autos também corroboram o pleito antecipatório.

É de se destacar que a parte requerida, embora busque argumentar em sentido contrário, admite e reconhece o Município de PONTE NOVA/MG como impactado, de modo abrangente (e não apenas pontual).

Veja-se trecho constante da contestação apresentada pela Vale S/A - buscando afastar o interesse de agir da parte autora - (ID 34078492):

(...)

19. Diante da seriedade das medidas que vêm sendo executada em prol dos municípios impactados pelo rompimento da barragem d Fundão, faz-se impositivo o reconhecimento da falta de interesse d agir do autor em relação a esta demanda. Isso porque não h necessidade, tampouco adequação no provimento jurisdiciona pretendido.

20. Basta a leitura dos pedidos formulados pelo MUNICÍPIO D PONTE NOVA na petição inicial desta demanda, mediante cotejo com o inúmeros acordos firmados pela SAMARCO, com o objetivo de mitigar o impactos pelo acidente, para se constatar que todos eles já restara devidamente endereçados, independentemente de qualquer decisã judicial.

21. Apenas em relação ao TTAC, como se passará a demonstrar seguir, os seguintes programas vêm sendo executados na região d Ponte Nova:

(...)

- Programa de Cadastramento Integrado (Cláusulas 19 a 3 do TTAC): 390 (trezentas e noventa) pessoa cadastradas, totalizando 117 (cento e dezessete portfólios de cadastro;
- Programa de Indenização Mediada (Cláusulas 31 a 38 d TTAC): além dos núcleos familiares cadastrados, fora mapeadas 07 (sete) propriedade rurais impactadas n distrito de Chopotó, as quais vêm sendo atendidas pel programa;
- Auxílio Financeiro Emergencial (Cláusulas 137 a 140 d TTAC): atualmente, 03 (três) núcleos familiares recebe auxílio, todos localizados em Chopotó;
- Programa de Retomada das Atividades Agropecuária (Cláusulas 124 a 128 do TTAC) e Programa de Fomento Implantação do Cadastro Ambiental Rural e d Regularização Ambiental (Cláusula 183 do TTAC);

- Programa de Assistência aos Animais na região d MUNICÍPIO (Cláusulas 73 a 75 do TTAC);
- Programa de Recuperação da Área Ambiental 1 (Cláusula 158 a 160 do TTAC): foram reabilitados 22,89 ha (vint e dois vírgula oitenta e nove hectares), compreendend a (i) revegetação emergencial com espécies de rápid crescimento; (ii) a reconformação topográfica da planícies de inundação e disciplinamento dos sistema de drenagem e a reabilitação de solos, afluentes terras agrícolas por meio de técnicas de bioengenharia,
- Programas de Recuperação de Áreas de Preservaçã Permanente (APP) e de Recuperação de Nascentes e Área de Recarga Hídrica na Bacia do Rio Doce (Cláusulas 16 a 163);
- Programa de Manejo de Rejeitos que foram depositadc nas calhas e margens dos rios Gualaxo do Norte, Carmo Doce (Cláusulas 150 a 153);
- Programa de Conservação da Biodiversidade Aquátic (Cláusulas 164 a 166 do TTAC).

22. Hoje, aplicam-se esses programas ao MUNICÍPIO DE PONT NOVA, pois, na localidade, até o momento, foram identificadc impactos de menor extensão, que afetam essencialmente propriedade privadas, demandando ações de indenização e de pagamento de auxíli emergencial. É possível, entretanto, que, caso se verifiquem outra necessidades no município, não abrangidas pelo referido programa, s dê início à execução de outras ações não contempladas no planejament acima descrito.

E, ainda, trecho constante da contestação apresentada pela BHP Billiton Ltda. (ID 33800078):

(...)

29. Em resposta, a Fundação Renova enviou ao CIF o Ofício OFI.NII.032018.2776 (Doc. 4), pelo qual esclareceu alguns pontos fundamentais acerca das medidas reparatórias em curso no Município:

(1) os atingidos do Distrito de Chopotó – inclusive alguns dos indivíduos listados na inicial - são beneficiados pelas intervenções dos Programas Socioeconômicos e Socioambientais desde o período emergencial (Doc. 7);

(2) na medida em que forem aplicáveis, as ações previstas nos Programas relativas à Área Ambiental 1 do TTAC estão sendo executadas também no território de Ponte Nova, em especial no Distrito de Chopotó, entre eles: Programa de Levantamento e Cadastro Integrado; Programa de Recuperação da Área Ambiental 1; Programa de Retomada das Atividades Agropecuárias; Programa de Fomento à Implantação do Cadastro Ambiental Rural (CAR); Programa de Regularização Ambiental (PRA) na Área Ambiental 1; Programa de Recuperação de Áreas de Preservação Permanente; Programa de Recuperação de Nascentes e Áreas de Recarga Hídrica na Bacia do Rio Doce; Programa de Manejo de Rejeitos; Programa de Conservação da Biodiversidade Aquática; Programa de Auxílio Financeiro Emergencial; Programa de Indenização Mediada; e Programa de Retomada das Atividades Aquícolas e Pesqueiras;

(3) a despeito da ausência de previsão específica, "*outras ações dos Programas Socioambientais e Socioeconômicos podem vir a ser planejadas e implementadas na região à medida que o processo reparatório exigir*" (Doc. 4).

30. Ademais, é importante diferenciar o Município de Ponte Nova, enquanto pessoa jurídica de direito público, das pessoas atingidas no território do Município de Ponte Nova. A petição inicial não narra um dano sequer ao patrimônio público municipal. Toda a narrativa está assentada

(...)

sobre danos supostamente causados a propriedades particulares às margens do Rio do Carmo, até a confluência com o Rio Piranga, em um trecho de aproximadamente 12,5 km. Os bens do Município de Ponte Nova, em especial sua área urbana, não foram afetados.

31. Logo, com todo o respeito e acatamento, o Município traz versão distorcida dos fatos, construída a partir da assertiva de que somente os municípios incluídos nas Áreas Ambientais 1 e 2 / Área de Abrangência Socioeconômica do TTAC poderiam se beneficiar dos programas socioambientais e socioeconômicos do acordo. Mas o fato é que o Autor, servindo-se da estrutura de governança criada pelos acordos coletivos principais, obteve a extensão dos programas reparatórios previstos no TTAC para os atingidos de seu território. Como se nota, os impactos socioambientais e socioeconômicos no território de Ponte Nova não estão sendo negligenciados pelos envolvidos.

(...)

(i) Falta de interesse processual – Questões tratadas pelo sistema de reparação e governança – Art. 485, VI, do CPC

37. O fato de o Município de Ponte Nova não estar listado expressamente no TTAC não significa que os atingidos em seu território não tenham sido atendidos pela Samarco e pela Fundação Renova.

38. O Município queixa-se de não ter sido contemplado pelas Áreas Ambientais 1 e 2 / Área de Abrangência Econômica previstas no TTAC, alegando que tal circunstância seria impeditiva para que fosse "*destinatári*[o] *das ações implementadas pelas requeridas para reparação e indenização dos prejuízos sofridos*" (ID 18005990 - Pág. 3). *Concessa venia*, o Município procura criar um falso cenário no qual sustenta que as empresas estariam negligenciando os danos sofridos na região e deixando de implementar as medidas reparatórias aplicáveis.

39. A realidade, no entanto, é bem distinta daquela construída na petição inicial: os atingidos do Município de Ponte Nova em momento algum deixaram de ser beneficiários das medidas reparatórias previstas no TTAC e podem contar, como contado têm, com os programas socioambientais e socioeconômicos executados pela Fundação Renova cabíveis.

40. Desde o período emergencial, os atingidos do Município recebem o auxílio de ações previstas no TTAC, sobretudo no que se refere ao Distrito de Chopotó, única área comprovadamente impactada, embora Ponte Nova não esteja formalmente listada como integrante das Áreas 1 e 2 / Área de Abrangência Socioeconômica.

41. Outro elemento inexplicavelmente deixado de fora da narrativa da inicial corresponde ao relatório de "Definição do Programa de Recuperação da Área Ambiental 1" elaborado pela Fundação Renova e submetido aos órgãos fiscalizadores em Novembro/2017 (Doc. 5). Embora tenha sido preparado com vistas a definir as fases de execução do "Programa de Recuperação da Área Ambiental 1", tal documento **expressamente integra o Município de Ponte Nova** entre seus beneficiários.

(...)

46. A propósito do tema do sistema de governança e da oportunidade de participação e influência do Município na gestão do processo reparatório, convém observar que o CIF é o fórum qualificado para a discussão da abrangência e adequação dos programas previstos no TTAC, cuja atuação tem se mostrado efetiva, dispensando a intervenção do Poder Judiciário em casos como este. Prova disso são as solicitações do CIF à Renova para a "*revisão dos programas e ações a serem executadas nos estritos termos da definição da Área Ambiental 1 do TTAC, com vistas à inclusão do município de Ponte Nova na referida área*" (ID 18029957), que se seguiram após as reclamações levadas pelo Autor ao órgão.

E, também, a Samarco S/A (ID 33786451):

30. No caso da presente ACP, é patente a ausência de interesse de agir do MUNICÍPIO, uma vez que **a pretensão autoral já vem sendo satisfeita por meio das ações conduzidas pela FUNDAÇÃO, independentemente de qualquer decisão judicial.**

31. Como será demonstrado de forma mais detalhada nos itens que se seguem, desde o ACIDENTE, durante o período emergencial, vêm sendo espontaneamente realizadas ações de reparação dos danos na área de abrangência do MUNÍCIPIO, especialmente no distrito de Chopotó, onde foram verificados danos físicos e estruturais em razão da passagem dos rejeitos. Abaixo, apresentamos, de forma resumida, os programas previstos no TTAC que vêm sendo implementados no MUNICÍPIO:

- **Programa de Cadastramento Integrado (Cláusulas 19 a 31 do TTAC):** 390 (trezentas e noventa) pessoas cadastradas, totalizando 117 (cento e dezessete) portfólios de cadastro;

- **Programa de Indenização Mediada (Cláusulas 31 a 38 do TTAC):** além dos núcleos familiares cadastrados, foram mapeadas 07 (sete) propriedade rurais impactadas no distrito de Chopotó – as quais incluem os produtores rurais atingidos, descritos pelo MUNICÍPIO na exordial, os quais vêm sendo atendidos pelo programa;

- **Auxílio Financeiro Emergencial (Cláusulas 137 a 140 do TTAC):** atualmente, 03 (três) núcleos familiares recebem auxílio, todos localizados em Chopotó;

- **Programa de Retomada das Atividades Agropecuárias (Cláusulas 124 a 128 do TTAC) e Programa de Fomento à Implantação do Cadastro Ambiental Rural e de Regularização Ambiental (Cláusula 183 do TTAC):** (i) 07 (sete) diagnósticos aplicados (indicadores de sustentabilidade em agroecossistemas); (ii) todos os CAR estão ativos no SICAR (Cadastro Ambiental Rural); (iii) Planos de Adequação Socioeconômicos e Ambientais em fase de produção; (iv) 5,52 ha (cinco vírgula cinquenta e dois hectares) foram plantados com finalidade de alimentação animal; (v) 805 (oitocentas e cinco) toneladas de silagem foram entregues (a entrega é feita até a recuperação total da propriedade); (vi) 89 (oitenta e nove) horas de assistência técnica e extensão rural foram ministradas; (vii) 2 (dois) proprietários rurais receberam novos conjuntos de irrigação e (viii) realizados plantios de cana e pasto para alimentação animal, bem como a confecção de cerca de arame farpado;

- **Programa de Assistência aos Animais na região do MUNICÍPIO (Cláusulas 73 a 75 do TTAC):** foram elaborados 23 prontuários para 2 (dois) proprietários – uma proprietária de 22 (vinte e duas) galinhas e um proprietário de um bovino;

- **Programa de Recuperação da Área Ambiental 1 (Cláusulas 158 a 160 do TTAC):** foram reabilitados 22,89 ha (vinte e dois vírgula oitenta e nove hectares), compreendendo a (i) revegetação emergencial com espécies de rápido crescimento;

(ii) a reconformação topográfica das planícies de inundação e disciplinamento dos sistemas de drenagem e a reabilitação de solos, afluentes e terras agrícolas por meio de técnicas de bioengenharia;

- Programas de Recuperação de Áreas de Preservação Permanente (APP) e de Recuperação de Nascentes e Áreas de Recarga Hídrica na Bacia do Rio Doce (Cláusulas 161 a 163): estão previstas a restauração florestal nas 07 (sete) propriedades impactadas de Chopotó e a recuperação de 100 (cem) nascentes;

- Programa de Manejo de Rejeitos que foram depositados nas calhas e margens dos rios Gualaxo do Norte, Carmo e Doce (Cláusulas 150 a 153): o distrito de Chopotó está contemplado em parte do Plano de Manejo de Rejeito dos Trechos 10 e 11 – dos 17 (dezessete) trechos previstos;

- **Programa de Conservação da Biodiversidade Aquática (Cláusulas 164 a 166 do TTAC):** há dois pontos de coleta instalados no Rio Doce que subsidiarão o estudo populacional da ictiofauna;

32. Há que se ressaltar ainda, a possibilidade de que sejam elaborados estudos de verificação de impactos, conduzidos conjuntamente entre a FUNDAÇÃO e o CIF, que verifiquem a existência de danos que demandem a atuação específica de outros programas previstos no TTAC. Como exemplo dos estudos, podemos citar a Deliberação nº 239, emitida pelo CIF e trazida aos autos pelo AUTOR (*ID 24185021*), a qual determinou a realização de estudos de impacto ao turismo, cultura, esportes e lazer na região de Ponte Nova.

33. Dito isso, fica claro que os impactos diretos identificados até o momento na área do MUNICÍPIO limitam-se a uma pequena extensão (cerca de 23ha) e afetam primordialmente propriedades privadas, cujos proprietários ou posseiros já foram incluídos nos programas de indenização e auxílio emergencial aplicáveis a cada caso (PIM e AFE).

34. Portanto, além de inexistir racional para incluir o AUTOR nas Áreas de Abrangência I e II ao lado de municípios que sofreram danos e impactos muito mais intensos e com extensão além de propriedades individuais (como, por exemplo, Mariana e Barra Longa), não há qualquer omissão ou resistência, seja por parte da FUNDAÇÃO, SAMARCO ou de suas ACIONISTAS, que justifique o ajuizamento da presente demanda. Com efeito, desde o período emergencial, e, antes mesmo do TTAC, de forma voluntária e proativa, a SAMARCO vem realizando ações de reparação, mitigação e compensação dos impactos do ACIDENTE no MUNICÍPIO, atualmente coordenadas pela FUNDAÇÃO. Muito embora Ponte Nova não esteja listada dentre os municípios impactados no TTAC, impossível negar todo o trabalho já desenvolvido, os trabalhos em desenvolvimento e os projetos em discussão juntamente com o CIF.

E, por fim, a Fundação Renova (ID 34008476):

Tais propriedades, localizadas na porção norte do Município, são consideradas como objetos do Programa de Recuperação da Área Ambiental 1 (previsto nas cláusulas 158, 159 e 160 do TTAC), o qual possui por finalidade a recuperação de dois mil hectares da área diretamente impactada pelo rompimento da barragem, por meio da revegetação inicial, emergencial e temporária de 800 hectares e controle de processos erosivos, bem como pela restauração florestal e agrícola das áreas que sofreram deposição de rejeitos.

Isso se comprova por meio do documento "Definição – Etapa 3 – PG-025 – Recuperação da Área Ambiental 1" (entregue ao CIF e à Câmara Técnica de Restauração Florestal e Produção de Água através do ofício OFI.NII.122017.1876), no qual a Fundação Renova informa que as atividades de recuperação ambiental acima citadas seriam também realizadas nas áreas impactadas do Município Autor descritas na Figura 1.

Ressalte-se que, em outubro de 2018, já haviam sido reabilitados 22,89 hectares nas propriedades de Ponte Nova, através da revegetação emergencial com espécies de rápido crescimento, reconformação topográfica das planícies de inundação, disciplinamento dos sistemas de drenagem e reabilitação de solos, afluentes e terras agrícolas por meio de técnicas de bioengenharia.

Tais propriedades também estão sendo atendidas no âmbito do Programa de Retomada das Atividades Agropecuárias (cláusulas 124 a 128 do TTAC), que possui por propósito *"recuperar as atividades agropecuárias e dos produtores IMPACTADOS ao longo da Calha do Rio Doce"*, e está intimamente ligado ao Programa de Fomento à Implantação do Cadastro Ambiental Rural e ao Programa de Regularização Ambiental na Área Ambiental 1 na Bacia do Rio Doce (cláusula 183 do TTAC).

(...)

Já no âmbito do Programa de Recuperação das Áreas de Preservação Permanente (APP) e Áreas de Recarga da Bacia do Rio Doce, com controle de processos erosivos (cláusulas 161 e 162 do TTAC), e do Programa de Recuperação de Nascentes (cláusula 163 do TTAC), estão previstas para a região de Ponte Nova, além da restauração florestal nas sete propriedades localizadas no distrito de Chopotó, a recuperação de cem nascentes, possivelmente localizadas na microbacia do Cantagalo.

> Ademais, o Município de Ponte Nova está contemplado no Plano de Manejo de Rejeitos dos Trechos 10 e 11 (em cumprimento à cláusula 151 do TTAC), já tendo sido iniciadas as atividades de recuperação de mata ciliar e restabelecimento da produção agrícola.
>
> Com relação ao Programa de Conservação da Biodiversidade Aquática (cláusulas 164 a 166 do TTAC), estão sendo propostos dois grandes estudos – um com o objetivo de estudar a biota aquática e preparar uma avaliação de impacto sobre organismos aquáticos e, posteriormente, a elaboração de um plano de ação que irá contemplar vários projetos para a recuperação das populações de peixes e outros organismos aquáticos.
>
> E, no que toca ao monitoramento da biota aquática, dois pontos de coleta no Rio Doce, que subsidiarão o estudo populacional da ictiofauna, estão localizados em Ponte Nova, sendo neles realizados coletas mensais durante doze meses (a partir de abril de 2017):

(...)

Cumpre salientar que, como muito bem pontuado pelo i. Procurador Federal, Dr. Marcelo Kokke, por intermédio da petição ID 82991087:

> 9. Os pleitos deduzidos na presente ação civil pública afetam de maneira direta o TTAC e o TAC-Governança, produzidos em uma sequência democrática e processual de participação. A pretensão do autor afeta uma amplitude de atividades coordenadas a envolver municípios e comunidades atingidas em Minas Gerais e Espírito Santo.
>
> 10. Trata-se de verdadeiro precedente que pode levar a efeitos diretos sobre centenas de outras demandas com o mesmo objeto, desnaturando o TTAC e o TAC-Gov mas principalmente desnaturando seu modelo de gestão do desastre.
>
> **11. O ponto central a ser abordado é possuir o próprio TTAC e o TAC-Gov, ambos já postos em deliberação neste i. Juízo, uma sistemática própria de aplicação aos municípios e principalmente de análise e revisão dos programas neles contidos.**

12. A esfera técnica do CIF assim se manifestou sobre o tema, donde se enfatiza:

Município de Ponte Nova já está incluído em diversos programas socioeconômicos, conforme destacado na NT 13 da Câmara Técnica de Economia e Inovação
• PG 01 - Programa de levantamento e de cadastro dos impactados; • PG 02 - Programa de ressarcimento e de indenização dos impactados; • PG 05 - Programa de proteção social; • PG 06 - Programa de comunicação, participação, diálogo e controle social; • PG 13 - Programa de apoio ao turismo, cultura, esporte e lazer de cunho reparatório e compensatório; • PG 14 – Programa de apoio à Saúde física e mental da população impactada; • PG 15 - Programa de apoio à pesquisa para desenvolvimento e utilização de tecnologias socioeconômicas aplicadas à remediação dos impactos; • PG 17 - Programa de retomada das atividades agropecuárias; • PG 18 - Programa de Recuperação e diversificação da economia regional com incentivo à indústria; • PG 20 - Programa de estímulo à contratação local; • PG 21 - Programa de auxílio financeiro emergencial aos impactados; • PG 42 -Ressarcimento de gastos públicos do evento;

(...)

18. O maior risco com que se depara o i. Juízo e todos os trabalhos já empreendidos no TTAC e no TAC-Gov é com a perda do teor organizacional e processual estabelecido como estrutural no curso do processo principal de abordagem do desastre socioambiental. Ou seja, **o pleito do Município de Ponte Nova há de ser solvido e abordado já dentro das regras do jogo e não em uma alteração externa que somente criará instabilidades**.

19. Nesse sentido, tanto técnica quanto juridicamente, a matéria não deve ser tratada em sobressaltos, quase que como uma "supressão de instâncias".

20. Portanto, a matéria deve ser endereçada e abordada a partir do TTAC e do TAC-Gov e somente após sua exaustão em esfera interna ser encaminhada ao i. Juízo, a fim de que seja decantada e possivelmente solvida em suas problemáticas.

(...)

Ante o exposto e fiel a essas considerações, **defiro a tutela de urgência** e, via de consequência, **RECONHEÇO** o **MUNICÍPIO DE PONTE NOVA/MG** como diretamente impactado e atingido pelo rompimento da Barragem de Fundão [para fins de **imediata inclusão de Ponte Nova/MG** nas áreas Ambiental 1 e 2, bem como na área de Abrangência Econômica do TTAC], nos termos do TTAC e Nota Técnica nº13 da Câmara Técnica de Economia e Inovação (CTEI), fazendo jus a todos os programas e ações em andamento que lhe sejam aplicáveis e correspondentes."

Ademais, diferentemente do que alegam as empresas rés, a **própria** FUNDAÇÃO RENOVA admite e reconhece os **atingidos de Ponte Nova como impactados**. Tanto é verdade que diversos atingidos de Ponte Nova/MG foram incluídos no PROGRAMA DE INDENIZAÇÃO MEDIADA – PIM, com diversos acordos celebrados.

Não se trata de mero cadastro, mas sim de efetivo reconhecimento e efetiva indenização pela Fundação Renova aos atingidos do território de Ponte Nova.

A farta documentação trazidas aos autos pelas COMISSÕES DE ATINGIDOS (DOCUMENTOS ID's 405824385, 405824391, 405824394, 405829349, 405829354) **comprova de forma inquestionável que a Fundação Renova sempre admitiu e reconheceu os atingidos de PONTE NOVA/MG, incluindo Rosário do Pontal (Distrito), como elegíveis aos programas indenizatórios**, notadamente aqueles ligados às atividades de pesca, celebrando com os mesmos **acordos indenizatórios** no âmbito do "PIM", bem como concluindo, em seus **diversos pareceres de avaliação de impacto**, a existência de impactos diretos aos atingidos do referido município. *In verbis:*

	CEP: 35435-500 / CNPJ/ CPF: 848.591.646-87	RG: MG 7594069	
	Estado Civil: CASADO	Profissão: PESCADOR	
	Representante legal (se aplicável):		
ADVOGADO	Nome / Razão social: Helena de Araújo Jorge	OAB/MG: 110.854	
	Endereço profissional: Rua Joaquim Machado Guimarães, nº 07, Bairro Rasa	Cidade: Ponte Nova/MG	
	CEP: 35430-304 / CPF: 650.763.386-00	RG: M-3.119.662	
	Estado Civil:		

Considerando que:

a) No dia 5 de novembro de 2015 ocorreu o rompimento da Barragem de Fundão, localizada no Município de Mariana, Estado de Minas Gerais ("Rompimento");
b) O Termo de Transação e de Ajustamento de Conduta, celebrado em 2 de março de 2016, no âmbito da Ação Civil Pública nº 0069758-61.2015.4.01.3400 ("TTAC"), estabeleceu para a Samarco, com o apoio de suas acionistas, a obrigação de instituir uma Fundação para executar e custear todas as ações ligadas ao PROGRAMA DE INDENIZAÇÃO MEDIADA ("PIM"), dentre outros;
c) A assinatura do presente Termo de Acordo, já considerados os danos por ele abrangidos, não retira outros direitos previstos no TTAC, desde que preenchidos os requisitos do respectivo programa e desde que cumpridas as condições nele previstas.
d) O Signatário declarou ser residente(s) da cidade de Ponte Nova e exercer a atividade de pesca, tendo, neste ato, apresentado as respectivas provas de suas alegações, sob as penas da lei;
e) A partir da referida declaração, a Fundação Renova apresentou proposta de acordo ao Signatário para enquadramento na **PESCA COMERCIAL NÃO REGULARIZADA**;
f) O(s) Signatário(s) esteve devidamente assistido representado por seu advogado e, sem qualquer induzimento, chegou(aram) a um acordo para compor seus interesses.

As partes, em comum acordo, resolvem entre si:

CLÁUSULA PRIMEIRA - OBJETO: O presente Termo tem como objeto a formalização de acordo com o pagamento de indenização referente ao(s) seguinte(s) dano(s) decorrente(s) do Rompimento: (a) danos morais sofridos pelo Signatário, e (b) danos materiais sofridos pelo Signatário, na categoria 8.1.695 - Pescador Comercial não Regularizado - Região Continental, indicada no anexo único do Protocolo de Elegibilidade do PIM, incluindo os lucros cessantes a ele devidos até 31.12.2018.

PARÁGRAFO PRIMEIRO. Os lucros cessantes referentes ao período posterior a 31.12.2018, se existentes, serão objeto de um acordo futuro entre as Partes, e serão pagos em parcelas anuais, até o dia 31 de março do ano subsequente, na forma e termos estabelecidos no TTAC, devendo ser consideradas as condições vigentes à época de eventual futuro acordo.

PARÁGRAFO SEGUNDO. O presente Termo de Acordo não inclui danos materiais eventualmente sofridos pelo Signatário em razão de outra atividade por ele exercida e que tenha sido impactada pelo Rompimento, senão a categoria 8.1.695 - Pescador Comercial não Regularizado - Região Continental indicada no anexo único do Protocolo de Elegibilidade do PIM.

synergia

Parecer de Avaliação de Impacto

FABIO ABREU SILVA

CONTEXTO

O responsável, Sr. Fabio Abreu Silva, 34 anos, trabalhador por conta própria, reside com a Sra. Renata Aparecida da Cruz, cônjuge, 28 anos, empregado com carteira de trabalho assinada, Lavinia Silva Cruz, filha, 7 anos, estudante, Cauã Henrique Abreu da Cruz, filho, 10 anos, estudante, e um segundo núcleo familiar, composto pelo Sr. Jose Flavio da Silva, pai, 60 anos, trabalhador por conta própria, e a Sra. Sandra Maria Rocha Abreu Silva, mãe, 53 anos, do lar, na comunidade Pontal do Rosário, no município de Ponte Nova - MG.
O Sr. Fabio declara ser pescador, com Registro Geral de Pesca - RGP nº MG-P0501881-8. Não participa de associação relacionada ao setor. Respeita o período de defeso, desempenhando a atividade de março até outubro, mas não recebe o Seguro Defeso.
Exercia havia 7 anos a atividade de pesca no Rio Piranga e Lago da Candonga, não a exercendo mais por conta do evento. Pescava desembarcado, utilizando 30 redes e 1 tarrafa. Alcançava uma produção de 100 kg/mês de pescados, que representava um rendimento médio mensal de R$1.800,00. Declara a perda total dos rendimentos originados da atividade e a perda de 6 redes e 1 colete.
Do total da produção, 10% era destinado ao consumo próprio, enquanto 90% à comercialização, sendo a venda realizada diretamente ao consumidor final, restaurantes e bares. Deseja retomar a atividade de pesca.
A família é originada do 0800 (Fundação) e não recebe Auxílio Financeiro.

ANÁLISE

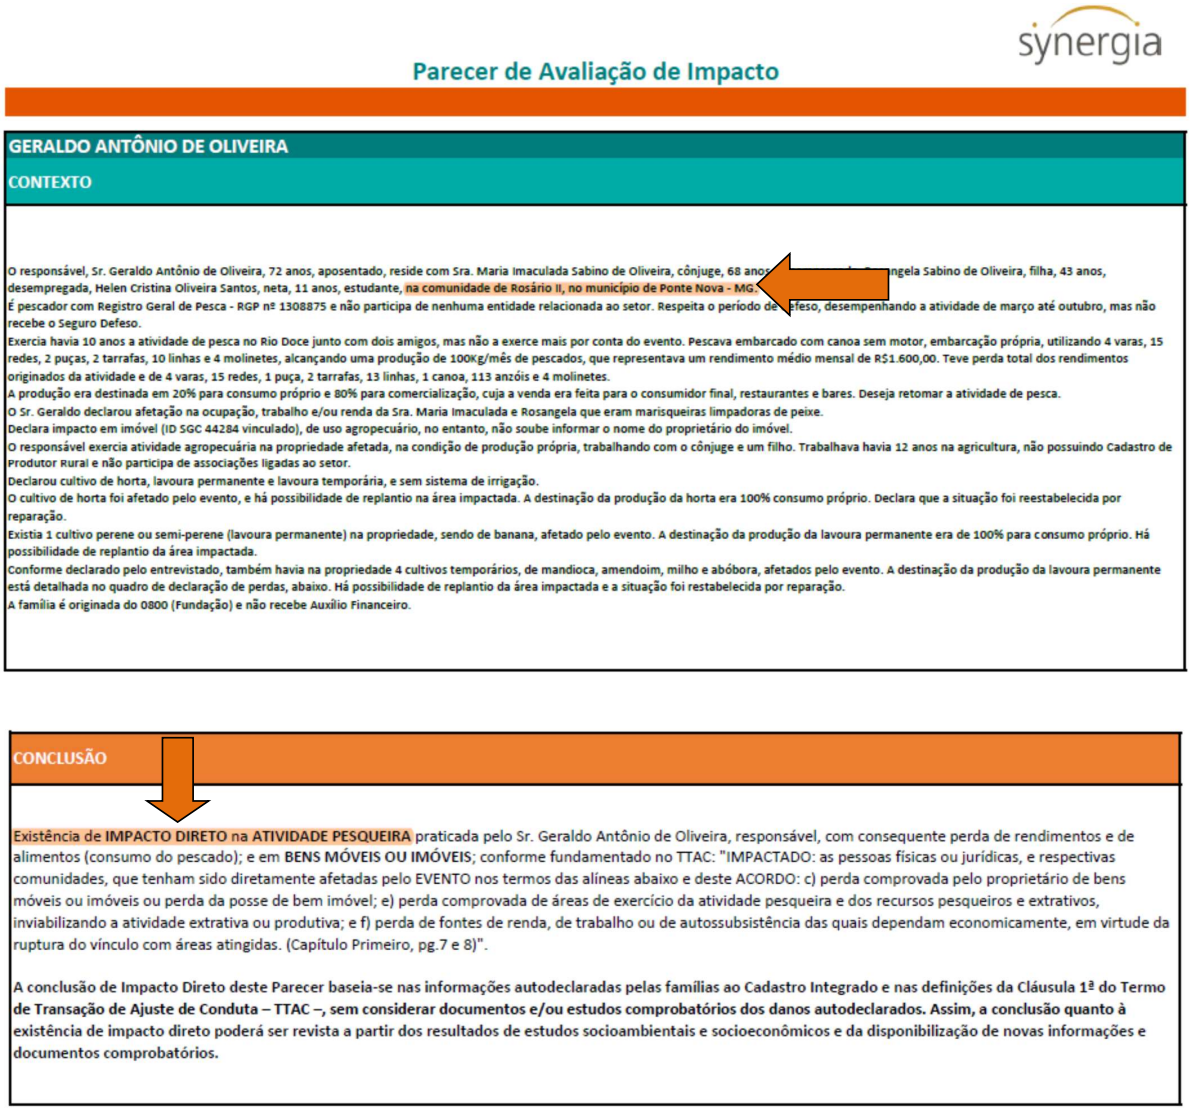

O Sr. Fabio pescava no RIO Piranga e Lago aa Candonga, afetados pelo evento. As espécies citadas na entrevista, cascudo, tilápia, pacamã, piau e dourado, são espécies comuns no Rio Doce e afluentes.
A apresentação do Registro Geral de Pesca – RGP, nº MG-P0501881-8, de posse do Sr. Faio, indica que o mesmo é pescador profissional.
Não foi possível verificar a representatividade da atividade de pesca na renda da família, pois não foram declarados todos os rendimentos obtidos pela mesma para o período que antecede ao evento. O responsável declara um total de despesas mensais para o período que antecede o evento de R$1.270,00, e para o mês anterior à entrevista de R$1.118,00. O rendimento declarado, obtido com a atividade de pesca, de R$1.800,00 é superior aos rendimentos médios mensais da pesca desembarcada, na região ao longo do Rio Doce. Nesta modalidade de pesca, cada pescador pode obter, em média, um rendimento de R$418,00. A quantidade de 100 kg/mês de produtos pescados condiz com a quantidade média pescada na região ao longo do Rio Doce, na mesma modalidade.
No que tange à comercialização, o responsável vendia 90% da produção, equivalente a 90 kg de produtos pescados. Se vendida a R$8,00, considerando a venda ao consumidor final, e a R$6,00, considerando a venda aos demais compradores, a produção renderia, respectivamente, um total de R$720,00 e R$540,00, valores estes inferiores ao declarado pelo responsável.
Todavia, deve-se considerar ainda que o Sr. Fabio capturava e vendia dourado, espécie de pescado que pode ser negociado a valor superior a R$8,00, fator este que pode contribuir para o aumento do lucro do pescador.

Pontos de Atenção
- O Sr. Jose Flavio da Silva, pai, é idoso;
- Afetação na qualidade de vida da Sra. Renata Aparecida da Cruz, cônjuge, Lavinia Silva Cruz, filha, Cauã Henrique Abreu da Cruz, filho, Sr. Jose Flavio da Silva, pai, e Sra. Sandra Maria Rocha Abreu Silva, mãe, em decorrência das perdas sofridas pelo responsável.

ÍNDICE DE DESENVOLVIMENTO DA FAMÍLIA - IDF
O IDF da família é de 0,74, acima do IDF do município de 0,62, contudo, apresenta fragilidade na dimensão de Condições habitacionais.

CONCLUSÃO

Existência de IMPACTO DIRETO na ATIVIDADE PESQUEIRA E EXTRATIVISTA praticada pelo Sr. Fabio Abreu Silva, com consequente perda de rendimentos e de alimentos (consumo do pescado), conforme fundamentado no TTAC: "IMPACTADO: as pessoas físicas ou jurídicas, e respectivas comunidades, que tenham sido diretamente afetadas pelo EVENTO nos termos das alíneas abaixo e deste ACORDO: e) perda comprovada de áreas de exercício da atividade pesqueira e dos recursos pesqueiros e extrativos, inviabilizando a atividade extrativa ou produtiva; e f) perda de fontes de renda, de trabalho ou de autossubsistência das quais dependam economicamente, em virtude da ruptura do vínculo com áreas atingidas. (Capítulo Primeiro, pg.7 e 8)".

Parecer de Avaliação de Impacto

GERALDO ANTÔNIO DE OLIVEIRA

CONTEXTO

O responsável, Sr. Geraldo Antônio de Oliveira, 72 anos, aposentado, reside com Sra. Maria Imaculada Sabino de Oliveira, cônjuge, 68 anos [illegible]ngela Sabino de Oliveira, filha, 43 anos, desempregada, Helen Cristina Oliveira Santos, neta, 11 anos, estudante, na comunidade de Rosário II, no município de Ponte Nova - MG.
É pescador com Registro Geral de Pesca - RGP nº 1308875 e não participa de nenhuma entidade relacionada ao setor. Respeita o período de defeso, desempenhando a atividade de março até outubro, mas não recebe o Seguro Defeso.
Exercia havia 10 anos a atividade de pesca no Rio Doce junto com dois amigos, mas não a exerce mais por conta do evento. Pescava embarcado com canoa sem motor, embarcação própria, utilizando 4 varas, 15 redes, 2 puças, 2 tarrafas, 10 linhas e 4 molinetes, alcançando uma produção de 100Kg/mês de pescados, que representava um rendimento médio mensal de R$1.600,00. Teve perda total dos rendimentos originados da atividade e de 4 varas, 15 redes, 1 puça, 2 tarrafas, 13 linhas, 1 canoa, 113 anzóis e 4 molinetes.
A produção era destinada em 20% para consumo próprio e 80% para comercialização, cuja a venda era feita para o consumidor final, restaurantes e bares. Deseja retomar a atividade de pesca.
O Sr. Geraldo declarou afetação na ocupação, trabalho e/ou renda da Sra. Maria Imaculada e Rosangela que eram marisqueiras limpadoras de peixe.
Declara impacto em imóvel (ID SGC 44284 vinculado), de uso agropecuário, no entanto, não soube informar o nome do proprietário do imóvel.
O responsável exercia atividade agropecuária na propriedade afetada, na condição de produção própria, trabalhando com o cônjuge e um filho. Trabalhava havia 12 anos na agricultura, não possuindo Cadastro de Produtor Rural e não participa de associações ligadas ao setor.
Declarou cultivo de horta, lavoura permanente e lavoura temporária, e sem sistema de irrigação.
O cultivo de horta foi afetado pelo evento, e há possibilidade de replantio na área impactada. A destinação da produção da horta era 100% consumo próprio. Declara que a situação foi reestabelecida por reparação.
Existia 1 cultivo perene ou semi-perene (lavoura permanente) na propriedade, sendo de banana, afetado pelo evento. A destinação da produção da lavoura permanente era de 100% para consumo próprio. Há possibilidade de replantio da área impactada.
Conforme declarado pelo entrevistado, também havia na propriedade 4 cultivos temporários, de mandioca, amendoim, milho e abóbora, afetados pelo evento. A destinação da produção da lavoura permanente está detalhada no quadro de declaração de perdas, abaixo. Há possibilidade de replantio da área impactada e a situação foi restabelecida por reparação.
A família é originada do 0800 (Fundação) e não recebe Auxílio Financeiro.

CONCLUSÃO

Existência de IMPACTO DIRETO na ATIVIDADE PESQUEIRA praticada pelo Sr. Geraldo Antônio de Oliveira, responsável, com consequente perda de rendimentos e de alimentos (consumo do pescado); e em BENS MÓVEIS OU IMÓVEIS; conforme fundamentado no TTAC: "IMPACTADO: as pessoas físicas ou jurídicas, e respectivas comunidades, que tenham sido diretamente afetadas pelo EVENTO nos termos das alíneas abaixo e deste ACORDO: c) perda comprovada pelo proprietário de bens móveis ou imóveis ou perda da posse de bem imóvel; e) perda comprovada de áreas de exercício da atividade pesqueira e dos recursos pesqueiros e extrativos, inviabilizando a atividade extrativa ou produtiva; e f) perda de fontes de renda, de trabalho ou de autossubsistência das quais dependam economicamente, em virtude da ruptura do vínculo com áreas atingidas. (Capítulo Primeiro, pg.7 e 8)".

A conclusão de Impacto Direto deste Parecer baseia-se nas informações autodeclaradas pelas famílias ao Cadastro Integrado e nas definições da Cláusula 1ª do Termo de Transação de Ajuste de Conduta – TTAC –, sem considerar documentos e/ou estudos comprobatórios dos danos autodeclarados. Assim, a conclusão quanto à existência de impacto direto poderá ser revista a partir dos resultados de estudos socioambientais e socioeconômicos e da disponibilização de novas informações e documentos comprobatórios.

Cuida-se, *in casu*, de dar efetiva aplicação à teoria do ***venire contra factum proprium***, que igualmente deriva da boa-fé objetiva (art. 422 do Código Civil) e da segurança jurídica processual (art. 5 do CPC).

Por meio do **princípio *venire contra factum proprium*** é vedado que uma parte adote um comportamento diverso daquele adotado anteriormente, em verdadeira surpresa à outra parte. Busca-se aqui proteger a confiança e lealdade das relações jurídicas.

Ora, se a própria Fundação Renova ao longo dos últimos 04 anos sempre admitiu e reconheceu a **plena elegibilidade dos atingidos de PONTE NOVA/MG**, inclusive com pagamentos reiterados de indenizações e auxílios

financeiros, **não há** espaço agora para adotar-se comportamento contraditório, unilateral, fundado exclusivamente em laudos e estudos internos.

Inexiste dúvida, portanto, da existência de impactos na região de Ponte Nova/MG, na linha do que a própria Fundação Renova já aplica internamente em suas políticas indenizatórias.

Cuida-se aqui de dar aplicação ao **princípio da isonomia e igualdade jurídica** (art. 5º, *caput*,CF/88) entre todos os atingidos de PONTE NOVA/MG, cujo tratamento diferenciado (pretendido pelas embargantes) mostra-se contrário ao Direito e ao senso de justiça.

Ante o exposto e fiel a essas considerações, REJEITO a preliminar das empresas rés e, via de consequência, **RECONHEÇO** a plena elegibilidade dos atingidos de **PONTE NOVA/MG, incluindo a região de Rosário do Pontal,** ao *sistema indenizatório simplificado*, ante os impactos experimentados, conforme já decidido, por este juízo, no âmbito do **PJE 1013159-44.2018.4.01.3800**.

DO FECHAMENTO DO CADASTRO

Por intermédio de PETIÇÃO (ID 405824361), a **COMISSÃO DE ATINGIDOS DE PONTE NOVA** e a **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (Distrito) aduziram que:

> "(...) os atingidos **concordam** com a finalização de abertura de novos cadastros em suas regiões."

Por intermédio de PETIÇÃO (ID 422587873), as COMISSÕES DE ATINGIDOS, **uma vez mais**, expuseram a concordância com o *fechamento do cadastro*. *In verbis*:

> "(...)
> Os Autores (...) decidiram por **aceitar o fechamento do cadastro**, a concordância se deu diante do fato de que o ocorrido, rompimento da Barragem do Fundão em Mariana/MG, ter havido há

> mais de 5 (cinco) anos e que todos os atingidos interessados em receber as indenizações pelos danos sofridos já terem realizados os cadastros e que o cadastramento é fato público e notório, não havendo motivo assim para que haja continuidade do cadastro."

DOCUMENTO de ID 422587876 (**ABAIXO ASSINADO FECHAMENTO DO CADASTRO**) reforça que os próprios atingidos, por intermédio de suas COMISSÕES, **concordaram em encerrar os novos pedidos de cadastro**.

Quanto ao "*fechamento do cadastro*", as empresas rés **(SAMARCO, VALE e BHP)**, manifestaram-se nos seguintes termos:

> "(...) requerem as Empresas que V.Exa. **declare encerrado o Cadastro Integrado, na data de 15.12.2019**, para o município de Ponte Nova/MG e para o Distrito de Rosário do Pontal, seja para qualquer outro território, reiterando-se os termos da petição de ID 164132882, apresentada nos autos do Eixo 7."

Pois bem.

Extrai-se dos autos que ambas as partes (COMISSÕES DE ATINGIDOS e EMPRESAS RÉS) **estão de pleno acordo** quanto a necessidade de "*fechamento do cadastro*" - aqui entendido o cadastro relacionado ao programa de indenização - com vistas a ter-se uma delimitação objetiva do universo de atingidos, bem como quanto na definição do marco temporal na data de 30 de abril de 2020.

Consigno, *prima facie*, que **assiste inteira razão a ambas as partes** quando defendem a necessidade de realizar-se o "*fechamento do cadastro*", permitindo que haja uma definição e delimitação objetiva do universo de pessoas atingidas.

É inconcebível que o cadastro - ao menos quanto ao programa de indenização - fique aberto eternamente.

A esse respeito, tem razão as empresas rés quando afirmam que a manutenção eterna do cadastro aberto impede qualquer previsibilidade financeira ou programação orçamentária quanto a execução dos programas de indenização.

Apenas para se ter um parâmetro, o **prazo de prescrição** do Código Civil para a pretensão de reparação civil é de **03 anos** (art. 206, §3º, inciso V).

In casu, o "cadastro" permaneceu aberto **por mais de 04 anos**.

As próprias COMISSÕES DE ATINGIDOS conhecedoras da realidade local, ao **CONCORDAREM com o "fechamento do cadastro",** reconheceram de forma corajosa que – decorridos mais de 05 anos do Desastre de Mariana – **todos os atingidos** (*pelo menos os que quiseram*) tiveram tempo mais do que suficiente para formalizarem (`por telefone 0800, pela internet, ou mesmo presencialmente pela central de atendimento`) o registro, a solicitação, ou protocolo de cadastro.

Está-se a falar de um **período superior a 04 anos** em que o cadastro "*ficou aberto*", e ao atingido bastava "telefonar" para um número 0800 (ou comparecer a uma central de atendimento da Renova) informando o seu desejo de ser cadastrado como impactado.

Como bem reconheceu as próprias COMISSÕES DE ATINGIDOS, houve prazo mais do que suficiente e adequado (**04 anos e meio**) para que essa mera formalização (mero relato) fosse feita.

Nesse particular, cabe relembrar princípio elementar do Direito, segundo o qual: ***`dormientibus non sucurritius`***.

Quanto a data de "*fechamento do cadastro*", consigno que a data sugerida (**30 de abril de 2020**) é adequada e pertinente, não havendo motivo para não ser acolhida.

Registro, inclusive, que diversas **outras** Comissões de Atingidos [BAIXO GUANDU/ES, NAQUE/MG,SÃO MATEUS/ES, LINHARES/ES, ARACRUZ/ES, CONCEIÇÃO DA BARRA/ES, ITUETA/MG, BAGUARI/MG, PEDRA CORRIDA/MG, IPABA DO PARAÍSO/MG, CACHOEIRA ESCURA/MG, REVÉS DO BELÉM/MG, COLATINA/MG, RIO DOCE/MG, AIMORÉS/MG, BUGRE/MG, FERNANDES TOURINHO/MG, IPABA/MG, CARATINGA/MG, SEM PEIXE/MG, RESPLENDOR/MG, PERIQUITO/MG, MARILÂNDIA/ES, GALILEIA/MG, PINGO D'ÁGUA/MG, SÃO JOSÉ DO GOIABAL/MG, SANTA CRUZ DO ESCALVADO/MG] utilizaram a referida data (**30/04/2020**) como marco temporal, tornando-a uma **data referência** para o "fechamento do cadastro" em toda a bacia.

Prestigia-se, assim, uma vez mais, o **tratamento isonômico** com os demais atingidos, no âmbito das sentenças já prolatadas.

Ante o exposto e fiel a essas considerações, **HOMOLOGO o pedido de "fechamento do cadastro"**, nos termos em que requeridos pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (Distrito), apenas e tão somente para os atingidos daquela localidade, de forma que todos aqueles que possuem ***registro/solicitação/protocolo/entrevista/cadastro*** perante a Fundação Renova **até 30 de abril de 2020** poderão se beneficiar e se valer da presente decisão, para, querendo, proceder à habilitação no novel sistema indenizatório, aderindo à *matriz de danos* judicialmente fixada.

DO TITULAR DO DIREITO E DA INDENIZAÇÃO POR MÚLTIPLOS DANOS

Consta dos autos que os "Programas de Reparação" efetuados pela Fundação Renova tinham como ponto de partida o ***registro/solicitação*** formalizado pelo atingido junto ao 0800. Ao assim proceder, o atingido tornava-se, então, "titular do cadastro".

Via de regra, somente um integrante do núcleo familiar se encarregava de fazer esse ***registro/solicitação*** junto ao 0800, não obstante, nesse mesmo núcleo, existir, por vezes, **outros atingidos**, como cônjuge, filhos, pais, etc.

Feito o *registro/solicitação* junto ao 0800, a Fundação Renova se encarregava de agendar data futura para entrevista e verdadeiro "cadastro" do solicitante ("titular do cadastro"), tomando ciência, então, da existência dos **demais** componentes do núcleo familiar.

Sabe-se, no entanto, que a Fundação Renova (desde janeiro/2018) suspendeu a fase de entrevista/cadastramento, de modo que aqueles solicitantes de *registro/solicitação* ("titulares do cadastro") **não tiveram** a oportunidade de serem "entrevistados" pessoalmente e, por conseguinte, **não puderam** indicar/relatar a presença (existência) de outros atingidos no núcleo familiar.

Portanto, como essas "*outras pessoas*" porventura existentes no núcleo familiar não tiveram a oportunidade de serem apresentadas à Fundação Renova, cabe entender que o universo de atingidos delimitado pelas COMISSÕES ("fechamento do cadastro" em 30 de abril de 2020) e homologado por este juízo, engloba os "titulares do cadastro", **assim como os demais integrantes de seu núcleo familiar (*cônjuges, companheiros, descendentes e ascendentes*), desde que comprovadamente residentes no mesmo local à época do evento danoso.**

Desta feita, todos eles *("titular do cadastro" e demais integrantes do seu núcleo familiar*) qualificam-se – individualmente - como **TITULARES DO DIREITO** e encontram-se aptos a postularem as respectivas indenizações, nos termos da matriz de danos fixada nessa decisão.

De outro lado, a questão referente à indenização pelos ***múltiplos danos***, desde que previamente declarados, também merece acolhimento, por ser medida de direito e justiça.

Aqueles atingidos que se encontram no universo delimitado pelas próprias COMISSÕES, isto é, aqueles que possuem ***solicitação/registro/cadastro*** perante a Fundação Renova até 30 de abril de 2020, desde que tenham previamente relatado a existência de mais de uma profissão/ofício, fazem jus à **indenização integral** arbitrada nessa SENTENÇA por cada um dos danos experimentados.

Em outras palavras, o atingido que tiver declarado perante a Fundação Renova a existência de mais de um dano (**múltiplos danos**), desde que cumpridos os requisitos fixados na presente SENTENÇA para cada um deles, deverá ser indenizado **integralmente** por cada dano experimentado, nos termos da matriz judicialmente fixada.

Com isso, esclareço e ressalto – desde já – que a premissa fundamental para o **correto** enquadramento do atingido na *matriz de danos* judicialmente fixada é a **informação** (**o relato, a narrativa**) que o próprio atingido forneceu (em data pretérita) para a Fundação Renova quando da *solicitação/registro/cadastro*.

O enquadramento interno realizado pela Fundação Renova é irrelevante, até mesmo porque a Fundação sempre aplicou uma política restritiva (e de exclusão) a respeito do reconhecimento das categorias impactadas.

É o **relato (a narrativa)** que o próprio atingido fez - **em data pretérita** - por ocasião do *registro/solicitação/cadastro* que deve prevalecer.

Prestigia-se, assim, a iniciativa, *palavra* e a *boa-fé* do atingido.

Evidentemente, o atingido **não pode** agora - sob pena de flagrante má fé - mudar a sua versão (*alterar a sua narrativa*) com o objetivo de se enquadrar em outra categoria, cujo valor da indenização é superior.

O atingido que tiver declarado perante a Fundação Renova a existência de mais de um dano (**múltiplos danos**), quer na categoria de subsistência, quer na categoria de ofícios, desde que cumpridos os requisitos fixados nessa SENTENÇA para cada um dos eventos, deverá ser **indenizado integralmente** por cada dano experimentado.

No âmbito do novel sistema indenizatório simplificado, de natureza facultativa, busca-se a **QUITAÇÃO DEFINITIVA**, com a consequente pacificação social, motivo pelo qual se deve prestigiar a boa-fé do atingido que, por ocasião do ***registro/solicitação/entrevista/cadastro***, relatou ter experimentado mais de um dano.

Assim sendo, consigno que a *matriz de danos* estabelecida nessa decisão destina-se ao **TITULAR DO DIREITO** lesado, aqui compreendido o "Titular do Cadastro" que fez a ***solicitação/registro*** junto ao 0800 até 30 de abril de 2020, e demais integrantes de seu núcleo familiar (cônjuges, companheiros, descendentes e ascendentes), desde que **comprovadamente** residentes no mesmo local à época do evento danoso.

Ademais, **DEFIRO**, ainda, aos atingidos que possuem *solicitação/registro/entrevista/cadastro* perante a Fundação Renova até **30 de abril de 2020** e, que tenham declarado a existência de mais de um dano (**múltiplos danos**), observados os requisitos fixados para cada um deles, a **indenização integral** por cada dano experimentado, nos termos arbitrados por essa SENTENÇA (*matriz de danos*).

DA ABRANGÊNCIA TERRITORIAL DA PRESENTE DECISÃO – UNIVERSO DE ATINGIDOS – PONTE NOVA E ROSÁRIO DO PONTAL (DISTRITO)

A presente ação foi proposta pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (Distrito) que, de forma firme e destemida, lutando contra todas as adversidades, *trilhando o caminho percorrido por diversas outras Comissões*, fizeram prevalecer o seu direito à **auto-organização** e à **autodeterminação**, trazendo a este juízo as demandas do território e buscando uma solução racional, célere e eficaz.

Coube às **COMISSÕES DE ATINGIDOS**, por intermédio de sua advogada constituída e nos termos dos instrumentos jurídicos homologados, **sob a supervisão deste juízo**, conduzir as **negociações** com a Fundação Renova (e empresas rés).

Conforme já ressaltado por este juízo por ocasião da Decisão ID 412611847:

> "(...) o **TAC-GOVERNANÇA** firmado em 25 de junho de 2018 e homologado judicialmente, reconheceu formalmente a existência e a legitimidade das Comissões de Atingidos, assim como fez estabelecer que as pessoas atingidas, elas próprias, tem direito a participarem das discussões e soluções de suas demandas. *In verbis:*
>
> "(...)
>
> PRINCÍPIOS GERAIS
>
> CLÁUSULA SEGUNDA. O presente ACORDO rege-se pelos seguintes princípios:

I — **a efetiva participação das pessoas atingidas na criação, discussão, avaliação fiscalização dos**

PROGRAMAS, PROJETOS e AÇÕES. (...)

CLÁUSULA QUARTA. **E assegurado às pessoas atingidas o direito à participação na governança do processo de reparação integral dos danos decorrentes do ROMPIMENTO DA BARRAGEM DE FUNDÃO**, nas diversas instâncias decisórias e consultivas a ele relacionadas, nos termos previstos no TTAC e no presente ACORDO.

A CLÁUSULA OITIVA estabelece de forma clara e inconteste que as **COMISSÕES LOCAIS DE PESSOAS ATINGIDAS** são **interlocutórias legítimas** no âmbito das questões atinentes à participação e governança do processo de reparação integral dos danos decorrentes do ROMPIMENTO DA BARRAGEM DE FUNDÃO. *In verbis:*

"(...)

COMISSÕES LOCAIS DE PESSOAS ATINGIDAS

CLÁUSULA OITAVA. As PARTES acordam o **reconhecimento das comissões locais formadas voluntariamente por pessoas atingidas ("COMISSÕES LOCAIS")**, residentes nos municípios atingidos pelo ROMPIMENTO DA BARRAGEM DE FUNDÃO e/ou, excepcionalmente, que tenham sofrido danos em atividades realizadas na área de abrangência das respectivas COMISSÕES LOCAIS, **como interlocutoras legítimas no âmbito das questões atinentes à participação e governança do processo de reparação integral dos danos decorrentes do ROMPIMENTO DA BARRAGEM DE FUNDÃO**, nos termos e limites previstos neste ACORDO.

O TAC-GOV deixa claro que as **COMISSÕES DE ATINGIDOS**, desde que devidamente constituídas, são **interlocutoras legítimas** no processo de reparação e definição de seus direitos, aptas, portanto, a instaurarem o processo de negociação coletiva.

Vê-se, assim, que sob a ótica legal, processual, procedimental e instrumental, a **COMISSÃO DE ATINGIDOS DE PONTE NOVA (SEDE) E ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO)** possui amplo reconhecimento jurídico e total legitimidade para trazer a juízo as pretensões das pessoas (e categorias) atingidas pelo rompimento da Barragem de Fundão.

(...)

Sob a ótica da legitimidade material, observo que a referida COMISSÃO teve o cuidado de comprovar em juízo de que dispõe de **integral respaldo** dos atingidos para que fossem inauguradas as discussões judiciais sobre as indenizações.

> Documentos de ID's 405824375 e 405824367 intitulados ***abaixo-assinado*** comprovam o desejo dos atingidos de que a questão seja trazida a juízo para definição.
>
> Assim sendo, **RECONHEÇO** a legitimidade formal, procedimental e material da **COMISSÃO DE ATINGIDOS DE PONTE NOVA (SEDE) E ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO)** para inaugurar em juízo a discussão relacionada à indenização dos danos causados pelo rompimento da barragem de Fundão."

Vê-se, portanto, que a legitimidade atribuída à **COMISSÃO DE ATINGIDOS DE PONTE NOVA** e à **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (Distrito) para postularem pela coletividade viabilizou que as demandas das referidas localidades fossem trazidas a este juízo, a fim de que, à luz do ***princípio da razoável duração do processo***, fosse alcançada a efetividade na prestação jurisdicional.

Assim sendo, compete a este Juízo, diante dos elementos aqui coligidos, **decidir** sobre as categorias atingidas, fixando a correspondente *matriz de danos*.

De se registrar, uma vez mais, que o ***sistema indenizatório simplificado*** se destina aos atingidos (MAIORES e CAPAZES) constantes do universo delimitado pelas COMISSÕES, os quais **poderão**, *por intermédio de seus respectivos advogados*, facultativamente, manifestar adesão à presente *matriz de danos*, **beneficiando-se, assim, do novel sistema**.

Ante o exposto e fiel a essas considerações, **RECONHEÇO** que todos os atingidos que se encontram no **universo delimitado** pelas próprias COMISSÕES no Eixo Prioritário 7, isto é, aqueles que possuem *registro/solicitação/entrevista/cadastro* perante a Fundação Renova **até 30 de abril de 2020**, estão, automaticamente, admitidos à habilitação formal no sistema, por meio de seus respectivos advogados, para aderirem (**ou não**) aos termos da *matriz de danos* judicialmente estabelecida.

A presente decisão, portanto, alcança **TODO o Município de Ponte Nova/MG**, **com exceção apenas do DISTRITO CHOPOTÓ**, já representado por comissão própria, inclusive com PJE já sentenciado.

DO PRINCÍPIO DA AUTONOMIA DA VONTADE PRIVADA – DA ADESÃO FACULTATIVA PELOS ATINGIDOS MAIORES E CAPAZES CIVILMENTE

Conforme já sinalizado, a pretensão veiculada pela COMISSÃO DE ATINGIDOS DE PONTE NOVA e pela COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (Distrito) buscou encontrar uma **nova via de acesso**, um **novo fluxo de indenização**, mais direto, simplificado e, sobretudo, *flexibilizado*.

A presente decisão, portanto, **NÃO representa uma ruptura com o sistema anterior**, que segue existente e válido junto a Fundação Renova.

Cuida-se, aqui, da constituição de um novo caminho, uma nova via de acesso, ou mais precisamente, a abertura de uma **nova política indenizatória** pela qual os atingidos (MAIORES e CAPAZES) - amparados no **princípio da autonomia da vontade privada** - poderão **livremente** decidir se desejam aderir ou não.

Assim sendo, os termos da presente decisão, especialmente a *matriz de danos* e o sistema indenizatório criado, são de **adesão facultativa** pelos atingidos (maiores e capazes), garantindo-se aos mesmos, se desejarem, a opção pelo sistema hoje vigente junto a Fundação Renova (Programa "PIM").

De forma clara e transparente, os atingidos poderão (livremente) **optar** pelos seguintes sistemas:

> **(i)** Programa de Indenização Mediada (Programa "PIM") atualmente existente, seguindo-se os ritos procedimentais, os critérios de elegibilidade e parâmetros indenizatórios previstos no TTAC e aplicados pela Fundação Renova;
>
> **(ii)** ajuizamento de ação individual na justiça local, nos termos da lei processual e da jurisprudência do STJ, objetivando a comprovação específica e individualizada dos danos alegados, com os *ônus processuais* correspondentes;

(iii) novel sistema indenizatório ("matriz de danos"), de caráter ágil, simplificado e flexibilizado, fundado na noção de "***rough justice***" (justiça possível).

As opções (i) e (ii) já são amplamente conhecidas dos atingidos e dos advogados, sendo despiciendo maiores comentários.

A opção (iii) – **sistema indenizatório simplificado** - surge exatamente por ocasião e nos termos dessa decisão.

Esclareço que, para fins de adesão, haverá um **fluxo simplificado de comprovação e apresentação de documentos** perante a Fundação Renova, desenvolvido especialmente para o atendimento dessa decisão judicial.

Esclareço, ainda, que **todos** os atingidos que se enquadrarem nos termos desta SENTENÇA, ainda que em algum momento tenham obtido uma negativa **por parte da Fundação Renova** (em razão da ausência de políticas indenizatórias ou enquadramentos internos indevidos), em sede administrativa, poderão postular a **adesão** ao novel sistema indenizatório.

Em respeito à segurança jurídica e soberania das decisões judiciais, **não podem** acessar o *sistema indenizatório simplificado* aqueles atingidos que tiveram o pedido de indenização REJEITADO e/ou julgado IMPROCEDENTE por **decisão judicial transitada em julgado**.

Consoante já afirmado, a *premissa* fundamental para o **correto enquadramento** do atingido na *matriz de danos* fixada judicialmente é a **informação (o relato, a narrativa)** que o próprio atingido forneceu para a Fundação Renova quando da *solicitação/registro/entrevista/protocolo/cadastro*.

O enquadramento interno realizado pela Fundação Renova é irrelevante e desinfluente, até mesmo porque a Fundação Renova sempre aplicou uma política restritiva (e de exclusão) sobre o reconhecimento das categorias impactadas.

É o **relato (a narrativa, a informação)** que o próprio atingido fez por ocasião do *registro/solicitação/entrevista/protocolo/cadastro* que deverá prevalecer.

Evidentemente, **não pode** agora - sob pena de flagrante má fé - o atingido mudar a sua versão (alterar a sua narrativa) com o objetivo de se enquadrar em outra categoria, cujo valor da indenização lhe parece superior.

Assim sendo, a partir da ciência da **matriz de danos** estabelecida nessa decisão, poderá o atingido (MAIOR e CAPAZ), *assistido/representado por seu respectivo advogado*, **decidir** pela adesão (**ou não**) ao sistema indenizatório simplificado, com todas as consequências jurídicas daí advindas.

O objetivo de estabelecer-se um procedimento indenizatório simplificado, **claramente favorável aos atingidos quanto aos meios de prova**, INCLUSIVE DE NATUREZA FACULTATIVA, é obter-se a pacificação social, através dos ideais de justiça, e consequente resolução definitiva do conflito.

A relação (Fundação Renova x Atingido) não pode se eternizar no tempo, criando uma nefasta *relação de dependência* (econômica e social), que apenas contribui para a perpetuação do conflito e tensionamento social.

Na linha do que foi proposto pelas próprias COMISSÕES DE ATINGIDOS, ao fixarem-se um procedimento indenizatório claramente favorável aos atingidos – tem-se por finalidade promover a justa indenização, **através da quitação final, única e definitiva**, levando justiça e pacificação social.

As próprias COMISSÕES DE ATINGIDOS defenderam em juízo uma solução que contemplasse a *quitação final e definitiva*, permitindo que os atingidos pudessem encerrar essa página, retomar suas vidas, colocando um fim na situação de litigiosidade com a Fundação Renova.

Assim sendo, o atingido, através de seu advogado/defensor público, deve ter ciência que a adesão (**facultativa**) ao novo *sistema indenizatório simplificado*, ***beneficiando-se da flexibilização dos meios de prova*** e da ***matriz de danos judicialmente fixada***, no âmbito da autonomia de sua vontade privada, implica **QUITAÇÃO FINAL, ÚNICA e DEFINITIVA**, abrangendo todas as pretensões financeiras decorrentes do Rompimento da Barragem de Fundão, **excluídos apenas: i)** eventuais danos futuros; **ii)** questões relacionadas aos reassentamentos de Bento Rodrigues, Paracatu de Baixo e Gesteira (Barra Longa), objeto do Eixo Prioritário 3; **iii)** questões relacionadas às trincas, danos estruturais e rachaduras no imóveis, objeto do Eixo Prioritário 4 e "ACP Linhares" e **iv)** eventuais danos à saúde humana, objeto do Eixo Prioritário 2.

Ressalva-se, ainda, a participação dos interessados em outros programas do TTAC e disponibilizados pela Fundação Renova, a exemplo da recolocação profissional, os quais ficam preservados e mantidos.

Prestigia-se, assim, o ***princípio da autonomia da vontade privada*** do atingido livre, maior e capaz civilmente com a necessária pacificação social.

DO PEDIDO DE INTERVENÇÃO OBRIGATÓRIA DO MPF NA PRESENTE LIDE – INOCORRÊNCIA – INTERESSE JURÍDICO DE PESSOAS MAIORES E CAPAZES REPRESENTADAS POR ADVOGADOS CONSTITUÍDOS NOS AUTOS – DIREITOS INDIVIDUAIS, PATRIMONIAIS E DISPONÍVEIS

O Ministério Público Federal - MPF, por intermédio da PETIÇÃO de ID 452685374, comparece em juízo para alegar a necessidade de sua **intervenção obrigatória** na lide, "*por se tratar de processo que envolve interesse coletivo com tramitação perante a Justiça Federal*".

Prima facie, esclareço que o presente PJE encontra-se com tramitação pública, acessível por todo e qualquer interessado, sem qualquer anotação de sigilo.

Quanto ao pedido de intervenção obrigatória, tenho que razão **não assiste** ao MPF.

Vejamos.

Primeiramente, o fato de "*se tratar de processo que envolve interesse coletivo com tramitação perante a Justiça Federal*" – a toda evidência – **não implica** a intervenção obrigatória do MPF.

Diariamente são ajuizadas na Justiça Federal centenas de **ações coletivas** propostas por *sindicatos de servidores, sindicato dos auditores fiscais* e/ou *associações de classe* (a exemplo da própria ANPR e da AJUFE) objetivando indenizações e pretensões financeiras. Tratam-se, portanto, de "*processos que envolvem interesse coletivo com tramitação perante a Justiça Federal*".

Entretanto, em todas essas ações **não há (e nunca houve)** intervenção obrigatória do MPF.

Portanto, o fato de ser *ação coletiva* ou versar sobre *interesse coletivo* – por si só –**não implica (e nunca implicou)** em intervenção obrigatória do Ministério Público Federal.

Com efeito, é a disposição normativa da lei ou a natureza jurídica do direito postulado em juízo que define se será (**ou não**) caso de intervenção obrigatória do *Parquet*.

A mera vontade do órgão ministerial é irrelevante!

In casu, anoto que a pretensão de intervenção (obrigatória) pelo Ministério Público Federal **não encontra** amparo na Lei, e nem na natureza jurídica do direito perseguido em juízo.

Vejamos:

As COMISSÕES DE ATINGIDOS, legitimadas a postularem em juízo segundo os termos do TAP, ADITIVO AO TAP e TAC-GOV, é formada exclusivamente por**pessoas**

maiores e capazes. As referidas COMISSÕES estão, ainda, devidamente formalizadas e representadas nos autos por intermédio de **advogados constituídos**, com procuração válida.

De outro lado, o *interesse jurídico* perseguido pelas COMISSÕES DE ATINGIDOS se resume à condenação das empresas rés (SAMARCO, VALE e BHP) ao *pagamento de indenizações* pelos **danos (*materiais e morais*)** causados pelo rompimento da barragem de Fundão, em Mariana.

Trata-se, portanto, de *interesse jurídico* relacionado a **direito patrimonial (recebimento de indenização)** reivindicado por **pessoas maiores e capazes civilmente**, devidamente representadas/assistidas por advogados legalmente inscritos na OAB.

Não há interesse público (ou interesse de incapaz) na presente lide.

A presente sentença, de igual modo, ao estabelecer o sistema simplificado e fixar a matriz de danos determinando o pagamento das indenizações pelas empresas rés, esclarece de forma clara e objetiva que se trata de **adesão facultativa**, voltada exclusivamente para **atingidos maiores e capazes**, devendo todos estarem acompanhados de seus respectivos advogados.

O ***sistema indenizatório simplificado*** instituído nessa decisão deixa claro que:

1. É **voluntário e facultativo**;
2. Se destina apenas para os **atingidos maiores e capazes civilmente**;
3. Se destina apenas para os atingidos que estejam *representados/assistidos por seus advogados*, inclusive procuração com poderes especiais;
4. Se limita ao pagamento de indenizações e pretensões financeiras decorrentes do Desastre de Mariana;
5. Versa exclusivamente sobre **direitos patrimoniais, individuais e disponíveis**.

De se registrar, por oportuno, que **não há** no presente feito interesse de menor, **não há** interesse de incapaz, **não há** matéria envolvendo direitos personalíssimos ou

indisponíveis, **não há** matéria envolvendo litígios coletivos pela posse de terra rural ou urbana.

Os direitos perseguidos em juízo referem-se exclusivamente a **direitos individuais, patrimoniais e disponíveis**, titularizados por pessoas livres, maiores e capazes civilmente, que estão representadas/assistidas por seus próprios advogados.

Esses titulares de direitos (livres, maiores e capazes) **NÃO ESTÃO** sujeitos a *regime tutelar ou curatelar* do Ministério Público Federal, ou de qualquer outra instituição.

Ostentam, por si só, plena capacidade jurídica perante o ordenamento para a prática dos atos jurídicos (materiais e processuais) que melhor lhes convierem.

Tratando-se de agentes capazes e direitos disponíveis, estão amparados pelo *princípio da autonomia da vontade privada*, e **não se sujeitam** à aquiescência, chancela ou concordância ministerial, pois, repita-se, **não estão** sujeitos a regime de tutela ou curatela de qualquer instituição.

Especificamente sobre a esse tema, a **ausência** de intervenção obrigatória do MPF no âmbito do *sistema indenizatório simplificado* já foi **afirmada e reafirmada 04 vezes** pelo Tribunal Regional Federal da 1ª Região.

Na ocasião, a Eminente Desembargadora Federal DANIELE MARANHÃO assentou que:

> **"**Não obstante a compreensão expressa pelo Ministério Público Federal de que se trata de direito coletivo, do contexto processual e da correspondente fase do procedimento bifásico de liquidação **detecta-se se amoldar o direito na categoria de individual disponível, na medida em que as tratativas são direcionadas a definir a documentação a ser apresentada, ao prazo para cadastro e à quantificação de valores a serem recebidos individualmente pelos atingidos, cuja esfera de disponibilidade é de cada um daqueles que voluntariamente aderirem à matriz de danos fixada. (...) E a natureza de direito individual disponível vem reforçada pelo próprio teor da decisão, que introduz um novo sistema indenizatório, sem ocasionar prejuízo ao modelo PIM (Programa de Indenização Mediada), em**

prestígio ao princípio da autonomia da vontade”. (Agravo de Instrumento - TRF1 – PJE nº 1034788-57.2020.4.01.0000)

E novamente a Eminente Desembargadora assentou, *in verbis*:

DECISÃO

Em que pesem os argumentos trazidos pelo Ministério Público Federal, eles não se mostram suficientes e nem indicam a existência de novos elementos suficientes para convencer sobre eventual impropriedade da decisão impugnada via agravo interno.

Mesmo após reflexão sobre o caso, ainda permanece a convicção, ao menos por ora, de que o pronunciamento desta relatora que não concedeu a antecipação de tutela está aparentemente adequado, uma vez que prestigia o direito individual do atingido de obter o ressarcimento da forma que melhor lhe aprouver.

Observo, ainda, que todos os atingidos são pessoas capazes, assessorados por advogados, cujos acordos submetem-se ao crivo do Judiciário, de modo que não se vislumbra nítida eventual lesão a direito que possa desconstituir a lisura do acordo.

Não se olvida que os Ministérios Públicos Federal e Estadual sejam fiscais da legalidade e as Defensorias tenham por função a assistência aos hipossuficientes, mas talvez a opção encontrada pelo juízo, atingidos e empresas possam representar o que se tem como melhor opção, diante da realidade dos atingidos e decurso de longos 5 (cinco) anos sem resposta, sob a compreensão de que “mais vale um mau acordo que uma boa demanda”, com a ressalva já feita de que não se vislumbra que o acordo feito seja ruim, somente não é o melhor.

No mesmo sentido, colhe-se na jurisprudência do STJ:

DIREITO PROCESSUAL CIVIL. RECURSOS ESPECIAIS. AÇÃO DECLARATÓRIA DE NULIDADE DE ESCRITURA PÚBLICA DE COMPRA E VENDA DE IMÓVEL C/C PEDIDO DE IMISSÃO NA POSSE. DECADÊNCIA PRONUNCIADA. INTERESSE RECURSAL. AUSÊNCIA. LEGITIMIDADE PARA RECORRER. NÃO VERIFICAÇÃO. **INTERVENÇÃO DO MINISTÉRIO PÚBLICO. DESNECESSIDADE. AUSÊNCIA DE NULIDADE.**

1. Ação ajuizada em 30/07/2013. Recursos especiais interpostos em 08 e 23/05/2017 e distribuídos em 19/12/2017.
2. Ação declaratória de nulidade de escritura pública de compra e venda de imóvel cumulada com pedido de imissão na posse.
3. Os propósitos recursais consistem na decretação de nulidade do processo desde o 1º grau de jurisdição, por cerceamento de defesa e falta de intimação do Ministério Público para intervir no feito e, se adentrado o mérito, o

afastamento da prejudicial de decadência e o reconhecimento da nulidade da escritura pública de compra e venda de imóvel.
(...)
8. O processo em apreço não encerra hipótese de intervenção obrigatória do Ministério Público, pois a demanda, tal como delimitada pelapetição inicial, não veicula matéria que possa repercutir no interesse público ou social, nem trata de litígio coletivo de posse de terra rural ou urbana. O direito invocado é de natureza pessoal e estritamente patrimonial, residindo a causa de pedir no fato de terem os autores pago pelo terreno e não o terem recebido, porque o imóvel foi alvo de negociação paralela entre os réus.
(...)
(REsp 1714925/CE, Rel. Ministra NANCY ANDRIGHI, TERCEIRA TURMA, julgado em 11/09/2018, DJe 14/09/2018)

De se registrar, ainda, que – **mesmo nos casos onde a Lei expressamente determina a intervenção obrigatória do Ministério Público, a exemplo de processos que envolvam incapazes e direitos indisponíveis** (o que não é o caso desses autos) – a jurisprudência do STJ é pacífica no sentido de que a ausência de intimação do MP, por si só, **não conduz à nulidade do processo**, pois é preciso comprovar concretamente a ocorrência de prejuízo. *In verbis*:

RECURSO ESPECIAL Nº 1.694.984 - MS (2017/0012081-0) RELATOR: MINISTRO LUIS FELIPE SALOMÃO RECORRENTE: MAIZA AMÉRICO RIBEIRO PROCURADOR: FRANCISCO CIRO MARTINS - MS004841 RECORRIDO : ENCCON ENGENHARIA COMÉRCIO E CONSTRUÇÕES LTDA ADVOGADO : ANNELISE REZENDE LINO FELICIO - MS007145 EMENTA RECURSO ESPECIAL. PROCESSO CIVIL. AÇÃO DE RESCISÃO CONTRATUAL. CITAÇÃO EM NOME DE INCAPAZ. INCAPACIDADE DECLARADA POSTERIORMENTE. **NULIDADE NÃO RECONHECIDA. INTERVENÇÃO DO MP. NULIDADE. NECESSIDADE DE DEMONSTRAÇÃO DO PREJUÍZO**. ESTATUTO DA PESSOA COM DEFICIÊNCIA. LEI N. 13.146/2015. DISSOCIAÇÃO ENTRE TRANSTORNO MENTAL E INCAPACIDADE.

1. A sentença de interdição tem natureza constitutiva, caracterizada pelo fato de que ela não cria a incapacidade, mas sim, situação jurídica nova para o incapaz, diferente daquela em que, até então, se encontrava.

2. Segundo o entendimento desta Corte Superior, a sentença de interdição, salvo pronunciamento judicial expresso em sentido contrário, opera efeitos ex nunc. Precedentes.

3. Quando já existente a incapacidade, os atos praticados anteriormente à sentença constitutiva de interdição até poderão ser reconhecidos nulos, porém não como efeito automático da sentença, devendo, para tanto, ser proposta ação específica de anulação do ato jurídico, com demonstração de que a incapacidade já existia ao tempo de sua realização do ato a ser anulado.

4. A intervenção do Ministério Público, nos processos que envolvam interesse de incapaz, se motiva e, ao mesmo tempo, se justifica na possibilidade de desequilíbrio da relação jurídica e no eventual comprometimento do contraditório em função da existência da parte vulnerável.

5. A ausência da intimação do Ministério Público, quando necessária sua intervenção, por si só, não enseja a decretação de nulidade do julgado, sendo necessária a demonstração do efetivo prejuízo para as partes ou para a apuração da verdade substancial da controvérsia jurídica, à luz do princípio pas de nullité sans grief.

(...)

10. Recurso especial a que se nega provimento.

ACÓRDÃO
Vistos, relatados e discutidos estes autos, os Ministros da Quarta Turma do Superior Tribunal de Justiça acordam, na conformidade dos votos e das notas taquigráficas, **por unanimidade**, negar provimento ao recurso especial, nos termos do voto do Sr. Ministro Relator. Os Srs. Ministros Antonio Carlos Ferreira (Presidente), Marco Buzzi e Lázaro Guimarães (Desembargador convocado do TRF 5ª Região) votaram com o Sr. Ministro Relator. Ausente, justificadamente, a Sra. Ministra Maria Isabel Gallotti. Brasília (DF), 14 de novembro de 2017 (Data do Julgamento) **MINISTRO LUIS FELIPE SALOMÃO Relator**

AGRAVO INTERNO NO RECURSO ESPECIAL. DIREITO CIVIL. PROCESSO CIVIL. NULIDADE DA CITAÇÃO. REJEITADA.

> INCAPACIDADE. SENTENÇA DE INTERDIÇÃO. NATUREZA CONSTITUTIVA. PREJUÍZO. AUSÊNCIA. CONJUNTO FÁTICO-PROBATÓRIO DOS AUTOS. REEXAME. SÚMULA Nº 7/STJ.
> 1. Recurso especial interposto contra acórdão publicado na vigência do Código de Processo Civil de 1973 (Enunciados Administrativos nºs 2 e 3/STJ).
> 2. O entendimento do Superior Tribunal de Justiça é no sentido de que (i) a sentença de interdição produz efeitos ex nunc, salvo expresso pronunciamento judicial em sentido contrário, e **(ii) a ausência de intervenção do Ministério Público nos processos que envolvam interesse de incapaz <u>não implica automaticamente a nulidade do julgado, sendo imprescindível a demonstração de prejuízo</u>.**
> Precedentes.
> 3. Rever as conclusões das instâncias ordinárias acerca da não demonstração de prejuízo concreto à defesa do incapaz demandaria o reexame de matéria fática e das demais provas dos autos, o que é absolutamente inviável nesta via recursal, consoante o óbice da Súmula nº 7/STJ.
> 4. Agravo interno não provido.
> (AgInt no REsp 1705385/SP, Rel. **Ministro RICARDO VILLAS BÔAS CUEVA, TERCEIRA TURMA**, julgado em 14/10/2019, DJe 17/10/2019)

Do mesmo modo, segundo posição pacífica do ST, também em sede de AÇÃO CIVIL PÚBLICA (**o que novamente não é o caso dos autos**), a <u>ausência</u> de intimação do Ministério Público para atuar como *fiscal da lei* **não conduz, por si só, à nulidade do processo**, pois é preciso demonstrar <u>concretamente</u> o prejuízo. *In verbis*:

> PROCESSUAL CIVIL E ADMINISTRATIVO. AGRAVO INTERNO EM RECURSO ESPECIAL. ENUNCIADO ADMINISTRATIVO 3/STJ. SUPOSTA VIOLAÇÃO AO ARTIGO 535 DO CPC. NÃO CARACTERIZADA. **AUSÊNCIA DE MANIFESTAÇÃO DO MP COMO CUSTOS LEGIS. NULIDADE.<u>NÃO OCORRÊNCIA</u>**. INCIDÊNCIA DA SÚMULA 568/STJ. AUSÊNCIA DE DEMONSTRAÇÃO DA VIOLAÇÃO LEGAL. SÚMULA 284/STF.VIOLAÇÃO REFLEXA À LEI FEDERAL. RESOLUÇÃO CONAMA. ATO NORMATIVO NÃO INCLUÍDO NO CONCEITO DE LEI FEDERAL. AGRAVO NÃO PROVIDO.
> 1. O presente recurso atrai a incidência do Enunciado Administrativo n. 3/STJ: "Aos recursos interpostos com fundamento no CPC/2015 (relativos a decisões publicadas a partir de 18 de março de 2016) serão exigidos os requisitos de admissibilidade recursal na forma do novo CPC".
> 2. A decisão recorrida foi clara ao consignar que o Juízo a quo, de modo fundamentado, tratou da questão suscitada, resolvendo de modo integral a controvérsia posta, colacionando, inclusive, trecho do acórdão do Tribunal de

origem em que a Corte cita e interpreta o art. 10 da Lei 6.938/1981. Violação ao art. 535 do CPC/1973 não configurada.

3. É pacífico nesta Corte Superior entendimento segundo o qual a ausência de intimação do Ministério Público em ação civil pública para funcionar como fiscal da lei não dá ensejo, por si só, a nulidade processual, salvo comprovado prejuízo.

4. A simples alegação de violação genérica de preceitos e normas infraconstitucionais, desprovida de fundamentação que demonstre de que maneira houve a negativa de vigência da norma pelo Tribunal de origem, não é suficiente para fundar recurso especial, atraindo a incidência da Súmula 284/STF: "É inadmissível o recurso extraordinário, quando a deficiência na sua fundamentação não permitir a exata compreensão da controvérsia." 5. Eventual violação aos artigos 4º, I, e 10 da Lei 9.638/1981 seria reflexa, e não direta, já que para o deslinde da controvérsia seria imprescindível a análise da Resolução 1/1986 do CONAMA, ato normativo que não se enquadra no conceito de "tratado ou lei federal" de que cuida o art. 105, III, a, da CF.
6. Agravo interno não provido.
(AgInt no REsp 1689653/PR, Rel. **Ministro MAURO CAMPBELL MARQUES**, SEGUNDA TURMA, julgado em 19/02/2019, DJe 26/02/2019)

Diante do exposto, nos termos da jurisprudência do TRF1 e do STJ, **INDEFIRO** o pedido de intervenção obrigatória no MPF na presente lide, eis que inocorrente na espécie, ante a ausência de previsão legal nesse sentido ou mesmo da natureza jurídica do interesse perseguido em juízo.

DA PRESENÇA NO TERRITÓRIO NA DATA DO EVENTO DANOSO

A forma de comprovação da presença no território na data do Evento Danoso (05/11/2015) qualifica-se como uma das mais importantes controvérsias constantes dos autos, a demandar intervenção judicial.

A COMISSÃO DE ATINGIDOS DE PONTE NOVA e a COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (Distrito) afirmaram ser necessária a adoção dos mesmos *critérios de elegibilidade* constantes nos outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo. *In verbis*:

> "(...) os atingidos do Município de Ponte Nova/MG e do Distrito de Pontal, pelo rompimento da Barragem do Fundão, diante do novo sistema indenizatório da Fundação Renova, através de sentença prolatada pelo douto magistrado da 12º Vara Federal e Agrária da Seção Judiciária de Minas Gerais, **aceitam a matriz de dano indenizatória proferidas nas sentenças da 12º Vara Federal e Agrária da Seção Judiciária de Minas Gerais**, referentes ao eixo 07 (...)." (grifo nosso)

As empresas rés (**SAMARCO, VALE e BHP**), por sua vez, aduziram que:

> "(...) **no município de Ponte Nova/MG e no distrito de Rosário do Pontal, a residência no local de nada basta, considerando que a distância dessas áreas para o rio Doce e o trajeto percorrido pela pluma de rejeitos demonstram a ausência de nexo causal entre os danos alegados pela Comissão de Atingidos e o Rompimento**. Assim, a premissa maior para a condução do PG-21 e PG-02 no território é totalmente inexistente, de modo que não há como serem aplicados os programas, sob pena de violação ao TTAC." (grifo nosso)

Pois bem.

Reputo indispensável, sob pena de verdadeiro incentivo às fraudes, que o atingido **comprove**, através de documento idôneo, sua **presença no território** no período do rompimento da barragem de Fundão (05 de novembro de 2015).

Anote-se que as próprias COMISSÕES DE ATINGIDOS **concordam** com a necessidade de ter-se tal comprovação por meio documental, pois os (legítimos) atingidos, inclusive, sentem-se incomodados com os "*oportunistas*" que se mudaram posteriormente para a região em busca de "vantagens" e "benefícios" financeiros.

Ademais, tanto as COMISSÕES DE ATINGIDOS quando as empresas rés (Samarco, Vale e BHP) concordam com a aplicação dos documentos comprobatórios já estabelecidos em outros precedentes *do sistema indenizatório simplificado*, em especial os constantes no PJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**).

A divergência, no ponto, reside na definição do marco temporal **e** na forma de comprovação, pelo atingido, de sua presença no território.

Quanto ao marco temporal, entendo pertinente que seja apresentada comprovação de residência relativa ao mês que antecede o evento danoso, do mês corrente ao do desastre ou do mês subsequente ao ocorrido, assim como estabelecido nos demais territórios já devidamente sentenciados.

Portanto, a comprovação de residência (PRESENÇA NO TERRITÓRIO) **deve corresponder obrigatoriamente aos meses de outubro/2015 ou novembro/2015 ou dezembro/2015.**

Quanto a forma de comprovação, cumpre estabelecer quais documentos devem ser admitidos para esse fim.

Tanto a "**forma primária**" de comprovação de residência – isto é, apresentação de comprovante em nome do titular do direito, a exemplo da conta de água, conta de energia e conta de telefonia fixa, quanto a "**forma secundária**" – ou seja, apresentação de carnê de plano de saúde, carnê de microempreendedor individual, boleto de condomínio, fatura de cartão de crédito, comunicado de consórcio, dentre outros, são **aptos** a comprovarem a presença do atingido no referido território.

A experiência adquirida pela Fundação Renova ao longo dos últimos 05 anos permitiu um elevado grau de conhecimento sobre as características de cada documento, **notadamente das fraudes**, isto é, os tipos de documentos mais fraudados e seus meios de adulteração.

É por isso, portanto, que se justifica plenamente a distinção (fática e jurídica) entre os documentos "primários" e os "secundários".

A experiência mostrou que os **documentos "primários"** ostentam maior grau de confiabilidade, já que são passíveis de conferência quanto a sua autenticidade. Por outro lado, as fraudes perpetradas se deram, em sua grande maioria, no âmbito dos **documentos "secundários"**.

In casu, reputo suficiente a apresentação de apenas **01 documento primário** ou pelo menos **02 documentos secundários** em nome do atingido, desde que correspondentes e contemporâneos **aos meses de outubro/2015 ou novembro/2015 ou dezembro/2015.**

A autodeclaração (pura e simples) **NÃO constitui**, em hipótese alguma, documento hábil a comprovar a presença no território. Mesmo nas situações de comprovada *vulnerabilidade social*, exige-se que o atingido comprove, ainda que minimamente, a sua presença na região.

Assim sendo, para fins de **comprovação de presença/residência no território**, no período do Evento Danoso (outubro/2015, ou novembro/2015 ou dezembro/2015), os atingidos deverão se valer de uma das seguintes formas:

(i) "**forma primária**" - apresentação de **apenas um único comprovante primário** em nome do titular do direito, sendo admitido:

- conta de água;
- conta de energia elétrica;
- conta de tv por assinatura/internet residencial;
- conta de telefonia fixa;
- comunicados ou declarações do INSS, INCRA, INEP, RECEITA FEDERAL, RECEITA ESTADUAL ou de programas sociais do Governo Federal, Estadual e Municipal, inclusive o CadÚnico (ano de 2015);
- certidão ou Declaração de ITR (ano de 2015);
- certidão ou Declaração de ISSQN (ano de 2015);
- certidão ou Declaração de IPTU (ano de 2015);
- certidão ou Declaração do Imposto de Renda (ano de 2015);
- declaração de Aptidão ao PRONAF – DAP (ano de 2015);
- declaração de Cadastro perante o IMA, IDAF, IEF e IGAM (ano de 2015);
- declaração emitida pelos órgãos públicos do Município, a exemplo da Secretaria Municipal de Assistência Social, Secretaria Municipal de Saúde e Secretaria Municipal de Educação;

- comunicado de órgãos de proteção ao crédito do ano de 2015 (SPC e SERASA);
- certidão ou declaração constante de matrícula escolar;
- declaração emitida por posto de saúde (UBS);
- prontuário Médico exclusivo de Clínica/Hospital do SUS (ano de 2015);
- controle de Pré-Natal realizado no SUS (ano de 2015);
- relatório do Agente Comunitário de Saúde ou Agente de Combate às Endemias, desde que emitido por órgão da Prefeitura Municipal (2015);
- certidão Nascimento/Casamento/Óbito lavrada ou averbada no ano de 2015;
- boletim de Ocorrência do ano de 2015 (Polícia Militar ou Polícia Civil);
- atas de Audiências em processos judiciais (ano de 2015);
- citações e intimações judiciais (ano de 2015);
- contrato ou declaração de abertura de conta bancária (ano 2015);
- contrato de aluguel do ano de 2015, desde que feito por intermédio de imobiliária;
- nota fiscal eletrônica de rede varejista ou concessionária de veículos, ou DANFE constando o endereço;
- extrato de FGTS;
- guia de seguro desemprego (2015);
- guia de seguro defeso (2015);
- termo de admissão de contrato de trabalho (2015);
- termo de rescisão de contrato de trabalho (2015);
- contrato de trabalho/estágio (2015);
- escritura pública em nome do atingido, desde que lavrada em outubro, novembro ou dezembro/2015;
- certificado de propriedade veículo (CRV)/comunicados DETRAN (2015);
- comunicado de infração de trânsito do ano de 2015 (DETRAN ou ÓRGÃOS PÚBLICOS).
- contrato de parceria rural, desde que assinado e com firma reconhecida em 2015;

- contrato de empréstimo bancário (PRONAF, PRONAMP, CUSTEIO AGRÍCOLA) desde que firmado em 2015;

(ii) "**forma secundária**"- apresentação de **pelo menos 02 (dois) comprovantes secundários** em nome do titular do direito, sendo admitido:

- registro no cadastro emergencial da SAMARCO;
- conta de telefonia móvel (pós-pago ou pré-pago);
- contrato de aluguel feito diretamente com o proprietário do imóvel, desde que com firma do proprietário reconhecida em cartório até setembro de 2016;
- declaração do proprietário do imóvel, desde que com firma reconhecida em cartório até setembro de 2016;
- carnê de plano de saúde;
- carnê de microempreendedor individual ("MEI");
- boleto de condomínio;
- fatura de cartão de crédito;
- comunicado bancário/consórcio/boleto;
- boleto de aluguel de imóvel;
- carnê de financiamento bancário; de veículos, imóvel, eletrodomésticos e eletroeletrônicos.

(iii) *excepcionalmente*, relativamente aos atingidos hipossuficientes, a CERTIDÃO DA JUSTIÇA ELEITORAL atestando o DOMICÍLIO ELEITORAL do atingido em Ponte Nova/MG servirá como prova de **01 (um) comprovante secundário**.

No que tange a forma (iii), para fins de comprovação de presença/residência no território, esclareço que qualquer atingido, **de qualquer categoria**, desde que comprovadamente hipossuficiente, poderá, nos termos da SENTENÇA, aproveitar a regra de exceção, valendo-se da CERTIDÃO DA JUSTIÇA ELEITORAL como prova de 01 (um) comprovante secundário.

Quanto ao conceito de ***atingido hipossuficiente***, tem-se que nos programas de reparação existentes, a Fundação Renova adota o **critério de renda mensal per capita igual ou inferior a 1/2 (metade) do salário-mínimo**, o que é perfeitamente adequado e em sintonia com a Legislação Federal.

A título de comparação, nas ações de *assistência social* (**LOAS**), cujo público alvo são pessoas claramente vulneráveis, a Lei Federal 8.742/93 adota como critério, para fins de elegibilidade, a renda mensal *per capita* igual ou inferior a 1/4 (um quarto) do salário-mínimo.

O critério adotado pela Fundação Renova (1/2 – metade – do salário mínimo) é, portanto, adequado, **eis que superior ao LOAS**, e em consonância com as atuais diretrizes do Governo Federal.

In casu, entendo que devem ser considerados como **hipossuficientes** aqueles atingidos cuja renda mensal *per capita* seja igual ou inferior a meio salário-mínimo, devidamente comprovado pela sua inclusão no CadÚnico OU outro banco de dados oficial (CNIS) que comprove a hipossuficiência da renda**.**

Consigne-se que todos os documentos (*primários* e/ou *secundários*), a fim de serem validados, deverão estar perfeitamente legíveis e terem algum vínculo/conexão (**período de referência**) com o ano de 2015, especialmente – quando cabível – os meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

Consigne-se, ainda, que os titulares do direito poderão se valer/aproveitar dos documentos primários e/ou secundários em nome do cônjuge/companheiro, desde que comprovada a relação entre ambos por intermédio de certidão de casamento ou declaração de união estável.

Do mesmo modo, aqueles atingidos que – à época do rompimento da barragem (05/11/2015) possuíam entre 16 e 17 anos de idade – poderão se valer dos comprovantes de residência que estavam em nome (titularidade) dos seus pais, desde que contemporâneos ao período do rompimento.

DA DELIMITAÇÃO DA ÁREA DE ABRANGÊNCIA – LINHA MÉDIA DE ENCHENTE ORDINÁRIA – LMEO – DA PRIVAÇÃO DE ACESSO À PROTEÍNA ANIMAL OBTIDA NO RIO DOCE – DA PRIVAÇÃO DE ACESSO À ÁGUA PARA FINS DE IRRIGAÇÃO E DESSEDENTAÇÃO DE ANIMAIS – CRITÉRIO DE ELEGIBILIDADE PARA OS PESCADORES DE SUBSISTÊNCIA E/OU AGRICULTURA DE SUBSISTÊNCIA E INFORMAIS - ADEQUAÇÃO - VALIDADE – LEGITIMIDADE

Quanto à LMEO, a **COMISSÃO DE ATINGIDOS DE PONTE NOVA e a COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (Distrito) sustentaram que concordam com os critérios aplicados nos demais precedentes do *sistema indenizatório simplificado*.

As empresas rés (SAMARCO, VALE e BHP), por sua vez, argumentaram que:

> "(...)
>
> O distrito de Rosário do Pontal está aproximadamente a 10km do rio Doce, enquanto o município de Ponte Nova fica distante quase 12 km. Além disso, tais localidades encontram-se na margem oposta ao trajeto percorrido pela lama (município e distrito encontram-se a aproximadamente 10 km da margem sul do rio Doce, enquanto a lama percorreu a margem norte até atingir o rio Doce), de forma que não houve nenhum impacto direto. A distância do rio Doce e a ausência de impacto direto da pluma de rejeitos são suficientes para demonstrar que o município de Ponte Nova/MG e o distrito de Rosário do Pontal não foram atingidos pelo Rompimento."

Pois bem.

Das manifestações das partes, extrai-se que a discussão/divergência trazida a juízo relativamente à adoção da **LMEO (Linha Média das Enchentes Ordinárias)** diz respeito à necessidade de **limitação da extensão, tomada a margem do rio, para a qual admitir-se-ia (em tese) a dependência dos atingidos (PESCADORES DE SUBSISTÊNCIA E AGRICULTORES DE SUBSISTÊNCIA – CONSUMO PRÓPRIO E INFORMAIS) aos frutos produzidos pelo referido curso d'água, notadamente o acesso, sem custo, à proteína animal, bem como produção, cultivo e dessedentação de animais.**

É fato inconteste que, *historicamente*, as **comunidades ribeirinhas**, onde disponível o pescado fácil, sempre se valeram dessa fonte para o suprimento de proteína animal, preferindo-a, pela ausência de custo e pelo fácil acesso, às outras fontes de proteína, como frango, boi e porco.

Do mesmo modo, a *agricultura de subsistência* depende do acesso à água do rio para fins de irrigação e/ou dessedentação de animais.

As COMISSÕES DE ATINGIDOS defendem a adoção do critério fixado no PJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), de forma que haja a diferenciação do *grau de dependência* **quanto a utilização (diária ou ocasional) do rio Doce**. Enquanto as empresas rés (Samarco, Vale e BHP), por seu turno, defendem a inexistência de impactos no território.

De início, tenho que assiste razão às empresas rés ao defenderem a necessidade de instituir-se algum tipo de **limite objetivo**, em que se presumiria (**em tese**) a dependência (direta e/ou indireta) do atingido (**comunidade ribeirinha**) à proteína obtida facilmente do pescado e/ou produção, cultivo e dessedentação de animais, sem qualquer custo.

Recorrendo às regras da experiência comum, esta nos revela que apenas os atingidos que **residem próximos à calha do rio** (comunidades verdadeiramente ribeirinhas) utilizam, como hábito diário, essa fonte de proteína gratuita e da mesma forma, como produção, cultivo e dessedentação de animais.

Portanto, essa presunção de dependência – a toda evidência – só tem cabimento para as comunidades ribeirinhas que possuam vínculo de proximidade com o curso d'água.

É óbvio que - com a facilitação dos meios de transporte nos dias atuais (motos, carros, bicicletas, ônibus) - um morador que resida a 20, 30 ou 40 km de distância do rio poderá dirigir-se ao mesmo para fins de obtenção do pescado. **Mas essa situação, evidentemente, não pode ser tida como presumível por si só, pois não é recorrente e nem natural, diferentemente do que ocorre com as comunidades tipicamente ribeirinhas, situadas na calha do rio.**

Por isso, é fundamental estabelecer-se um limite objetivo que bem delimite essa *presunção* de vínculo/dependência (direta ou indireta) com o rio.

Do mesmo modo, também as **categorias da agricultura** (*subsistência* - consumo próprio e informais) devem possuir um ***vínculo de proximidade*** e ***relação de dependência*** com o rio, já que dependiam da utilização da água para produção, cultivo e dessedentação de animais.

Com efeito, ultrapassa os limites do *senso comum* imaginar que uma propriedade rural (na modalidade de subsistência) localizada a 20, 30 ou 40 quilômetros de distância da calha do rio transportava dezenas a centenas de litros rotineiramente para fins de irrigação ou preenchimento de tanques.

Nessa linha de raciocínio, a fixação de algum tipo de limite objetivo (limitação de extensão) é perfeitamente adequada e admissível, sob pena de criar-se uma verdadeira ficção (fantasia jurídica) de que **todos os moradores** do município de Ponte Nova dirigem-se diariamente ao rio para fins de obtenção gratuita da proteína.

A fixação de um limite que contemple **todo o município e todo distrito** é tão irrazoável que contraria a própria lógica econômica: se isso fosse verdade, jamais existiria comerciantes e revendedores de pescado nas localidades.

As próprias COMISSÕES DE ATINGIDOS **concordam** com a necessidade de fixar-se um **limite objetivo** em que se possa presumir, com segurança, que os atingidos residentes naquele perímetro dependiam, *como regra*, da proteína (pescado) e/ou da água (produção, cultivo e dessedentação de animais) do rio Doce.

A divergência, no ponto, reside em definir qual a limitação da extensão, considerada a margem do curso d'água.

O critério adotado pela Fundação Renova não revelou-se adequado, já que – não obstante a alegação de adoção de um critério conservador – a adoção da LMEO (+ 1 km) **não retratou** adequadamente a realidade da bacia do rio Doce.

O ponto de partida LMEO (+500 metros) utilizado pela Fundação Renova **é técnico e mesmo juridicamente defensável**, já que utilizado pela própria UNIÃO em situações de reassentamentos decorrentes de construções de usinas hidrelétricas, **porém insuficiente**.

As hidrelétricas, no entanto, envolvem regiões distantes de mata, de floresta, comunidades afastadas, praticamente não atingindo centros urbanos.

Segundo consta dos autos, a Fundação Renova adotou a LMEO (+ 1km), aduzindo ser um critério conservador, o "dobro" daquele utilizado pela UNIÃO (LMEO + 500m).

Decorridos mais de 05 anos do desastre, é possível afirmar, com segurança, que o critério utilizado pela Fundação Renova **não retratou**, de forma adequada, a situação das "*categorias de subsistência*" na bacia do rio Doce.

A situação vivenciada no Desastre de Mariana é totalmente diferente.

O rio Doce corta diversas cidades e aglomerações urbanas, donde é perfeitamente possível imaginar um maior contingente de pessoas dependentes dos frutos e recursos do rio (**"CATEGORIAS DE SUBSISTÊNCIA")**.

Cabe, então, fazer-se uma distinção do *grau de dependência* quanto a utilização (diária ou ocasional) do rio Doce.

DA DEPENDÊNCIA DIÁRIA (FREQUENTE)

Somente as **comunidades tipicamente ribeirinhas**, isto é, aquelas que se localizam bem próximas à calha do rio, é que permitem a presunção de dependência diária (e frequente) para obtenção gratuita do pescado.

A **dependência diária (contínua, frequente)** pode ser adequadamente presumida para aquelas comunidades que se encontram próximas à calha do rio, a uma distância máxima de LMEO (+ 2km).

Trata-se, aqui, da adoção de um critério ainda mais conservador do aquele adotado pela Fundação Renova, isto é, o quádruplo daquele adotado pela União.

O **critério (LMEO + 2km)** é apto a retratar, com melhor precisão, a situação das "*categorias de subsistência*" que tinham uma dependência diária (**uso frequente**) dos frutos e insumos do rio Doce.

DA DEPENDÊNCIA ESPORÁDICA (OCASIONAL)

Não se pode desconsiderar, entretanto, a possibilidade (concreta) de que determinados atingidos - residentes um pouco mais distantes da calha do rio – se valiam (**ocasionalmente, esporadicamente**) dos frutos e insumos do rio.

É perfeitamente adequado presumir-se que os atingidos (*pescadores de subsistência*) residentes a uma distância de 3 ou 4km da calha do rio se valiam (**ocasionalmente**) do pescado como fonte de proteína.

Nesse caso, há uma dependência indireta (não-frequente) aos frutos do rio, que – por certo - merece ser reconhecida e contemplada por este juízo.

Assim sendo, considero que a limitação objetiva da extensão, tomada a margem do rio, para a qual se deve admitir a DEPENDÊNCIA DIRETA (DIÁRIA E FREQUENTE) aos frutos (pescado) produzidos pelo rio Doce, notadamente o acesso, sem custo, à proteína, além da dependência do atingido aos recursos hídricos (produção, cultivo e dessedentação de animais), devem corresponder à **LMEO (+ 2 km).**

De outro lado, reconheço a existência de DEPENDÊNCIA INDIRETA (OCASIONAL – NÃO FREQUENTE) aos frutos (pescado) produzidos pelo rio Doce do atingido que reside após 2km até 5 km da calha do rio, sendo que – quanto mais distante da calha do rio – menor o seu grau de dependência.

Diante das especificidades dos territórios aqui tratados, sendo o município de Ponte Nova um local de intenso contato com o rio Doce e rio Carmo, bem como com o rio Piranga, tenho que os critérios aqui delineados para a LMEO se aplicam, sempre que cabível, às comunidades ribeirinhas do rio do Carmo em toda a sua extensão e também do trecho final (últimos 2 km) do rio Piranga, também afetado nessa porção pelo retorno da onda de rejeito após a mesma chocar-se contra a parede do reservatório da UHE RISOLETA NEVES.

Ante o exposto e fiel a essas considerações, **ACOLHO** o pleito formulado pela COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG e pela COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO) e, via de consequência, FIXO o critério de extensão para DEPENDÊNCIA DIRETA (DIÁRIA e FREQUENTE) em **LMEO (+ 2 km).**

RECONHEÇO, ainda, a existência de DEPENDÊNCIA INDIRETA (OCASIONAL – NÃO FREQUENTE) aos frutos e insumos produzidos pelo rio Doce quanto ao atingido que reside entre **LMEO (+ 2 km) e LMEO (+ 5 km)**, sendo que – quanto mais distante da calha do rio – menor o seu grau de dependência.

Passo agora ao exame da *matriz de danos*.

DA MATRIZ DE DANOS

Cuida-se de pretensão deduzida pela **COMISSÃO DE ATINGIDOS PONTE NOVA** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO),** em que requer a este juízo federal providências no sentido de se implementar, com urgência, o **pagamento das Indenizações** das seguintes categorias: FAISCADORES/GARIMPEIROS ARTESANAIS; LAVADEIRAS; ARTESÃOS; AREEIRO/CARROCEIRO/EXTRATOR MINERAL; PESCADORES (de subsistência, informais/artesanais/de fato, profissionais e protocolados); ATIVIDADES LIGADAS À CADEIA PRODUTIVA DA PESCA; REVENDEDORES DE PESCADO; PROPRIETÁRIOS DE LAVRAS DE EXPLORAÇÃO MINERAL DE AREIA E CASCALHO; ATIVIDADES LIGADAS À CADEIA PRODUTIVA DE EXPLORAÇÃO DOS

AREAIS; REVENDEDORES DE OURO; COMERCIANTES DE AREIA E ARGILA; SETOR DE TURISMO; HOTÉIS/POUSADAS/BARES E RESTAURANTES; COMERCIANTES FORMAIS DE PETRECHOS DE PESCA; ASSOCIAÇÕES EM GERAL; AGRICULTORES/PRODUTORES RURAIS/ILHEIROS (para consumo próprio, comercialização informal, em grande porte); AMBULANTES EM GERAL/CAMELÔS/BARRAQUEIROS/FEIRANTES/PROMOTORES DE FESTAS E EVENTOS/PEQUENOS COMERCIANTES INFORMAIS; DIARISTAS/COLONOS/SAFRISTAS/AUTÔNOMOS/MÚSICOS/ARTISTAS/BORDADEIRAS/COSTUREIRAS/PROFISSIONAIS LIBERAIS/TRABALHADORES EM GERAL COM PERDA DE EMPREGO E RENDA; PROPRIETÁRIOS DE ALAMBIQUES E CACHAÇARIAS ARTESANAIS; DONOS DE DRAGAS INFORMAIS e; GARIMPEIROS PORCENTEIROS.

A pretensão das COMISSÕES consiste, em real verdade, que este juízo estabeleça, diretamente na via judicial, a **MATRIZ DE DANOS** das referidas categorias.

DO FUNDAMENTO LEGAL

A fixação da *matriz de danos* reclama a utilização, pelo juiz, das **regras de experiência comum**, pois a riqueza e diversidade das situações fáticas, consideradas as diversas categorias existentes, não encontra paralelo nos manuais e nas lides forenses do dia a dia.

A **singularidade do "CASO SAMARCO"**, que se constitui no maior desastre socioambiental do país, impõe ao julgador, quando da aplicação da Lei, a observância dos seus *fins sociais e das exigências do bem comum*.

A esse respeito, dispõe o CPC:

> "Art. 8º Ao aplicar o ordenamento jurídico, o juiz atenderá aos fins sociais e às exigências do bem comum, **resguardando e promovendo a dignidade da pessoa humana e observando a proporcionalidade, a razoabilidade, a legalidade, a publicidade e a eficiência**".

Ciente da possibilidade de que determinadas "causas" apresentem uma **particularidade ímpar**, sem qualquer precedente, seja pela sua dimensão/importância, seja pela sua especificidade, o legislador ordinário cuidou de prever tal situação no diploma processual, autorizando o juiz, em situações excepcionais, a se valer das *regras de experiência comum*, ou *máximas de experiência*.

O artigo 375 do novo Código de Processo Civil estabelece de forma clara e inconteste que:

> **"Art. 375. O juiz aplicará as regras de experiência comum subministradas pela observação do que ordinariamente acontece".**

As *regras de experiência comum* (ou máximas de experiência) se formam com base na observação, pelo Juiz, daquilo que habitualmente acontece, e, com isso, são por ele aplicadas, de modo que servem para a apreciação jurídica dos fatos, principalmente quando a aplicação do direito depende de juízos de valor.

A doutrina, de igual modo, sempre emprestou validade e reconhecimento jurídico à possibilidade de o juiz, em determinadas situações, apoiar-se em *máximas de experiência*. *In verbis:*

> "(...) louvar-se o juiz em máximas de experiência não se traduz em incidência a essa incompatibilidade psicológica [*do juiz julgar conforme seus conhecimentos privados*], porque, afastados estão os perigos que a estabelecem. **São as máximas de experiência noções pertencentes ao patrimônio cultural de uma determinada esfera social – assim a do juiz e das partes, consideradas estas representadas no processo por seus advogados – e, portanto, são noções conhecidas, indiscutíveis, não podendo ser havidas como informes levados ao conhecido privado do juiz**. Constituem elas noções assentes, fruto de verificação do que acontece de ordinário em numerosíssimos casos, e que, no dizer de CALAMANDREI, não dependem mais de comprovação e crítica mesmo, 'porque a conferência e a crítica já se completaram fora do processo', tendo já a seu favor a autoridade de verdades indiscutíveis."
>
> (MOACYR AMARAL SANTOS . **Prova judiciária no cível e comercial**, vol. I, 2ª ed., correta e atualizada. São Paulo: Max Limonad, 1952).

Assim sendo, ao examinar a pretensão das diversas categorias, fixando-lhes a correspondente *matriz de danos*, este juízo utilizará, sempre que necessário e nos termos do que autoriza a Lei Processual (art. 375 do CPC), as **"***regras de experiência comum subministradas pela observação do que ordinariamente acontece"*.

DO FUNDAMENTO TEÓRICO

"*ROUGH JUSTICE*" - JUSTIÇA POSSÍVEL

A pretensão deduzida pela COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG e pela COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO) consiste em que esse juízo estabeleça, diretamente na via judicial, a *matriz de danos* das diversas categorias impactadas pelo rompimento da barragem de Fundão, em Mariana/MG.

A situação é demasiadamente complexa, a exigir uma mudança de abordagem e concepção pelo juiz.

Não por outra razão qualifiquei o presente processo como "histórico", **pois não há precedente conhecido, dada a sua dimensão e importância jurídica**.

A rigor, a pretensão de indenização (reparação civil) rege-se pelos dispositivos do Código de Civil e das normas processuais.

Como exemplo, dispõe o Código Civil (art. 944) que "*A indenização mede-se pela extensão do dano*", o que significa dizer que a indenização deve corresponder, na exata medida, ao dano experimentado.

De início, o ordenamento jurídico, na sua *visão civilista clássica*, já nos mostra a dificuldade de aplicação dessa norma em situações de grandes Desastres, em que o número de vítimas ultrapassa a casa dos milhares.

Estima-se que o Desastre de Mariana ("CASO SAMARCO") tenha impactado, direta ou indiretamente, um universo de mais de **200 mil atingidos**, ao longo de mais de 700 km de extensão, desde de Mariana/MG até a foz do rio Doce, em Linhares/ES.

Numa concepção clássica, significaria dizer que cada um desses atingidos deveria comprovar em juízo a extensão individual dos seus danos (`fato constitutivo do seu direito – art. 373, inciso I, do CPC`), a fim de que a indenização pudesse ser fixada de modo correspondente.

Ocorre, entretanto, que esta situação (clássica) é totalmente inaplicável em cenário de grandes Desastres, com multiplicidade de vítimas e danos.

Em primeiro lugar, cabe alertar que o Poder Judiciário não tem condições de processar e julgar, em tempo adequado, centenas de milhares de ações individuais, sem falar, obviamente, no risco de decisões contraditórias e anti-isonômicas, levando descrença ao sistema.

Em segundo lugar, muitas das vezes, a solução clássica prevista no ordenamento civilista não leva em consideração a realidade do local. No âmbito do rio Doce, tem-se uma região extremamente simples e, por vezes, socialmente vulnerável. A realidade mostra que a maioria das vítimas (atingidos) não tem condições apropriadas de comprovar os danos que - não só alegadamente - (mas seguramente) experimentaram. A situação de informalidade é tão presente na bacia que muitos atingidos sequer conseguem provar a profissão alegada, ou mesmo o endereço de residência.

Em terceiro lugar, vê-se que o Judiciário, ao assim proceder, não consegue resolver o conflito, e muito menos conduzir a algum tipo de pacificação social.

Tudo isto evidencia que, numa perspectiva eminentemente clássica, o sistema legal **não oferece** solução adequada para processos dessa envergadura.

O sistema não está preparado para lidar com processos envolvendo grandes desastres.

É por essa razão que o presente feito (histórico) requer do Poder Judiciário uma nova abordagem na questão das indenizações aos atingidos, permitindo que a prestação jurisdicional cumpra a sua missão de levar pacificação social.

Diante desse contexto, cabe a este juízo federal encontrar substrato teórico com vistas a apresentar uma **solução possível** para o complexo e delicado tema das "indenizações".

No âmbito do direito comparado, o tema não é propriamente novo.

As dificuldades inerentes ao sistema de indenização dos grandes Desastres (ou das demandas de massa) constituem tema objeto de estudo de muitos juristas, exatamente pelo conservadorismo dos diversos arcabouços legais que exigem, quase sempre, provas materiais (irrefutáveis) como condição para o reconhecimento judicial e obtenção da respectiva indenização.

No *direito norte-americano* há muito se discute sobre a construção de sistemas indenizatórios simplificados (médios), com critérios mais flexíveis, em que se possa apresentar uma **solução indenizatória comum** às vítimas, não propriamente a mais perfeita e ideal, **mas sim a possível**.

Trata-se do que os americanos conhecem como a aplicação do "**rough justice**".

ALEXANDRA DEVORAH LAHAV (University of Connecticut – School of Law) ensina que na maioria das demandas indenizatórias de massa é praticamente impossível levar todos os casos à apreciação do Judiciário, com instrução individualizada de cada um deles. Em razão dessa constatação, muitos juízes têm buscado implementar soluções medianas, em que os danos (*standards* comuns) são extraídos das experiências comuns cotidianas. Esclarece, ainda, que a ideia do "**rough justice**" é tentar resolver um grande número de casos oferecendo aos litigantes a fixação de uma compensação (indenização), a partir de uma base comum presumível.

> "(…) What is rough justice? In many mass tort cases (as in many ordinary tort cases) **it is impossible to bring all cases to trial**. Even if the judge were to try cases for one hundred years only a fraction of the cases in the typical mass tort litigation would be heard.

To deal with this problem, judges have begun using informal statistical adjudication techniques to determine more or less what damages, if any, plaintiffs ought to be awarded.

Often courts will try "informational" bellwether cases, taking the verdicts of those cases and assisting the parties in extrapolating them over the entire population in an aggregate settlement.

The key feature of rough justice in mass torts is the attempt to resolve large numbers of cases by giving plaintiffs some recovery within the range of compensation in comparable cases.

Rough justice, as I use the term here, is the attempt to resolve large numbers of cases by using statistical methods to give plaintiffs a justifiable amount of recovery. It replaces the trial, which most consider the ideal process for assigning value to cases. Ordinarily rough justice is justified on utilitarian grounds. But rough justice is not only efficient, it is also fair. In fact, even though individual litigation is often held out as the sine qua non of process, **rough justice does a better job at obtaining fair results for plaintiffs than individualized justice under our current system**. While rough justice also has its limitations, especially to the extent it curbs litigant autonomy, in the end it is the most fairalternative currently available for resolving mass tort litigation".

Lahav, Alexandra D., Rough Justice (March 2, 2010). Available at SSRN: https://ssrn.com/abstract=1562677 or http://dx.doi.org/10.2139/ssrn.1562677

No Brasil, DIEGO FALECK (Mestre pela Harvard Law School e Doutor em Direito pela USP) afirma que:

"*existem situações em que interesses, percepções e contextos diferem substancialmente, e o designer deve ter o papel de desenvolver um processo que permita o entendimento do peso da visão e perspectiva de cada parte no contexto do todo em disputa, para promover uma visão compositiva para o problema, também conhecida como 'rough justice', ou justiça possível.*"

(...)

A necessidade de garantias processuais pode se fazer necessária em um contexto e menos necessária em outro. A natureza da fonte indenizadora, o número e a natureza das demandas, a necessidade de rapidez, contexto cultural, os recursos disponíveis a serem administrados e a aceitabilidade política da maneira de se avaliarem pleitos indenizatórios devem ser levados em consideração. O Brasil é

> carente desse tipo de raciocínio na resolução de questões coletivas e individuais homogêneas. A preocupação excessiva e descontextualizada com as garantias processuais torna raras as oportunidades de utilização do conceito de visão compositiva".
>
> (FALECK, Diego. Manual de Design de Sistemas de Disputas. Lumen Juris Editora: São Paulo, 2018 p. 133/134.)

E de forma absolutamente precisa, FALECK afirma que:

> *"(...) um programa de indenização pode se utilizar de* ***modelos simplificados e tabelados de indenização, conforme critérios de aproximação com a realidade****, ao invés de exigir prova documental mais robusta de danos".*

A ideia do "**rough justice**" é se valer de um processo simplificado para lidar, de forma pragmática, com questões indenizatórias de massa, em que se revela praticamente impossível exigir que cada uma das vítimas apresente em juízo a comprovação material (e individual) dos seus danos.

A partir do "**rough justice**", implementa-se simplificações necessárias, de acordo com cada categoria atingida, para possibilitar uma indenização comum e definitiva a partir dos critérios estabelecidos, ao invés de uma indenização individual, personalíssima, com base em robusta prova documental exigida pela lei processual.

In casu, ao pretender que este juízo federal estabeleça a *matriz de danos* das diversas categorias atingidas, inclusive com pedido subsidiário de adoção de valores para fins de quitação definitiva, as COMISSÕES DE ATINGIDOS reconheceram, de forma absolutamente leal, as dificuldades inerentes à comprovação (civilística) dos danos alegados, muito em razão da situação de informalidade e de vulnerabilidade socioeconômica na bacia do rio Doce.

Vale dizer: sem levar em consideração o evidente congestionamento que acarretaria ao Poder Judiciário, é praticamente impossível, dada a situação de notória informalidade

das diversas categorias, que cada um dos atingidos consiga, individualmente, demonstrar e comprovar em juízo (de forma documental) os danos que alega ter experimentado.

A realidade mostrou que a opção pelo ajuizamento de ação individual, como regra, conduziu a um juízo de improcedência, em razão da ausência de comprovação material dos danos alegados.

A constatação óbvia é que o Judiciário, ao assim proceder em conformidade com a concepção processual clássica, **não entrega** uma prestação jurisdicional adequada, já que **não consegue** promover a necessária *pacificação social*.

É por essa razão que exige-se uma mudança de concepção, uma nova abordagem no tema da indenização aos atingidos, permitindo que, ao se *flexibilizar* os critérios probatórios, seja-lhes apresentada uma **solução indenizatória comum**, não a ideal e perfeita, mas sim a possível.

Assim sendo, esclareço aos interessados que este juízo, sempre que entender necessário, utilizará no decorrer dessa decisão a noção do "**rough justice**" emprestada do direito norte-americano, com vistas a implementar no Desastre de Mariana ("Caso Samarco"), de forma célere, pragmática e simplificada, a "**Justiça Possível**".

DOS "FAISCADORES – GARIMPEIROS ARTESANAIS - TRADICIONAIS"

DO RECONHECIMENTO JUDICIAL DOS "FAISCADORES – GARIMPEIROS ARTESANAIS – TRADICIONAIS" COMO CATEGORIA ATINGIDA

Segundo as COMISSÕES DE ATINGIDOS, os "**faiscadores – garimpeiros artesanais**" alegam ter sofrido a interrupção de sua atividade tradicional imediatamente após o evento danoso, perdendo, com isso, sua fonte de renda, já que dependiam diretamente dos rios Doce, Carmo e/ou Piranga (*últimos 2km*) para extração artesanal do "*ouro de aluvião*".

A chamada **faiscação** consiste em uma modalidade de garimpagem exercida de modo tradicional, *secular*, através de serviço braçal e de baixa complexidade, no qual são utilizadas ferramentas simples para obter do solo o ouro em pequenos grânulos ou mesmo pó.

Pois bem.

A realidade da época (pré-desastre) mostrava que os "*faiscadores – garimpeiros artesanais*" constituíam sim uma atividade existente há séculos na localidade de Ponte Nova e no distrito Rosário do Pontal, realizada de modo tradicional e rudimentar, utilizando-se dos rios Doce, Carmo e/ou Piranga (*últimos 2km*) para obtenção de fonte de renda.

A realidade pós-desastre mostrou que, com a chegada da pluma de rejeitos, a referida atividade desapareceu, pois não restou mais viabilizado o exercício do ofício tradicional (faiscação) diante das condições da calha dos rios Doce, Carmo e/ou Piranga (*últimos 2km*).

É inequívoco, portanto, o fato de que os "*faiscadores – garimpeiros artesanais*" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua atividade tradicional, com grave comprometimento de sua (legítima) fonte de renda.

Não merece prosperar eventuais alegações quanto à ilicitude da atividade de faiscação com vistas a afastar-lhes o dever de indenizar a categoria em apreço. **A uma**, porque se tratam de "*faiscadores tradicionais*" que exerciam a atividade de modo rudimentar, artesanal e secular. **A duas**, porque, do contexto fático em comento, vê-se que o exercício dessa atividade tradicional se dava, inclusive, com a chancela do poder público.

Logo, se o próprio poder público tem fundadas dúvidas quanto à ilicitude (ou não) da conduta, permitindo-a durante séculos, **não há razão para presumi-la agora em desfavor dos atingidos**.

Ademais, não se pretende aqui emprestar legitimidade jurídica (de forma ampla e abrangente) a todas as atividades de garimpo que – por força da legislação ambiental – reclamam autorizações prévias, a cargo do poder público competente.

Do mesmo modo, é evidente que também as populações tradicionais estão sujeitas à disciplina legal e a observâncias das normas, quer ambientais, quer minerárias.

A presente decisão, ao contrário, busca – ao reconhecer o direito à indenização pelos faiscadores – compatibilizar a eficácia da norma ambiental vigente com a realidade (imposta) socioeconômica e socioambiental das populações tradicionais brasileiras.

Ao discorrer precisamente sobre o tema, o **Prof. MARCELO KOKKE**, membro da AGU, em lapidar passagem, assentou:

> "A confrontação entre Direito Ambiental e realidades sociocultural e socioeconômica brasileiras é por vezes conflitiva, tortuosa em seus caminhos. Essa relação de atritos e desafios requer um verdadeiro processo de hermenêutica reconstrutiva e contextualizadora, a fim de que não sejam as normas ambientais colocadas em uma constante adversidade para com a tutela das populações tradicionais brasileiras.
>
> (...)
>
> As atividades de mineração rudimentar exercidas por populações tradicionais, marcadas por seu baixo impacto e baixo nível proporcional de extração, são seculares, exercidas desde a época colonial brasileira. Em escala mais recente, o contexto normativo remonta ao Decreto n. 24.193, de 3 de maio de 1934, ainda na Era Vargas e que contou com a assinatura de Oswaldo Aranha. Este último e os diplomas legais que se seguiram enfrentaram o constante desafio de regularizar as práticas então desenvolvidas de forma puramente privada ao longo dos séculos e interiorizadas nas populações tradicionais nos diversos cantos do país.
>
> A Constituição da República, a partir do artigo 43 do ADCT, fundamentou a edição da Lei n. 7.886/89, que por sua vez abriu prazo para a regularização de atividade rudimentar de faiscadores ou extratores de minerais em atividades de baixo impacto.

A busca estatal pela regularização, assim como pela progressiva adoção de padrões de sustentabilidade e adequação ambiental, seguiu-se na legislação brasileira. **O Estatuto do Garimpeiro, Lei n. 11.685/2008, que abrange as populações tradicionais, indica claramente a oportunidade de regularização apresentada.** O artigo 5º da Lei reza que as cooperativas de garimpeiros terão prioridade na obtenção da permissão de lavra nas áreas nas quais estejam atuando, ou seja, reconhece a existência de um fato pretérito para o qual a lei pretende fazer face.

> *Art. 5º. As cooperativas de garimpeiros terão prioridade na obtenção da permissão de lavra garimpeira nas áreas nas quais estejam atuando, desde que a ocupação tenha ocorrido nos seguintes casos:*
>
> *I – em áreas consideradas livres, nos termos do Decreto-Lei nº 227, de 28 de fevereiro de 1967;*
>
> *II – em áreas requeridas com prioridade, até a data de 20 de julho de 1989; e*
>
> *III – em áreas onde sejam titulares de permissão de lavra garimpeira.*
>
> *Parágrafo único. É facultado ao garimpeiro associar-se a mais de uma cooperativa que tenha atuação em áreas distintas.*

A questão avança para além da situação de irregularidade nas atividades. Passa-se a ter enfoque no lastro normativo que conduz à possibilidade da regularização. Se do ponto de vista minerário é possível ao faiscador ou garimpeiro rudimentar pleitear a regularização de suas atividades, é necessário avaliar se também será possível a regularização ambiental.

A regularização ambiental de atividades que se façam sem autorizações ou licenças é possível. Exemplificativa no ponto é a licença corretiva.

O fato de estar um empreendimento sendo desenvolvido sem conformidade com o marco legal não significa sua irrefreável condenação e inviabilidade ambiental. É

possível ao seu responsável sempre buscar a conformidade para com as normas legais.

A oportunidade de regularização ambiental é uma abertura constante na legislação brasileira. Em âmbito federal, o IBAMA já dispunha desde o artigo 41 de sua Instrução Normativa n. 184/2008 quanto ao processo de regularização do licenciamento ambiental. A legislação do Estado de Minas Gerais caminha no mesmo sentido. A Deliberação Normativa do Conselho Estadual de Política Ambiental – COPAM – n. 217/2017 possui uma seção específica a tratar da regularização ambiental. O artigo 9º da norma dispõe expressamente que caso a instalação ou a operação da atividade ou empreendimento tenha sido iniciada sem prévio licenciamento, este ocorrerá de forma corretiva, sem prejuízo da aplicação das sanções cabíveis.

Uma primeira conclusão já se expressa. **As populações tradicionais que se dediquem à extração rudimentar por meio da garimpagem ou sejam faiscadores possuem o direito a pleitear em face do Estado sua regularização minerária e ambiental. Se haverá ou não conformidade, o tema é exclusivamente ligado ao Poder Público.**

A ocorrência de um desastre antropogênico socioambiental e socioeconômico como o de Mariana, ao inviabilizar a exploração minerária sustentável da área em que ocorria a atividade tradicional, não atinge propriamente um direito constituído em título minerário ou em licença ambiental a expressar base legal de utilização da área impactada.

Atinge-se sim o direito da população à potencial regularização minerária e ambiental para continuidade de suas atividades tradicionais, de forma sustentável e em conformidade para com a legislação. O dano é existente justamente por privar a população tradicional de uma chance de se regularizar, por privar a comunidade de usufruir da possibilidade normativa de pleitear em face do Estado a continuidade do exercício das atividades.

Ocorre a configuração de responsabilidade civil por parte dos responsáveis pelo dano ambiental ou desastre, como no caso de Mariana, por provocarem a perda de uma chance à regularização das atividades.

> Não se tematiza o dever de indenizar em face da atividade ser legal ou ilegal quando do dano, **mas sim pela existência de um direito de regularizar a atividade, com reflexos econômicos e mesmo existenciais na comunidade".**
>
> (https://direitoambiental.com/populacoes-tradicionais-e-a-perda-de-uma-chance-decorrente-de-danos-ambientais/)

Assim sendo, entendo que a categoria dos "*faiscadores – garimpeiros artesanais*" **deve sim** ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "*faiscadores– garimpeiros artesanais*" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "faiscadores – garimpeiros artesanais" que já trabalhavam no município de Ponte Nova, incluindo o distrito Rosário do Pontal, e consequentemente faziam desse ofício tradicional o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os "faiscadores – garimpeiros artesanais", portanto, devem comprovar, nos termos desta decisão a **presença no território** por ocasião do rompimento da barragem de Fundão no ano de 2015, especialmente, quando apropriado, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (princípio da contemporaneidade).

DA NECESSIDADE DE COMPROVAÇÃO DO OFÍCIO

Os “faiscadores – garimpeiros artesanais” que pretenderem aderir ao sistema de indenização simplificado previsto nesta decisão deverão **comprovar**, por meio idôneo, o seu ofício tradicional.

In casu, as COMISSÕES concordaram e requereram a aplicação dos mesmos parâmetros e critérios de comprovação adotados nos outros precedentes do *sistema indenizatório simplificado*.

As empresas rés (SAMARCO, VALE e BHP), por sua vez, inferiram apenas a ausência de impactos direitos ou indiretos no município ora em comento.

Pois bem.

Tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples **não pode** ser admitida como elemento (absoluto) constitutivo do direito.

Aliás, a utilização da autodeclaração pura e simples revelou-se um novo desastre na bacia do rio Doce, **pois deu origem a milhares de fraudes, prestigiando-se a ação de oportunistas e aproveitadores**, em detrimento dos legítimos atingidos.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, **não pode significar um incentivo às fraudes**, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, no mínimo, comprovar o fato constitutivo do seu direito.

As próprias COMISSÕES DE ATINGIDOS, de forma absolutamente leal e correta, não vieram a juízo, em momento algum, defender a autodeclaração pura e simples, **pois esta, como regra, só é defendida por aqueles que prestigiam a má fé e se aproveitam das reiteradas fraudes.**

O que se buscou, evidentemente, foi a *flexibilização dos critérios* (rígidos) de comprovação do ofício exigidos pela Fundação Renova. E, nesse sentido, a *flexibilização* dos critérios é perfeitamente adequada e compatível com a realidade (simples e humilde) da bacia do rio Doce.

Nesta esteira, requereram, de forma absolutamente legítima, categórica e contundente, a adoção dos mesmos parâmetros de elegibilidade relativos ao PJE 1055212-69.2020.4.01.3800 (RIO DOCE/MG).

Evidentemente, quem alega possuir uma atividade (um ofício gerador de renda), ainda que exercido de modo tradicional, certamente tem condições (ainda que mínimas) de provar essa condição.

Se de um lado, não se deve admitir a autodeclaração pura e simples, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, **não se pode admitir** – decorridos mais de 05 anos do Desastre - a exigência de uma gama de documentos formais (registrados em cartório) de categorias sabidamente informais.

No caso da categoria dos "faiscadores – garimpeiros artesanais", o pleito de *flexibilização* apresentado pelas COMISSÕES DE ATINGIDOS é perfeitamente legítimo, pois se trata de *categoria informal*, exercida modo tradicional e secular, raramente registrada e/ou documentada. Exigir uma série de "documentos formais" seria o mesmo que inviabilizar, *por vias transversas*, o próprio exercício do direito à indenização.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação da atividade, os "faiscadores – garimpeiros artesanais" deverão apresentar **pelo menos DOIS documentos**, dentre as seguintes possibilidades:

1. autodeclaração, sob as penas da Lei, com firma reconhecida em cartório;
2. declaração de faiscador firmada, sob as penas da Lei, por clientes/destinatários dos serviços dos "faiscadores – garimpeiros artesanais", com firma reconhecida em cartório, que deverá obrigatoriamente conter:
    - qualificação do declarante, inclusive os dados de RG e CPF, além do endereço completo;
    - identificação da região em que os serviços foram prestados;
    - identificação do trabalhador que prestou o serviço;

- indicação dos valores pagos;
- indicação da periodicidade da prestação de serviços/fornecimento de ouro.

3. registro em livros de entidades religiosas (participação em batismo, crisma, casamento ou em outros sacramentos);
4. livros de caixa informal ou caderneta de controle (contemporâneo ao evento e autenticado);
5. notas de venda do ouro;
6. registro MEI;
7. certidão de casamento ou nascimento dos filhos;
8. certidão de batismo dos filhos.

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado no PJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão da qualidade da água (**e da correspondente matéria-prima**) encontra-se *sub judice*, no âmbito dos Eixos Prioritários 6 e 9, ambos voltados para a realização de **prova técnica pericial** com vistas a equacionar, em definitivo, as dúvidas existentes.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda tem fundado receio de utilização da água (e extração de matéria prima) dos rios Doce, Carmo e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de **prova técnica em juízo** será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para o retorno da utilização dos insumos oriundos da calha dos rios, de forma a permitir aos "faiscadores – garimpeiros artesanais" o retorno seguro de sua atividade tradicional.

Conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma solução indenizatória média, de caráter geral, serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um novo fluxo de comprovação e pagamento perante a Fundação Renova, mais rápido, didático e célere, desenvolvido especialmente para o atendimento dessa decisão judicial.

Aqueles "faiscadores – garimpeiros artesanais" que dispuserem de documentação idônea, capaz de comprovar o direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo situação individual, buscando os valores que entenderem cabíveis. Com essa medida, preserva-se o direito e garante-se o amplo acesso à justiça daqueles que, porventura, queiram demonstrar em juízo sua particular situação fática e jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma solução coletiva comum para a pretensão indenizatória, fundada na noção de "justiça possível", **de adesão facultativa**.

O que se pretende encontrar, portanto, é o valor indenizatório médio que corresponda, com segurança, ao padrão comum de todos os "faiscadores – garimpeiros artesanais".

Cuida-se aqui de definir uma **solução indenizatória possível**, de caráter geral, em que se possa presumir, com segurança, o enquadramento médio de todos eles, **sem levar em conta as situações individuais de cada um**.

Reforço, uma vez mais, que a presente decisão terá **natureza facultativa**, de modo que aquele "faiscador – garimpeiro artesanal" que pretenda seguir lutando por valores

diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, assim, a proposta de **quitação definitiva** formulada pelas COMISSÕES DE ATINGIDOS quanto aos "faiscadores – garimpeiros artesanais".

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

A experiência cotidiana demonstra que *categorias informais* como os "faiscadores – garimpeiros artesanais", **como regra**, obtém em média o valor correspondente a dois salários mínimos com a extração de "*ouro de aluvião*" na calha do rio.

É evidente que um ou outro *faiscador – garimpeiro artesanal* possa ter auferido renda maior, em razão da sua força de trabalho e maior sorte na extração do ouro, mas isso não pode ser presumido para toda a categoria, reclamando, portanto, **comprovação individual**.

Assim sendo, adoto como valor-base a importância de R$ 2.200,00.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "faiscadores – garimpeiros artesanais" encontram-se impossibilitados de exercerem sua atividade tradicional, seja pela percepção geral de imprestabilidade dos insumos dos rios Doce, Carmo e/ou Piranga (*últimos 2km*), seja pela **ausência de laudo técnico oficial**, na via judicial, atestando o retorno à condição ambiental anterior ao Evento.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que a situação irá se modificar no curto e médio prazo. Isto porque a perícia judicial (Eixos 6 e 9) sobre a qualidade da água dos rios Carmo, Doce e Piranga (segurança e tratabilidade) encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundados receios sobre o retorno seguro das atividades.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "faiscadores – garimpeiros artesanais" devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades tradicionais.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

DANO MATERIAL: "materiais utilizados na faiscação"

As COMISSÕES DE ATINGIDOS reclamam por danos materiais pela *perda/inutilização* dos equipamentos empregados na faiscação.

Com a interrupção abrupta das atividades tradicionais da faiscação, é mais do que adequado presumir-se que o longo tempo de paralisação acarretou *danos/inutilização*, razão pela qual, neste particular, **FIXO o valor de R$ 5.000,00 (cinco mil reais), a título de indenização pela perda (ou inutilização) dos equipamentos utilizados no processo de extração do ouro**.

QUANTUM INDENIZATÓRIO

Consoante fundamentação exposta, para os fins exclusivos dessa decisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todos os "*faiscadores – garimpeiros artesanais*" – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do valor-base de R$ 2.200,00 multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda (71 meses), totalizando R$ 156.200,00.

DANOS MATERIAIS (danos emergentes): R$ 5.000,00 (cinco mil reais), a título de indenização pela perda (ou inutilização) dos equipamentos e produtos utilizados na faiscação.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "faiscadores – garimpeiros artesanais" que desejarem aderir à presente matriz de danos e consequente sistema de indenização simplificada, **mediante quitação final, única e definitiva**, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 161.200,00

DANO MORAL: R$ 10.000,00

TOTAL: R$ 171.200,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos do sistema indenizatório simplificado, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 171.200,00 (cento e setenta e um mil e duzentos reais)**, relativamente à categoria dos "faiscadores – garimpeiros artesanais-tradicionais", para fins de **quitação final e definitiva**.

DAS "LAVADEIRAS"

DO RECONHECIMENTO JUDICIAL DAS "LAVADEIRAS" COMO CATEGORIA ATINGIDA

As "lavadeiras" alegam terem sofrido a interrupção de seu ofício (profissão) imediatamente após o evento danoso, perdendo sua fonte de renda, já que dependiam diretamente da água dos rios Carmo, Doce e/ou Piranga.

Constata-se que a própria Fundação Renova já admitia internamente a possibilidade de emprestar reconhecimento jurídico às "lavadeiras" como categoria atingida.

A realidade da época (pré-desastre) mostrava que as "lavadeiras" constituíam sim um ofício existente no município de Ponte Nova, já que se utilizavam dos rios Carmo, Doce e/ou Piranga para o exercício de sua profissão e obtenção de fonte de renda.

A realidade presente (pós-desastre) mostrou que, com a chegada da pluma de rejeitos, esta profissão praticamente desapareceu, pois – evidentemente – nenhuma família teve mais coragem de disponibilizar/destinar suas roupas para serem lavadas com a água dos rios Carmo, Doce e Piranga (*últimos 2km*).

É inequívoco, portanto, o fato de que as "lavadeiras" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua profissão, com grave comprometimento de sua (legítima) fonte de renda.

Assim sendo, entendo que a categoria das "lavadeiras" deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO)**, via de consequência, **RECONHEÇO** as "LAVADEIRAS" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aquelas "lavadeiras" que já trabalhavam na beira dos rios (antes do Desastre), e consequentemente faziam desse ofício o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

As "lavadeiras", portanto, devem comprovar, nos termos dessa decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DO OFÍCIO

As "lavadeiras" que pretenderem aderir ao sistema de indenização previsto nesta decisão deverão **comprovar**, por meio idôneo, o seu ofício.

A COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG e a COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO) informaram a necessária aplicação dos mesmos parâmetros de comprovação do ofício adotados em outros precedentes do *sistema indenizatório simplificado* já devidamente sentenciados por este juízo.

As empresas rés (SAMARCO, VALE e BHP), por sua vez, inferiram apenas a ausência de impactos direitos ou indiretos no município ora em comento.

Pois bem.

A questão da comprovação do ofício exige serenidade, prudência, efetividade e justeza.

Os **critérios de elegibilidade** da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (**e exclusão**) quanto ao programa de reparação e indenização.

De outro lado, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples **não pode** ser admitida como elemento (absoluto) constitutivo do direito.

Aliás, a utilização da autodeclaração pura e simples revelou-se um verdadeiro novo desastre na bacia do rio Doce, **pois deu origem a milhares de fraudes, prestigiando-se a ação de oportunistas e aproveitadores**, em detrimento dos legítimos atingidos.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, **não pode significar um incentivo às fraudes**, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, **no mínimo**, comprovar o fato constitutivo do seu direito.

As próprias COMISSÕES DE ATINGIDOS, de forma absolutamente leal e correta, não vieram a juízo, em momento algum, defender a autodeclaração pura e simples, **pois esta, como regra, só é defendida por aqueles que prestigiam a má fé e se aproveitam das reiteradas fraudes**.

O que se buscou, evidentemente, foi a *flexibilização dos critérios* (rígidos) de comprovação do ofício exigidos pela Fundação Renova. E, nesse sentido, a *flexibilização* dos critérios é perfeitamente adequada e compatível com a realidade (simples e humilde) da bacia do rio Doce.

Nesta esteira, requereram, de forma absolutamente legítima, categórica e contundente, a adoção dos mesmos parâmetros de elegibilidade relativos ao PJE 1055212-69.2020.4.01.3800 (RIO DOCE/MG).

Evidentemente, quem alega possuir uma profissão (um ofício gerador de renda) certamente tem condições (ainda que mínimas) de provar sua condição.

Se de um lado, não se deve admitir a autodeclaração pura e simples, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, não se pode admitir – decorridos mais de 05 anos do Desastre - a exigência de uma gama de documentos formais de categorias sabidamente informais.

No caso da categoria das "lavadeiras", o pleito de *flexibilização*, e adoção dos mesmos parâmetros fixados nos outros precedentes do *sistema indenizatório simplificado*, apresentado pelas COMISSÕES DE ATINGIDOS é perfeitamente legítimo, pois se trata de categoria informal, raramente registrada e/ou documentada. Exigir inúmeros "documentos formais" seria o mesmo que inviabilizar, *por vias transversas*, o próprio exercício do direito à indenização.

Assim sendo, **ACOLHO** o pedido de "*flexibilização*" formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício, as "lavadeiras" deverão apresentar pelo menos **DOIS documentos**, dentre as seguintes possibilidades:

1. autodeclaração, sob as penas da Lei, com firma reconhecida em cartório;
2. declaração, sob as penas da Lei, de contratante dos serviços da "lavadeira", com firma reconhecida em cartório, que deverá obrigatoriamente conter:
    - qualificação do declarante, inclusive os dados de RG e CPF, além do endereço completo;
    - identificação da região onde os serviços foram prestados;
    - identificação do trabalhador que prestou o serviço;
    - indicação dos valores pagos;
    - indicação da periodicidade, com as datas de início e término da prestação de serviços de lavagem e passagem de roupas.
3. livro de caixa informal ou caderneta de controle (contemporâneos ao Evento e autenticados);

4. certidão de casamento ou nascimento dos filhos; certidão de batismo dos filhos;

5. registro em livros de entidades religiosas (participação em batismo, crisma, casamento ou em outros sacramentos).

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado no PJE1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão da qualidade da água encontra-se *sub judice*, no âmbito dos Eixos Prioritários 6 e 9, ambos voltados para a realização de **prova técnica pericial** com vistas a equacionar, em definitivo, as dúvidas existentes.

Somente a produção de prova técnica em juízo será capaz de afastar qualquer dúvida existente a esse respeito, trazendo conforto para que os *usuários/consumidores* possam novamente voltar a utilizar os serviços das "lavadeiras".

Conforme já ressaltado anteriormente, a *matriz de danos* e o novo sistema indenizatório, os quais buscam uma solução indenizatória média serão de **adesão facultativa** pelos atingidos, de modo que, para fins de adesão, haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Para a categoria das "lavadeiras", as COMISSÕES DE ATINGIDOS apresentaram concordância com o *quantum* indenizatório de R$84.195,00, para fins de quitação definitiva, **com utilização dos mesmos parâmetros e valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Contudo, aquelas "lavadeiras" que dispuserem de documentação idônea, capaz de comprovar seu direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entender cabíveis. Com essa medida, preserva-se o direito e garante-se o amplo acesso à justiça daquelas que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais 05 anos do rompimento da barragem, apresentar uma **solução coletiva comum** para a pretensão indenizatória das "lavadeiras", fundada na noção de "*rough justice*".

O que se pretende encontrar, portanto, é o **valor indenizatório médio** que corresponda, com segurança, ao padrão de todas elas.

Cuida-se aqui de definir uma solução indenizatória média, de caráter geral, em que se possa presumir, com segurança, o enquadramento mediano de todas as "lavadeiras", **sem levar em conta as situações individuais de cada uma**.

Reforço, uma vez mais, que a presente decisão terá natureza facultativa, de modo que aquela "lavadeira" que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, assim, a proposta de **quitação definitiva** formulada pelas COMISSÕES DE ATINGIDOS quanto as "lavadeiras", **com base nos valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

A experiência cotidiana claramente demonstra que *categorias informais* como as "lavadeiras", como regra, tem por remuneração média o salário mínimo.

Evidentemente, uma ou outra "lavadeira" poderá invocar o ganho de remuneração superior, o que (em tese) é possível. Entretanto, não se trata de uma presunção extensível a todas elas, cabendo, a esse respeito, o ajuizamento de ação individual, com a apresentação das provas exigidas pela lei processual.

Assim sendo, adoto o salário mínimo vigente na data dos precedentes do *sistema indenizatório simplificado* (R$ 1.045,00) como valor-base para fins de cálculo.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data as "lavadeiras" encontram-se impossibilitadas de exercerem o seu ofício, seja pela percepção geral de que a água dos rios Carmo, Doce e Piranga (*últimos 2km*) permanece imprópria, seja pela ausência de laudo técnico oficial, na via judicial, atestando a qualidade da água.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021) já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que nos próximos meses a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) sobre a qualidade da água dos rios Carmo, Doce e Piranga (segurança e tratabilidade) encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão dúvidas sobre o retorno seguro das atividades, quer pelas "lavadeiras", quer pelos usuários de seus serviços.

Logo, para os fins exclusivos dessa decisão, considero pertinente e adequado fixar em **71 meses** o período em que as "lavadeiras" devem ser indenizadas pela perda da renda, em razão da interrupção de suas atividades.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico e com a política indenizatória da Fundação Renova.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

QUANTUM INDENIZATÓRIO

Consoante fundamentação exposta, para os fins exclusivos dessa decisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todas as "lavadeiras" – entendo que as mesmas fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do salário mínimo vigente na data dos precedentes (R$ 1.045,00) multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda (71 meses), totalizando R$ 74.195,00.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, as “lavadeiras” que desejarem aderir à presente matriz de danos e consequente sistema de indenização, **mediante quitação definitiva**, serão indenizadas nos seguintes valores:

DANOS MATERIAIS = R$ 74.195,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 84.195,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos dessa decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 84.195,00 (oitenta e quatro mil e cento e noventa e cinco reais)**, relativamente à categoria das “lavadeiras”, para fins de **quitação definitiva**.

DOS "ARTESÃOS"

DO RECONHECIMENTO JUDICIAL DOS "ARTESÃOS" COMO CATEGORIA ATINGIDA

Segundo relatam as COMISSÕES DE ATINGIDOS, os “artesãos” alegam terem sofrido a interrupção de seu ofício (profissão) imediatamente após o evento danoso, perdendo sua fonte de renda, já que dependiam diretamente dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) (**areia, barro, conchas e argila**) para as atividades de artesanato.

De início, consigne-se que a **Deliberação CIF 234**, de 29 de novembro de 2018, é expressa quanto ao reconhecimento dos “artesãos” como categoria atingida pelo rompimento da barragem de Fundão.

Outrossim, a própria Fundação Renova já admitia internamente a possibilidade de emprestar reconhecimento jurídico aos “artesãos” como categoria atingida, mencionando que, na verdade, quando da apreciação dos pleitos naquela esfera, não teria havido a *comprovação* do ofício e da perda da renda.

A realidade da época (pré-desastre) evidenciava que os "artesãos" constituíam sim um ofício existente no município de Ponte Nova, que se utilizavam dos rios para o exercício de sua profissão e obtenção de fonte de renda.

O cenário pós-desastre mostrou que, com a chegada da pluma de rejeitos, esta profissão praticamente desapareceu, pois a matéria-prima necessária para o exercício das atividades de artesanato não se encontra mais disponível, restando comprometida.

É inequívoco, portanto, o fato de que os "artesãos" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua profissão, com grave comprometimento de sua (legítima) fonte de renda.

Assim sendo, entendo que a categoria dos "artesãos" deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "ARTESÃOS" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "artesãos" que já trabalhavam na dependência da matéria-prima dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) (antes do Desastre), e consequentemente faziam desse ofício o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os "artesãos", portanto, devem comprovar, nos termos dessa decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DO OFÍCIO

Os "artesãos" que pretenderem aderir ao sistema de indenização previsto nesta decisão deverão **comprovar**, por meio idôneo, o seu ofício.

As COMISSÕES DE ATINGIDOS informaram a necessária aplicação dos mesmos parâmetros de comprovação do ofício adotados em outros precedentes do *sistema indenizatório simplificado* já devidamente sentenciados por este juízo.

As empresas rés (SAMARCO, VALE e BHP), por sua vez, inferiram apenas a ausência de impactos direitos ou indiretos no município ora em comento.

Pois bem.

Os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização.

De outro lado, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples **não pode** ser admitida como elemento (absoluto) constitutivo do direito.

Aliás, a utilização da autodeclaração pura e simples revelou-se um novo desastre na bacia do rio Doce, **pois deu origem a milhares de fraudes,** prestigiando-se a ação de oportunistas e aproveitadores, em detrimento dos legítimos atingidos.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, **não pode significar um incentivo às fraudes**, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, no mínimo, comprovar o fato constitutivo do seu direito.

As próprias COMISSÕES DE ATINGIDOS, de forma absolutamente leal e correta, não vieram a juízo, em momento algum, defender a autodeclaração pura e simples, **pois**

esta, como regra, só é defendida por aqueles que prestigiam a má fé e se aproveitam das reiteradas fraudes.

O que se buscou, evidentemente, foi *flexibilização dos critérios* (rígidos) de comprovação do ofício exigidos pela Fundação Renova. E, nesse sentido, a *flexibilização* dos critérios é perfeitamente adequada e compatível com a realidade da bacia do rio Doce.

Nesta esteira, requereram, de forma absolutamente legítima, categórica e contundente, a adoção dos mesmos parâmetros de elegibilidade relativos ao PJE 1055212-69.2020.4.01.3800 (RIO DOCE/MG).

Evidentemente, quem alega possuir uma profissão (um ofício gerador de renda) certamente tem condições (ainda que mínimas) de provar essa alegação.

Se de um lado, não se deve admitir a autodeclaração pura e simples, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, não se pode admitir – decorridos mais de 05 anos do Desastre - a exigência de uma gama de documentos formais (registrados em cartório) de categorias sabidamente informais.

No caso da categoria dos "artesãos", o pleito de *flexibilização* e adoção dos mesmos parâmetros fixados em outros precedentes do *sistema indenizatório simplificado*, apresentado pelas COMISSÕES DE ATINGIDOS é perfeitamente legítimo, pois se trata de categoria informal, raramente registrada e/ou documentada. Exigir uma série de "documentos formais" seria o mesmo que inviabilizar, *por vias transversas*, o próprio exercício do direito à indenização.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOCA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício, os "artesãos" deverão apresentar **pelo menos DOIS documentos**, dentre as seguintes possibilidades:

1. autodeclaração, sob as penas da Lei, com firma reconhecida em cartório;

2. declaração, sob as penas da Lei, de *clientes/lojas/comércio* dos serviços do "artesão", com firma reconhecida em cartório, que deverá obrigatoriamente conter:

    - qualificação do declarante, inclusive os dados de RG e CPF/CNPJ, além do endereço completo;

    - identificação da região/modo onde/em os serviços foram prestados/fornecidos;

    - identificação do trabalhador que prestou o serviço; indicação dos valores pagos;

    - indicação da periodicidade da prestação de serviços/fornecimento de peças de artesanato.

3. carteirinha de ofício de artesanato (contemporânea ao Evento e autenticado);

4. declaração de associação de artesanato local, formal e devidamente constituída, nos termos da lei civil, na data do Evento (05/11/2015);

5. registro MEI;

6. notas fiscais de compra de materiais (contemporâneas ao evento e autenticadas);

7. certidão de casamento ou nascimento dos filhos; certidão de batismo dos filhos;

8. registro em livros de entidades religiosas (participação em batismo, crisma, casamento ou em outros sacramentos);

9. livros de caixa informal (contemporâneos ao Evento e autenticados).

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado em outros precedentes do *sistema indenizatório simplificado*, para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de

rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão da qualidade da água (e da correspondente matéria-prima) encontra-se *sub judice*, no âmbito dos Eixos Prioritários 6 e 9, ambos voltados para a realização de **prova técnica pericial** com vistas a equacionar, em definitivo, as dúvidas existentes.

Somente a produção de **prova técnica em juízo** será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para o retorno da utilização dos insumos oriundos dos rios Carmo, Doce e Piranga.

Conforme já ressaltado anteriormente, o novo sistema indenizatório, o qual busca uma solução indenizatória média, de caráter padrão será de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Para a categoria dos "artesãos", as COMISSÕES DE ATINGIDOS apresentaram concordância com o *quantum* indenizatório de R$90.195,00, para fins de quitação definitiva, **com utilização dos mesmos parâmetros e valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Contudo, aqueles "artesãos" que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entender cabíveis. Com essa medida, preserva-se o direito e garante-se o amplo acesso à justiça daqueles que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma solução coletiva comum para a pretensão

indenizatória dos "artesãos", fundada na noção de "justiça possível", ainda que de adesão facultativa.

O que se pretende encontrar, portanto, é o **valor indenizatório médio** que corresponda, com segurança, ao padrão de todos os "artesãos".

Cuida-se aqui de definir uma solução indenizatória mediana, de caráter geral, em que se possa presumir, com segurança, o enquadramento médio de todos eles, **sem levar em conta as situações individuais de cada um**.

Reforço, uma vez mais, que a presente decisão terá natureza facultativa, de modo que aquele "artesão" que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, assim, a proposta de **quitação definitiva** formulada pelas COMISSÕES DE ATINGIDOS quanto aos "artesãos", **com base nos valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

A experiência comum revela que *categorias informais* como os "artesãos", como regra, tem por remuneração média o salário mínimo.

É evidente que um ou outro "artesão", **dada a habilidade e singularidade do trabalho**, possa eventualmente ter tido remuneração superior. Mas nesse caso, conforme já afirmado, não se pode presumir essa situação, que reclama comprovação individual.

Assim sendo, adoto o salário mínimo vigente na data dos precedentes do *sistema indenizatório simplificado* (R$ 1.045,00) como valor-base.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "artesãos" encontram-se impossibilitados de exercerem o seu ofício, seja pela percepção geral de inviabilidade de utilização de quaisquer matérias primas (**areia, conchas, escamas de peixe, barro e argila**), seja pela ausência de laudo técnico oficial, na via judicial, atestando o retorno à condição ambiental anterior ao evento.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que a situação se modifique no curto prazo. Isto porque a perícia judicial (Eixos 6 e 9) sobre a qualidade da água dos rios Carmo, Doce e Piranga encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão receios sobre o retorno seguro das atividades.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "artesãos" devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

"PERDA/INUTILIZAÇÃO DE ESTOQUE DE MATÉRIAS-PRIMAS E PRODUTOS ACABADOS"

As COMISSÕES DE ATINGIDOS requereram reparação relativa à *perda/inutilização de estoque de matérias-primas e produtos acabados*.

Com a interrupção abrupta das atividades laborativas dos "artesãos", é mais do que adequado **presumir** que o longo tempo de paralisação acarretou

danos/inutilização de *matérias-primas estocadas e produtos acabados*, razão pela qual, neste particular, FIXO o valor de **R$ 6.000,00 (seis mil reais)**, a título de indenização pela perda (ou inutilização) das matérias-primas, estoques e produtos acabados.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

QUANTUM INDENIZATÓRIO

Consoante fundamentação exposta, para os fins exclusivos dessa decisão e como presunção geral e verdadeira "**solução média possível**" aplicável a todos os "artesãos" – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do salário mínimo vigente na data dos precedentes (R$ 1.045,00) multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda (71 meses), totalizando R$ 74.195,00.

DANOS MATERIAIS (danos emergentes): R$ 6.000,00 (seis mil reais), a título de indenização pela inutilização das matérias-primas estocadas e produtos acabados, porém não comercializados.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os “artesãos” que desejarem aderir à presente matriz de danos e consequente sistema de indenização, **mediante quitação definitiva**, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 80.195,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 90.195,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos dessa decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 90.195,00 (noventa mil, cento e noventa e cinco reais)**, relativamente à categoria dos “artesãos”, para fins de **quitação definitiva**.

DO "AREEIRO, CARROCEIRO E EXTRATOR MINERAL"

DO RECONHECIMENTO JUDICIAL DOS "AREEIROS/CARROCEIROS/EXTRATORES MINERAIS" COMO CATEGORIA ATINGIDA

Segundo as COMISSÕES DE ATINGIDOS, os “areeiros/carroceiros/extratores minerais” alegam terem sofrido a interrupção de seu ofício (profissão) imediatamente após o evento danoso, perdendo sua fonte de renda, já que dependiam diretamente dos rios Carmo, Doce e/ou Piranga (*últimos 2km*).

Preliminarmente, faz-se necessário ressaltar a cláusula 123 do TTAC estabelece de forma clara e inconteste, *in verbis*:

> "Deverão ser previstas medidas emergenciais para a readequação ou adaptação das formas de trabalho e geração de renda diretamente relacionadas ao rio, notadamente relativas aos pescadores **e aos areeiros**, podendo ser planejadas e fomentadas alternativas de negócios coletivos sociais", indicando a necessidade de tutela dos referidos ofícios ante o Evento."

A realidade da época (pré-desastre) mostrava que os "areeiros/carroceiros" constituíam sim um ofício existente no município de Ponte Nova, utilizando-se dos rios para o exercício de sua profissão e obtenção de fonte de renda.

A realidade pós-desastre mostrou que, com a chegada da pluma de rejeitos, esta profissão desapareceu, pois não restou mais viabilizado o exercício do ofício diante das condições dos rios Carmo, Doce e Piranga (*últimos 2km*).

É inequívoco, portanto, o fato de que os "areeiros/carroceiros" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua profissão, com grave comprometimento de sua (legítima) fonte de renda.

Assim sendo, entendo que a categoria dos "areeiros/carroceiros" deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "AREEIROS/CARROCEIROS" como categoria atingida, portanto elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "areeiros/carroceiros" que já trabalhavam em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os “areeiros/carroceiros”, portanto, devem comprovar, nos termos desta decisão a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DO OFÍCIO

Os “areeiros/carroceiros” que pretenderem aderir ao sistema de indenização previsto nesta decisão deverão **comprovar**, por meio idôneo, o seu ofício.

As COMISSÕES DE ATINGIDOS informaram a necessária aplicação dos mesmos parâmetros de comprovação do ofício adotados em outros precedentes do sistema indenizatório já devidamente sentenciados por este juízo.

As empresas rés (SAMARCO, VALE e BHP), por sua vez, inferiram apenas a ausência de impactos direitos ou indiretos no município ora em comento.

Pois bem.

Tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples **não pode** ser admitida como elemento (absoluto) constitutivo do direito.

Aliás, a utilização da autodeclaração pura e simples revelou-se um novo desastre na bacia do rio Doce, **pois deu origem a milhares de fraudes, prestigiando-se a ação de oportunistas e aproveitadores**, em detrimento dos legítimos atingidos.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, **não pode significar um incentivo às fraudes**, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, no mínimo, comprovar o fato constitutivo do seu direito.

As próprias COMISSÕES DE ATINGIDOS, de forma absolutamente leal e correta, não vieram a juízo, em momento algum, defender a autodeclaração pura e simples, **pois estasó é defendida por aqueles que prestigiam a má fé e se aproveitam das reiteradas fraudes.**

O que se buscou, evidentemente, foi a *flexibilização dos critérios* (rígidos) de comprovação do ofício exigidos pela Fundação Renova. E, nesse sentido, a *flexibilização* dos critérios é perfeitamente adequada e compatível com a realidade (simples e humilde) da bacia do rio Doce.

Nesta esteira, requereram, de forma absolutamente legítima, categórica e contundente, a adoção dos mesmos parâmetros de elegibilidade relativos ao PJE 1055212-69.2020.4.01.3800 (RIO DOCE/MG).

Evidentemente, quem alega possuir uma profissão (um ofício gerador de renda) certamente tem condições (ainda que mínimas) de provar essa condição.

Se de um lado, não se deve admitir a autodeclaração pura e simples, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, não se pode admitir – decorridos mais de 05 anos do Desastre - a exigência de uma gama de documentos formais (registrados em cartório) de categorias sabidamente informais.

No caso da categoria dos "areeiros/carroceiros", o pleito de *flexibilização* e adoção dos mesmos parâmetros fixados em outros precedentes do *sistema indenizatório simplificado*, apresentado pelas COMISSÕES DE ATINGIDOS é perfeitamente legítimo, pois se trata de categoria informal, raramente registrada e/ou documentada. Exigir uma série de "documentos formais" seria o mesmo que inviabilizar, *por vias transversas*, o próprio exercício do direito à indenização.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício, os "areeiros/carroceiros" deverão apresentar **pelo menos DOIS documentos**, dentre as seguintes possibilidades:

1. autodeclaração, sob as penas da Lei, com firma reconhecida em cartório;

2. declaração, sob as penas da Lei, de clientes dos serviços do "areeiro/carroceiro/extratores", com firma reconhecida em cartório, que deverá obrigatoriamente conter:

    - qualificação do declarante, inclusive os dados de RG e CPF, além do endereço completo;
    - identificação da região em que os serviços foram prestados;
    - identificação do trabalhador que prestou o serviço;
    - indicação dos valores pagos;
    - indicação da periodicidade da prestação de serviços.

3. declaração da associação de extratores de areia, formal e devidamente constituída, nos termos da lei civil, na data do evento danoso;
4. registro MEI;
5. certidão de casamento ou nascimento dos filhos; certidão de batismo dos filhos;
6. registro em livros de entidades religiosas (participação em batismo, crisma, casamento ou em outros sacramentos);
7. livros de caixa informal (contemporâneos ao Evento e autenticado).

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleiteiam a aplicação do mesmo *quantum* indenizatório fixado em outros precedentes do *sistema indenizatório simplificado*, para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão da qualidade da água (e da correspondente matéria-prima) encontra-se *sub judice*, no âmbito dos Eixos Prioritários 6 e 9, ambos voltados para a realização de **prova técnica pericial** com vistas a equacionar, em definitivo, as dúvidas existentes.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda tem fundado receio de utilização da água (e areia) dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de **prova técnica em juízo** será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para o retorno da utilização dos insumos (areia) oriundos do rio Doce, de forma a permitir aos "areeiros/carroceiros" o retorno seguro de sua profissão.

Conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma solução indenizatória média, de caráter geral, serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Para a categoria dos "areeiros/carroceiros", as COMISSÕES DE ATINGIDOS apresentaram concordância com o *quantum* indenizatório de R$84.195,00, para fins de quitação definitiva, **com utilização dos mesmos parâmetros e valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Contudo, aqueles "areeiros/carroceiros" que dispuserem de documentação idônea, capaz de comprovar seu direito, poderão – se entenderem pertinente – ajuizar ação própria a fim de demonstrar em juízo situação individual, buscando os valores que entenderem cabíveis. Com essa medida, preserva-se o direito e garante-se o amplo acesso à justiça daqueles que, porventura, queiram demonstrar em juízo sua particular situação fática e jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma solução coletiva comum para a pretensão indenizatória, fundada na noção de "justiça possível", **de adesão facultativa**.

O que se pretende encontrar, portanto, é o valor indenizatório médio que corresponda, com segurança, ao padrão mediano de todos os “areeiros/carroceiros”.

Cuida-se aqui de definir uma **solução indenizatória possível**, de caráter geral, em que se possa presumir, com segurança, o enquadramento médio de todos eles, **sem levar em conta as situações individuais de cada um**.

Reforço, uma vez mais, que a presente decisão terá natureza facultativa, de modo que aquele “areeiro/carroceiro” que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, assim, a proposta de **quitação definitiva** formulada pelas COMISSÕES DE ATINGIDOS quanto aos “areeiros/carroceiros”, **com base nos valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

A experiência cotidiana demonstra que *categorias informais* como os “areeiros/carroceiros”, **como regra**, tem por remuneração média o salário mínimo.

É evidente que um ou outro carroceiro/areeiro tenha experimentado remuneração maior, em razão da sua força de trabalho e maior clientela, mas isso não pode ser presumido para toda a categoria, reclamando, portanto, **comprovação individual**.

Assim sendo, adoto o salário mínimo vigente na data dos precedentes do *sistema indenizatório simplificado* (R$ 1.045,00) como valor-base.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "areeiros/carroceiros" encontram-se impossibilitados de exercerem o seu ofício, seja pela percepção geral de imprestabilidade dos insumos dos rios, seja pela **ausência de laudo técnico oficial**, na via judicial, atestando o retorno à condição ambiental anterior ao Evento.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que a situação irá se modificar no curto e médio prazo. Isto porque a perícia judicial (Eixos 6 e 9) sobre a qualidade da água dos rios Carmo, Doce e Piranga (segurança e tratabilidade) encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundados receios sobre o retorno seguro das atividades.

Logo, para os fins exclusivos dessa decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "areeiros/carroceiros" devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos dessa decisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todos os "areeiros/carroceiros" – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do salário-mínimo vigente na data dos precedentes (R$ 1.045,00) multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda (71 meses), totalizando R$ 74.195,00.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "areeiros/carroceiros" que desejarem aderir à presente matriz de danos e consequente sistema de indenização, **mediante quitação definitiva**, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 74.195,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 84.195,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos dessa decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 84.195,00 (oitenta e quatro mil e cento e noventa e cinco reais)**, relativamente à categoria dos "areeiros/carroceiros", para fins de **quitação definitiva**.

DO "PESCADOR DE SUBSISTÊNCIA"

DO RECONHECIMENTO JUDICIAL DO "PESCADOR DE SUBSISTÊNCIA" COMO CATEGORIA ATINGIDA

Segundo as COMISSÕES DE ATINGIDOS, os "*pescadores de subsistência*" utilizavam os rios Carmo, Doce e/ou Piranga como forma de prover o suprimento diário de proteína **para consumo pessoal** e, eventualmente, como escambo (troca de mercadorias e serviços). Aduzem, ainda, que com o desastre ambiental, houve interrupção imediata da atividade da pesca, comprometendo a subsistência alimentar.

É fato inconteste que os rios Carmo, Doce e Piranga, historicamente, sempre serviu como **fonte (gratuita) de proteína** para os atingidos que residiam próximo às suas calhas.

A própria Fundação Renova sempre admitiu os "*pescadores de subsistência*" ou "*pescadores de barranco*" como categoria elegível.

A realidade (pós-desastre), entretanto, mostrou que, com a chegada da pluma de rejeitos, a *pesca de subsistência* praticamente desapareceu, pois os pescadores passaram a ter receio de consumir o pescado oriundo das águas dos rios Carmo, Doce e/ou Piranga (*últimos 2km*).

É inequívoco, portanto, o fato de que os "pescadores de subsistência" eram realidade presente e, com a chegada da pluma de rejeitos, perderam uma importante fonte (gratuita) de obtenção de proteína.

Assim sendo, entendo que a categoria dos “pescadores de subsistência” deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os “PESCADORES DE SUBSISTÊNCIA” como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da fonte de proteína.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles “pescadores de subsistência” que já pescavam nos rios Carmo, Doce e/ou Piranga (*últimos 2km*) (antes do Desastre), e consequentemente dele dependiam para obtenção de sua fonte de proteína (**"subsistência"**), é que possuem direito a postularem indenização.

Os “*pescadores de subsistência*" (também chamados "pescadores de barranco") devem, portanto, comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE DE SUBSISTÊNCIA

A situação dos “pescadores de subsistência” ou "pescadores de barranco" **difere** das demais categorias, pois aqui **não se trata propriamente de perda de uma profissão, ou paralisação de um ofício**.

In casu, **não há** que se falar em perda (ou comprometimento) da renda.

O próprio Código de Pesca esclarece que o **Pescador de Subsistência** exerce a pesca para fins de consumo doméstico, ou escambo **sem fins de lucro**. *In verbis:*

"(...)

Art. 8o Pesca, para os efeitos desta Lei, classifica-se como:

I – comercial:

a) artesanal: quando praticada diretamente por pescador profissional, de forma autônoma ou em regime de economia familiar, com meios de produção próprios ou mediante contrato de parceria, desembarcado, podendo utilizar embarcações de pequeno porte;

b) industrial: quando praticada por pessoa física ou jurídica e envolver pescadores profissionais, empregados ou em regime de parceria por cotas-partes, utilizando embarcações de pequeno, médio ou grande porte, com finalidade comercial;

II – não comercial:

a) científica: quando praticada por pessoa física ou jurídica, com a finalidade de pesquisa científica;

b) amadora: quando praticada por brasileiro ou estrangeiro, com equipamentos ou petrechos previstos em legislação específica, tendo por finalidade o lazer ou o desporto;

c) de subsistência: quando praticada com fins de consumo doméstico ou escambo sem fins de lucro e utilizando petrechos previstos em legislação específica."

Os "*pescadores de subsistência*", portanto, não exerciam propriamente um ofício ou uma profissão e, desta feita, **não podem alegar perda de renda**. Trata-se de distinta situação jurídica, já que os rios Carmo, Doce e/ou Piranga (*últimos 2km*), não lhes proviam fonte de renda.

Podem, no entanto, alegar que **perderam a fonte gratuita de proteína (pescado)**, a qual teve que ser substituída por outra fonte proteica (porco, boi ou frango), aumentando-lhes as despesas e o custo de vida.

É preciso, portanto, encontrar critérios objetivos que permitam identificar aqueles atingidos que, em razão de sua hipossuficiência, **necessitavam** dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para obtenção de fonte de proteína.

AUTODECLARAÇÃO PURA E SIMPLES - IMPOSSIBILIDADE

Consoante já afirmado no decorrer desta decisão, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples **não pode** ser admitida como elemento (absoluto) constitutivo do direito.

A utilização da autodeclaração pura e simples revelou-se um **autêntico novo desastre**, pois deu origem a milhares de fraudes, prestigiando-se a ação de oportunistas e aproveitadores, em detrimento dos legítimos atingidos.

Foi especificamente nessa categoria ("PESCADORES DE SUBSISTÊNCIA") que a maioria das fraudes foram perpetradas.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, **não pode significar um incentivo às fraudes**, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, no mínimo, comprovar o fato constitutivo do seu direito.

Não obstante a situação de vulnerabilidade, exige-se que o “pescador de subsistência” ou "pescador de barranco" apresente um mínimo de prova que corrobore sua alegação.

Evidentemente, quem alega exercer uma atividade (pesca para fins de subsistência) certamente tem condições (ainda que mínimas) de provar essa alegação.

Se de um lado, não se deve admitir a *autodeclaração pura e simples*, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, não se pode admitir – decorridos mais de 05 anos do Desastre - a exigência de uma gama de documentos formais (registrados em cartório) de atividades sabidamente informais.

No caso da categoria dos "pescadores de subsistência", o pleito de *flexibilização* e adoção dos mesmos parâmetros fixados em outros precedentes do *sistema indenizatório simplificado*, apresentado pelas COMISSÕES DE ATINGIDOS é perfeitamente legítimo, pois se trata de atividade nitidamente informal, raramente registrada e/ou documentada. Exigir uma série de "documentos formais" seria o mesmo que inviabilizar, *por vias transversas*, o próprio exercício do direito à indenização.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação da atividade, os "pescadores de subsistência" deverão apresentar **DOIS documentos**, a saber:

1. autodeclaração, sob as penas da Lei, com firma reconhecida em cartório pelo alegado "pescador de subsistência";

2. declaração de pelo menos **uma testemunha**, sob as penas da Lei, atestando as atividades de *pesca de subsistência* pelo atingido, com firma reconhecida em cartório, que deverá obrigatoriamente conter:

    - qualificação da testemunha, inclusive os dados de RG e CPF, além do endereço completo;

    - identificação da região onde a pesca de subsistência era exercida.

DOS CRITÉRIOS (ADICIONAIS) DE ELEGIBILIDADE PARA O "PESCADOR DE SUBSISTÊNCIA" – LMEO E RENDA - NECESSIDADE

Com vistas a identificar aqueles atingidos que realmente possam se enquadrar como "*pescadores de subsistência*", sem prejuízo da comprovação da atividade, entendo como pertinente e adequado a adoção dos critérios objetivos de **renda** e **distanciamento dos rios**, ainda que *flexibilizados* e/ou *mitigados*.

O **critério objetivo da renda** é perfeitamente adequado. Isto porque a renda indica, com segurança, uma eventual condição social (e econômica) incondizente/incompatível com a atividade de subsistência.

Alegação de **"subsistência"** pressupõe *vulnerabilidade*, fato este que pode ser aferido (**confirmado ou afastado**) por intermédio da pesquisa de renda.

Nos programas de reparação existente, a Fundação Renova adota o critério de renda mensal per capita igual ou inferior a 1/2 (metade) do salário-mínimo, o que é perfeitamente adequado e em sintonia com a Legislação Federal.

O critério utilizado pela Fundação Renova (*renda per capita inferior a meio salário mínimo*), segue adequadamente a diretriz do Governo Federal para os programas de "subsistência".

O recorte de renda foi baseado nos parâmetros (faixas de renda) do **CadÚnico** que indica que a população de "*baixa renda*" brasileira está situada abaixo da linha de meio salário mínimo *per capita*. **É o público que tem maior probabilidade de apresentar dependência da pesca para subsistência**, dependendo verdadeiramente da proteína do pescado para garantia da sua subsistência alimentar.

A título de comparação, nas ações de *assistência social* (**LOAS**), cujo público alvo são igualmente pessoas vulneráveis, a Lei Federal 8.742/93 adota como critério, para fins de elegibilidade, a renda mensal *per capita* igual ou inferior a 1/4 (um quarto) do salário-mínimo.

O critério adotado pela Fundação Renova (1/2 – metade – do salário mínimo) é, portanto, adequado, **eis que superior ao LOAS**, e em consonância com as atuais diretrizes do Governo Federal.

Entendo que o critério utilizado pela Fundação Renova é juridicamente válido, pois retrata de forma fidedigna a realidade local.

Assim sendo, quanto ao critério da renda, podem ser considerados "*pescadores de subsistência*" ou "pescadores de barranco" aqueles cuja **renda mensal** *per capita* **seja igual ou inferior a meio salário-mínimo**.

O cálculo da renda, observado os critérios acima, deve ser aferido apenas no período correspondente de **Janeiro/2015 a Dezembro/2015** (período anterior ao Desastre).

De se registrar, por oportuno, na linha da jurisprudência pacífica do STJ e da própria legislação federal, que os valores recebidos por componentes do grupo familiar, a título de benefício assistencial (BPC/LOAS) ou de **benefício previdenciário até um salário-mínimo (inclusive)**, ficam **excluídos** do cálculo da aferição da *renda familiar mensal per capita* para fins de enquadramento na *categoria de subsistência*.

Sobre o tema, colhe-se na jurisprudência:

> PREVIDENCIÁRIO. RECURSO ESPECIAL. ENUNCIADO ADMINISTRATIVO 3/STJ.CONCESSÃO DE BENEFÍCIO ASSISTENCIAL A PESSOA COM DEFICIÊNCIA. RENDA PER CAPITA FAMILIAR NÃO SUPERIOR A 1/4 DO SALÁRIO MÍNIMO. RECURSO ESPECIAL REPETITIVO 1.355.052/SP. RECURSOS EXTRAORDINÁRIOS 580.963/PR e 567.985/MT (REPERCUSSÃO GERAL). RECURSO ESPECIAL PROVIDO.
>
> 1. O presente recurso atrai a incidência do Enunciado Administrativo 3/STJ, que dispõe: "Aos recursos interpostos com fundamento no CPC/2015 (relativos a decisões publicadas a partir de 18 de março de 2016) serão exigidos os requisitos de admissibilidade recursal na forma do novo CPC".
>
> **2. "Aplica-se o parágrafo único do artigo 34 do Estatuto do Idoso (Lei n. 10.741/03), por analogia, a pedido de benefício assistencial feito por pessoa com deficiência a fim de que benefício previdenciário recebido por idoso, no valor de um salário mínimo, não seja computado no cálculo da renda per capita prevista no artigo 20, § 3º, da Lei n. 8.742/93". (REsp 1355052/SP, PRIMEIRA SEÇÃO, DJe 05/11/2015).**
>
> **3. "O Estatuto do Idoso dispõe, no art. 34, parágrafo único, que o benefício assistencial já concedido a qualquer membro da família não será computado para fins do cálculo da renda familiar per capita a que se refere a LOAS. Não exclusão dos benefícios assistenciais recebidos por deficientes e de previdenciários, no valor de até um salário mínimo, percebido por idosos. Inexistência de justificativa plausível para discriminação dos portadores de deficiência em relação aos idosos, bem como dos idosos beneficiários da assistência social em relação aos idosos titulares**

de benefícios previdenciários no valor de até um salário mínimo." (RE 580963, TRIBUNAL PLENO, PUBLIC 14-11-2013).

4. O valor do benefício assistencial percebido pelo irmão deficiente do autor deve ser excluído do cálculo dos rendimentos do grupo familiar per capita.

5. Recurso especial provido.

(REsp 1832289/PE, Rel. Ministro MAURO CAMPBELL MARQUES, SEGUNDA TURMA, julgado em 24/11/2020, DJe 04/12/2020)

AGRAVO REGIMENTAL NO RECURSO ESPECIAL. BENEFÍCIO DE PRESTAÇÃO CONTINUADA. LOAS. ASSISTÊNCIA SOCIAL. PREVISÃO CONSTITUCIONAL.AFERIÇÃO DA CONDIÇÃO ECONÔMICA POR OUTROS MEIOS LEGÍTIMOS.VIABILIDADE. PRECEDENTES. PROVA. REEXAME. IMPOSSIBILIDADE. SÚMULA N.º 7/STJ. INCIDÊNCIA.

1. Este Superior Tribunal de Justiça pacificou entendimento no sentido de que o critério de aferição da renda mensal previsto no § 3.º do art. 20 da Lei n.º 8.742/93 deverá ser observado como um mínimo, não excluindo a possibilidade de o julgador, ao analisar o caso concreto, lançar mão de outros elementos probatórios que afirmem a condição de miserabilidade da parte e de sua família.

2. "A limitação do valor da renda per capita familiar não deve ser considerada a única forma de se comprovar que a pessoa não possui outros meios para prover a própria manutenção ou de tê-la provida por sua família, pois é apenas um elemento objetivo para se aferir a necessidade, ou seja, presume-se absolutamente a miserabilidade quando comprovada a renda per capita inferior a 1/4 do salário mínimo." (REsp1.112.557/MG, Rel. Min. NAPOLEÃO NUNES MAIA FILHO, TERCEIRA SEÇÃO, DJe 20/11/2009).

3. "Em respeito aos princípios da igualdade e da razoabilidade, deve ser excluído do cálculo da renda familiar per capita qualquer benefício de valor mínimo recebido por maior de 65 anos, independentemente se assistencial ou previdenciário, aplicando-se, analogicamente, o disposto no parágrafo único do art. 34 do Estatuto do Idoso." (Pet 2.203/PE, Rel. Min. MARIA THEREZA DE ASSIS MOURA, TERCEIRA SEÇÃO, DJe 11/10/2011).

4. Agravo regimental a que se nega provimento.

(AgRg no Ag 1394595/SP, Rel. Ministro OG FERNANDES, SEXTA TURMA, julgado em 10/04/2012, DJe 09/05/2012)

Além do requisito da renda, os "*pescadores de subsistência*" devem – a toda evidência – ter um **vínculo de proximidade** (*relação de dependência direta ou indireta*) com o rio Doce.

A experiência demonstra que somente aqueles **residentes próximos à calha do rio** são os que verdadeiramente dele se utilizam para extraírem a fonte de proteína para sustento próprio.

Cabe, portanto, definir um critério objetivo de distanciamento do rio.

Consoante já vimos, quanto mais próximo da calha do rio, maior a presunção de dependência (diária) de seus frutos e insumos. Ao contrário, quanto mais distante da calha, menor é a presunção de dependência.

Cabe, então, fazer-se uma distinção do *grau de dependência* quanto a utilização (diária ou ocasional) do rio Doce.

DEPENDÊNCIA DIÁRIA (FREQUENTE)

A **dependência diária (frequente)** pode ser adequadamente presumida para aquelas comunidades que se encontram a uma distância compreendida até LMEO (+ 2km).

DEPENDÊNCIA ESPORÁDICA (OCASIONAL)

A **dependência ocasional (não frequente, esporádica)** pode ser adequadamente presumida para aquelas comunidades que se encontram a uma distância compreendida entre a LMEO (+ 2km) e LMEO (+ 5km).

Assim sendo, poderão ser enquadrados como "*pescadores de subsistência*" aqueles atingidos que – **cumulativamente** – preencherem os requisitos de renda mensal per capita igual ou inferior a meio salário-mínimo e residência na proximidade da calha do rio Doce **(até LMEO +5 km)**, respeitados os diferentes níveis e graus de dependência.

Diante das especificidades dos territórios aqui tratados, sendo o município de Ponte Nova um local de intenso contato com o rio Doce e rio Carmo, bem como com o rio Piranga, tenho que os critérios aqui delineados para a LMEO se aplicam, sempre que cabível, às comunidades ribeirinhas do rio do Carmo em toda a sua extensão e também do trecho final (últimos 2 km) do rio Piranga, também afetado nessa porção pelo retorno da onda de rejeito após a mesma chocar-se contra a parede do reservatório da UHE RISOLETA NEVES.

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado em outros precedentes do *sistema indenizatório simplificado*, para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão da segurança alimentar do pescado e da própria qualidade da água encontram-se *sub judice*, no âmbito dos Eixos Prioritários 6 e 9, ambos voltados para a realização de **prova pericial (técnica)** com vistas a equacionar, em definitivo, as dúvidas existentes.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda tem fundado receio de utilização da água dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de **prova técnica em juízo** será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para o retorno da utilização dos insumos oriundos do rio Doce, de forma a permitir aos "pescadores de subsistência" o retorno seguro de sua profissão.

Por outro lado, conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma solução indenizatória média, de caráter geral, serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Para a categoria dos "pescadores de subsistência", as **COMISSÕES DE ATINGIDOS** apresentaram concordância com a **utilização dos mesmos parâmetros e valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Contudo, aqueles que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando outros valores que entenderem cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daqueles que, porventura, queiram demonstrar em juízo sua particular situação fática e jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma **solução coletiva comum** para a referida categoria, fundada na noção de justiça possível, ainda que de adesão facultativa.

O que se pretende encontrar, portanto, é o **valor indenizatório médio** que, minimamente, corresponda, com segurança, ao padrão mediano de todos aqueles que se enquadrem como "pescadores de subsistência".

Cuida-se aqui de definir uma solução **indenizatória de caráter coletivo**, em que se possa presumir, com segurança, o enquadramento mediano de todos eles, **sem levar em conta as situações individuais.**

Reforço, uma vez mais, que a presente decisão terá natureza facultativa, de modo que aquele que pretender seguir lutando por valores diversos poderá fazê-lo por meio do ajuizamento de ação individual, levando ao juízo competente a comprovação pertinente.

Examino, assim, a proposta de **quitação definitiva** formulada pelas COMISSÕES DE ATINGIDOS quanto aos "pescadores de subsistência", **com base nos valores fixados em outros precedentes do *sistema indenizatório simplificado* já sentenciados por este juízo.**

Examino, articuladamente, a composição do cálculo:

A. **DEPENDÊNCIA DIÁRIA (FREQUENTE-DIÁRIA)**

CESTA BÁSICA:

A perda da proteína do pescado pode ser presumida por este juízo como uma condição própria e inerente ao todos os "pescadores de subsistência".

Entretanto, **não há** qualquer sentido lógico em adotar-se o valor integral da cesta básica.

Ora, o Desastre de Mariana, ao menos quanto aos "*pescadores de subsistência*", afetou apenas e tão somente a obtenção da fonte de proteína dos rios Carmo, Doce e Piranga (*últimos 2km*) para consumo próprio, ou escambo, sem qualquer finalidade lucrativa.

O dano efetivo, portanto, foi a **perda da fonte de proteína oriunda do pescado**, que deixou de ser consumida, ou (em tese) teve que ser substituída por outra fonte proteica (porco, boi ou frango), em razão da chegada da pluma de rejeitos.

Descabe, portanto, adotar-se o **valor integral** da cesta básica que, sabidamente, é composta por diversos **outros** alimentos e produtos, que não somente a proteína.

De outro lado, entretanto, afigura-se perfeitamente legítimo utilizar o valor (**parcial**) da cesta básica, no que correspondente à proteína.

In casu, entendo adequado utilizar como valor-base o valor correspondente ao **kit de proteína** da cesta básica do Dieese (6 kg) por mês.

Para a valoração da proteína pode ser utilizada a pesquisa de preços de carnes do site de pesquisa e comparação de preços Mercado Mineiro (http://www.mercadomineiro.com.br/), cujos preços e cotações são referência para o consumidor.

Consultado o referido sítio eletrônico, verifica-se que o valor *médio/kilo* para o corte bovino é R$ 30,00 (trinta reais).

Considera-se o kit de proteína da cesta básica do Dieese (6 kg) por mês.

O preço da carne utilizado para o presente cálculo foi a média de estabelecimentos indicados da região centro-sul de Belo Horizonte.

Assim sendo, adoto como valor-base o valor de R$ 180,00 (cento e oitenta reais) mensais, a saber: R$ 30,00 (trinta reais) o valor *médio/kilo*, considerando o kit de proteína da cesta básica do Dieese (6 kg) por mês.

PERDA/INUTILIZAÇÃO DOS PETRECHOS DE PESCA

No que tange à indenização pela perda (ou inutilização) dos petrechos de pesca, verifica-se que a própria Fundação Renova pratica essa indenização nos seus programas reparatórios.

Assim sendo, ACOLHO o valor de R$ 1.200,00 (um mil e duzentos reais), a título de indenização pela perda (ou inutilização) dos petrechos de pesca de subsistência, a saber: *varas de bambu, molinete, anzol, linha, peneira, iscas, tarrafas e redes*.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "*pescadores de subsistência*" encontram-se impossibilitados de exercerem a sua atividade básica, seja pela percepção geral de que o pescado dos rios Carmo, Doce e Piranga (*últimos 2km*) permanece impróprio para consumo, seja pela ausência de laudo técnico oficial, na via judicial, atestando a referida segurança alimentar.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que nos próximos meses a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) sobre a qualidade da água dos rios Carmo, Doce e Piranga encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades de pesca, sobretudo para consumo.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "*pescadores de subsistência*" deverão ser indenizados pela perda da fonte de proteína.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos dessa decisão e como presunção geral e "**solução média possível**" aplicável aos "pescadores de subsistência" (DEPENDÊNCIA DIÁRIA), entendo que os mesmos fazem jus aos seguintes valores de indenização:

DANOS MATERIAIS (danos emergentes): R$ 1.200,00 (um mil e duzentos reais), a título de indenização pela inutilização dos petrechos de *pesca de subsistência* (varas de bambu, molinete, anzol, linha, peneira, iscas, tarrafas e redes).

DANOS MATERIAIS (perda/substituição da proteína): R$ 180,00 (cento e oitenta reais) mensais, a título de majoração no custo alimentar pela perda da proteína multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de *subsistência* (71 meses), totalizando R$ 12.780,00.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "*pescadores de subsistência*" (DEPENDÊNCIA DIÁRIA - FREQUENTE) que desejarem aderir à presente matriz de danos e consequente sistema de indenização, **mediante quitação final, única e definitiva**, serão indenizados no valor de **R$ 23.980,00.**

B. **DEPENDÊNCIA INDIRETA (OCASIONAL)**

A DEPENDÊNCIA INDIRETA (OCASIONAL – NÃO FREQUENTE) aos frutos (pescado) deve corresponder à distância compreendida entre a LMEO (+ 2km) e LMEO (+ 5km), sendo que – quanto mais distante das calhas dos rios – menor o grau de dependência.

Assim sendo, considerando os diferentes níveis e graus de dependência dos rios, fixo *proporcionalmente* os seguintes valores:

Entre LMEO (+ 2km) e LMEO (+ 3km) = R$ 21.582,00
Entre LMEO (+ 3km) e LMEO (+ 4km) = R$ 19.423,00
Entre LMEO (+ 4km) e LMEO (+ 5km) = R$ 17.481,00

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos desta decisão, FIXO o quantum indenizatório (DANOS MATERIAIS e DANOS MORAIS) relativamente à categoria dos "*pescadores de subsistência*" ou "*pescadores de barranco*", **para fins de quitação única e definitiva**, nos seguintes valores:

Até LMEO (+ 2km) = R$ 23.980,00
Entre LMEO (+ 2km) e LMEO (+ 3km) = R$ 21.582,00
Entre LMEO (+ 3km) e LMEO (+ 4km) = R$ 19.423,00
Entre LMEO (+ 4km) e LMEO (+ 5km) = R$ 17.481,00

DOS PESCADORES INFORMAIS / ARTESANAIS / DE FATO

DO RECONHECIMENTO JUDICIAL DA CATEGORIA DOS "PESCADORES INFORMAIS/ARTESANAIS/DE FATO"

Os “pescadores informais/artesanais/de fato” alegam terem sofrido a interrupção imediata de seu ofício (profissão) imediatamente após o evento danoso, perdendo sua fonte de renda, já que dependiam diretamente dos rios Carmo, Doce e/ou Piranga para trabalhar.

A realidade da época (pré-desastre) mostrava que os “pescadores informais/artesanais/de fato” constituíam sim um ofício existente no município de Ponte Nova, já que se utilizavam dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para o exercício de sua profissão e obtenção de fonte de renda.

A realidade pós-desastre claramente evidenciou que, com a chegada da pluma de rejeitos, este ofício foi prejudicado, praticamente desapareceu, pois não se vislumbrou mais a viabilidade de pesca nos rios, de modo que o *comércio/consumo* de pescado restou integralmente comprometido.

É inequívoco, portanto, o fato de que os “*pescadores informais/artesanais/de fato*” eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua profissão, com grave comprometimento de sua (legítima) fonte de renda.

Assim sendo, entendo que a categoria dos “pescadores informais/artesanais/de fato” deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os “PESCADORES INFORMAIS/ARTESANAIS/DE FATO” como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "pescadores informais/artesanais/de fato" que já trabalhavam em Ponte Nova no período pré-desastre, e consequentemente faziam desse ofício o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os "pescadores informais/artesanais/de fato", portanto, devem comprovar, nos termos dessa decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DO OFÍCIO

Os "pescadores informais/artesanais/de fato" que pretenderem aderir ao sistema de indenização previsto nesta decisão deverão comprovar, por meio idôneo, o seu ofício.

As COMISSÕES DE ATINGIDOS informaram a necessária aplicação dos mesmos parâmetros de comprovação do ofício adotados em outros precedentes do *sistema indenizatório simplificado* já devidamente sentenciados por este juízo.

As empresas rés (SAMARCO, VALE e BHP), por sua vez, inferiram apenas a ausência de impactos direitos ou indiretos no município ora em comento.

Pois bem.

A autodeclaração pura e simples **não pode ser** admitida como elemento (absoluto) constitutivo do direito.

Aliás, a utilização da autodeclaração pura e simples revelou-se um novo desastre na bacia do rio Doce, **pois deu origem a milhares de fraudes, prestigiando-se a ação de oportunistas e aproveitadores**, em detrimento dos legítimos atingidos.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, não pode significar um incentivo às fraudes e um prêmio aos fraudadores, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, no mínimo, comprovar o fato constitutivo do seu direito.

As próprias COMISSÕES DE ATINGIDOS, de forma absolutamente leal e correta, não vieram a juízo, em momento algum, defender a autodeclaração pura e simples, **pois esta, ao que tudo indica, só é defendida por aqueles que prestigiam a má fé e se aproveitam das reiteradas fraudes**.

O que se buscou, evidentemente, foi *flexibilização dos critérios* (rígidos) de comprovação do ofício exigidos pela Fundação Renova. E, nesse sentido, a flexibilização dos critérios é perfeitamente adequada e compatível com a realidade (simples e humilde) da bacia do rio Doce.

Nesta esteira, requereram, de forma absolutamente legítima, categórica e contundente, a adoção dos mesmos parâmetros de elegibilidade relativos ao PJE 1055212-69.2020.4.01.3800 (RIO DOCE/MG).

Evidentemente, quem alega possuir uma profissão (um ofício gerador de renda) certamente tem condições (ainda que mínimas) de provar essa alegação.

Se de um lado, não se deve admitir a autodeclaração pura e simples, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, não se pode admitir – decorridos mais de 05 anos do Desastre - a exigência de uma série de documentos formais (registrados em cartório) de categorias sabidamente informais.

No caso da categoria dos "pescadores informais/artesanais/de fato", o pleito de *flexibilização* e adoção dos mesmos parâmetros fixados em outros precedentes do *sistema indenizatório simplificado*, apresentado pelas COMISSÕES DE ATINGIDOS é perfeitamente legítimo, pois se trata de categoria informal, raramente registrada e/ou documentada. Exigir uma gama de "documentos formais" seria o mesmo que inviabilizar, *por vias transversas*, o próprio exercício do direito à indenização.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício, os "pescadores informais/artesanais/de fato" deverão apresentar **pelo menos DOIS documentos**, dentre as seguintes possibilidades:

1. autodeclaração, sob as penas da Lei, com firma reconhecida em cartório pelo "pescador informal/artesanal/de fato";
2. declaração, sob as penas da Lei, de clientes/lojas/comércio dos serviços do "pescador informal/artesanal/de fato", com firma reconhecida em cartório, que deverá obrigatoriamente conter:
    - qualificação do declarante, inclusive os dados de RG e CPF/CNPJ, além do endereço completo;
    - identificação da região/modo onde/em os serviços foram prestados/fornecidos;
    - identificação do trabalhador que prestou o serviço;
    - indicação dos valores pagos;
    - indicação da periodicidade da prestação de serviços/fornecimento de pescado.
3. carteirinha de ofício de pescador (contemporânea ao Evento e autenticado);
4. certidão de casamento ou nascimento dos filhos;
5. certidão de batismo dos filhos;
6. registro em livros de entidades religiosas (participação em batismo, crisma, casamento ou em outros sacramentos);
7. livros de caixa informal (contemporâneos ao Evento e autenticado).

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado em outros precedentes do *sistema indenizatório simplificado*, para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão da segurança alimentar do consumo do pescado encontra-se *sub judice*, no âmbito do Eixo Prioritário 6, voltado exclusivamente para a realização de **prova pericial (técnica)** com vistas a equacionar, em definitivo, as dúvidas existentes.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda tem fundado receio de utilização da água dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de **prova técnica em juízo** será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para o retorno da utilização dos insumos oriundos dos rios Carmo, Doce e Piranga (*últimos 2km*), de forma a permitir aos "*pescadores informais/artesanais/de fato*" o retorno seguro de sua profissão.

Para a categoria dos "pescadores informais/artesanais/de fato", as COMISSÕES DE ATINGIDOS apresentaram concordância com o *quantum* indenizatório de R$94.585,00, para fins de quitação definitiva, **com utilização dos mesmos parâmetros e valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Contudo, aqueles que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entender cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daquelas que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma **solução coletiva comum** para a pretensão indenizatória, fundada na noção de justiça possível, ainda que de adesão facultativa.

O que se pretende encontrar, portanto, é o **valor indenizatório médio** que corresponda, com segurança, ao padrão mediano de todos os "pescadores informais/artesanais/de fato".

Cuida-se aqui de definir uma **solução indenizatória comum**, de caráter coletivo, em que se possa presumir, com segurança, o enquadramento médio de todos os "pescadores informais/artesanais/de fato", **sem levar em conta as situações individuais de cada um**.

Reforço, uma vez mais, que a presente decisão terá natureza facultativa, de modo que aquele "pescador informal/artesanal/de fato" que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, assim, a proposta de **quitação definitiva** formulada pelas COMISSÕES DE ATINGIDOS quanto aos "pescadores informais/artesanais/de fato", **com base nos valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

A experiência cotidiana demonstra que *categorias informais* como os "pescadores informais/artesanais/de fato", como regra, tem por remuneração média o salário mínimo.

É claro que, eventualmente, um ou outro possa ter auferido ganhos superiores, mas, conforme já afirmei, cuida-se aqui de encontrar uma **solução padrão** em que, com segurança, seja possível presumir o enquadramento de todos os atingidos dessa categoria.

Assim sendo, adoto o salário mínimo vigente na data dos precedentes do *sistema indenizatório simplificado* (R$ 1.045,00) como valor-base.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "pescadores informais/artesanais/de fato" encontram-se impossibilitados de exercerem o seu ofício, seja pela percepção geral de inviabilidade de consumo de pescado oriundo dos rios Carmo, Doce e Piranga, seja pela ausência de laudo técnico oficial, na via judicial, atestando o retorno à condição ambiental anterior ao Evento.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que nos próximos meses a situação venha a se modificar substancialmente. Isto porque a perícia judicial (Eixo 6) sobre a segurança alimentar do pescado dos rios Carmo, Doce e Piranga encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "pescadores informais/artesanais/de fato" devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

PERDA (SUBSTITUIÇÃO) DA PROTEÍNA

A pretensão concernente a indenização pela perda (ou substituição) da proteína tem relação direta com a condição de "pescador de fato/artesanal", pois é absolutamente natural imaginar que o **pescador** se valha dessa fonte de proteína para prover sua própria alimentação.

Com efeito, a perda (ou substituição) da proteína do pescado pode ser presumida por este juízo como uma **condição própria e inerente a todos os pescadores**, quer de subsistência, quer de fato/artesanal, quer profissionais.

Assim sendo, ACOLHO o valor de R$ 3,00 (três reais) por pessoa, a título de majoração no custo alimentar diário pela substituição da proteína.

PERDA/INUTILIZAÇÃO DOS PETRECHOS DE PESCA

As COMISSÕES DE ATINGIDOS pleitearam a reparação pela perda/inutilização dos petrechos de pesca.

Com a interrupção das atividades laborativas, é mais do que adequado presumir que o longo tempo de paralisação acarretou danos/inutilização a tais petrechos.

De acordo com o artigo 375 do CPC, à luz das regras de experiência comum, ao observar ordinariamente os fatos, reputo adequado o valor de **R$ 4.000,00** à titulo de indenização pela perda (ou inutilização) dos petrechos de pesca.

Assim sendo, ACOLHO o valor de R$ 4.000,00 (quatro mil reais), a título de indenização pela perda (ou inutilização) dos petrechos de pesca, a saber: *embarcação, motor, varas de pescar, molinete, anzol, linha peneira, iscas, tarrafas e redes*.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos dessa decisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todos os "pescadores informais/artesanais/de fato" – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do salário mínimo vigente na data dos precedentes (R$ 1.045,00) multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda (71 meses), totalizando R$ 74.195,00.

DANOS MATERIAIS (danos emergentes): R$ 4.000,00 (quatro mil reais), a título de indenização pela inutilização dos petrechos de pesca (*motor, varas de pescar, molinete, anzol, linha peneira, iscas, tarrafas e redes*).

DANOS MATERIAIS (perda/substituição da proteína): R$ 3,00 (três reais) por pessoa, a título de majoração no custo alimentar diário pela substituição da proteína multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de alimento (71 meses), totalizando R$ 6.390,00.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "pescadores informais/artesanais/de fato" que desejarem aderir à presente *matriz de danos* e consequente sistema de indenização, mediante quitação definitiva, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 84.585,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 94.585,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos dessa decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 94.585,00 (noventa e quatro mil, quinhentos e oitenta e cinco reais)**, relativamente à categoria dos "*pescadores informais/artesanais/de fato*", para fins de **quitação definitiva**.

DOS "PESCADORES PROFISSIONAIS" E DOS "PESCADORES PROTOCOLADOS" (Região Continental)

A COMISSÃO DE ATINGIDOS DE PONTE NOVA e a COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO) vieram a juízo requerer providências quanto a situação indenizatória dos chamados "*pescadores protocolados*", isto é, aqueles que possuem **protocolo** de pesca (RGP), assim como dos "**pescadores profissionais/Região Continental – Rios Doce, Carmo e Piranga**".

Examino, articuladamente, a pretensão relativa aos "**Pescadores Profissionais/Região Continental – Rios Doce, Carmo e Piranga**", assim como dos "**Pescadores Protocolados**".

Vejamos:

"PESCADORES PROFISSIONAIS – REGIÃO CONTINENTAL /RIOS DOCE, CARMO E PIRANGA"

DO RECONHECIMENTO JUDICIAL DA CATEGORIA DOS "PESCADORES PROFISSIONAIS - REGIÃO CONTINENTAL /RIOS DOCE, CARMO E PIRANGA"

Os "pescadores profissionais" detentores de **Registro Geral de Pesca - RGP** emitido pela **SECRETARIA DE AQUICULTURA E PESCA - SAP** do Ministério da Agricultura, Pecuária e Abastecimento (MAPA) alegam terem sofrido a interrupção de seu ofício (profissão) imediatamente após o evento danoso, perdendo sua fonte de renda, já que dependiam diretamente dos rios Doce, Carmo e/ou Piranga para trabalhar.

A realidade da época (pré-desastre) mostrava que os "**Pescadores Profissionais - Região Continental/Rios Doce, Carmo e Piranga**" constituíam sim um ofício existente no município de Ponte Nova, já que se utilizavam dos rios Doce, Carmo e/ou Piranga (*últimos 2km*) para o exercício de sua profissão e obtenção de fonte de renda.

A realidade pós-desastre claramente evidenciou que, com a chegada da pluma de rejeitos, este ofício foi prejudicado, pois não se vislumbrou mais a viabilidade de pesca nos rios Doce, Carmo e/ou Piranga (*últimos 2km*), de modo que o *comércio/consumo* de pescado restou integralmente comprometido.

É inequívoco, portanto, o fato de que os "**Pescadores Profissionais - Região Continental/Rios Doce, Carmo e Piranga**" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua profissão, com grave comprometimento de sua (legítima) fonte de renda.

Assim sendo, entendo que essa categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "**Pescadores Profissionais - Região Continental/Rios Doce, Carmo e Piranga"** como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "**Pescadores Profissionais - Região Continental/Rios Doce, Carmo e Piranga**" que já trabalhavam em Ponte Nova no período pré-desastre, e consequentemente faziam desse ofício o meio pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os **"Pescadores Profissionais - Região Continental/Rios Doce, Carmo e Piranga"**, portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE PROFISSIONAL

Os "**Pescadores Profissionais - Região Continental/Rios Doce, Carmo e Piranga"** que pretenderem aderir ao sistema de indenização simplificado previsto nesta decisão deverão comprovar, por meio idôneo, a sua atividade profissional.

Tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples **não pode ser** admitida como elemento (absoluto) constitutivo do direito, ainda mais quando se trata de categorias profissionais de médio e grande porte.

A comprovação de **categoria profissional** devidamente regularizada e titulada deve se dar na forma da Lei e dos regramentos oficiais, não cabendo *flexibilização* neste particular.

In casu, o "pescador não regularizado", portanto, informal, poderá enquadrar-se, nos termos desta Sentença, na categoria PESCADOR INFORMAL/DE FATO/ARTESANAL, obtendo a indenização correspondente.

Assim sendo, DETERMINO que, para fins de comprovação da regularidade da atividade profissional, todos os "**Pescadores Profissionais - Região**

Continental/Rios Doce, Carmo e Piranga", nas suas diversas subcategorias, deverão, nos termos da Lei, apresentar **obrigatoriamente** comprovante de registro de pescador profissional, através do **Registro Geral da Atividade Pesqueira – RGP**, que poderá se dar da seguinte forma:

1. declaração oficial emitida pela SECRETARIA DE AQUICULTURA E PESCA - SAP do Ministério da Agricultura, Pecuária e Abastecimento (MAPA) atestando que o atingido consta no banco de dados do Governo Federal **registrado como pescador profissional ("RGP")** nos anos de 2014 e/ou 2015, OU

2. nome do atingido figurar na **LISTA OFICIAL** de pescadores registrados junto ao Registro Geral da Atividade Pesqueira – RGP, datada entre 1.1.2014 até 5.11.2015, disponibilizada e chancelada pela SECRETARIA DE AQUICULTURA E PESCA - SAP, do Ministério da Agricultura, Pecuária e Abastecimento (MAPA).

Em adição, as seguintes *subcategorias* da "**PESCA PROFISSIONAL – REGIÃO CONTINENTAL**" deverão apresentar, ainda, os seguintes documentos **e** observar as seguintes condições:

Subcategoria: **"DONOS DE EMBARCAÇÃO COM MOTOR DE POPA – REGIÃO CONTINENTAL"**

1. prova da propriedade da embarcação mediante a apresentação de **PELO MENOS UM** dentre os seguintes documentos:

   - **EMBARCAÇÕES COM MOTOR DE POPA**: TIEM - Título de Embarcação Pesqueira Miúda, que tenha data de emissão anterior a novembro de 2015 e que esteja em nome do atingido, identificado, ainda, como embarcação de pesca;

   - Contrato de Compra e Venda da Embarcação com reconhecimento de firma em cartório, anterior a novembro de 2015;

   - Nota Fiscal (Documento Físico/Eletrônica) da **aquisição da embarcação** em nome do atingido, anterior a novembro de 2015;

- Nota Fiscal (Documento Físico/Eletrônica) da **aquisição do motor** em nome do atingido, anterior a novembro de 2015;

- Contrato de Compra e Venda do motor, com reconhecimento de firma em cartório, anterior a novembro de 2015.

2. Caso o atingido não possua nenhum dos documentos constantes do **item i**, poderá, sob as penas da Lei, declarar a propriedade da embarcação e juntar as fotografias correspondentes, requisitando, na sequência, a realização da identificação física e comprovação da embarcação através de **visita** *in loco* e **Laudo técnico circunstanciado**, que deverá ser realizado pela Fundação Renova no prazo máximo de 30 dias.

3. Ao instruir a *plataforma online*, o atingido deverá juntar as seguintes fotografias:

    1. Fotografia da lateral da embarcação;
    2. Fotografia frontal da embarcação;
    3. Fotografia de símbolo (quando aplicável), nome ou marca que possa distinguir a embarcação.
    4. Fotografia lateral do motor;
    5. Fotografia frontal e traseira do motor; e
    6. Fotografia do número (serial) de fabricação do motor, sempre que possível.

4. Por ocasião da *inspeção in loco*, poderá ser entregue ao proprietário da embarcação um **lacre com numeração** que representará o registro da embarcação junto à Fundação Renova.

Subcategoria: **"DONO DE EMBARCAÇÃO A REMO (SEM MOTOR) – REGIÃO CONTINENTAL"**

1. prova da propriedade da embarcação mediante a apresentação de **PELO MENOS UM** dentre os seguintes documentos:

- **EMBARCAÇÕES A REMO (SEM MOTOR)**: TIEM - Título de Embarcação Pesqueira Miúda, que tenha data de emissão anterior a novembro de 2015, que esteja em nome do atingido que declara a propriedade e identificação como embarcação de pesca;

- Contrato de Compra e Venda da Embarcação com reconhecimento de firma em cartório, anterior a novembro de 2015;

- Nota Fiscal (Documento Físico/Eletrônica) da **aquisição da embarcação** em nome do atingido, anterior a novembro de 2015;

2. Caso o atingido não possua nenhum dos documentos constantes do **item i**, poderá, sob as penas da Lei, declarar a propriedade da embarcação e juntar as fotografias correspondentes, requisitando, na sequência, a realização da identificação física e comprovação da embarcação através de **visita** *in loco* e **Laudo técnico circunstanciado**, que deverá ser realizado pela Fundação Renova no prazo máximo de 30 dias.

3. Ao instruir a *plataforma online*, o atingido deverá juntar as seguintes fotografias:

    1. Fotografia da lateral da embarcação;
    2. Fotografia frontal da embarcação; e
    3. Fotografia de símbolo (quando aplicável), nome ou marca que possa distinguir a embarcação.

4. Por ocasião da *inspeção in loco*, poderá ser entregue ao proprietário da embarcação um **lacre com numeração** que representará o registro da embarcação junto à Fundação Renova.

Subcategoria: **"TRIPULANTES DE EMBARCAÇÕES COM MOTOR DE POPA – REGIÃO CONTINENTAL"**

1. Declaração subscrita, sob as penas da lei, pelo proprietário da embarcação que tenha aderido ao sistema indenizatório simplificado (*plataforma online*), com firma reconhecida em cartório, **atestando que o atingido integrava a tripulação da sua embarcação** e descrição detalhada da rotina da atividade pesqueira e dos impactos decorrentes do rompimento na atividade, **OU**;

2. Declaração subscrita, sob as penas da Lei, pelo proprietário de embarcação que **NÃO tenha** aderido ao sistema indenizatório simplificado (*plataforma online*), com firma reconhecida em cartório, **atestando que o atingido integrava a tripulação da sua embarcação** e descrição detalhada da rotina da atividade pesqueira e dos impactos decorrentes do rompimento na atividade. Neste caso, a declaração poderá ser confirmada por vistoria *in loco* realizada pela Fundação Renova, no prazo máximo de 30 dias;

3. Cada proprietário de embarcação poderá nomear/atestar no máximo (02) dois tripulantes por embarcação **OU**, nos casos em que houver Título de Embarcação Pesqueira TIE, deverá ser seguido e observado o número de tripulantes nele descrito.

Subcategoria: "**TRIPULANTES DE EMBARCAÇÕES A REMO (SEM MOTOR) - REGIÃO CONTINENTAL"**

1. Declaração subscrita, sob as penas da lei, pelo proprietário da embarcação que tenha aderido ao sistema indenizatório simplificado (*plataforma online*), com firma reconhecida em cartório, **atestando que o atingido integrava a tripulação da sua embarcação** e descrição detalhada da rotina da atividade pesqueira e dos impactos decorrentes do rompimento na atividade, **OU**;

2. Declaração subscrita, sob as penas da Lei, pelo proprietário de embarcação que **NÃO tenha** aderido ao sistema indenizatório simplificado (*plataforma online*), com firma reconhecida em cartório, **atestando que o atingido integrava a tripulação da sua embarcação** e descrição detalhada da rotina da atividade pesqueira e dos impactos decorrentes do rompimento na atividade. Neste caso, a declaração poderá ser confirmada por vistoria *in loco* realizada pela Fundação Renova, no prazo máximo de 30 dias;

3. Cada proprietário de embarcação poderá nomear/atestar no máximo (02) dois tripulantes por embarcação **OU**, nos casos em que houver Título de

Embarcação Pesqueira TIE, deverá ser seguido e observado o número de tripulantes nele descrito.

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado em outros precedentes do *sistema indenizatório simplificado*, para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão da segurança alimentar do consumo do pescado encontra-se *sub judice*, no âmbito do Eixo Prioritário 6, voltado exclusivamente para a realização de **prova pericial (técnica)** com vistas a equacionar, em definitivo, as dúvidas existentes.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda tem fundado receio de utilização da água (e pescado) dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de **prova técnica em juízo** será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para o retorno da utilização dos insumos oriundos dos rios Carmo, Doce e Piranga, de forma a permitir aos "*pescadores profissionais*" o retorno seguro de sua profissão.

Examino, então, a *pretensão indenizatória* das diversas **subcategorias** da **PESCA PROFISSIONAL – REGIÃO CONTINENTAL**, a saber:

1. Proprietário de embarcação com motor de popa;
2. Tripulante de embarcação a motor de popa;
3. Proprietário de embarcação a remo (sem motor);
4. Tripulante de embarcação a remo (sem motor);
5. Pescador desembarcado.

De início, sabe-se que nem todos os "**Pescadores Profissionais - Região Continental/Rios Doce, Carmo e Piranga**" possuíam a mesma força e capacidade de trabalho; nem todos possuíam a mesma agilidade e eficiência para a pesca, bem como negociação do pescado no mercado; nem todos trabalhavam a mesma quantidade de horas diárias na atividade de pesca, nem todos possuíam a mesma quantidade de empregados e etc. Tudo isto demonstra que a **situação individual** de cada um era naturalmente diferente, pela própria natureza da profissão e dos meios de exercê-la.

Do mesmo modo, no âmbito processual, enquanto alguns poucos conseguirão demonstrar os danos alegados, certamente a imensa maioria, dado lapso temporal e as dificuldades dos meios de prova, não conseguirão demonstrar em juízo os prejuízos alegados.

Em tese, aqueles que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entenderem cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daquelas que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma **solução coletiva comum** para a pretensão indenizatória, fundada na noção de *justiça possível*.

O que se pretende encontrar, portanto, é o **valor indenizatório médio** que corresponda, com segurança, ao padrão mediano de todos os "**Pescadores Profissionais - Região Continental/Rios Doce, Carmo e Piranga**".

Cuida-se aqui de definir uma **solução indenizatória comum**, de caráter geral e padronizada, em que se possa presumir, com segurança, o enquadramento médio de todos os integrantes dessa categoria, **sem levar em conta as situações individuais de cada um**.

Reforço, uma vez mais, que a presente decisão terá **natureza facultativa**, de modo que aqueles "Pescadores Profissionais - Região Continental/Rios Doce, Carmo e Piranga" que pretendam seguir lutando por valores diversos poderão fazê-los por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Subcategoria: "DONOS DE EMBARCAÇÃO COM MOTOR DE POPA – REGIÃO CONTINENTAL"

VALOR BASE: Adoto o valor de R$ 3.135,00.

MESES RETROATIVOS E PROSPECTIVOS: Fixo em **71 meses** o período em que devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

DANO MATERIAL: FIXO o valor de R$ 30.000,00 (trinta mil reais), a título de indenização pela paralisação (ou inutilização) da embarcação.

DANO MORAL: FIXO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

TOTAL:

DANOS MATERIAIS = R$ 252.585,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 262.585,00

Subcategoria: "DONO DE EMBARCAÇÃO A REMO (SEM MOTOR) – REGIÃO CONTINENTAL"

VALOR BASE: Adoto o valor de R$ 2.612,50.

MESES RETROATIVOS E PROSPECTIVOS: Fixo em **71 meses** o período em que devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

DANO MATERIAL: FIXO o valor de R$ 23.000,00 (vinte e três mil reais), a título de indenização pela paralisação (ou inutilização) da embarcação.

DANO MORAL: FIXO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

TOTAL:

DANOS MATERIAIS = R$ 208.487,50.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 218.487,50

Subcategoria: "TRIPULANTES DE EMBARCAÇÕES COM MOTOR DE POPA – REGIÃO CONTINENTAL"

VALOR BASE: Adoto o valor de R$ 2.500,00.

MESES RETROATIVOS E PROSPECTIVOS: Fixo em **71 meses** o período em que devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

DANO MATERIAL: FIXO o valor de R$ 7.000,00 (sete mil reais), a título de indenização pela paralisação (ou inutilização) dos utensílios utilizados na atividade.

DANO MORAL: FIXO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

TOTAL:

DANOS MATERIAIS = R$ 184.500,00

DANO MORAL: R$ 10.000,00

TOTAL: R$ 194.500,00

Subcategoria: "TRIPULANTES DE EMBARCAÇÕES A REMO (SEM MOTOR) – REGIÃO CONTINENTAL"

VALOR BASE: Adoto o valor de R$ 2.500,00.

MESES RETROATIVOS E PROSPECTIVOS: Fixo em **71 meses** o período em que devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

DANO MATERIAL: FIXO o valor de R$ 5.000,00 (cinco mil reais), a título de indenização pela paralisação (ou inutilização) dos utensílios utilizados na atividade.

DANO MORAL: FIXO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

TOTAL:

DANOS MATERIAIS = R$ 182.500,00

DANO MORAL: R$ 10.000,00

TOTAL: R$ 192.500,00

Subcategoria: "PESCADOR DESEMBARCADO – REGIÃO CONTINENTAL"

VALOR BASE: Adoto o valor de R$ 2.500,00.

MESES RETROATIVOS E PROSPECTIVOS: Fixo em **71 meses** o período em que devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

DANO MATERIAL: FIXO o valor de R$ 5.000,00 (cinco mil reais), a título de indenização pela paralisação (ou inutilização) dos utensílios utilizados na atividade.

DANO MORAL: FIXO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

TOTAL:

DANOS MATERIAIS = R$ 182.500,00

DANO MORAL: R$ 10.000,00

TOTAL: R$ 192.500,00

Os valores ora estabelecidos para fins de **QUITAÇÃO DEFINITIVA** das diversas *subcategorias* são adequados e pertinentes com a noção de "justiça possível", ante a realidade experimentada pelos atingidos, compatíveis com a premissa de *flexibilização* empreendida por esta SENTENÇA.

Assim sendo, as diversas **subcategorias** da "PESCA PROFISSIONAL – REGIÃO CONTINENTAL/RIOS DOCE, CARMO E PIRANGA" que desejarem aderir à presente *matriz de danos* e consequente sistema indenizatório simplificado, mediante quitação definitiva, incluídas todas as pretensões financeiras, serão indenizados nos valores fixados nesta decisão.

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, FIXO, nos termos acima, o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) relativamente às **subcategorias** dos "**Pescadores Profissionais - Região Continental/Rios Doce, Carmo e Piranga**", para fins de **quitação única, integral e definitiva**, nos seguintes termos:

SUBCATEGORIAS – PESCA CONTINENTAL	TOTAL INDENIZAÇÃO
Dono de embarcação com motor de popa	**R$ 262.585,00**
Tripulante de embarcação com motor de popa	**R$ 194.500,00**
Dono de embarcação a remo (sem motor)	**R$ 218.487,50**
Tripulante de embarcação a remo (sem motor)	**R$ 192.500,00**
Pescador desembarcado	**R$ 192.500,00**

"PESCADORES PROTOCOLADOS"

DO RECONHECIMENTO JUDICIAL DA CATEGORIA DOS "PESCADORES PROTOCOLADOS"

Os “PESCADORES PROTOCOLADOS”, nos termos da Lei, ostentam os mesmos direitos e deveres dos pescadores registrados, ou seja, aqueles portadores de RGP perante o órgão oficial.

Trata-se, portanto, de categoria que se equipara - em termos de tratamento indenizatório - aos próprios pescadores profissionais, consoante política interna da Fundação Renova, inclusive.

A única distinção, no entanto, reside em saber quais pescadores “protocolados” serão tidos como elegíveis a postularem indenização nos termos desta decisão.

In casu, não há qualquer dúvida – tal como acontece com os registrados (RGP) - de que somente os “PESCADORES PROTOCOLADOS” em data anterior ao evento danoso, isto é, aqueles que providenciaram o “protocolo” nos anos de 2014 e/ou 2015, são aptos a reivindicarem indenização.

Do mesmo modo, somente os **protocolos oficiais**, devidamente formalizados (e/ou validados) perante o órgão oficial do Governos Federal, ou seja, a SECRETARIA DE AQUICULTURA E PESCA - SAP do Ministério da Agricultura, Pecuária e Abastecimento (MAPA) é que serão considerados como válidos.

Assim sendo, DETERMINO que, para fins de comprovação do ofício/atividade, todos os “**PESCADORES PROTOCOLADOS**”, nas suas diversas subcategorias, deverão, nos termos da Lei, apresentar obrigatoriamente comprovante de solicitação (**“PROTOCOLO”**) de pesca profissional formulado perante o órgão oficial competente, que poderá se dar da seguinte forma:

1. **declaração oficial** emitida pela SECRETARIA DE AQUICULTURA E PESCA - SAP do Ministério da Agricultura, Pecuária e Abastecimento (MAPA) atestando que o atingido consta no banco de dados do Governo Federal como **“PROTOCOLADO” nos anos de 2014 e/ou 2015**.
2. nome do atingido figurar na **LISTA OFICIAL** de pescadores **“PROTOCOLADOS” nos anos de 2014 e/ou 2015** emitida pela SECRETARIA DE AQUICULTURA E PESCA - SAP, do Ministério da Agricultura, Pecuária e Abastecimento (MAPA).

No que tange à forma *(1)* de comprovação do ofício/atividade, ou seja, na hipótese do próprio pescador protocolado, nas diversas categorias da bacia do rio Doce, apresentar como comprovante de solicitação ("PROTOCOLO") de pesca profissional **declaração oficial** emitida pela SECRETARIA DE AQUICULTURA E PESCA - SAP do Ministério da Agricultura, Pecuária e Abastecimento (MAPA) atestando que o mesmo consta no banco de dados do Governo Federal como "**PROTOCOLADO**" nos anos de 2014 e/ou 2015, com preenchimento de todos os requisitos fixados na SENTENÇA, deve haver o **cumprimento imediato** da obrigação de efetivar a reparação integral, com a consequente indenização aos atingidos que aderirem ao sistema indenizatório simplificado.

Já quanto à forma *(2)* de comprovação do ofício/atividade, **após** a expedição das listas oficiais requisitadas, deve a Fundação Renova, iniciar, **imediatamente**, a análise dos pedidos de adesão ao novel sistema indenizatório simplificado fixado por este juízo, relativo a categoria em questão, em atenção ao princípio da efetividade processual.

DAS ATIVIDADES LIGADAS À "CADEIA PRODUTIVA DA PESCA"

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "CADEIA PRODUTIVA DA PESCA"

Segundo informam as COMISSÕES DE ATINGIDOS, os profissionais ligados à "*cadeia produtiva da pesca*" - atividades econômicas relacionadas de alguma forma às atividades da pesca (anterior e posterior à atividade da pesca em si) - alegam terem sofrido a interrupção imediata de seu respectivo ofício (profissão) imediatamente após o Evento danoso, perdendo, portanto, sua fonte de renda, já que dependiam dos rios Carmo, Doce e/ou Piranga.

A realidade da época (pré-desastre) mostrava que os profissionais ligados à "*cadeia produtiva da pesca*" - dentre os quais pode-se mencionar **mecânicos de motores de barco**, **serralheiros** e **carpinteiros navais** - constituíam sim ofícios existentes no município de Ponte Nova, cujo exercício de sua respectiva profissão e obtenção de fonte de renda estavam diretamente ligados aos rios Carmo, Doce e/ou Piranga (*últimos 2km*) e, eis que as referidas atividades dependiam fundamentalmente do funcionamento da atividade da pesca.

A realidade pós-desastre mostrou que, com a chegada da pluma de rejeitos, estas profissões (indispensáveis ao segmento da pesca) praticamente desapareceram, pois com a paralisação da pesca, toda a cadeia produtiva de suprimentos restou integralmente comprometida.

É inequívoco, portanto, o fato de que os profissionais ligados à "*cadeia produtiva da pesca*" eram realidade presente e, com a chegada da pluma de rejeitos, perderam seu ofício, com grave comprometimento de sua (legítima) fonte de renda.

Assim sendo, entendo que a categoria dos profissionais ligados à "*cadeia produtiva da pesca*" deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os profissionais ligados à "CADEIA PRODUTIVA DA PESCA", como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles profissionais ligados à "cadeia produtiva da pesca" que já trabalhavam em Ponte Nova (antes do Desastre), e consequentemente faziam desse ofício o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Esses, portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DO OFÍCIO

Os profissionais ligados à "cadeia produtiva da pesca" que pretenderem aderir ao sistema de indenização previsto nesta decisão deverão comprovar, por meio idôneo, o seu ofício.

Com efeito, como regra geral e a título de *numerus apertus*, a cadeia produtiva da pesca compreende as seguintes atividades econômicas:

(i) **beneficiamento**: embalador, limpador.

(ii) **comercialização**;

(iii) **insumo**: comerciante de petrecho, frigorífico, geleiro, minhocário, redeiro.

(iv) **serviço**: ajudante de pesca, balanceiro, carregador, despachante, fabricante artesanal, reparo de barco, marceneiro de embarcação, mecânico e transportador.

A COMISSÃO DE ATINGIDOS DE PONTE NOVA e a COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO) informaram a necessária aplicação dos mesmos parâmetros de comprovação do ofício adotados em outros precedentes do *sistema indenizatório simplificado* já devidamente sentenciados por este juízo.

As empresas rés (SAMARCO, VALE e BHP), por sua vez, inferiram apenas a ausência de impactos direitos ou indiretos no município ora em comento.

Pois bem.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (**e exclusão**) quanto ao programa de reparação e indenização.

De outro lado, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples não pode ser admitida como elemento (absoluto) constitutivo do direito.

Aliás, a utilização da autodeclaração pura e simples revelou-se um verdadeiro novo desastre na bacia do rio Doce, **pois deu origem a milhares de fraudes,**

prestigiando-se a ação de oportunistas e aproveitadores, em detrimento dos legítimos atingidos.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, não pode significar um incentivo às fraudes e prêmio aos oportunistas, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, no mínimo, comprovar o fato constitutivo do seu direito.

As próprias COMISSÕES DE ATINGIDOS, de forma absolutamente leal e correta, não vieram a juízo, em momento algum, defender a autodeclaração pura e simples, **pois esta, como regra, só é defendida por aqueles que prestigiam a má fé e se aproveitam das reiteradas fraudes**.

O que se buscou, evidentemente, foi a *flexibilização dos critérios* (rígidos) de comprovação do ofício exigidos pela Fundação Renova. E, nesse sentido, a flexibilização dos critérios é perfeitamente adequada e compatível com a realidade (simples e humilde) da bacia do rio Doce.

Nesta esteira, requereram, de forma absolutamente legítima, categórica e contundente, a adoção dos mesmos parâmetros de elegibilidade relativos ao PJE 1055212-69.2020.4.01.3800 (RIO DOCE/MG).

Evidentemente, quem alega possuir uma profissão (um ofício gerador de renda) certamente tem condições (ainda que mínimas) de provar essa alegação.

Se de um lado, não se deve admitir a autodeclaração pura e simples, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, não se pode admitir – decorridos mais de 05 anos do Desastre - a exigência de uma gama de documentos formais (registrados em cartório) de categorias sabidamente informais.

No caso da categoria dos profissionais ligados à "cadeia produtiva da pesca", o pleito de *flexibilização* e adoção dos mesmos parâmetros fixados em outros precedentes do *sistema indenizatório simplificado*, apresentado pelas COMISSÕES DE ATINGIDOS é perfeitamente legítimo, pois se trata, na maioria das vezes, de profissionais informais (mecânicos e carpinteiros navais), raramente registrados e/ou documentados. Exigir

uma gama de "documentos formais" seria o mesmo que inviabilizar, por vias transversas, o próprio exercício do direito à indenização.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício, os profissionais ligados à "cadeia produtiva da pesca" deverão apresentar **pelo menos DOIS documentos**, dentre as seguintes possibilidades:

1. autodeclaração, sob as penas da Lei, com firma reconhecida em cartório pelo atingido;
2. declaração prestada, sob as penas da Lei, por clientes/pescadores dos serviços desses profissionais, com firma reconhecida em cartório, que deverá obrigatoriamente conter:
    - qualificação do declarante, inclusive os dados de RG e CPF, além do endereço completo;
    - identificação da região/modo onde/em os serviços foram prestados/fornecidos;
    - identificação do trabalhador que prestou o serviço;
    - indicação dos valores pagos;
    - indicação da periodicidade da prestação de serviços/fornecimento de pescado.
3. registro de MEI;
4. certidão de casamento ou nascimento dos filhos;
5. certidão de batismo dos filhos;
6. registro em livros de entidades religiosas (participação em batismo, crisma, casamento ou em outros sacramentos);
7. livros de caixa informal (contemporâneos ao Evento e autenticado).

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado em outros precedentes do *sistema indenizatório simplificado*, para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão da segurança alimentar do pescado e da própria qualidade da água encontram-se *sub judice*, no âmbito dos Eixos Prioritários 6 e 9, ambos voltados para a realização de **prova pericial (técnica)** com vistas a equacionar, em definitivo, as dúvidas existentes.

Com efeito, é perfeitamente legítimo afirmar que até a presente data os atingidos ainda possuem fundado receio de retorno ao consumo do pescado, exatamente pela ausência de laudo técnico definitivo, imparcial e produzido em juízo, que ateste a sua segurança.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda tem fundado receio de utilização da água dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de **prova técnica em juízo** será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para o retorno da utilização dos insumos oriundos do rio Carmo, Doce e Piranga, de forma a permitir aos "pescadores" o retorno seguro de sua profissão, trazendo consigo toda a cadeia produtiva.

Por outro lado, conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma solução indenizatória média, de caráter geral,

serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Para a categoria dos profissionais ligados à "cadeia produtiva da pesca", as COMISSÕES DE ATINGIDOS apresentaram concordância com o *quantum* indenizatório de R$87.195,00, para fins de quitação definitiva, **com utilização dos mesmos parâmetros e valores fixados em outros precedentes dos *sistema indenizatório simplificado* sentenciados por este juízo.**

Contudo, aqueles atingidos que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entender cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daqueles que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma **solução coletiva comum** para a pretensão indenizatória, fundada na noção de *justiça possível.*

O que se pretende encontrar, portanto, é o valor indenizatório médio que corresponda, com segurança, ao padrão (mediano) de todos esses profissionais integrantes da "cadeia produtiva da pesca".

Cuida-se aqui de definir uma **solução indenizatória comum**, de caráter coletivo, em que se possa presumir, com segurança, o enquadramento médio de todos esses atingidos, **sem levar em conta as situações individuais de cada um.**

Reforço, uma vez mais, que a presente decisão terá natureza facultativa, de modo que aquele profissional que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, assim, a proposta de quitação definitiva formulada pelas COMISSÕES DE ATINGIDOS quanto aos profissionais da "cadeia produtiva da pesca", **com base nos valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

A experiência cotidiana revela que *categorias informais* como os profissionais integrantes da "cadeia produtiva da pesca", como regra, tem por remuneração média o salário mínimo.

Trata-se, portanto, de tomar como parâmetro o **padrão (mediano) comum** a todos esses profissionais.

Assim sendo, adoto o salário mínimo vigente na data dos precedentes do *sistema indenizatório simplificado* (R$ 1.045,00) como valor-base.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os profissionais da "cadeia produtiva da pesca" encontram-se impossibilitados de exercerem o seu ofício, seja pela percepção geral de inviabilidade de atividade pesqueira nos rios Carmo, Doce e Piranga (*últimos 2km*) (*com repercussão direta em toda a gama de atividades que giram em torno da cadeia da pesca*), seja pela ausência de laudo técnico oficial, na via judicial, atestando o retorno à condição ambiental anterior ao Evento.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que nos próximos meses a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) sobre a segurança do pescado e qualidade da água dos rios Carmo, Doce e Piranga (segurança e tratabilidade) encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades.

Logo, para os fins exclusivos dessa decisão, considero pertinente e adequado fixar em **71 meses** o período em que os profissionais ligados à "cadeia da pesca" devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

DANO MATERIAL: "*materiais utilizados pelos prestadores de serviço*"

As COMISSÕES DE ATINGIDOS requereram a reparação pelos danos materiais decorrentes da inutilização de materiais dos prestadores de serviços.

Com a interrupção abrupta das atividades laborativas da "cadeia da pesca", é mais do que adequado presumir que o longo tempo de paralisação acarretou danos/inutilização de *materiais e equipamentos* dos mecânicos, dos geleiros, dos carpinteiros, etc. razão pela qual, neste particular, FIXO o valor de **R$ 3.000,00 (três mil reais)**, a título de indenização pela perda (ou inutilização) de tais equipamentos.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos dessa decisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todos os profissionais da "cadeia produtiva da pesca" – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do salário mínimo vigente na data dos precedentes (R$ 1.045,00) multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda (71 meses), totalizando R$ 74.195,00.

DANOS MATERIAIS (danos emergentes): R$ 3.000,00 (três mil reais), a título de indenização pela perda (ou inutilização) dos equipamentos e produtos.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os profissionais da "cadeia da pesca" que desejarem aderir à presente matriz de danos e consequente sistema de indenização, **mediante quitação definitiva**, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 77.195,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 87.195,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos dessa decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 87.195,00 (oitenta e sete mil e cento e noventa e cinco reais)**, relativamente à categoria dos profissionais ligados à "cadeia produtiva da pesca", para fins de **quitação definitiva**.

DOS "REVENDEDORES DE PESCADO INFORMAIS E AMBULANTES"

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "REVENDEDORES DE PESCADO INFORMAIS E AMBULANTES"

A COMISSÃO DE ATINGIDOS DE PONTE NOVA e a COMISSÃO DE ATINGIDO DE ROSÁRIO DO PONTAL (DISTRITO) informam que os “revendedores de pescado informais e ambulantes” alegam terem sofrido a interrupção imediata de seu ofício (profissão) imediatamente após o Evento danoso, perdendo sua fonte de renda, já que dependiam diretamente dos rios Carmo, Doce e/ou Piranga.

A realidade da época (pré-desastre) mostrava que os "revendedores de pescado informal e ambulantes" constituíam sim um ofício existentes no município de Ponte Nova, cujo exercício de sua respectiva profissão e obtenção de fonte de renda estava ligada ao comércio do pescado oriundo do rios Carmo, Doce e/ou Piranga.

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, esta profissão praticamente desapareceu, pois – evidentemente – não se vislumbrou mais a viabilidade de pesca nos rios, de modo que as atividades ligadas ao comércio do pescado restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os "revendedores de pescado informal e ambulantes" eram realidade presente e, com a chegada da pluma de rejeitos, perderam seu ofício, com grave comprometimento de sua (legítima) fonte de renda.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "REVENDEDORES DE PESCADO INFORMAL E AMBULANTES" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "revendedores de pescado informal e ambulantes" que já trabalhavam em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os "revendedores de pescado informal e ambulantes", portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DO OFÍCIO

Os "revendedores de pescado informal e ambulantes" que pretenderem aderir ao sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, o seu ofício.

As COMISSÕES DE ATINGIDOS informaram a necessária aplicação dos mesmos parâmetros de comprovação do ofício adotados em outros precedentes do *sistema indenizatório simplificado* já devidamente sentenciados por este juízo.

As empresas rés (SAMARCO, VALE e BHP), por sua vez, inferiram apenas a ausência de impactos direitos ou indiretos no município ora em comento.

Pois bem.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação quanto ao programa de reparação e indenização.

De outro lado, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples não pode ser admitida como elemento (absoluto) constitutivo do direito.

Aliás, a utilização da autodeclaração pura e simples revelou-se um verdadeiro novo desastre na bacia do rio Doce, **pois deu origem a milhares de fraudes, prestigiando-se a ação de oportunistas e aproveitadores**, em detrimento dos legítimos atingidos.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, não pode significar um incentivo às fraudes, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, no mínimo, comprovar o fato constitutivo do seu direito.

As próprias COMISSÕES DE ATINGIDOS, de forma absolutamente leal e correta, não vieram a juízo, em momento algum, defender a autodeclaração pura e simples, **pois esta só é defendida por aqueles que prestigiam a má fé e se aproveitam das reiteradas fraudes.**

O que se buscou, evidentemente, foi a *flexibilização dos critérios* (rígidos) de comprovação do ofício exigidos pela Fundação Renova. E, nesse sentido, a flexibilização dos critérios é perfeitamente adequada e compatível com a realidade (simples e humilde) da bacia do rio Doce.

Nesta esteira, requereram, de forma absolutamente legítima, categórica e contundente, a adoção dos mesmos parâmetros de elegibilidade relativos ao PJE 1055212-69.2020.4.01.3800 (RIO DOCE/MG).

Evidentemente, quem alega possuir uma profissão (um ofício gerador de renda) certamente tem condições (ainda que mínimas) de provar essa alegação.

Se de um lado, não se deve admitir a autodeclaração pura e simples, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, não se pode admitir – decorridos mais de 05 anos do Desastre - a exigência de uma gama de documentos formais (registrados em cartório) de categorias sabidamente informais.

No caso da categoria dos “revendedores de pescado informais e ambulantes”, o pleito de *flexibilização* e adoção dos mesmos parâmetros fixados em outros precedentes do *sistema indenizatório simplificado*, apresentado pelas COMISSÕES DE ATINGIDOS é perfeitamente legítimo, pois se trata de categoria informal, raramente registrada e/ou documentada. Exigir uma gama de "documentos formais" seria o mesmo que inviabilizar, por vias transversas, o próprio exercício do direito à indenização.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício, os “revendedores de pescado informais e ambulantes” deverão apresentar **pelo menos DOIS documentos**, dentre as seguintes possibilidades:

1. autodeclaração, sob as penas da Lei, com firma reconhecida pelo “revendedor de pescado informal e ambulante” em cartório;
2. declaração, sob as penas da Lei, do comprador do pescado (mercados/supermercados/consumidor final), com firma reconhecida em cartório, que deverá obrigatoriamente conter:
    - qualificação do declarante, inclusive os dados de RG e CPF/CNPJ, além do endereço completo;
    - identificação da região/modo onde/em os produtos foram comercializados/fornecidos;
    - identificação do trabalhador que comercializou o produto;
    - indicação dos valores pagos;
    - indicação da periodicidade da comercialização/fornecimento de pescado.
3. registro de MEI;
4. notas de compras de materiais (contemporâneos ao Evento e autenticado)
5. certidão de casamento ou nascimento dos filhos;
6. certidão de batismo dos filhos;
7. registro em livros de entidades religiosas (participação em batismo, crisma, casamento ou em outros sacramentos);
8. livros de caixa informal (contemporâneos ao Evento e autenticado).

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado em outros precedentes do *sistema indenizatório simplificado*, para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão da segurança alimentar do pescado e da própria qualidade da água do rios Carmo, Doce e Piranga encontram-se *sub judice*, no âmbito dos Eixos Prioritários 6 e 9, ambos voltados para a realização de **prova pericial (técnica)** com vistas a equacionar, em definitivo, as dúvidas existentes.

Com efeito, é perfeitamente legítimo afirmar que até a presente data os atingidos ainda possuem fundado receio de retorno ao consumo do pescado, exatamente pela ausência de laudo técnico definitivo, imparcial e produzido em juízo, que ateste a sua segurança.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda tem fundado receio de utilização da água dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de prova técnica em juízo será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para que os atingidos possam novamente voltar a consumir proteína dos rios.

Por outro lado, conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma solução indenizatória média, de caráter geral, serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Para a categoria dos "revendedores de pescado informal e ambulantes", as COMISSÕES DE ATINGIDOS apresentaram concordância com o *quantum* indenizatório de R$90.195,00, para fins de quitação definitiva, **com utilização dos mesmos parâmetros e valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Contudo, aqueles "revendedores de pescado informal e ambulantes" que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entender pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entender cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daquelas que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma solução coletiva comum para a pretensão indenizatória dos "revendedores de pescado informal e ambulantes", **ainda que de adesão facultativa**.

O que se pretende encontrar, portanto, é o valor indenizatório médio que corresponda, com segurança, ao padrão de todos os "revendedores de pescado informal e ambulantes".

Cuida-se aqui de definir uma solução indenizatória comum, de caráter coletivo, em que se possa presumir, com segurança, o enquadramento médio de todos os "revendedores de pescado informal e ambulantes", sem levar em conta as situações individuais de cada um.

Reforço, uma vez mais, que a presente decisão terá natureza facultativa, de modo que aquele que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, assim, a proposta de **quitação definitiva** formulada pelas COMISSÕES DE ATINGIDOS quanto aos "revendedores de pescado informal e ambulantes", **com base nos valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

A experiência cotidiana claramente demonstra que **categorias informais** como os "revendedores de pescado informal e ambulantes", como regra, tem por remuneração média o salário mínimo.

Assim sendo, adoto o salário mínimo vigente na data dos precedentes do sistema *indenizatório simplificado* (R$ 1.045,00) como valor-base.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "revendedores de pescado informal e ambulantes" encontram-se impossibilitados de exercerem o seu ofício, seja pela percepção geral de inviabilidade de busca de pescado nos rios, Carmo, Doce e Piranga (*últimos 2km*) (**com repercussão direta em toda a gama de atividades que giram em torno dessa atividade**), seja pela ausência de laudo técnico oficial, na via judicial, atestando o retorno à condição ambiental anterior ao Evento.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que no curto prazo a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) sobre a qualidade da água dos rios Carmo, Doce e Piranga encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades.

Logo, para os fins exclusivos dessa decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "revendedores de pescado informal e ambulantes" devem ser indenizadas pela perda da renda, em razão da interrupção de suas atividades.

DANO MATERIAL: "materiais utilizados pelos prestadores de serviço"

As COMISSÕES DE ATINGIDOS requereram a reparação pelos danos materiais decorrentes da inutilização de materiais dos prestadores de serviços.

Com a interrupção abrupta das atividades laborativas dos "revendedores de pescado", é mais do que adequado presumir que o longo tempo de paralisação acarretou danos/inutilização de *produtos estocados e equipamentos*, razão pela qual , neste particular, FIXO o valor de **R$ 6.000,00 (seis mil reais)**, a título de indenização pela perda (ou inutilização) das matérias-primas, estoques e produtos.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos dessa decisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todos os "revendedores de pescado informal e ambulantes" – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do salário mínimo vigente na data dos precedentes (R$ 1.045,00) multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda (71 meses), totalizando R$ 74.195,00.

DANOS MATERIAIS (danos emergentes): R$ 6.000,00 (seis mil reais), a título de indenização pela perda (ou inutilização) das matérias-primas, estoques e produtos.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "revendedores de pescado informal e ambulantes" que desejarem aderir à presente *matriz de danos* e consequente sistema de indenização, mediante quitação definitiva, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 80.195,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 90.195,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos dessa decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 90.195,00 (noventa mil e cento e noventa e cinco reais)**, relativamente à categoria dos "revendedores de pescado informal e ambulantes", para fins de **quitação definitiva**.

DOS REVENDEDORES "FORMAIS" DE PESCADO

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "REVENDEDORES FORMAIS DE PESCADO"

As COMISSÕES DE ATINGIDOS informaram que os "revendedores **formais** de pescado" sofreram a interrupção de suas *atividades mercantis* imediatamente após o evento danoso, perdendo a fonte de renda/receita, já que dependiam direta e indiretamente do rios Carmo, Doce e/ou Piranga.

A realidade da época (pré-desastre) mostrava que os "revendedores **formais** de pescado" constituíam sim uma *atividade mercantil* existente no município de Ponte Nova ligada ao comércio (**formal - regular**) do pescado das águas dos rios Carmo, Doce e/ou Piranga.

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, esta atividade foi severamente prejudicada, pois – evidentemente – não se vislumbrou mais a viabilidade de utilização dos *pescados* oriundos dos rios Carmo, Doce e/ou Piranga (*últimos 2km*), de modo que as atividades ligadas a cadeia da pesca restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os "revendedores **formais** de pescado" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua atividade mercantil com grave comprometimento de sua (legítima) fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "revendedores **formais** de pescado" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "revendedores **formais** de pescado", devidamente constituídos (**regulares**) e que já exerciam o comércio em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício/atividade o meio pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os "revendedores **formais** de pescado", portanto, devem comprovar, nos termos dessa decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL

Os "revendedores **formais** de pescado" que pretenderem aderir ao novo sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua atividade mercantil regular e devidamente constituída.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a *autodeclaração pura e simples* não pode ser admitida como elemento (absoluto) constitutivo do direito, ainda mais quando se trata de atividade comercial regular de médio e grande porte (**devidamente constituída**).

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação da atividade mercantil, os "revendedores **formais** de pescado" deverão apresentar **cumulativamente** os seguintes documentos:

- Cartão do CNPJ com data de abertura anterior a 05.11.2015, e com endereço da empresa em Ponte Nova;
- Ato constitutivo atualizado (contrato social ou equivalente);
- Documentos pessoais dos sócios – Identidade e CPF;
- Documentação contábil de 2014 a 2019, exceto se for MEI;
- Declaração do Resultado do Exercício entre 2014 e 2019, assinada por Contador inscrito no Conselho Regional de Contabilidade;
- Notas fiscais emitidas ou recebidas em nome da PJ ou PF no período de dez/2014 a abr/2019, para os casos de MEI;
- Declaração atestando o impacto direto a partir de análise dos documentos contábeis apresentados, em especial a dependência e relação direta do negócio com os rios Carmo, Doce e/ou Piranga (*últimos 2km*).

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado em outros precedentes do *sistema indenizatório simplificado*, para a categoria em questão.

Pois bem.

A indenização dos "revendedores **formais** (**REGULARES**) de pescado" deve corresponder aos prejuízos suportados, na exata extensão dos danos, nos termos em que comprovados pelos *documentos contábeis* da empresa.

Por se tratar de atividade comercial regular exige-se, nos termos da Lei, a perfeita *escrituração contábil* feita por profissional habilitado.

Aqui **não cabe** falar em *flexibilização* dos meios de prova, já que se espera do comerciante regular (médio e grande porte) a **devida** *escrituração contábil* de seus lucros e prejuízos nos balanços financeiros da empresa.

Logo, o *quantum indenizatório*, tal como requerido pelas próprias COMISSÕES DE ATINGIDOS, reclama a confecção de **LAUDO individual**, personalíssimo, a partir da documentação contábil e financeira apresentada.

Nesse sentido, a situação dos "revendedores **formais** de pescado" comporta três situações fáticas distintas, a saber:

A. ATINGIDOS ("revendedores **formais** de pescado") QUE **JÁ POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto ao atingido que já possui LAUDO confeccionado, inclusive com proposta indenizatória, caberá ao mesmo, juntamente com seu advogado, decidir se **aceita (ou não)** o valor ofertado pela Fundação Renova.

Em caso de concordância, o atingido, por intermédio de seu advogado, deverá acessar a *plataforma online*, manifestando sua adesão ao sistema indenizatório simplificado, instruindo-a **apenas** com o LAUDO e os documentos pessoais e de regularidade da empresa, dispensada a apresentação da escrituração contábil.

Assim, caso haja - desde logo - **concordância** pelo atingido (e seu advogado) com o valor constante do LAUDO TÉCNICO (**Synergia**) ter-se-á como liquidado os valores e definitiva a indenização, sem qualquer discussão ou contestação por parte da Fundação Renova.

Noutras palavras: em caso de concordância pelo atingido, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO TÉCNICO, **após homologação judicial**.

De outro lado, caso o atingido **discorde** do valor constante do LAUDO (**Synergia**), poderá solicitar, através da *plataforma online*, a revisão do LAUDO pela Fundação Renova, instruindo e apresentando a comprovação contábil pertinente.

Na sequência, caberá à Fundação Renova, no prazo de 30 dias, apresentar ao atingido o **LAUDO TÉCNICO revisado**, devidamente individualizado e fundamentado.

Nesse caso, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO, após homologação judicial.

B. ATINGIDOS ("revendedores **formais** de pescado") QUE **NÃO POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto aos atingidos que NÃO possuem LAUDO confeccionado, deverão acessar a *plataforma online*, manifestando sua **adesão** ao sistema indenizatório simplificado, instruindo-a com **todos** os documentos relacionados nessa decisão, notadamente os documentos contábeis que comprovam o prejuízo alegado.

Na sequência, caberá à Fundação Renova confeccionar, no prazo máximo de 30 dias, **LAUDO individualizado**, personalíssimo, sobre a situação (fática e jurídica) apresentada na *escrituração contábil* pelo comerciante, inclusive com proposta indenizatória (se cabível).

Para a confecção do LAUDO, a Renova deverá examinar toda a documentação contábil apresentada, assim como informações constantes de bancos de dados públicos, podendo – inclusive - realizar vistorias e inspeções *in loco*.

Confeccionado o LAUDO, o atingido **poderá (ou não)** aceitar o valor proposto pela Fundação Renova, com as consequências jurídicas daí decorrentes.

Em caso de concordância, via manifestação na *plataforma online*, cumprirá à Renova efetuar o pagamento correspondente, após homologação judicial.

C. ATINGIDOS ("revendedores **formais** de pescado") QUE – POR QUALQUER MOTIVO - **NÃO CONSEGUEM** COMPROVAR A REGULARIDADE DO COMÉRCIO OU O PREJUÍZO ALEGADO

Os atingidos (“revendedores **formais** de pescado”) que, por qualquer motivo, não conseguirem comprovar a regularidade formal do seu comércio (ou mesmo não tiverem documentação contábil regular) poderão, após a confecção do **LAUDO negativo** pela Fundação Renova, manifestar a opção de se enquadrarem na categoria de "*comerciantes (**informais**) de pescado*", fazendo jus à indenização correspondente, desde que cumpridos todos os requisitos desta decisão para a categoria pretendida.

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência FIXO o procedimento relativo à confecção dos **laudos individuais** pela Fundação Renova e o correspondente pagamento das indenizações aos “revendedores **formais** de pescado”.

DOS PROPRIETÁRIOS ("INFORMAIS") DE LAVRAS DE EXPLORAÇÃO MINERAL DE AREIA E CASCALHO

DO RECONHECIMENTO JUDICIAL DA CATEGORIA “PROPRIETÁRIOS ("INFORMAIS") DE LAVRAS DE EXPLORAÇÃO MINERAL DE AREIA E CASCALHO”

As COMISSÕES DE ATINGIDOS, ao concordarem com a aplicação das mesmas *categorias/requisitos/critérios/valorações* relativos aos outros precedentes do *sistema indenizatório simplificado*, inferem que os “*proprietários de lavras de exploração mineral de areia e cascalho*” alegam terem sofrido a interrupção de sua atividade econômica imediatamente após o evento danoso, perdendo a sua fonte de renda/receita, já que dependiam diretamente dos rios Carmo, Doce e/ou Piranga.

Consigne-se que as atividades de *extração de areia e cascalho* em Ponte Nova, incluindo Rosário do Pontal, fazem-se presentes e abundantes, dada a situação geográfica das regiões.

A realidade da época (pré-desastre) mostrava que as “*lavras de exploração mineral dos areais”* constituíam sim uma *atividade comercial* existente na localidade de Ponte Nova, ligada à exploração de areia e cascalho oriundos dos rios Carmo, Doce e/ou Piranga.

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, esta atividade foi severamente prejudicada, pois – evidentemente – não se vislumbrou mais a viabilidade de utilização dos *insumos* oriundos dos rios Carmo, Doce e Piranga (*últimos 2km*), de modo que as atividades ligadas ao comércio de areia e cascalho restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os "*proprietários de lavras de exploração mineral de areia*" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua atividade mercantil com grave comprometimento de sua fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "*proprietários ("INFORMAIS") de lavras de exploração mineral de areia e cascalho*" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles proprietários de lavras que já trabalhavam em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício/atividade o meio de vida pelo qual proviam a sua fonte de renda/receita, é que possuem direito a postularem indenização.

Os "*proprietários ("INFORMAIS") de lavras de exploração mineral de areia*", portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL

Os "*proprietários ("INFORMAIS") de lavras de exploração mineral de areia* " que pretenderem aderir ao novo sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua atividade.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples não pode ser admitida como elemento (absoluto) constitutivo do direito, **ainda mais quando se trata de atividade comercial de porte médio, praticada com uso de dragas e maquinário**.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício/atividade, os "*proprietários ("INFORMAIS") de lavras de exploração mineral de areia e cascalho*" deverão apresentar **cumulativamente** os documentos a seguir:

- Declaração, sob as penas da Lei, com firma reconhecida em cartório, atestando o impacto direto na atividade produtiva/comercial, em especial a dependência e relação direta do negócio/exploração com os rios Carmo, Doce e/ou Piranga (*últimos 2km*);

- Comprovação de posse/propriedade de dragas e maquinários para extração de areia/cascalho;

- Declaração prestada, sob as penas da lei, por **terceiro adquirente**, com identificação do material produzido e comercializado pelo respectivo atingido (tipo, qualidade, quantidade e indicação de origem) **OU** apresentação de Livro de caixa informal ou caderneta de controle contemporâneos ao Evento e autenticados.

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado no PJE1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

Com efeito, é perfeitamente legítimo afirmar que até a presente data os atingidos ainda possuem fundado receio de retorno ao uso e consumo dos insumos (**areia e cascalho**), exatamente pela ausência de laudo técnico definitivo, imparcial e produzido em juízo, que ateste a sua segurança.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda têm fundado receio de utilização da água e insumos dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de *prova técnica* em juízo será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para que os atingidos (e população em geral) possam novamente voltar a utilizar os insumos e produtos dos rios Carmo, Doce e Piranga (*últimos 2km*).

Por outro lado, conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma **solução indenizatória média**, de caráter geral, serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão,

haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Quanto aos valores pretendidos, de se ressaltar que nem todos os "*proprietários ("INFORMAIS") de lavras de exploração mineral de areia* " possuíam a mesma força e capacidade de trabalho; nem todos possuíam a mesma agilidade e eficiência para a atividade, bem como comercialização de bens e/ou serviços; uns possuíam dragas de menor porte e outros possuíam equipamentos mais modernos e eficientes. Tudo isto demonstra que a **situação individual** de cada um era diferente, pela própria natureza da atividade.

Do mesmo modo, no âmbito processual, enquanto alguns poucos conseguirão demonstrar e comprovar os danos, certamente a imensa maioria, dada a *informalidade* da atividade, não terá prova de nada, a exemplo de registros contábeis e documentação fiscal.

Assim sendo, aqueles "*proprietários ("INFORMAIS") de lavras de exploração mineral de areia e cascalho*" que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entenderem cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daquelas que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma **solução indenizatória comum** para a pretensão indenizatória, fundada na noção de *rough justice*, a partir da flexibilização dos *standards* probatórios.

O que se pretende encontrar, portanto, é o valor indenizatório médio que corresponda, com segurança, ao padrão (comum) dos integrantes da categoria.

Cuida-se aqui de definir uma **solução indenizatória comum**, de caráter geral, em que se possa presumir, com segurança, o enquadramento médio de todos os "*proprietários ("INFORMAIS") de lavras de exploração mineral de areia e cascalho*", sem levar em conta as situações individuais de cada um.

Reforço, uma vez mais, que a presente decisão terá **natureza facultativa**, de modo que aquele que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

Adoto R$ 2.200,00 como VALOR-BASE.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "*proprietários ("INFORMAIS") de lavras de exploração mineral de areia e cascalho*" encontram-se impossibilitados de exercerem a sua atividade, seja pela percepção geral de inviabilidade de uso dos insumos (**areia e cascalho**) oriundos dos rios Carmo, Doce e Piranga (*últimos 2km*) (*com repercussão direta em toda a gama de atividades que giram em torno dessa atividade*), seja pela ausência de laudo técnico, na via judicial, atestando o retorno à condição ambiental anterior ao Evento.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que no curto prazo a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "*proprietários ("INFORMAIS") de lavras de exploração mineral de areia* " devem ser indenizados pela perda da renda/receita, em razão da interrupção de suas atividades.

DANO MATERIAL: "*indenização pela paralisação das dragas e demais bens móveis utilizados na atividade*".

As COMISSÕES DE ATINGIDOS requereram a reparação pelos danos materiais decorrentes da paralisação das dragas e demais bens móveis utilizados na atividade.

Com efeito, a interrupção abrupta das atividades produtivas/mercantis faz presumir que o longo tempo de paralisação acarretou danos/inutilização aos produtos estocados e às dragas utilizadas, razão pela qual, neste particular, FIXO o valor de **R$ 10.000,00 (dez mil reais)**, a título de indenização pela paralisação (ou inutilização) das dragas, equipamentos e das matérias-primas.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos dessa decisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todos os "*proprietários ("INFORMAIS") de lavras de exploração mineral de areia* " – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do valor-base (R$ 2.200,00) multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda/receita (71 meses), totalizando R$ 156.200,00.

DANOS MATERIAIS (danos emergentes): R$ 10.000,00 (dez mil reais), a título de indenização pela paralisação das dragas, equipamentos e das matérias-primas, estoques e produtos.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "*proprietários ("INFORMAIS") de lavras de exploração mineral de areia e cascalho*" que desejarem aderir à presente *matriz de danos* e consequente sistema de indenização simplificado, mediante quitação final, única e definitiva, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 166.200,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 176.200,00

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos dessa decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 176.200,00 (cento e setenta e seis mil e duzentos reais)**, relativamente à categoria dos "*proprietários ("INFORMAIS") de lavras de exploração mineral de areia e cascalho*", para fins de **quitação final, única e definitiva**.

DOS PROPRIETÁRIOS "FORMAIS" (REGULARES) DE LAVRAS DE EXPLORAÇÃO MINERAL DE AREIA E CASCALHO

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "PROPRIETÁRIOS "FORMAIS" (REGULARES) DE LAVRAS DE EXPLORAÇÃO MINERAL DE AREIA E CASCALHO"

As COMISSÕES DE ATINGIDOS, ao concordarem com a aplicação das mesmas *categorias/requisitos/critérios/valorações* relativos aos outros precedentes do *sistema indenizatório simplificado*, inferem que os "*proprietários "formais" (regulares) de lavras de exploração mineral de areia e cascalho*" sofreram a interrupção de suas *atividades produtiva/mercantis* imediatamente após o evento danoso, perdendo a fonte de renda/receita, já que dependiam direta e indiretamente dos rios Carmo, Doce e/ou Piranga.

Consoante já afirmado, a realidade da época (pré-desastre) mostrava que os "*proprietários "formais" (regulares) de lavras de exploração mineral de areia e cascalho*" constituíam sim uma *atividade produtiva* existente no município de Ponte Nova, ligada à exploração (**formal - regular**) de areia e argila oriunda dos rios Carmo, Doce e/ou Piranga.

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, esta atividade produtiva foi severamente prejudicada, pois – evidentemente – não se vislumbrou mais a viabilidade de utilização dos *insumos* oriundos dos rios Carmo, Doce e Piranga (*últimos 2km*), de modo que as atividades ligadas à exploração de areia e cascalho restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os "*proprietários "formais" (regulares) de lavras de exploração mineral de areia e cascalho*" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua atividade produtiva com grave comprometimento de sua (legítima) fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "*proprietários "formais" (regulares) de lavras de exploração mineral de areia e cascalho*" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "*proprietários "formais" de lavras de exploração mineral de areia*", devidamente constituídos (**regulares**) e que já exerciam a exploração em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício/atividade o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os integrantes dessa categoria, portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL E DOS PREJUÍZOS CONTÁBEIS

Os "*proprietários "formais" (regulares) de lavras de exploração mineral de areia e cascalho*" que pretenderem aderir ao novo sistema de indenização simplificado previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua atividade produtiva/mercantil regular e devidamente constituída.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a *autodeclaração pura e simples* não pode ser admitida como elemento (absoluto) constitutivo do direito, ainda mais quando se trata de atividade comercial/produtiva regular de médio e grande porte (**devidamente constituída)**.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação da atividade mercantil, os "*proprietários "formais" (regulares) de lavras de exploração mineral de areia e cascalho*" deverão apresentar **cumulativamente** os seguintes documentos:

- Autorização do DNPM para exploração e operação da atividade de extração de areia;
- Alvará de Licença e Localização;
- Cartão do CNPJ com data de abertura anterior a 05.11.2015, e com endereço da empresa em Ponte Nova;
- Ato constitutivo atualizado (contrato social ou equivalente);
- Documentos pessoais dos sócios – Identidade e CPF;
- Documentação contábil de 2014 a 2019, exceto se for MEI;
- Declaração do Resultado do Exercício entre 2014 e 2019, assinada por Contador inscrito no Conselho Regional de Contabilidade;
- Notas fiscais emitidas ou recebidas em nome da PJ ou PF no período de dez/2014 a abr/2019, para os casos de MEI;
- Declaração atestando o impacto direto a partir de análise dos documentos contábeis apresentados, em especial a dependência e relação direta do negócio com os rios Carmo, Doce e/ou Piranga (*últimos 2km*).

DO *QUANTUM* INDENIZATÓRIO

A indenização dos "*proprietários "formais" (regulares) de lavras de exploração mineral de areia e cascalho*" deve corresponder aos prejuízos suportados, na exata extensão e nos termos em que comprovados pelos documentos contábeis da empresa.

Por se tratar de atividade comercial regular exige-se, nos termos da Lei, a perfeita *escrituração contábil* feita por profissional habilitado.

Aqui **não cabe** falar em *flexibilização* dos meios de prova, já que se espera do comerciante/produtor regular (médio e grande porte) a devida *escrituração contábil* de seus lucros e prejuízos nos balanços financeiros da empresa.

Logo, o *quantum indenizatório*, tal como requerido pelas próprias COMISSÕES DE ATINGIDOS, reclama a confecção de **LAUDO individual**, personalíssimo, a partir da documentação contábil e financeira apresentada.

Nesse sentido, a situação dos "*proprietários "formais" (regulares) de lavras de exploração mineral de areia e cascalho*" comporta três situações fáticas distintas, a saber:

A. ATINGIDOS ("*proprietários "formais" (regulares) de lavras de exploração mineral de areia e cascalho*") QUE **JÁ POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto ao atingido que já possui LAUDO confeccionado, inclusive com proposta indenizatória, caberá ao mesmo, juntamente com seu advogado, decidir se **aceita (ou não)** o valor ofertado pela Fundação Renova.

Em caso de concordância, o atingido, por intermédio de seu advogado, deverá acessar a *plataforma online*, manifestando sua adesão ao sistema indenizatório simplificado, instruindo-a **apenas** com o LAUDO e os documentos pessoais e de regularidade da empresa, dispensada a apresentação dos documentos contábeis.

Assim, caso haja - desde logo - **concordância** pelo atingido (e seu advogado) com o valor constante do LAUDO TÉCNICO (**Synergia**) ter-se-á como liquidado os valores e definitiva a indenização, sem qualquer discussão ou contestação por parte da Fundação Renova.

Noutras palavras: em caso de concordância pelo atingido, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO TÉCNICO, **após homologação judicial**.

De outro lado, caso o atingido **discorde** do valor constante do LAUDO (**Synergia**), poderá solicitar, através da *plataforma online*, a revisão do LAUDO pela Fundação Renova, instruindo e apresentando a comprovação contábil pertinente.

Na sequência, caberá à Fundação Renova, no prazo de 30 dias, apresentar ao atingido o **LAUDO TÉCNICO revisado**, devidamente individualizado e fundamentado.

Nesse caso, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO, após homologação judicial.

B. ATINGIDOS ("*proprietários "formais" (regulares) de lavras de exploração mineral de areia e cascalho*") QUE **NÃO POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto aos atingidos que NÃO possuem LAUDO confeccionado, deverão acessar a *plataforma online*, manifestando sua adesão ao *sistema indenizatório simplificado*, instruindo-a com **todos** os documentos relacionados nesta decisão, notadamente a escrituração contábil que comprova o prejuízo alegado.

Na sequência, caberá à Fundação Renova confeccionar, no prazo máximo de 30 dias, **LAUDO individualizado**, personalíssimo, sobre a situação (fática e jurídica) apresentada na *escrituração contábil* pelo comerciante, inclusive com proposta indenizatória (se for o caso).

Para a confecção do LAUDO, a Renova deverá examinar toda a documentação contábil apresentada, assim como informações constantes de bancos de dados públicos (se existentes), podendo – inclusive - realizar vistorias e inspeções *in loco*.

Confeccionado o LAUDO, o atingido poderá (ou não) aceitar o valor proposto pela Fundação Renova.

Em caso de concordância, via manifestação na *plataforma online*, cumprirá à Renova efetuar o pagamento correspondente, após homologação judicial.

C. ATINGIDOS (“*proprietários "formais" (regulares) de lavras de exploração mineral de areia e cascalho*”) QUE – POR QUALQUER MOTIVO - **NÃO CONSEGUEM** PROVAR A REGULARIDADE DO COMÉRCIO OU O PREJUÍZO ALEGADO

Os atingidos (“*proprietários "formais" (regulares) de lavras de exploração mineral de areia*”) que, por qualquer motivo, não conseguirem comprovar a regularidade formal do seu comércio (ou mesmo não tiverem documentação contábil regular) poderão, após a confecção de eventual **LAUDO negativo** pela Fundação Renova, manifestar, *ainda na plataforma online*, a opção de se enquadrarem na categoria de "*proprietários (“INFORMAIS”) de lavras de exploração mineral de areia*", fazendo jus à indenização correspondente, desde que cumpridos todos os requisitos desta decisão para a categoria pretendida.

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, FIXO o procedimento relativo à confecção dos **LAUDOS individuais**, personalíssimos, pela Fundação Renova e o correspondente pagamento das indenizações aos “*proprietários (“INFORMAIS”) de lavras de exploração mineral de areia e cascalho*”.

DAS ATIVIDADES LIGADAS À “CADEIA PRODUTIVA DA EXPLORAÇÃO DOS AREAIS”

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "CADEIA PRODUTIVA DA EXPLORAÇÃO DOS AREAIS"

Segundo informam as COMISSÕES DE ATINGIDOS, os profissionais ligados à “*cadeia produtiva da exploração de areia*”-atividades econômicas relacionadas de alguma forma aos areais (mergulhadores, operadores de dragas e operadores de máquinas nos areais) - alegam terem sofrido a interrupção imediata de seu

respectivo ofício (profissão), perdendo, portanto, sua fonte de renda, já que dependiam da atividade econômica de exploração de areia nos rios Carmo, Doce e Piranga.

As empresas rés (SAMARCO, VALE e BHP), por seu turno, aduziram a ausência de dano direto aos profissionais ligados à "*cadeia produtiva da exploração de areia*".

Pois bem.

A realidade da época (pré-desastre) mostrava que os profissionais ligados à "*cadeia produtiva da exploração dos areais*" - dentre os quais pode-se mencionar, a título de exemplo, os mergulhadores, operadores de dragas e operadores de máquinas - constituíam sim ofícios existentes no município de Ponte Nova, cujo exercício de sua respectiva profissão e obtenção de fonte de renda estavam diretamente ligados à exploração dos areais.

A realidade pós-desastre mostrou que, com a chegada da pluma de rejeitos, estas profissões praticamente desapareceram, pois com a paralisação da extração de areia, toda a cadeia produtiva de suprimentos restou integralmente comprometida.

É inequívoco, portanto, o fato de que os profissionais ligados à "*cadeia produtiva da exploração dos areais e cascalhos*" eram realidade presente e, com a chegada da pluma de rejeitos, perderam seu ofício, com grave comprometimento de sua (legítima) fonte de renda.

Assim sendo, entendo que a categoria dos profissionais ligados à "*cadeia produtiva da exploração de areia*" deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO), via de consequência, **RECONHEÇO** os profissionais ligados à "*cadeia produtiva da exploração dos areais*", como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles profissionais ligados à "*cadeia produtiva da exploração dos areais*" que já trabalhavam em Ponte Nova (antes do Desastre), e consequentemente faziam desse ofício o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Esses, portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DO OFÍCIO

Os profissionais ligados à "*cadeia produtiva da exploração de areia e cascalho*" que pretenderem aderir ao sistema de indenização previsto nesta decisão deverão comprovar, por meio idôneo, o seu ofício.

Com efeito, como regra geral e a título de *numerus apertus*, a cadeia produtiva da exploração dos areais compreende as seguintes atividades econômicas:

(i) mergulhadores;

(ii) operadores de dragas;

(iii) operadores de máquinas nos areais.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (**e exclusão**) quanto ao programa de reparação e indenização.

De outro lado, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples não pode ser admitida como elemento (absoluto) constitutivo do direito.

Aliás, a utilização da autodeclaração pura e simples revelou-se um verdadeiro novo desastre na bacia do rio Doce, **pois deu origem a milhares de fraudes, prestigiando-se a ação de oportunistas e aproveitadores**, em detrimento dos legítimos atingidos.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, não pode significar um incentivo às fraudes e prêmio aos oportunistas, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, no mínimo, comprovar o fato constitutivo do seu direito.

As próprias COMISSÕES DE ATINGIDOS, de forma absolutamente leal e correta, não vieram a juízo, em momento algum, defender a autodeclaração pura e simples, **pois esta, como regra, só é defendida por aqueles que prestigiam a má fé e se aproveitam das reiteradas fraudes.**

O que se buscou, evidentemente, foi a *flexibilização dos critérios* (rígidos) de comprovação do ofício exigidos pela Fundação Renova. E, nesse sentido, a flexibilização dos critérios é perfeitamente adequada e compatível com a realidade (simples e humilde) da bacia do rio Doce.

Evidentemente, quem alega possuir uma profissão (um ofício gerador de renda) certamente tem condições (ainda que mínimas) de provar essa alegação.

Se de um lado, não se deve admitir a autodeclaração pura e simples, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, não se pode admitir – decorridos mais de 05 anos do Desastre - a exigência de uma gama de documentos formais (registrados em cartório) de categorias sabidamente informais.

No caso da categoria dos profissionais ligados à "*cadeia produtiva da exploração de areia*", o pleito de *flexibilização* apresentado pelas COMISSÕES DE ATINGIDOS é perfeitamente legítimo, pois se trata, na maioria das vezes, de profissionais informais (mergulhadores, operadores de dragas e operadores de máquinas), raramente registrados e/ou documentados. Exigir uma gama de "documentos formais"

seria o mesmo que inviabilizar, por vias transversas, o próprio exercício do direito à indenização.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício, os profissionais ligados à "*cadeia produtiva da exploração dos areais*" deverão apresentar **pelo menos DOIS documentos**, dentre as seguintes possibilidades:

1. autodeclaração, sob as penas da Lei, com firma reconhecida em cartório pelo atingido;
2. declaração prestada, sob as penas da Lei, por clientes/proprietários dos areais, com firma reconhecida em cartório, que deverá obrigatoriamente conter:
    - qualificação do declarante, inclusive os dados de RG e CPF, além do endereço completo;
    - identificação da região/modo onde/em os serviços foram prestados/fornecidos;
    - identificação do trabalhador que prestou o serviço;
    - indicação dos valores pagos;
    - indicação da periodicidade da prestação de serviços/fornecimento de pescado.
3. registro de MEI;
4. CTPS;
5. certidão de casamento ou nascimento dos filhos;
6. certidão de batismo dos filhos;
7. registro em livros de entidades religiosas (participação em batismo, crisma, casamento ou em outros sacramentos);
8. livros de caixa informal (contemporâneos ao Evento e autenticado).

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo quantum indenizatório fixado no PJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

As empresas rés (SAMARCO, VALE E BHP) aduziram que os profissionais ligados à "cadeia produtiva da exploração dos areais" não podem ser contemplados no presente incidente, porque não foram diretamente impactadas pelo Rompimento.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão qualidade da água e dos insumos (areia, argila, etc) encontram-se *sub judice*, no âmbito dos Eixos Prioritários 6 e 9, ambos voltados para a realização de **prova pericial (técnica)** com vistas a equacionar, em definitivo, as dúvidas existentes.

Com efeito, é perfeitamente legítimo afirmar que até a presente data os atingidos ainda possuem fundado receio de retorno à utilização dos insumos (areia), exatamente pela ausência de laudo técnico definitivo, imparcial e produzido em juízo, que ateste a sua segurança.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda tem fundado receio de utilização da água (e insumos) dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de **prova técnica em juízo** será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para o retorno da utilização dos insumos oriundos dos rios Carmo, Doce e Piranga, de forma a permitir aos "*profissionais da cadeia de*

exploração da areia" o retorno seguro de sua profissão, trazendo consigo toda a cadeia produtiva.

Por outro lado, conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma solução indenizatória média, de caráter geral, serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

A situação trazida pelas COMISSÕES DE ATINGIDOS **não pode ser acolhida por este juízo.** Isto porque a pretensão - a toda evidência – não corresponde uma verdade universal e absoluta.

Não corresponde sequer uma realidade comum a todos os profissionais da "*cadeia produtiva da exploração de areia***".**

Vale dizer: nem todos os profissionais da "*cadeia produtiva da exploração de areia*" possuíam a mesma força e capacidade de trabalho; nem todos possuíam a mesma agilidade e eficiência para a função; nem todos possuíam a mesma remuneração; é evidente que a situação do mergulhador é distinta do operador de draga. Tudo isto demonstra que a **situação individual** de cada um era diferente, pela própria natureza da profissão.

Do mesmo modo, no âmbito processual, enquanto alguns poucos conseguirão demonstrar os danos, certamente a imensa maioria, dada a informalidade, **não terá prova de nada**, a não ser a própria palavra.

Portanto, o cenário (ideal) alegado e pretendido pelas COMISSÕES DE ATINGIDOS reclama **comprovação individual**, personalizada, não podendo ser presumido como uma realidade inerente a todos os profissionais dessa cadeia produtiva.

Não cabe a este juízo adotar como presunção (absoluta) uma situação que – claramente – não pode ser estendida a todos os profissionais da "*cadeia produtiva da exploração de areia*". Do mesmo modo, não cabe a este juízo examinar a situação individual de cada um deles.

Assim sendo, aqueles atingidos que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entender cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daqueles que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma **solução coletiva comum** para a pretensão indenizatória, fundada na noção de *justiça possível.*

O que se pretende encontrar, portanto, é o valor indenizatório médio que corresponda, com segurança, ao padrão (comum) de todos esses profissionais integrantes da "*cadeia produtiva da exploração de areia*".

Cuida-se aqui de definir uma **solução indenizatória comum**, de caráter coletivo, em que se possa presumir, com segurança, o enquadramento médio de todos esses atingidos, **sem levar em conta as situações individuais de cada um.**

Reforço, uma vez mais, que a presente decisão terá **natureza facultativa**, de modo que aquele profissional que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, assim, a proposta de quitação definitiva formulada pelas COMISSÕES DE ATINGIDOS quanto aos profissionais da "*cadeia produtiva da exploração de areia*".

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

Adoto R$ 1.870,00 como valor-base.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os profissionais da "*cadeia produtiva da exploração de areia*" encontram-se impossibilitados de exercerem o seu ofício, seja pela percepção geral de inviabilidade de atividade exploradora nos rios Carmo, Doce e Piranga (*últimos 2km*) (*com repercussão direta em toda a gama de atividades que giram em torno da cadeia dos areais*), seja pela ausência de laudo técnico oficial, na via judicial, atestando o retorno à condição ambiental anterior ao evento.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que nos próximos meses a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) sobre a segurança da água (e insumos) dos rios Carmo, Doce e Piranga encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os profissionais ligados à "*cadeia produtiva dos areais*" devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

DANO MATERIAL: "*equipamentos utilizados pelos profissionais*"

As COMISSÕES DE ATINGIDOS reclamam para os profissionais da "*cadeia produtiva da exploração de areia*" indenização pelos materiais/equipamentos utilizados pelos prestadores de serviço.

Com efeito, a interrupção abrupta das atividades laborativas da "*cadeia produtiva da exploração de areia*" permite presumir que o longo tempo de paralisação acarretou danos/inutilização de *materiais e equipamentos* dos `mergulhadores, operadores de dragas e operadores de máquinas`, razão pela qual, neste particular, FIXO o valor de **R$ 3.000,00 (três mil reais)**, a título de indenização pela perda (ou inutilização) de tais equipamentos.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos desta decisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todos os profissionais da "*cadeia produtiva da exploração de areia*" – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do valor-base (R$ 1.870,00) multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda (71 meses), totalizando R$ 132.770,00.

DANOS MATERIAIS (danos emergentes): R$ 3.000,00 (três mil reais), a título de indenização pela perda (ou inutilização) dos equipamentos.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os profissionais da "**cadeia produtiva dos areais**" que desejarem aderir à presente matriz de danos e consequente sistema de indenização simplificado, **mediante quitação final, única e definitiva**, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 135.770,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 145.770,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos desta decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 145.770,00 (cento e quarenta e cinco mil setecentos e setenta reais)**, relativamente à categoria dos profissionais ligados à "*cadeia produtiva da exploração dos areais*" (mergulhadores, operadores de dragas e operadores de máquinas), para fins de **quitação final, única e definitiva**.

DOS COMERCIANTES ("INFORMAIS") DE AREIA E ARGILA

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "COMERCIANTES (INFORMAIS) DE AREIA E ARGILA"

As COMISSÕES DE ATINGIDOS informaram que os "*comerciantes (**informais**) de areia e argila*" alegam terem sofrido a interrupção de seu ofício (profissão/atividade) imediatamente após o evento danoso, perdendo a sua fonte de renda/receita, já que dependiam direta e indiretamente dos rios Carmo, Doce e/ou Piranga.

A realidade da época (pré-desastre) mostrava que os "*comerciantes (**informais**) de areia e argila*" constituíam sim uma *atividade comercial* existente no município de Ponte Nova, ligada ao comércio (**informal**) de areia e argila dos rios Carmo, Doce e/ou Piranga.

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, esta atividade foi severamente prejudicada, pois – evidentemente – não se vislumbrou mais a viabilidade de utilização dos *insumos* oriundos dos rios Carmo, Doce e Piranga (*últimos 2km*), de modo que as atividades ligadas ao comércio de areia e argila restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os "*comerciantes (**informais**) de areia e argila* " eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua atividade mercantil com grave comprometimento de sua (legítima) fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "*comerciantes (**informais**) de areia e argila*" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "*comerciantes (**informais**) de areia e argila*", ou seja, comerciantes que já trabalhavam em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício/atividade o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os "*comerciantes (**informais**) de areia e argila*", portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL

Os "*comerciantes (**informais**) de areia e argila*" que pretenderem aderir ao novo sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua atividade.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples não pode ser admitida como elemento (absoluto) constitutivo do direito, **ainda mais quando se trata de atividade comercial de porte médio, praticada com uso de caminhões, e carretas**, quais sejam: Basculante Truck (capacidade média de 12 metros), Basculante Toco (capacidade média de 6 metros) e Carreta (capacidade média de 29 metros).

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício/atividade, os "*comerciantes (**informais**) de areia e argila*" deverão apresentar **cumulativamente** os documentos a seguir:

- Declaração, sob as penas da Lei, com firma reconhecida em cartório, atestando o impacto direto na atividade comercial, em especial a dependência e relação direta do negócio/comércio com os rios Carmo, Doce e/ou Piranga (*últimos 2km*);

- Comprovação de propriedade de caminhão/carreta, através de documento oficial emitido pelo DETRAN, correspondente ao ano de 2015, utilizado na atividade econômica em nome do atingido, seu cônjuge, ascendente ou descente até 3º grau, inclusive **OU** comprovação de posse/propriedade de estabelecimento comercial voltado ao comércio de areia e argila no ano de 2015;

- Declaração prestada, sob as penas da lei, por **terceiro fornecedor**, com identificação do material comercializado pelo respectivo atingido (tipo,

qualidade, quantidade e indicação de origem) **OU** duas declarações, sob as penas da lei, de clientes com indicação do material adquirido (tipo, qualidade e quantidade) **OU** apresentação de Livro de caixa informal ou caderneta de controle contemporâneos ao Evento e autenticados.

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado no PJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

Com efeito, é perfeitamente legítimo afirmar que até a presente data os atingidos ainda possuem fundado receio de retorno ao uso e consumo dos insumos (**areia, barro e argila**), exatamente pela ausência de laudo técnico definitivo, imparcial e produzido em juízo, que ateste a sua segurança.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda têm fundado receio de utilização da água e insumos dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de *prova técnica* em juízo será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para que os atingidos (e população em geral) possam novamente voltar a utilizar os insumos e produtos dos rios Carmo, Doce e Piranga.

Por outro lado, conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma **solução indenizatória média**, de caráter geral, serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Quanto aos valores pretendidos, de se ressaltar que nem todos os "*comerciantes (**informais**) de areia e argila*" possuíam a mesma força e capacidade de trabalho; nem todos possuíam a mesma agilidade e eficiência para a atividade, bem como comercialização de bens e/ou serviços; uns possuíam caminhões de menor porte e outros possuíam até carretas. Tudo isto demonstra que a **situação individual** de cada um era diferente, pela própria natureza da atividade.

Do mesmo modo, no âmbito processual, enquanto alguns poucos conseguirão demonstrar e comprovar os danos, a justificar o valor pretendido, certamente a imensa maioria, dada a *informalidade* da atividade, não terá prova de nada.

Assim sendo, aqueles "*comerciantes (**informais**) de areia e argila*" que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entenderem cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daquelas que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma **solução indenizatória comum** para a pretensão indenizatória, fundada na noção de *rough justice*, a partir da flexibilização dos *standards* probatórios.

O que se pretende encontrar, portanto, é o valor indenizatório médio que corresponda, com segurança, ao padrão (mediano) dos integrantes da categoria.

Cuida-se aqui de definir uma **solução indenizatória comum**, de caráter geral, em que se possa presumir, com segurança, o enquadramento médio de todos os "*comerciantes (**informais**) de areia e argila* ", sem levar em conta as situações individuais de cada um.

Reforço, uma vez mais, que a presente decisão terá **natureza facultativa**, de modo que aquele que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

A experiência cotidiana demonstra que categorias **mercantis informais** como os "*comerciantes (**informais**) de areia e argila*", **não obstante serem comerciantes de porte médio**, inclusive detentores de caminhões e carretas, como regra, tem por remuneração média líquida o dobro do salário mínimo.

É evidente que um ou outro comerciante possa ter auferido ganhos superiores, em razão da maior capacidade de seu negócio, mas essa situação, consoante já afirmado, reclama comprovação individual, não podendo ser presumida.

Assim sendo, adoto o dobro do salário mínimo vigente na data dos precedentes do *sistema indenizatório simplificado* (R$ 2.090,00) como VALOR-BASE.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "*comerciantes (**informais**) de areia e argila*" encontram-se impossibilitados de exercerem a sua atividade, seja pela percepção geral de inviabilidade de uso dos insumos (**areia e argila**) oriundos dos rios Carmo, Doce e Piranga (*últimos 2km*) (*com repercussão direta em toda a gama de atividades que giram em torno dessa atividade*), seja pela ausência de laudo técnico, na via judicial, atestando o retorno à condição ambiental anterior ao Evento.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que no curto prazo a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades.

Logo, para os fins exclusivos dessa decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "*comerciantes (**informais**) de areia e argila* " devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

DANO MATERIAL: "*indenização pela paralisação dos caminhões e/ou carretas e demais bens móveis utilizados na atividade*".

Não consta dos autos a descrição individualizada desses materiais, de modo que este juízo não pode adotar como presunção que todos os comerciantes utilizavam os mesmos produtos, os mesmos tipos de *caminhões/carretas* e na mesma extensão comercial.

Por outro lado, com a interrupção abrupta das atividades mercantis, é mais do que adequado presumir que o longo tempo de paralisação acarretou danos/inutilização aos produtos estocados e aos veículos utilizados, razão pela qual, neste particular, FIXO o valor de **R$ 3.000,00 (três mil reais)**, a título de indenização pela paralisação (ou inutilização) dos caminhões, das carretas, e das matérias-primas, estoques e produtos.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos dessa decisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todos os "*comerciantes (**informais**) de areia e argila*" – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do dobro do salário mínimo vigente na data dos precedentes (R$ 2.090,00) multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda/receita (71 meses), totalizando R$ 148.390,00.

DANOS MATERIAIS (danos emergentes): R$ 3.000,00 (três mil reais), a título de indenização pela paralisação dos veículos, caminhões, carretas e das matérias-primas, estoques e produtos.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "*comerciantes (**informais**) de areia e argila*" que desejarem aderir à presente *matriz de danos* e consequente sistema de indenização simplificado, mediante quitação definitiva, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 151.390,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 161.390,00

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos desta decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 161.390,00 (cento e sessenta e um mil e trezentos e noventa reais)**, relativamente à categoria dos "*comerciantes (**informais**) de areia e argila*", para fins de **quitação definitiva**.

DOS COMERCIANTES "FORMAIS" DE AREIA E ARGILA

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "COMERCIANTES FORMAIS DE AREIA E ARGILA"

As COMISSÕES DE ATINGIDOS informaram que os "comerciantes **formais** de areia e argila" sofreram a interrupção de suas *atividades mercantis* imediatamente após o evento danoso, perdendo a fonte de renda/receita, já que dependiam direta e indiretamente dos rios Carmo, Doce e/ou Piranga.

A realidade da época (pré-desastre) mostrava que os "comerciantes **formais** de areia e argila" constituíam sim uma *atividade mercantil* existente no município de Ponte Nova, ligada ao comércio (**formal - regular**) de areia e argila oriunda do rio Doce.

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, esta atividade foi severamente prejudicada, pois – evidentemente – não se vislumbrou mais a viabilidade de utilização dos *insumos* oriundos dos rios Carmo, Doce e Piranga (*últimos 2km*), de modo que as atividades ligadas ao comércio de areia e argila restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os "comerciantes **formais** de areia e argila" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua atividade mercantil com grave comprometimento de sua (legítima) fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "comerciantes **formais** de areia e argila" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "comerciantes **formais** de areia e argila", devidamente constituídos (**regulares**) e que já exerciam o comércio em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício/atividade o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os integrantes dessa categoria, portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL E DOS PREJUÍZOS CONTÁBEIS

Os "comerciantes **formais** de areia e argila" que pretenderem aderir ao novo sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua atividade mercantil regular e devidamente constituída.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a *autodeclaração pura e simples* não pode ser admitida como elemento (absoluto) constitutivo do

direito, ainda mais quando se trata de atividade comercial regular de médio e grande porte (**devidamente constituída)**.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação da atividade mercantil, os "comerciantes **formais** de areia e argila" deverão apresentar **cumulativamente** os seguintes documentos:

- Cartão do CNPJ com data de abertura anterior a 05.11.2015, e com endereço da empresa em Ponte Nova;
- Ato constitutivo atualizado (contrato social ou equivalente);
- Documentos pessoais dos sócios – Identidade e CPF;
- Documentação contábil de 2014 a 2019, exceto se for MEI;
- Declaração do Resultado do Exercício entre 2014 e 2019, assinada por Contador inscrito no Conselho Regional de Contabilidade;
- Notas fiscais emitidas ou recebidas em nome da PJ ou PF no período de dez/2014 a abr/2019, para os casos de MEI;
- Declaração atestando o impacto direto a partir de análise dos documentos contábeis apresentados, em especial a dependência e relação direta do negócio com os rios Carmo, Doce e/ou Piranga (*últimos 2km*).

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado no PJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

A indenização dos "comerciantes **FORMAIS (REGULARES)** de areia e argila" deve corresponder aos prejuízos suportados, na exata extensão e nos termos em que comprovados pelos documentos contábeis da empresa.

Por se tratar de atividade comercial regular exige-se, nos termos da Lei, a perfeita *escrituração contábil* feita por profissional habilitado.

Aqui **não cabe** falar em *flexibilização* dos meios de prova, já que se espera do comerciante regular (médio e grande porte) a devida *escrituração contábil* de seus lucros e prejuízos nos balanços financeiros da empresa.

Logo, o *quantum indenizatório*, tal como requerido pelas próprias COMISSÕES DE ATINGIDOS, reclama a confecção de **LAUDO individual**, personalíssimo, a partir da documentação contábil e financeira apresentada.

Nesse sentido, a situação dos "comerciantes **formais** de areia e argila" comporta três situações fáticas distintas, a saber:

A. ATINGIDOS ("comerciantes **formais** de areia e argila") QUE **JÁ POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto ao atingido que já possui LAUDO confeccionado, inclusive com proposta indenizatória, caberá ao mesmo, juntamente com seu advogado, decidir se **aceita (ou não)** o valor ofertado pela Fundação Renova.

Em caso de concordância, o atingido, por intermédio de seu advogado, deverá acessar a *plataforma online*, manifestando sua adesão ao sistema indenizatório simplificado, instruindo-a **apenas** com o LAUDO e os documentos pessoais e de regularidade da empresa, dispensada a apresentação da escrituração contábil.

Assim, caso haja - desde logo - **concordância** pelo atingido (e seu advogado) com o valor constante do LAUDO TÉCNICO (**Synergia**) ter-se-á como liquidado os valores e definitiva a indenização, sem qualquer discussão ou contestação por parte da Fundação Renova.

Noutras palavras: em caso de concordância pelo atingido, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO TÉCNICO, **após homologação judicial**.

De outro lado, caso o atingido **discorde** do valor constante do LAUDO (**Synergia**), poderá solicitar, através da *plataforma online*, a revisão do LAUDO pela Fundação Renova, instruindo e apresentando a comprovação contábil pertinente.

Na sequência, caberá à Fundação Renova, no prazo de 30 dias, apresentar ao atingido o **LAUDO TÉCNICO revisado**, devidamente individualizado e fundamentado.

Nesse caso, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO, após homologação judicial.

B. ATINGIDOS ("comerciantes **formais** de areia e argila") QUE **NÃO POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto aos atingidos que NÃO possuem LAUDO confeccionado, deverão acessar a *plataforma online*, manifestando sua adesão ao sistema indenizatório simplificado, instruindo-a com **todos** os documentos relacionados nesta decisão, notadamente a escrituração contábil que comprova o prejuízo alegado.

Na sequência, caberá à Fundação Renova confeccionar, no prazo máximo de 30 dias, **LAUDO individualizado**, personalíssimo, sobre a situação (fática e jurídica) apresentada na *escrituração contábil* pelo comerciante, inclusive com proposta indenizatória (se for o caso).

Para a confecção do LAUDO, a Renova deverá examinar toda a documentação contábil apresentada, assim como informações constantes de bancos de dados públicos (se existentes), podendo – inclusive - realizar vistorias e inspeções *in loco*.

Confeccionado o LAUDO, o atingido poderá (ou não) aceitar o valor proposto pela Fundação Renova.

Em caso de concordância, via manifestação na *plataforma online*, cumprirá à Renova efetuar o pagamento correspondente, após homologação judicial.

C. ATINGIDOS ("comerciantes **formais** de areia e argila") QUE – POR QUALQUER MOTIVO - **NÃO CONSEGUEM** PROVAR A REGULARIDADE DO COMÉRCIO OU O PREJUÍZO ALEGADO

Os atingidos ("comerciantes **formais** de areia e argila") que, por qualquer motivo, não conseguirem comprovar a regularidade formal do seu comércio (ou mesmo não tiverem documentação contábil regular) poderão, após a confecção de eventual **LAUDO negativo** pela Fundação Renova, manifestar, *ainda na plataforma online*, a opção de se enquadrarem na categoria de "*comerciantes (**informais**) de areia e argila*", fazendo jus à indenização correspondente, desde que cumpridos todos os requisitos dessa decisão para a categoria pretendida.

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, FIXO o procedimento relativo à confecção dos **LAUDOS individuais** pela Fundação Renova e o correspondente pagamento das indenizações aos "comerciantes **formais** de areia e argila".

DOS "REVENDEDORES/COMERCIANTES INFORMAIS DE OURO"

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "REVENDEDORES/COMERCIANTES INFORMAIS DE OURO"

As COMISSÕES DE ATINGIDOS, ao concordarem com a aplicação das mesmas *categorias/requisitos/critérios/valorações* relativos aos outros precedentes do *sistema indenizatório simplificado*, informaram que os "*revendedores/comerciantes informais de ouro*" alegam ter sofrido a interrupção de sua atividade imediatamente após o Evento danoso, perdendo sua fonte de renda/receita, já que dependiam diretamente dos faiscadores para o comércio/revenda de ouro.

A realidade da época (pré-desastre) mostrava que os "*revendedores/comerciantes informais de ouro*" constituíam sim uma atividade existente no município de Ponte Nova, ainda que informal, naturalmente decorrente das atividades tradicionais dos faiscadores.

A realidade pós-desastre mostrou que, com a chegada da pluma de rejeitos, esta atividade (compra e revenda de ouro) desapareceu, pois inexiste viabilidade de extração do "*ouro de aluvião*" nos rios Carmo, Doce e Piranga (*últimos 2km*), de modo que as atividades ligadas ao comércio de revenda do *ouro restaram* integralmente comprometidas.

É inequívoco, portanto, o fato de que os "*revendedores/comerciantes informais de ouro*" eram realidade presente e, com a chegada da pluma de rejeitos, perderam seu ofício, com grave comprometimento de sua (legítima) fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência **RECONHEÇO** os "*revendedores/comerciantes informais de ouro*" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "*revendedores/comerciantes informais de ouro*" que já trabalhavam em Ponte Nova antes do Desastre, e consequentemente faziam dessa atividade o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os "*revendedores/comerciantes informais de ouro*", portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DO OFÍCIO

Os "*revendedores/comerciantes informais de ouro* " que pretenderem aderir ao sistema de indenização simplificado previsto nesta decisão **deverão** comprovar, por meio idôneo, o seu ofício/atividade.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação quanto ao programa de reparação e indenização.

De outro lado, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples não pode ser admitida como elemento (absoluto) constitutivo do direito.

Aliás, a utilização da autodeclaração pura e simples revelou-se um verdadeiro novo desastre na bacia do rio Doce, **pois deu origem a milhares de fraudes, prestigiando-se a ação de oportunistas e aproveitadores**, em detrimento dos legítimos atingidos.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, não pode significar um incentivo às fraudes, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, no mínimo, comprovar o fato constitutivo do seu direito.

As próprias COMISSÕES DE ATINGIDOS, de forma absolutamente leal e correta, não vieram a juízo, em momento algum, defender a autodeclaração pura e simples, **pois esta só é defendida por aqueles que prestigiam a má fé e se aproveitam das reiteradas fraudes.**

O que se buscou, evidentemente, foi a *flexibilização dos critérios* (rígidos) de comprovação do ofício exigidos pela Fundação Renova. E, nesse sentido, a flexibilização dos critérios é perfeitamente adequada e compatível com a realidade (simples e humilde) da bacia do rio Doce.

Evidentemente, quem alega possuir uma profissão (um ofício gerador de renda) certamente tem condições (ainda que mínimas) de provar essa alegação.

Se de um lado, não se deve admitir a autodeclaração pura e simples, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, não se pode admitir – decorridos mais de 05 anos do Desastre - a exigência de uma gama de documentos formais (registrados em cartório) de *categorias sabidamente informais*.

No caso da categoria dos "*revendedores/comerciantes informais de ouro*", o pleito de *flexibilização* apresentado pelas COMISSÕES DE ATINGIDOS é perfeitamente legítimo, pois se trata de categoria informal, não registrada e/ou não documentada. Exigir uma gama de "documentos formais" seria o mesmo que inviabilizar, por vias transversas, o próprio exercício do direito à indenização.

A realidade das cidades do interior mostra ser comum a atividade de pequenos comerciantes que trabalham com a compra e revenda de ouro.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício, os "*revendedores/comerciantes informais de ouro*" deverão apresentar pelo **menos DOIS documentos**, dentre as seguintes possibilidades:

- Declaração, sob as penas da Lei, com firma reconhecida em cartório, atestando o impacto direto na atividade comercial (compra e revenda) do ouro, em especial a dependência e relação direta do negócio/exploração com o "*ouro de aluvião*" da região;

- Comprovação de posse/propriedade de lojas, estabelecimentos e/ou equipamentos destinados ao comércio (ainda que informal) do ouro;

- Declaração prestada, sob as penas da lei, por **terceiro adquirente**, com identificação do material produzido e comercializado pelo respectivo atingido (tipo, qualidade, quantidade e indicação de origem) **OU** apresentação de Livro de caixa informal ou caderneta de controle contemporâneos ao Evento e autenticados.

- registro de MEI;
- notas de compras de materiais (contemporâneos ao evento);
- certidão de casamento ou nascimento dos filhos;
- certidão de batismo dos filhos;
- registro em livros de entidades religiosas (participação em batismo, crisma, casamento ou em outros sacramentos);
- livros de caixa informal (contemporâneos ao evento).

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo quantum indenizatório fixado no PJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

Com efeito, sabe-se que até a presente data os atingidos ainda possuem dificuldades na extração e comercialização do ouro, exatamente pela ausência de laudo técnico definitivo, imparcial e produzido em juízo, que ateste a sua segurança.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda tem fundado receio de utilização dos insumos dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de prova técnica em juízo será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para que os atingidos possam novamente voltar a utilizar todos os frutos e insumos extraíveis da calha dos rios Carmo, Doce e Piranga (*últimos 2km*).

Por outro lado, conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma solução indenizatória média, de caráter geral, serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Aqueles "*revendedores/comerciantes informais de ouro"* que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entender pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entender cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daqueles que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma solução coletiva comum para a pretensão indenizatória dos "*revendedores/comerciantes informais de ouro*".

O que se pretende encontrar, portanto, é o valor indenizatório médio que corresponda, com segurança, ao padrão comum de todos os integrantes dessa categoria.

Cuida-se aqui de definir uma solução indenizatória comum, de caráter geral, em que se possa presumir, com segurança, o enquadramento médio de todos os "*revendedores/comerciantes informais de ouro*", sem levar em conta as situações individuais de cada um.

Reforço, uma vez mais, que a presente decisão terá natureza facultativa, de modo que aquele que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

Adoto R$ 2.000,00 como valor-base.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "*revendedores/comerciantes informais de ouro*" encontram-se impossibilitados de exercerem a sua atividade, em razão da impossibilidade de extração de ouro, pelo modo tradicional, realizado pelos faiscadores da região.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que no curto prazo a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) sobre a qualidade da água do rio Doce encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "*revendedores/comerciantes informais de ouro*" devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

DANO MATERIAL

As COMISSÕES DE ATINGIDOS reclamam para os "*revendedores/comerciantes informais de ouro*" indenização pelos materiais/equipamentos utilizados pelos prestadores de serviço.

Com a interrupção abrupta das atividades dos "*revendedores/comerciantes informais de ouro*", é mais do que adequado presumir-se que o longo tempo de paralisação acarretou danos/inutilização de *produtos estocados e equipamentos*, razão pela qual, neste particular, FIXO o valor de **R$ 5.000,00 (cinco mil reais)**, a título de indenização pela perda (ou inutilização) das matérias-primas, estoques e produtos.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

QUANTUM INDENIZATÓRIO

Consoante fundamentação exposta, para os fins exclusivos desta decisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todos os "*revendedores/comerciantes informais de ouro* " – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do valor-base (R$ 2.000,00) multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda (71 meses), totalizando R$ 142.000,00.

DANOS MATERIAIS (danos emergentes): R$ 5.000,00 (cinco mil reais), a título de indenização pela perda (ou inutilização) das matérias-primas, estoques e produtos.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "*revendedores/comerciantes informais de ouro*" que desejarem aderir à presente *matriz de danos* e consequente sistema de indenização simplificado, **mediante quitação final, única e definitiva**, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 147,000,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 157.000,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos desta decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 157.000,00 (cento e cinquenta e sete mil reais)**, relativamente à categoria dos "*revendedores/comerciantes informais de ouro*", para fins de **quitação final e definitiva**.

DOS COMERCIANTES/REVENDEDORES "FORMAIS" DE OURO

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "COMERCIANTES/REVENDEDORES FORMAIS DE OURO"

As COMISSÕES DE ATINGIDOS informaram que os "*comerciantes/revendedores formais de ouro*" sofreram a interrupção de

suas *atividades mercantis* imediatamente após o evento danoso, perdendo a fonte de renda/receita, já que dependiam direta e indiretamente da extração de ouro das regiões.

A realidade da época (pré-desastre) mostrava que os "*comerciantes/revendedores formais de ouro*" constituíam sim uma atividade mercantil existente no município de Ponte Nova, incluindo o distrito Rosário do Pontal, ligada ao comércio (**formal - regular**) do ouro extraído das regiões.

A realidade pós-desastre mostrou que, com a chegada da pluma de rejeitos, esta atividade foi severamente prejudicada, pois – evidentemente – não se teve mais a viabilidade de extração do "*ouro de aluvião*" oriundo dos rios Carmo, Doce e Piranga (*últimos 2km*).

É inequívoco, portanto, o fato de que os "*comerciantes/revendedores formais de ouro*" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua atividade mercantil com grave comprometimento de sua (legítima) fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "*comerciantes/revendedores formais (REGULARES) de ouro*" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "*comerciantes/revendedores formais de ouro*", devidamente constituídos (**regulares**) e que já exerciam o comércio em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício/atividade o meio pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os "*comerciantes/revendedores formais de ouro*", portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL

Os "*comerciantes/revendedores formais de ouro*" que pretenderem aderir ao novo sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua atividade mercantil regular e devidamente constituída.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a *autodeclaração pura e simples* não pode ser admitida como elemento (absoluto) constitutivo do direito, ainda mais quando se trata de atividade comercial regular de médio e grande porte (**devidamente constituída**).

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação da atividade mercantil, os "*comerciantes/revendedores formais de ouro*" deverão apresentar **cumulativamente** os seguintes documentos:

- Cartão do CNPJ com data de abertura anterior a 05.11.2015, e com endereço da empresa em Ponte Nova;
- Ato constitutivo atualizado (contrato social ou equivalente);
- Documentos pessoais dos sócios – Identidade e CPF;
- Documentação contábil de 2014 a 2019, exceto se for MEI;

- Declaração do Resultado do Exercício entre 2014 e 2019, assinada por Contador inscrito no Conselho Regional de Contabilidade;

- Notas fiscais emitidas ou recebidas em nome da PJ ou PF no período de dez/2014 a abr/2019, para os casos de MEI;

- Declaração atestando o impacto direto a partir de análise dos documentos contábeis apresentados, em especial a dependência e relação direta do negócio com o ouro da região.

DO *QUANTUM* INDENIZATÓRIO

A indenização dos "*comerciantes/revendedores formais (REGULARES) de ouro*" deve corresponder aos prejuízos suportados, na exata extensão dos danos, nos termos em que comprovados pelos *documentos contábeis* da empresa.

Por se tratar de atividade comercial regular exige-se, nos termos da Lei, a perfeita *escrituração contábil* feita por profissional habilitado.

Aqui **não cabe** falar em *flexibilização* dos meios de prova, já que se espera do comerciante regular (médio e grande porte) a **devida** *escrituração contábil* de seus lucros e prejuízos nos balanços financeiros da empresa.

Logo, o *quantum indenizatório*, tal como requerido pelas próprias COMISSÕES DE ATINGIDOS, reclama a confecção de **LAUDO individual**, personalíssimo, a partir da documentação contábil e financeira apresentada.

Nesse sentido, a situação dos "*comerciantes/revendedores formais de ouro*" comporta três situações fáticas distintas, a saber:

A. ATINGIDOS ("*comerciantes/revendedores formais de ouro*") QUE **JÁ POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto ao atingido que já possui LAUDO confeccionado, inclusive com proposta indenizatória, caberá ao mesmo, juntamente com seu advogado, decidir se **aceita (ou não)** o valor ofertado pela Fundação Renova.

Em caso de concordância, o atingido, por intermédio de seu advogado, deverá acessar a *plataforma online*, manifestando sua adesão ao sistema indenizatório simplificado, instruindo-a **apenas** com o LAUDO e os documentos pessoais e de regularidade da empresa, dispensada a apresentação da escrituração contábil.

Assim, caso haja - desde logo - **concordância** pelo atingido (e seu advogado) com o valor constante do LAUDO TÉCNICO (**Synergia**) ter-se-á como liquidado os valores e definitiva a indenização, sem qualquer discussão ou contestação por parte da Fundação Renova.

Noutras palavras: em caso de concordância pelo atingido, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO TÉCNICO, **após homologação judicial**.

De outro lado, caso o atingido **discorde** do valor constante do LAUDO (**Synergia**), poderá solicitar, através da *plataforma online*, a revisão do LAUDO pela Fundação Renova, instruindo e apresentando a comprovação contábil pertinente.

Na sequência, caberá à Fundação Renova, no prazo de 30 dias, apresentar ao atingido o **LAUDO TÉCNICO revisado**, devidamente individualizado e fundamentado.

Nesse caso, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO, após homologação judicial.

B. ATINGIDOS ("*comerciantes/revendedores formais de ouro*") QUE **NÃO POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto aos atingidos que NÃO possuem LAUDO confeccionado, deverão acessar a *plataforma online*, manifestando sua **adesão** ao sistema indenizatório simplificado, instruindo-a com **todos** os documentos relacionados nesta decisão, notadamente os documentos contábeis que comprovam o prejuízo alegado.

Na sequência, caberá à Fundação Renova confeccionar, no prazo máximo de 30 dias, **LAUDO individualizado**, personalíssimo, sobre a situação (fática e jurídica) apresentada na *escrituração contábil* pelo comerciante, inclusive com proposta indenizatória (se cabível).

Para a confecção do LAUDO, a Renova deverá examinar toda a documentação contábil apresentada, assim como informações constantes de bancos de dados públicos, podendo – inclusive - realizar vistorias e inspeções *in loco*.

Confeccionado o LAUDO, o atingido **poderá (ou não)** aceitar o valor proposto pela Fundação Renova, com as consequências jurídicas daí decorrentes.

Em caso de concordância, via manifestação na *plataforma online*, cumprirá à Renova efetuar o pagamento correspondente, após homologação judicial.

C. ATINGIDOS ("*comerciantes/revendedores formais de ouro*") QUE – POR QUALQUER MOTIVO - **NÃO CONSEGUEM** COMPROVAR A REGULARIDADE DO COMÉRCIO OU O PREJUÍZO ALEGADO

Os atingidos ("*comerciantes/revendedores formais de ouro*") que, por qualquer motivo, não conseguirem comprovar a regularidade formal do seu comércio (ou mesmo não tiverem documentação contábil regular) poderão, após a confecção do **LAUDO negativo** pela Fundação Renova, manifestar a opção de se enquadrarem na categoria de "*comerciantes (**informais**) de ouro*", fazendo jus à indenização correspondente, desde que cumpridos todos os requisitos desta decisão para a categoria pretendida.

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência FIXO o procedimento relativo à confecção dos **laudos individuais** pela Fundação Renova e o correspondente pagamento das indenizações aos "*comerciantes/revendedores formais de ouro*".

CADEIA DO SETOR DE TURISMO – EMPRESÁRIOS /COMERCIANTES / PRESTADORES DE SERVIÇOS ("INFORMAIS")

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "CADEIA DO SETOR DE TURISMO – EMPRESÁRIOS/COMERCIANTES / PRESTADORES DE SERVIÇOS ("INFORMAIS")"

As COMISSÕES DE ATINGIDOS vieram a juízo requerer providências quanto a situação indenizatória do "**SETOR DE TURISMO – Pequenos Empresários/Comerciantes/Prestadores de Serviços (Informais)**" em razão do comprometimento do turismo nas regiões atingidas.

A realidade da época (pré-desastre) mostrava que o "**SETOR DE TURISMO**" constituía sim uma *atividade econômica importante* no município de Ponte Nova, claramente dependente do fluxo de turistas nos rios Doce, Carmo e/ou Piranga, ligada ao comércio (**informal**) de pequenos serviços e lojas de variedades, *souvenir*s, serviços de guias turísticos, serviços de transportes, passeios náuticos, esportes fluviais, praticados por pequenos comerciantes, assim como toda a cadeia de serviços relacionadas, a exemplo dos prestadores de serviços náuticos (arrais, mecânico, carpinteiro e o capitão aquaviário).

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, o **SETOR DE TURISMO** (e toda a sua cadeia relacionada) foi severamente prejudicado, pois – evidentemente – não se vislumbrou mais a viabilidade de *exploração turística* (lazer e recreação) dos rios Doce, Carmo e Piranga (*últimos 2km*) e do lago Candonga, de modo que as atividades ligadas a esse setor restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os integrantes do "**SETOR DE TURISMO INFORMAL**" – sobretudo os de pequeno porte – praticados por *pequenos comerciantes* e prestadores de serviços (informais) eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua atividade com grave comprometimento de sua (legítima) fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "**SETOR DE TURISMO – Pequenos Empresários/Comerciantes / Prestadores de Serviços (Informais)**" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles que já exerciam suas atividades em Ponte Nova antes do Desastre, e consequentemente, faziam desse ofício/atividade o meio pelo qual proviam a sua fonte de renda/receita, é que possuem direito a postularem indenização.

Os integrantes do "**SETOR DE TURISMO – Empresários/Comerciantes / Prestadores de Serviços (Informais)**", portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão no ano de 2015, especialmente – quando cabível - nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL OU ATIVIDADE LABORATIVA

Os integrantes do "**SETOR DE TURISMO – Empresários/Comerciantes / Prestadores de Serviços (Informais)**" que pretenderem aderir ao sistema indenizatório simplificado previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua atividade, **ainda que irregular ou informal**.

Como regra geral e apenas a título de *numerus apertus*, o setor de turismo informal compreende as seguintes atividades econômicas:

(i) lojas de *souvenirs*/variedades/turismo;

(ii) serviços de turismo local/guias turísticos;

(iii) serviços de transportes/vans turísticas;

(iv) serviços de passeios náuticos, botes, caiaques e chalana;

(v) cadeia de serviços náuticos (capitão, arrais, mecânico, carpinteiro e marceneiro);

(vi) serviços/aulas/escolas de esportes fluviais e marítimos.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a *autodeclaração pura e simples* não pode ser admitida como elemento (absoluto) constitutivo do direito.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício/atividade mercantil, os integrantes do "**SETOR DE TURISMO – Empresários/Comerciantes Informais**" deverão apresentar **cumulativamente** os seguintes documentos:

- Declaração, sob as penas da Lei, com firma reconhecida em cartório, atestando o impacto direto na atividade comercial, em especial a dependência e relação direta do negócio com o turismo nos rios Carmo, Doce e/ou Piranga (*últimos 2km*);
- Declaração de fornecedores e/ou clientes e/ou contratantes do comércio com firma reconhecida em cartório.
- Comprovação de *propriedade/posse* da edificação do estabelecimento comercial (quando cabível), sendo aceitos:
    - Escritura pública ou registro de imóveis junto ao CRI;
    - contrato de aluguel;
    - conta de concessionária de energia ou de água;

- conta de concessionária de telefonia móvel (celular), desde que referente aos meses de outubro, novembro ou dezembro de 2015, e em nome do requerente, do cônjuge ou de familiar ascendente/descendente até 3º grau.

- Comprovação de propriedade/posse de *itens e equipamentos* essenciais para o exercício do comércio e/ou recreação (quando cabível), com comprovação documental e/ou registro fotográfico **OU** apresentação de Livro de caixa informal ou caderneta de controle contemporâneos ao Evento e autenticados.

Quanto aos prestadores de serviços informais (profissionais liberais, capitão, arrais, músicos, artistas, cantores, mecânicos, instrutores, carpinteiros, etc), DETERMINO que, para fins de comprovação do ofício/atividade, os integrantes do "**SETOR DE TURISMO – Prestadores de Serviços Informais**" deverão apresentar **cumulativamente** os seguintes documentos:

- Declaração, sob as penas da Lei, com firma reconhecida em cartório, atestando o impacto direto na sua atividade laborativa, em especial a dependência e relação direta da atividade com o turismo nos rios Carmo, Doce e/ou Piranga (*últimos 2km*);

- Declaração de fornecedores e/ou clientes e/ou contratantes da atividade com firma reconhecida em cartório.

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo quantum indenizatório fixado no PJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

Com efeito, é perfeitamente legítimo afirmar que até a presente data os atingidos ainda possuem fundado receio de *recreação, lazer e diversão* na região, exatamente pela ausência de laudo técnico definitivo, imparcial e produzido em juízo, que ateste a sua segurança.

Somente a produção de *prova técnica* em juízo será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para que os atingidos (e população em geral) possam novamente voltar a utilizar, *sob a ótica do turismo*, os serviços de lazer, recreação e diversão nos rios Carmo, Doce e Piranga.

Por outro lado, conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma **solução indenizatória média**, de caráter geral, serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um **novo fluxo de comprovação e pagamento, célere e ágil**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Quanto aos valores pretendidos, de se ressaltar que nem todos os integrantes do "**SETOR DE TURISMO – Empresários/Comerciantes / Prestadores de Serviços (Informais)**" possuíam a mesma estrutura física, quantidade e qualidade das instalações; nem todos possuíam a mesma clientela; os *pontos comerciais* eram distintos. Tudo isto demonstra que a **situação individual** de cada um era diferente, pela própria natureza da atividade.

Do mesmo modo, no âmbito processual, enquanto alguns poucos conseguirão demonstrar e comprovar os danos, a justificar o valor pretendido, certamente a imensa maioria, dada a *informalidade* da atividade, não terá prova de nada.

Assim sendo, aqueles integrantes do "**SETOR DE TURISMO – Pequenos Empresários/Comerciantes / Prestadores de Serviços (Informais)**" que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entenderem pertinente - ajuizar **ação própria** a fim de demonstrar em juízo sua situação individual, buscando os valores que entender cabíveis. Com essa

medida, preserva-se o amplo acesso à justiça daquelas que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma **solução indenizatória comum** para a pretensão indenizatória, fundada na noção de *rough justice*.

Cuida-se aqui de definir uma **solução indenizatória comum**, de caráter geral, em que se possa presumir, com segurança, o enquadramento médio de todo o "**SETOR DE TURISMO – Empresários/Comerciantes / Prestadores de Serviços (Informais)**", sem levar em conta as situações individuais de cada um.

Reforço, uma vez mais, que a presente decisão terá **natureza facultativa**, de modo que aquele que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

As situações individuais de cada atividade e/ou cada comerciante, a toda evidência, não pode ser tratada aqui. Elas reclamam exames personalíssimos, próprios da ação individual.

Cuida-se aqui de construir um **valor médio**, fundado em "*rough justice*", capaz de reparar adequadamente a média do setor turístico impactado, sem se preocupar com as situações individuais de cada um.

Assim sendo, fixo como valor-base a importância de R$ 1.500,00.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "**SETOR DE TURISMO – Pequenos Empresários / Comerciantes Informais / Prestadores de Serviços (Informais)**" encontram-se impossibilitados de exercerem as atividades laborativas, de comércio, transporte, recreação, lazer e diversão, seja pela percepção geral de inviabilidade do turismo nos rios Carmo, Doce e Piranga (*últimos 2km*) (*com repercussão direta em toda a gama de atividades que giram em torno dessa atividade*), seja pela ausência de laudo técnico oficial, na via judicial, atestando o retorno à condição ambiental anterior ao evento.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que no curto prazo a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades do turismo nas regiões.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os integrantes do "**SETOR DE TURISMO – Empresários / Comerciantes Informais / Prestadores de Serviços (Informais)**" devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização por dano moral.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos dessa decisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todos os integrantes do "**SETOR DE TURISMO – Pequenos Empresários/Comerciantes / Prestadores de Serviços (Informais)**" – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do VALOR BASE multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda/receita (71 meses), totalizando R$ 106.500,00.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os integrantes do "**SETOR DE TURISMO – Empresários/Comerciantes/ Prestadores de Serviços (Informais)**" que desejarem aderir à presente *matriz de danos* e consequente sistema de indenização simplificado, mediante quitação final, única e definitiva, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 106.500,00

DANO MORAL: R$ 10.000,00

TOTAL: R$ 116.500,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos desta decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 116.500,00 (cento e dezesseis mil e quinhentos reais)**,

relativamente à categoria dos profissionais ligados ao "**SETOR DE TURISMO – Empresários / Comerciantes Informais / Prestadores de Serviços (Informais)**" (lojas de *souvenirs*/variedades, serviços de turismo local/guias turísticos, serviços de transporte/vans turísticas e serviços/aulas de passeios, esportes náuticos, chalana, cadeia de serviços náuticos) para fins de **quitação final, única e definitiva.**

SETOR DE TURISMO – EMPRESÁRIO/COMERCIANTES FORMAIS

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "SETOR DE TURISMO – EMPRESÁRIOS/COMERCIANTES FORMAIS"

As COMISSÕES DE ATINGIDOS vieram a juízo requerer providências quanto a situação indenizatória do "**SETOR DE TURISMO – Empresários Formais (Regulares)**", de médio e grande porte, em razão do comprometimento do turismo na região atingida.

A realidade da época (pré-desastre) mostrava que o "**SETOR DE TURISMO**" constituía sim uma *atividade econômica importante* no município de Ponte Nova, claramente dependente do fluxo de turistas nos rios Carmo, Doce e Piranga, ligada ao comércio (**formal**) de serviços e produtos, praticada por empresários de médio e grande porte.

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, o SETOR DE TURISMO foi severamente prejudicado, pois – evidentemente – não se vislumbrou mais a viabilidade de *exploração turística* (lazer e recreação) dos rios Carmo, Doce e Piranga (*últimos 2km*), de modo que as atividades ligadas a esse setor restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que o "**SETOR DE TURISMO REGULAR**" – de médio e grande porte - era realidade presente e, com a chegada da pluma de rejeitos, perdeu sua atividade mercantil com grave comprometimento de sua (legítima) fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** o "**SETOR DE TURISMO – Empresários/Comerciantes Formais (Regulares)**" de médio e grande porte como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles integrantes do "**SETOR DE TURISMO – Empresários/Comerciantes Formais**", devidamente constituídos (regulares) e que já exerciam o comércio em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício/atividade o meio pelo qual proviam seu faturamento/receita, é que possuem direito a postularem indenização.

Os integrantes do "**SETOR DE TURISMO – Empresários/Comerciantes Formais (Regulares)**", portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL

Os "**SETOR DE TURISMO – Empresários/Comerciantes Formais (Regulares)**" que pretenderem aderir ao novo sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua atividade mercantil regular e devidamente constituída.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a *autodeclaração pura e simples* não pode ser admitida como elemento (absoluto) constitutivo do direito, ainda mais quando se trata de atividade comercial regular de médio e grande porte (**devidamente constituída**).

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação da atividade mercantil, os integrantes do "**SETOR DE TURISMO – Empresários/Comerciantes Formais (Regulares)**" deverão apresentar **cumulativamente** os seguintes documentos:

- Cartão do CNPJ com data de abertura anterior a 05.11.2015, e com endereço da empresa em Ponte Nova;
- Ato constitutivo atualizado (contrato social ou equivalente);
- Documentos pessoais dos sócios – Identidade e CPF;
- Documentação contábil de 2014 a 2019, exceto se for MEI;
- Declaração do Resultado do Exercício entre 2014 e 2019, assinada por Contador inscrito no Conselho Regional de Contabilidade;
- Notas fiscais emitidas ou recebidas em nome da PJ ou PF no período de dez/2014 a abr/2019, para os casos de MEI;
- Declaração atestando o impacto direto a partir de análise dos documentos contábeis apresentados, em especial a dependência e relação direta do negócio com os rios Carmo, Doce e/ou Piranga (*últimos 2km*).

DO *QUANTUM* INDENIZATÓRIO

A indenização dos "**SETOR DE TURISMO – Empresários/Comerciantes Formais (Regulares)**" deve corresponder aos prejuízos suportados, na exata extensão do dano, nos termos em que comprovados pelos *documentos contábeis* da empresa.

Por se tratar de atividade comercial regular exige-se, nos termos da Lei, a perfeita *escrituração contábil* feita por profissional habilitado.

Aqui **não cabe** falar em *flexibilização* dos meios de prova, já que se espera do comerciante regular (médio e grande porte) a **devida** *escrituração contábil* de seus lucros e prejuízos nos balanços financeiros da empresa.

Logo, o *quantum indenizatório*, tal como requerido pelas próprias COMISSÕES DE ATINGIDOS, reclama a confecção de **LAUDO individual**, personalíssimo, a partir da documentação contábil e financeira apresentada.

Nesse sentido, a situação dos "**SETOR DE TURISMO – Empresários/Comerciantes Formais (Regulares)**" comporta três situações fáticas distintas, a saber:

A. ATINGIDOS ("**SETOR DE TURISMO – Empresários/Comerciantes Formais (Regulares)"**) QUE **JÁ POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto ao atingido que já possui LAUDO confeccionado, inclusive com proposta indenizatória, caberá ao mesmo, juntamente com seu advogado, decidir se **aceita (ou não)** o valor ofertado pela Fundação Renova.

Em caso de concordância, o atingido, por intermédio de seu advogado, deverá acessar a *plataforma online*, manifestando sua adesão ao sistema indenizatório simplificado, instruindo-a **apenas** com o LAUDO e os documentos pessoais e de regularidade da empresa, dispensada a apresentação dos documentos contábeis.

Assim, caso haja - desde logo - **concordância** pelo atingido (e seu advogado) com o valor constante do LAUDO TÉCNICO (**Synergia**) ter-se-á como liquidado os valores e definitiva a indenização, sem qualquer discussão ou contestação por parte da Fundação Renova.

Noutras palavras: em caso de concordância pelo atingido, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO TÉCNICO, **após homologação judicial**.

De outro lado, caso o atingido **discorde** do valor constante do LAUDO (**Synergia**), poderá solicitar, através da *plataforma online*, a revisão do LAUDO pela Fundação Renova, instruindo e apresentando a comprovação contábil pertinente.

Na sequência, caberá à Fundação Renova, no prazo de 30 dias, apresentar ao atingido o **LAUDO TÉCNICO revisado**, devidamente individualizado e fundamentado.

Nesse caso, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO, após homologação judicial.

B. ATINGIDOS ("**SETOR DE TURISMO – Empresários/Comerciantes Formais (Regulares)"**) QUE **NÃO POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto aos atingidos que NÃO possuem LAUDO confeccionado, deverão acessar a *plataforma online*, manifestando sua **adesão** ao sistema indenizatório simplificado, instruindo-a com **todos** os documentos relacionados nesta decisão, notadamente os documentos contábeis que comprovam o prejuízo alegado.

Na sequência, caberá à Fundação Renova confeccionar, no prazo máximo de 30 dias, **LAUDO individualizado**, personalíssimo, sobre a situação (fática e jurídica) apresentada na *escrituração contábil* pelo comerciante, inclusive com proposta indenizatória (se cabível).

Para a confecção do LAUDO, a Renova deverá examinar toda a documentação contábil apresentada, assim como informações constantes de bancos de dados públicos, podendo – inclusive - realizar vistorias e inspeções *in loco*.

Confeccionado o LAUDO, o atingido poderá (**ou não**) aceitar o valor proposto pela Fundação Renova, com todas as consequências jurídicas daí decorrentes.

Em caso de concordância, via manifestação na *plataforma online*, cumprirá à Renova efetuar o pagamento correspondente, após homologação judicial.

C. ATINGIDOS ("**SETOR DE TURISMO – Empresários/Comerciantes Formais (Regulares"**) QUE – POR QUALQUER MOTIVO - **NÃO CONSEGUEM** COMPROVAR A REGULARIDADE DO COMÉRCIO OU O PREJUÍZO ALEGADO

Os atingidos dessa categoria que, por qualquer motivo, não conseguirem comprovar a regularidade formal do seu comércio (ou mesmo não tiverem documentação contábil regular) poderão, após a confecção do **LAUDO negativo** pela Fundação Renova, manifestar o desejo de se enquadrarem na categoria de "**SETOR DE TURISMO – Pequenos Empresários Informais**", fazendo jus à indenização correspondente, desde que cumpridos todos os requisitos desta decisão para a categoria pretendida.

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência FIXO o procedimento relativo à confecção dos **laudos individuais**, personalíssimos, pela Fundação Renova e o correspondente pagamento das indenizações aos "**SETOR DE TURISMO – Empresários/Comerciantes Formais (Regulares)**".

DOS HOTÉIS, POUSADAS, BARES E RESTAURANTES ("INFORMAIS")

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)"

As COMISSÕES DE ATINGIDOS vieram a juízo requerer providências quanto à situação indenizatória dos "*Hotéis, Pousadas, Restaurantes e Bares*", em razão do comprometimento do turismo na região atingida.

A realidade da época (pré-desastre) mostrava que os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**" constituíam sim uma *atividade mercantil* existente no município de Ponte Nova, dependente do turismo, ligada ao comércio (**informal**) de hospedagem e alimentação na região dos rios Carmo, Doce e Piranga, notadamente praticada por pequenas pousadas, *campings*, bares e quiosques.

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, esta atividade foi severamente prejudicada, pois – evidentemente – não se vislumbrou mais a viabilidade de *exploração turística* dos rios Carmo, Doce e Piranga (*últimos 2km*), de modo que as atividades ligadas à hospedagem e alimentação (vinculadas ao turismo) restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**" – sobretudo os de pequeno porte - eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua atividade mercantil com grave comprometimento de sua (legítima) fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**" que já exerciam suas atividades em Ponte Nova antes do Desastre, e consequentemente, faziam desse ofício/atividade o meio pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**", portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL

As COMISSÕES DE ATINGIDOS informaram a necessária aplicação dos mesmos parâmetros de comprovação do ofício adotados em outros precedentes do *sistema indenizatório simplificado* já devidamente sentenciados por este juízo.

As empresas rés (SAMARCO, VALE e BHP), por sua vez, inferiram apenas a ausência de impactos direitos ou indiretos no município ora em comento.

Pois bem.

Os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**" que pretenderem aderir ao novo sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua atividade mercantil, **ainda que irregular ou informal**.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a *autodeclaração pura e simples* não pode ser admitida como elemento (absoluto) constitutivo do direito.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício/atividade mercantil, os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**" deverão apresentar **cumulativamente** os seguintes documentos:

- Declaração, sob as penas da Lei, com firma reconhecida em cartório, atestando o impacto direto na atividade comercial, em especial a dependência e relação direta do negócio com o turismo nos rios Carmo, Doce e/ou Piranga (*últimos 2km*);

- Comprovação de *propriedade/posse* da edificação do estabelecimento comercial, sendo aceitos:
    - Escritura pública ou registro de imóveis junto ao CRI;
    - contrato de aluguel;
    - conta de concessionária de energia ou de água;
    - conta de concessionária de telefonia móvel (celular), desde que referente aos meses de outubro, novembro ou dezembro de 2015, e em nome do requerente, do cônjuge ou de familiar ascendente/descendente até 3º grau.
- Comprovação de propriedade/posse de *itens e equipamentos* essenciais para o exercício do comércio e/ou hospedagem, com comprovação documental e/ou registro fotográfico **OU** apresentação de Livro de caixa informal ou caderneta de controle contemporâneos ao Evento e autenticados.

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado noPJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

Com efeito, é perfeitamente legítimo afirmar que até a presente data os atingidos ainda possuem fundado receio de se hospedarem e de se alimentarem nas regiões, exatamente

pela ausência de laudo técnico definitivo, imparcial e produzido em juízo, que ateste a sua segurança.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda têm fundado receio de utilização da água e insumos dos rios Carmo, Doce e Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de *prova técnica* em juízo será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para que os atingidos (e população em geral) possam novamente voltar a utilizar, *sob a ótica do turismo*, os serviços de hospedagem e de alimentação dos rios Carmo, Doce e Piranga.

Por outro lado, conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma **solução indenizatória média**, de caráter geral, serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Quanto aos valores pretendidos, de se ressaltar que nem todos os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**" possuíam a mesma estrutura física, quantidade e qualidade das instalações; nem todos possuíam a mesma clientela; os *pontos comerciais* eram distintos. Tudo isto demonstra que a **situação individual** de cada um era diferente, pela própria natureza da atividade.

Do mesmo modo, no âmbito processual, enquanto alguns poucos conseguirão demonstrar e comprovar os danos, a justificar o valor pretendido, certamente a imensa maioria, dada a *informalidade* da atividade, não terá prova de nada.

Assim sendo, aqueles "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**" que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entender cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daquelas que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma **solução indenizatória comum** para a pretensão indenizatória, fundada na noção de *rough justice*.

Cuida-se aqui de definir uma **solução indenizatória comum**, de caráter geral, em que se possa presumir, com segurança, o enquadramento médio de todos os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**", sem levar em conta as situações individuais de cada um.

Reforço, uma vez mais, que a presente decisão terá **natureza facultativa**, de modo que aquele que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

Inicialmente, cabe alertar que nas atividades mercantis a localização do estabelecimento, isto é, o denominado "*ponto comercial*" constitui um dos mais importantes bens imateriais do comerciante.

Portanto, a localização do comércio é requisito indispensável para aferimento da *justa indenização*.

É evidente (e dispensa-se qualquer demonstração) que um quiosque ou uma pousada à beira mar possui melhor "ponto comercial" – sob a ótica do turismo – do que um quiosque/pousada localizado em uma região afastada da cidade.

Nessa linha de raciocínio, considero que a localização do estabelecimento comercial influi diretamente no valor da indenização.

Como critério objetivo, largamente utilizado nessa sentença, inclusive com a concordância das próprias COMISSÕES DE ATINGIDOS, deve ser utilizado a noção da **LMEO**.

Assim sendo, considerando a localização dos *pontos comerciais* dos "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**" entendo que os mesmos podem postular indenização, desde que se encontrem localizados no limite objetivo máximo de LMEO + 4KM, conforme gradação a seguir:

Entre LMEO e LMEO+1km
Entre LMEO+1,001km e LMEO+2km
Entre LMEO+2,001km e LMEO+3km
Entre LMEO+3,001km e LMEO+4km

O valor da justa indenização dependerá, portanto, da localização do estabelecimento comercial, considerada a adoção objetiva da **LMEO**.

Vejamos o VALOR BASE:

"**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**"

A. **ATÉ LMEO+1KM** [Salário Mínimo (R$ 1.045,00) vigente na data dos precedentes, com acréscimo de 30%, totalizando R$ 1.358,50]

B. **ENTRE LMEO+1,001KM** e **LMEO+2KM** [Salário Mínimo (R$ 1.045,00) vigente na data dos precedentes, com acréscimo de 15%, totalizando R$ 1.201,75]

C. **ENTRE LMEO+2,001KM** e **LMEO+3KM** [90% do Salário Mínimo (R$ 1.045,00) vigente na data dos precedentes, totalizando R$ 940,50]

D. **ENTRE LMEO+3,001KM** e **LMEO+4KM** [60% do Salário Mínimo (R$ 1.045,00) vigente na data dos precedentes, totalizando R$ 627,00]

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**" encontram-se impossibilitados de exercerem as atividades de hospedagem e alimentação, seja pela percepção geral de inviabilidade do turismo nos rios Carmo, Doce e Piranga (*últimos 2km*) (*com repercussão direta em toda a gama de atividades que giram em torno dessa atividade*), seja pela ausência de laudo técnico oficial, na via judicial, atestando o retorno à condição ambiental anterior ao Evento.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que no curto prazo a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades do turismo nas regiões.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**" devem ser indenizados pela perda da renda, em razão da interrupção de suas atividades.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização por dano moral.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos destadecisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todos os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**" – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do VALOR BASE – observando-se a localização objetiva (LMEO) do estabelecimento comercial - multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda/receita (71 meses), totalizando:

Entre LMEO e LMEO+1km	R$ 96.453,50
Entre LMEO+1,001km e LMEO+2km	R$ 85.324,25
Entre LMEO+2,001km e LMEO+3km	R$ 66.775,50
Entre LMEO+3,001km e LMEO+4km	R$ 44.517,00

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**"" que desejarem aderir à presente *matriz de danos* e consequente sistema de indenização simplificado, mediante quitação definitiva, serão indenizados nos termos dessa sentença.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos desta decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) relativamente à categoria dos "**HOTÉIS, POUSADAS, BARES E RESTAURANTES (INFORMAIS)**", para fins de **quitação definitiva**, observando-se a localização objetiva do "*ponto comercial*", nos seguintes termos:

Entre LMEO e LMEO+1km	**R$ 106.453,50**
Entre LMEO+1,001km e LMEO+2km	**R$ 95.324,25**
Entre LMEO+2,001km e LMEO+3km	**R$ 76.775,50**
Entre LMEO+3,001km e LMEO+4km	**R$ 54.517,00**

DOS HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS"

As COMISSÕES DE ATINGIDOS informaram que os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS**" sofreram a interrupção de suas *atividades mercantis* imediatamente após o evento danoso, perdendo a fonte de renda/receita, já que dependiam direta e indiretamente do *turismo* nos rios Carmo, Doce e/ou Piranga.

A realidade da época (pré-desastre) mostrava que os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS**" constituíam sim uma *atividade comercial* existente no município de Ponte Nova, dependente do turismo, ligada ao comércio (**formal - regular**) de hospedagem e alimentação na região dos rios Carmo, Doce e/ou Piranga.

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, esta atividade foi severamente prejudicada, pois – evidentemente – não se vislumbrou mais a viabilidade de exploração turística dos rios Carmo, Doce e Piranga (*últimos 2km*), de modo que as atividades ligadas à hospedagem e à alimentação (vinculadas ao turismo) restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS**" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua atividade mercantil com grave comprometimento de sua (legítima) fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS**" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS**", devidamente constituídos (regulares) e que já exerciam o comércio em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício/atividade o meio pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS**", portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL

As COMISSÕES DE ATINGIDOS informaram a necessária aplicação dos mesmos parâmetros de comprovação do ofício adotados em outros precedentes do *sistema indenizatório simplificado* já devidamente sentenciados por este juízo.

As empresas rés (SAMARCO, VALE e BHP), por sua vez, inferiram apenas a ausência de impactos direitos ou indiretos no município ora em comento.

Pois bem.

Os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS**" que pretenderem aderir ao novo sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua atividade mercantil regular e devidamente constituída.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a *autodeclaração pura e simples* não pode ser admitida como elemento (absoluto) constitutivo do direito, ainda mais quando se trata de atividade comercial regular de médio e grande porte (**devidamente constituída**).

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação da atividade mercantil, os "**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS**" deverão apresentar **cumulativamente** os seguintes documentos:

- Cartão do CNPJ com data de abertura anterior a 05.11.2015, e com endereço da empresa em Ponte Nova;
- Ato constitutivo atualizado (contrato social ou equivalente);
- Documentos pessoais dos sócios – Identidade e CPF.
- Documentação contábil de 2014 a 2019, exceto se for MEI;

- Declaração do Resultado do Exercício entre 2014 e 2019, assinada por Contador inscrito no Conselho Regional de Contabilidade;

- Notas fiscais emitidas ou recebidas em nome da PJ ou PF no período de dez/2014 a abr/2019, para os casos de MEI;

- Declaração atestando o impacto direto a partir de análise dos documentos contábeis apresentados, em especial a dependência e relação direta do negócio com os rios Carmo, Doce e/ou Piranga (*últimos 2km*).

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado no PJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

A indenização dos "**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS**" deve corresponder aos prejuízos suportados, na exata extensão do dano, nos termos em que comprovados pelos *documentos contábeis* da empresa.

Por se tratar de atividade comercial regular exige-se, nos termos da Lei, a perfeita *escrituração contábil* feita por profissional habilitado.

Aqui **não cabe** falar em *flexibilização* dos meios de prova, já que se espera do comerciante regular (médio e grande porte) a **devida** *escrituração contábil* de seus lucros e prejuízos nos balanços financeiros da empresa.

Logo, o *quantum indenizatório*, tal como requerido pelas próprias COMISSÕES DE ATINGIDOS, reclama a confecção de **LAUDO individual**, personalíssimo, a partir da documentação contábil e financeira apresentada.

Nesse sentido, a situação dos "**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS**" comporta três situações fáticas distintas, a saber:

A. ATINGIDOS ("**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS**") QUE **JÁ POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto ao atingido que já possui LAUDO confeccionado, inclusive com proposta indenizatória, caberá ao mesmo, juntamente com seu advogado, decidir se **aceita (ou não)** o valor ofertado pela Fundação Renova.

Em caso de concordância, o atingido, por intermédio de seu advogado, deverá acessar a *plataforma online*, manifestando sua adesão ao sistema indenizatório simplificado, instruindo-a **apenas** com o LAUDO e os documentos pessoais e de regularidade da empresa, dispensada a apresentação da escrituração contábil.

Assim, caso haja - desde logo - **concordância** pelo atingido (e seu advogado) com o valor constante do LAUDO TÉCNICO (**Synergia**) ter-se-á como liquidado os valores e definitiva a indenização, sem qualquer discussão ou contestação por parte da Fundação Renova.

Noutras palavras: em caso de concordância pelo atingido, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO TÉCNICO, **após homologação judicial**.

De outro lado, caso o atingido **discorde** do valor constante do LAUDO (**Synergia**), poderá solicitar, através da *plataforma online*, a revisão do LAUDO pela Fundação Renova, instruindo e apresentando a comprovação contábil pertinente.

Na sequência, caberá à Fundação Renova, no prazo de 30 dias, apresentar ao atingido o **LAUDO TÉCNICO revisado**, devidamente individualizado e fundamentado.

Nesse caso, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO, após homologação judicial.

B. ATINGIDOS ("**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS**") QUE **NÃO POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto aos atingidos que NÃO possuem LAUDO confeccionado, deverão acessar a *plataforma online*, manifestando sua **adesão** ao sistema indenizatório simplificado, instruindo-a com **todos** os documentos relacionados nesta decisão, notadamente os documentos contábeis que comprovam o prejuízo alegado.

Na sequência, caberá à Fundação Renova confeccionar, no prazo máximo de 30 dias, **LAUDO individualizado**, personalíssimo, sobre a situação (fática e jurídica) apresentada na *escrituração contábil* pelo comerciante, inclusive com proposta indenizatória (se cabível).

Para a confecção do LAUDO, a Renova deverá examinar toda a documentação contábil apresentada, assim como informações constantes de bancos de dados públicos, podendo – inclusive - realizar vistorias e inspeções *in loco*.

Confeccionado o LAUDO, o atingido poderá (**ou não**) aceitar o valor proposto pela Fundação Renova, com todas as consequências jurídicas daí decorrentes.

Em caso de concordância, via manifestação na *plataforma online*, cumprirá à Renova efetuar o pagamento correspondente, após homologação judicial.

C. ATINGIDOS ("**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS"**) QUE – POR QUALQUER MOTIVO - **NÃO CONSEGUEM** COMPROVAR A REGULARIDADE DO COMÉRCIO OU O PREJUÍZO ALEGADO

Os atingidos dessa categoria que, por qualquer motivo, não conseguirem comprovar a regularidade formal do seu comércio (ou mesmo não tiverem documentação contábil regular) poderão, após a confecção do **LAUDO negativo** pela Fundação Renova, manifestar o desejo de se enquadrarem na categoria de "**HOTÉIS, POUSADAS, BARES E RESTAURANTES INFORMAIS** ", fazendo jus à indenização correspondente, desde que cumpridos todos os requisitos desta decisão para a categoria pretendida.

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência FIXO o procedimento relativo à confecção dos **laudos individuais** pela Fundação Renova e o correspondente pagamento das indenizações aos "**HOTÉIS, POUSADAS, BARES E RESTAURANTES FORMAIS**".

DOS "COMERCIANTES (FORMAIS) DE PETRECHOS DE PESCA"

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "COMERCIANTES DE PETRECHO DE PESCA FORMAIS"

As COMISSÕES DE ATINGIDOS vieram a juízo requerer providências quanto a situação indenizatória dos "Comerciantes de Petrechos de Pesca", em razão do comprometimento do comércio dos referidos petrechos na região atingida.

A realidade da época (pré-desastre) mostrava que os "**COMERCIANTES DE PETRECHO DE PESCA FORMAIS**" constituíam sim uma *atividade mercantil* existente no município de Ponte Nova, dependente da cadeia da pesca, ligada ao comércio (**formal - regular**) de pescados na região dos rios Carmo, Doce e/ou Piranga.

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, esta atividade foi severamente prejudicada, pois – evidentemente – não se vislumbrou mais a viabilidade de utilização do pescado dos rios Carmo, Doce e Piranga (*últimos 2km*), de modo que as atividades ligadas ao comércio de pescado restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os "**COMERCIANTES DE PETRECHO DE PESCA FORMAIS**" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua atividade mercantil com grave comprometimento de sua (legítima) fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "**COMERCIANTES DE PETRECHO DE PESCA FORMAIS**" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "**COMERCIANTES DE PETRECHO DE PESCA FORMAIS**", devidamente constituídos (**regulares**) e que já exerciam o comércio em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício/atividade o meio pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os integrantes dessa categoria, portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL

Os "**COMERCIANTES DE PETRECHO DE PESCA FORMAIS**" que pretenderem aderir ao novo sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua *atividade mercantil* regular e devidamente constituída.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a *autodeclaração pura e simples* não pode ser admitida como elemento (absoluto) constitutivo do direito, ainda mais quando se trata de atividade comercial regular de médio e grande porte (**devidamente constituída**).

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício/atividade mercantil, os "**COMERCIANTES DE PETRECHO DE PESCA FORMAIS**" deverão apresentar **cumulativamente** os seguintes documentos:

- Cartão do CNPJ com data de abertura anterior a 05.11.2015, e com endereço da empresa em Ponte Nova;
- Ato constitutivo atualizado (contrato social ou equivalente);
- Documentos pessoais dos sócios – Identidade e CPF;
- Documentação contábil de 2014 a 2019, exceto se for MEI;
- Declaração do Resultado do Exercício entre 2014 e 2019, assinada por Contador inscrito no Conselho Regional de Contabilidade
- Notas fiscais emitidas ou recebidas em nome da PJ ou PF no período de dez/2014 a abr/2019, para os casos de MEI;
- Declaração atestando o impacto direto a partir de análise dos documentos contábeis apresentados, em especial a dependência e relação direta do negócio com os rios Carmo, Doce e/ou Piranga (*últimos 2km*).

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado noPJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

A indenização dos "**COMERCIANTES DE PETRECHO DE PESCA FORMAIS**" deve corresponder exatamente aos prejuízos suportados, nos termos em que comprovados pelos *documentos contábeis* da empresa.

Por se tratar de atividade comercial regular exige-se, nos termos da Lei, a perfeita *escrituração contábil* feita por profissional habilitado.

Aqui **não cabe** falar em *flexibilização* dos meios de prova, já que se espera do comerciante regular (médio e grande porte) a **devida** *escrituração contábil* de seus lucros e prejuízos nos balanços financeiros da empresa.

Logo, o *quantum indenizatório*, tal como requerido pelas próprias COMISSÕES DE ATINGIDOS, reclama a confecção de **LAUDO individual**, personalíssimo, a partir da documentação contábil e financeira apresentada.

Nesse sentido, a situação dos "**COMERCIANTES DE PETRECHO DE PESCA FORMAIS**" comporta três situações fáticas distintas, a saber:

A. ATINGIDOS ("**COMERCIANTES DE PETRECHO DE PESCA FORMAIS"**) QUE **JÁ POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto ao atingido que já possui LAUDO confeccionado, inclusive com proposta indenizatória, caberá ao mesmo, juntamente com seu advogado, decidir se **aceita (ou não)** o valor ofertado pela Fundação Renova.

Em caso de concordância, o atingido, por intermédio de seu advogado, deverá acessar a *plataforma online*, manifestando sua adesão ao sistema indenizatório simplificado, instruindo-a **apenas** com o LAUDO e os documentos pessoais e de regularidade da empresa, dispensada a apresentação da escrituração contábil.

Assim, caso haja - desde logo - **concordância** pelo atingido (e seu advogado) com o valor constante do LAUDO TÉCNICO (**Synergia**) ter-se-á como liquidado os valores e

definitiva a indenização, sem qualquer discussão ou contestação por parte da Fundação Renova.

Noutras palavras: em caso de concordância pelo atingido, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO TÉCNICO, **após homologação judicial**.

De outro lado, caso o atingido **discorde** do valor constante do LAUDO (**Synergia**), poderá solicitar, através da *plataforma online*, a revisão do LAUDO pela Fundação Renova, instruindo e apresentando a comprovação contábil pertinente.

Na sequência, caberá à Fundação Renova, no prazo de 30 dias, apresentar ao atingido o **LAUDO TÉCNICO revisado**, devidamente individualizado e fundamentado.

Nesse caso, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO, após homologação judicial.

B. ATINGIDOS ("**COMERCIANTES DE PETRECHO DE PESCA FORMAIS**") QUE **NÃO POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto aos atingidos que NÃO possuem LAUDO confeccionado, deverão acessar a *plataforma online*, manifestando sua **adesão** ao sistema indenizatório simplificado, instruindo-a com **todos** os documentos relacionados nesta decisão, notadamente os documentos contábeis que comprovam o prejuízo alegado.

Na sequência, caberá à Fundação Renova confeccionar, no prazo máximo de 30 dias, **LAUDO individualizado**, personalíssimo, sobre a situação (fática e jurídica) apresentada na *escrituração contábil* pelo comerciante, inclusive com proposta indenizatória (se cabível).

Para a confecção do LAUDO, a Renova deverá examinar toda a documentação contábil apresentada, assim como informações constantes de bancos de dados públicos, podendo – inclusive - realizar vistorias e inspeções *in loco*.

Confeccionado o LAUDO, o atingido poderá (**ou não**) aceitar o valor proposto pela Fundação Renova, com todas as consequências jurídicas daí decorrentes.

Em caso de concordância, via manifestação na *plataforma online*, cumprirá à Renova efetuar o pagamento correspondente, após homologação judicial.

C. ATINGIDOS ("**COMERCIANTES DE PETRECHO DE PESCA FORMAIS**") QUE – POR QUALQUER MOTIVO - **NÃO CONSEGUEM** COMPROVAR A REGULARIDADE DO COMÉRCIO OU O PREJUÍZO ALEGADO

Os atingidos dessa categoria que, por qualquer motivo, não conseguirem comprovar a regularidade formal do seu comércio (ou mesmo não tiverem documentação contábil regular) poderão, após a confecção do **LAUDO negativo** pela Fundação Renova, manifestar o desejo de se enquadrarem na categoria de "**COMERCIANTES (INFORMAIS) DE PETRECHO DE PESCA"**, fazendo jus à indenização correspondente, desde que cumpridos todos os requisitos desta decisão para a categoria pretendida.

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência FIXO o procedimento relativo à confecção dos **laudos individuais** pela Fundação Renova e o correspondente pagamento das indenizações aos "**COMERCIANTES DE PETRECHO DE PESCA FORMAIS**".

DAS ASSOCIAÇÕES E COOPERATIVAS EM GERAL

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "ASSOCIAÇÕES E COOPERATIVAS"

Segundo informam as COMISSÕES DE ATINGIDOS, as "associações" e as "cooperativas" ligadas principalmente às atividades de **artesanato, pesca** e **produção agropecuária** alegam terem sofrido perda de renda, em consequência da própria perda de renda dos associados e cooperados, que tiveram suas atividades suspensas/interrompidas em razão da chegada da pluma de rejeitos.

O cenário pré-desastre mostrava que as **"associações"** e também as **"cooperativas"** constituíam realidade presente na vida da comunidade, com intensa atuação social.

A realidade pós-desastre mostrou que, com a chegada da pluma de rejeitos, a atividade da pesca e artesanato restou fortemente comprometida, afetando diretamente a renda dos atingidos. Como consequência, estes deixaram de contribuir para suas "associações", comprometendo, assim, igualmente a fonte de renda destas. Da mesma forma, as cooperativas foram impactadas, ante a situação de fragilidade e inoperância dos cooperados.

É inequívoco, portanto, o fato de que as "associações" e as "cooperativas" eram realidade presente na comunidade e, com a chegada da pluma de rejeitos, **perderam inúmeros associados**e **cooperados,** com grave comprometimento de sua (legítima) fonte de renda/receita.

Assim sendo, entendo que a categoria das "associações" e "cooperativas" deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** as "associações" e as "cooperativas" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE REGULAR EXISTÊNCIA (CONSTITUIÇÃO) E COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aquelas "associações" e "cooperativas" **regulamente** instituídas e constituídas nos termos da Lei Civil, e já existentes e atuantes em Ponte Nova antes do Desastre, é que possuem direito a postularem indenização.

As “associações” e “cooperativas”, portanto, devem comprovar a **presença e atuação no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA CONSTITUIÇÃO NOS TERMOS DA LEI CIVIL

As “associações” e as “cooperativas” que pretenderem aderir ao *sistema de indenização simplificado* previsto nesta decisão deverão comprovar, por meio idôneo, a sua **regular constituição** nos termos da Lei Civil, por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

Evidentemente, por se tratarem de *pessoas jurídicas de direito privado*, exige-se que tenham sido constituídas formalmente e em observância à legislação de regência.

Aqui, **não cabe** falar em *vulnerabilidade* e/ou *flexibilização* dos requisitos de constituição e existência no período do Desastre.

Assim sendo, somente serão consideradas elegíveis as “associações” e as “cooperativas” que, por ocasião do Desastre, estavam formal e oficialmente instituídas nos termos da Lei Civil, com atuação no território.

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado no PJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

É fato público e notório que o Desastre acarretou a paralisação/interrupção das atividades econômicas ligadas à pesca e artesanato, levando naturalmente os associados a deixarem de contribuir com as suas associações, retirando destas a principal fonte de renda. Da mesma forma, os cooperados foram diretamente impactados, refletindo diretamente nas próprias "cooperativas".

Para a categoria das "associações" e "Cooperativas", as COMISSÕES DE ATINGIDOS apresentaram concordância com o *quantum* indenizatório de R$71.000,00, para fins de quitação definitiva, **com utilização dos mesmos parâmetros e valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Contudo, aquelas "associações" e "cooperativas" que dispuserem de documentação idônea, capazes de comprovar cabalmente seu direito, poderão – se entenderem pertinentes - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entenderem cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daquelas que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma solução coletiva comum para a pretensão indenizatória, fundada na noção de *justiça possível*.

O que se pretende encontrar, portanto, é o valor indenizatório médio que corresponda, com segurança, ao padrão (mediano) de todas essas "associações" e "cooperativas".

Cuida-se aqui de definir uma **solução indenizatória comum**, de caráter padrão, em que se possa presumir, com segurança, o enquadramento médio de todas essas

"associações" e "cooperativas" atingidas, sem levar em conta as situações individuais de cada uma.

Reforço, uma vez mais, que a presente decisão terá **natureza facultativa**, de modo que aquela associação e/ou cooperativas que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, assim, a proposta de **quitação definitiva** formulada pelas COMISSÕES DE ATINGIDOS quanto às "associações" e "cooperativas", **com base nos valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

Tanto nas *associações de artesãos*, quanto nas *associações de pescadores* é natural presumir que muitos associados deixaram de pagar suas contribuições, prejudicando a fonte de renda das mesmas. O mesmo raciocínio, guardadas as devidas proporções, pode ser aplicado aos cooperados em suas cooperativas.

A situação fática mostra que cada associação, evidentemente, possui um número distinto de associados e não é possível em sede coletiva individualizar precisamente quantos associados cada uma perdeu.

Há de considerar, também, o elemento subjetivo, pois (**em tese**) é razoável admitir que alguns associados também deixaram de contribuir por não estarem "satisfeitos" com os serviços prestados por sua associação.

Portanto, cabe aqui encontrar uma **solução possível**, solução média, sem qualquer pretensão de espelhar a realidade individual de cada uma. Para isto, as "associações" deverão recorrer às ações individuais, levando a juízo a comprovação individual de seus danos.

Como solução média, é perfeitamente admissível imaginar que, em cada uma das associações, pelo menos 100 associados deixaram de contribuir com suas respectivas mensalidades.

O valor das mensalidades igualmente difere entre as associações, mas - como solução média - é possível adotar-se o valor de R$ 10,00 (dez reais) para a mensalidade.

Assim sendo, adoto como valor base (mensal) pela perda da renda das associações o seguinte critério: 100 associados que deixaram de pagar R$ 10,00 de mensalidade.

Por isonomia, adoto o mesmo valor-base para as Cooperativas.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data tanto os artesãos, quanto os pescadores, encontram-se impossibilitados de exercerem o seu ofício, seja pela percepção geral de inviabilidade de utilização dos frutos dos rios Carmo, Doce e Piranga (*últimos 2km*) (**com repercussão direta em toda a gama de atividades que giram em torno da cadeia da pesca e do artesanato**), seja pela ausência de laudo técnico oficial, na via judicial, atestando o retorno à condição ambiental anterior ao Evento.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que nos próximos meses a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) sobre a segurança do pescado e qualidade da água do rios Carmo, Doce e Piranga (segurança e tratabilidade) encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que as "associações" e/ou "cooperativas" devem ser indenizadas pela perda da renda, em razão da interrupção do pagamento das mensalidades pelos associados/cooperados.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos desta decisão e como presunção geral e verdadeira "solução média" aplicável a todas as "associações" e/ou "cooperativas"– entendo que as mesmas fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do valor base (mensal) pela perda da renda observado o seguinte critério: 100 associados que deixaram de pagar R$ 10,00 de mensalidade (R$ 1.000,00), multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação das atividades dos associados (71 meses), totalizando R$ 71.000,00.

Logo, as "associações" e/ou "cooperativas" que desejarem aderir à presente *matriz de danos* e consequente sistema de indenização, **mediante quitação**, serão indenizadas nos seguintes valores:

DANOS MATERIAIS = R$ 71.000,00.

TOTAL: R$ 71.000,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos desta decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS) em **R$ 71.000,00 (setenta e um mil reais)**, relativamente às "associações e cooperativas em geral", para fins de **quitação final e definitiva**.

DOS "AGRICULTORES, PRODUTORES RURAIS E ILHEIROS – PARA CONSUMO PRÓPRIO"

DO RECONHECIMENTO JUDICIAL DOS "AGRICULTORES, PRODUTORES RURAIS E ILHEIROS – CONSUMO PRÓPRIO"

As COMISSÕES DE ATINGIDOS informaram que os "agricultores/produtores rurais/ilheiros – **para consumo próprio**" utilizavam os recursos hídricos oriundos dos rios Carmo, Doce e/ou Piranga para irrigação das plantações e dessedentação dos animais. Esclareceram que essa categoria, especificamente, realizava as atividades para **consumo próprio (subsistência)**, com venda/escambo de excedente. Aduziram, ainda, que com o desastre ambiental houve interrupção imediata da viabilidade de cultivo, comprometendo a subsistência alimentar.

É fato inconteste que o rio Doce, bem como os rios Carmo e Piranga, historicamente sempre serviram como fonte hídrica para os agricultores que residiam em suas proximidades.

A realidade da época (pré-desastre) mostrava que os "**agricultores/produtores rurais/ilheiros – consumo próprio**" constituíam sim um grupo que se utilizava dos recursos hídricos dos rios Carmo, Doce e/ou Piranga para cultivo de plantações e dessedentação dos animais, que lhes serviam para subsistência.

A realidade pós-desastre, entretanto, mostrou que, com a chegada da pluma de rejeitos, a **agricultura de subsistência** praticamente desapareceu, pois os agricultores passaram a ter receio de utilizar a água dos rios Carmo, Doce e Piranga (*últimos 2km*) para o cultivo e consequente consumo.

É inequívoco, portanto, o fato de que os "agricultores/produtores rurais/ilheiros – consumo próprio" eram realidade presente e, com a chegada da pluma de rejeitos, perderam uma importante fonte (gratuita) de obtenção de alimento (recurso hídrico proveniente dos rios Carmo, Doce e Piranga (*últimos 2km*) que viabilizavam o plantio e dessedentação de animais).

Insta consignar que esse grupo detém particularidades quando comparada com as demais da categoria relacionada à agricultura. Aqui, está a se tratar de "agricultores, produtores rurais e ilheiros – **para consumo próprio**", leia-se, "*agricultores de subsistência*".

Assim sendo, entendo que o grupo dos "agricultores, produtores rurais e ilheiros – **para consumo próprio**" deve sim ser judicialmente reconhecido como elegível para fins de reparação e indenização, com a ressalva das particularidades a ele inerentes.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "AGRICULTORES, PRODUTORES RURAIS e ILHEIROS – CONSUMO PRÓPRIO" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da fonte alimentar para consumo próprio.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "**agricultores, produtores rurais e ilheiros – para consumo próprio**" que já faziam uso dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) (antes do Desastre), e consequentemente dele dependiam diretamente para obtenção de seus recursos hídricos para fins de plantio e dessedentação de animais, é que possuem direito a postularem indenização.

Os "agricultores/produtores rurais/ilheiros – para consumo próprio" devem, portanto, comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE/AGRICULTURA DE SUBSISTÊNCIA

A situação dos "agricultores/produtores rurais/ilheiros – para consumo próprio", consoante já afirmado, claramente **difere** das demais categorias, pois aqui não se trata propriamente de perda de uma profissão, ou mesmo interrupção de um ofício.

In casu, **não há que se falar em perda (ou comprometimento) da renda**.

Os “agricultores/produtores rurais/ilheiros – consumo próprio”, portanto, não exerciam propriamente um ofício e, desta feita, não podem alegar perda de renda.

Podem, no entanto, alegar que perderam a viabilidade de uso da fonte hídrica gratuita oriunda dos rios Carmo, Doce e Piranga (*últimos 2km*) para fins de cultivo e dessedentação dos animais, **prejudicando-lhes a subsistência** e, via de consequência, a necessidade de uso de outras fontes alimentares, acarretando-lhes aumento de despesas e do custo de vida.

É preciso, portanto, encontrar critérios objetivos que permitam identificar aqueles atingidos que, em razão de sua dependência, necessitavam **diretamente** dos rios Carmo, Doce e Piranga (*últimos 2km*) como fonte hídrica gratuita para fins de cultivo e dessedentação dos animais (e, consequentemente, subsistência).

DA NECESSIDADE DE COMPROVAÇÃO DA CONDIÇÃO DE “AGRICULTOR/PRODUTOR RURAL/ILHEIRO – CONSUMO PRÓPRIO”

Os “agricultores/produtores rurais/ilheiros – para consumo próprio” que pretenderem aderir ao sistema de indenização previsto nesta decisão deverão comprovar, por meio idôneo, a sua condição.

As COMISSÕES DE ATINGIDOS informaram a necessária aplicação dos mesmos parâmetros de comprovação do ofício adotados em outros precedentes do *sistema indenizatório simplificado* já devidamente sentenciados por este juízo.

As empresas rés (SAMARCO, VALE e BHP), por sua vez, inferiram apenas a ausência de impactos direitos ou indiretos no município ora em comento.

Pois bem.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização.

De outro lado, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples não pode ser admitida como elemento (absoluto) constitutivo do direito.

Aliás, a utilização da autodeclaração pura e simples revelou-se um autêntico novo desastre na bacia do rio Doce, pois deu origem a milhares de fraudes e injustiças, prestigiando-se a ação de oportunistas e aproveitadores, em detrimento dos legítimos atingidos.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, não pode significar um incentivo às fraudes, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, no mínimo, comprovar o fato constitutivo do seu direito.

As próprias COMISSÕES DE ATINGIDOS, de forma absolutamente leal e correta, não vieram a juízo, em momento algum, defender a autodeclaração pura e simples, **pois esta, ao que tudo indica, só é defendida por aqueles que prestigiam a má fé e se aproveitam das reiteradas fraudes**.

O que se buscou, evidentemente, foi *flexibilização* dos critérios (rígidos) de comprovação do ofício exigidos pela Fundação Renova. E, nesse sentido, a flexibilização dos critérios é perfeitamente adequada e compatível com a realidade (simples e humilde) do rio Doce.

Nesta esteira, requereram, de forma absolutamente legítima, categórica e contundente, a adoção dos mesmos parâmetros de elegibilidade relativos ao PJE 1055212-69.2020.4.01.3800 (RIO DOCE/MG).

Se de um lado, não se deve admitir a autodeclaração pura e simples, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, não se pode admitir – decorridos mais de 05 anos do Desastre - a exigência de uma gama de documentos formais (registrados em cartório) de atividades sabidamente informais.

No caso da categoria dos "agricultores/produtores rurais/ilheiros – para consumo próprio", o pleito de *flexibilização* e adoção dos mesmos parâmetros fixados em outros precedentes do *sistema indenizatório simplificado*, apresentado pelas COMISSÕES DE

ATINGIDOS é perfeitamente legítimo, pois se trata de atividade nitidamente informal, raramente registrada e/ou documentada. Exigir uma gama de "documentos formais" seria o mesmo que inviabilizar, por vias transversas, o próprio exercício do direito à indenização.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação da atividade, os agricultores/produtores rurais/ilheiros – para consumo próprio" deverão apresentar **pelo menos DOIS documentos**, a saber:

1. Autodeclaração do atingido, sob as penas da Lei, com firma reconhecida em cartório afirmando a sua condição;

2. Declaração, sob as penas da Lei, de pelo menos uma testemunha atestando as atividades de *agricultura de subsistência* pelo atingido, com firma reconhecida em cartório, que deverá obrigatoriamente conter: qualificação da testemunha, inclusive os dados de RG e CPF, além do endereço completo; identificação da região onde a agricultura de subsistência era exercida, tipo de alimento cultivado.

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado no PJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão da segurança e qualidade da água para fins de irrigação direta e dessedentação de animais encontra-se *sub judice*, no âmbito dos Eixos Prioritários 6 e 9, ambos voltados para a realização de prova pericial (técnica) com vistas a equacionar, em definitivo, as dúvidas existentes.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda tem fundado receio de utilização da água dos rios Carmo, Doce e Piranga (*últimos 2km*) para os mais diversos fins.

Com efeito, é perfeitamente legítimo afirmar que até a presente data os atingidos ("agricultores/produtores rurais/ilheiros – para consumo próprio") ainda possuem fundado receio de retorno ao uso da fonte hídrica oriunda dos rios Carmo, Doce e Piranga (*últimos 2km*) para **fins de plantio e dessedentação de animais**, exatamente pela ausência de laudo técnico definitivo, imparcial e produzido em juízo, que ateste a sua segurança.

Somente a produção de **prova técnica em juízo** será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para o retorno da utilização dos insumos oriundos dos rios Carmo, Doce e Piranga, de forma a permitir aos ("agricultores/produtores rurais/ilheiros – para consumo próprio") o retorno de sua profissão com segurança.

Para a categoria dos "agricultores/produtores rurais/ilheiros – para consumo próprio", as COMISSÕES DE ATINGIDOS apresentaram concordância com o *quantum* indenizatório de R$54.082,13, para fins de quitação definitiva, **com utilização dos mesmos parâmetros e valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Contudo, aqueles que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando outros valores que entenderem cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daqueles que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma **solução coletiva comum** para a referida categoria, fundada na noção de *justiça possível*.

O que se pretende encontrar, portanto, é o valor indenizatório médio que corresponda, com segurança, ao **padrão mediano** de todos aqueles que se enquadrem como "agricultores/produtores rurais/ilheiros – para consumo próprio".

Cuida-se aqui de definir uma solução indenizatória de caráter coletivo, em que se possa presumir, com segurança, o enquadramento mediano de todos eles, **sem levar em conta as situações individuais**.

Reforço, uma vez mais, que a presente decisão terá **natureza facultativa**, de modo que aquele que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando ao juízo competente a comprovação pertinente.

Examino, assim, a proposta de **quitação definitiva** formulada pelas COMISSÕES DE ATINGIDOS quanto aos "agricultores/produtores rurais/ilheiros – para consumo próprio", **com base nos valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Examino, articuladamente, a composição do cálculo:

VALOR BASE - CESTA BÁSICA:

A adoção do valor (**integral**) da cesta básica como parâmetro é adequada no caso em apreço. Em decorrência da impossibilidade do uso da fonte hídrica (**que possibilitava o plantio e dessedentação dos animais**), admite-se o comprometimento dos meios de subsistência (fonte alimentar vegetal e animal).

O dano, portanto, foi a perda da fonte de subsistência (fonte alimentar vegetal e animal), em razão da chegada da pluma de rejeitos.

A composição dos itens da cesta básica pode ser adotada como parâmetro adequado para reposição da fonte de subsistência.

Assim sendo, ACOLHO a indenização calculada com base em valor da cesta básica (aplicada no DIEESE), equivalente a R$ 480,03 (quatrocentos e oitenta reais e três centavos)".

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "agricultores/produtores rurais/ilheiros – para consumo próprio" encontram-se impossibilitados de utilizarem a fonte hídrica dos rios Carmo, Doce e Piranga (*últimos 2km*) para fins de irrigação, seja pela percepção geral de que a qualidade da água destes permanece imprópria para consumo, seja pela ausência de laudo técnico oficial, na via judicial, atestando a referida segurança alimentar e de qualidade da água.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021) já transcorreram **67 meses** de total paralisação/interrupção das atividades de plantio.

Ademais, não há nenhum indicativo concreto de que nos próximos meses a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) sobre a qualidade da água dos rios Carmo, Doce e Piranga (segurança e tratabilidade) encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades de pesca, sobretudo para consumo.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "agricultores/produtores rurais/ilheiros – consumo próprio" deverão ser indenizados pela perda de meio de subsistência (**impossibilidade do uso da fonte hídrica oriunda do rio Doce com o comprometimento da aquisição de fonte alimentar vegetal e animal**).

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

PERDA DE LAVOURAS EM GERAL/DESTRUIÇÃO DE CERCAS, PORTEIRAS E MOURÕES

Embora se reconheça (em tese) a possibilidade de perda de lavouras/destruição de cercas, no caso em análise, trata-se de "agricultores/produtores rurais/ilheiros – *consumo próprio*", o que, via de consequência, indica a existência de plantação e/ou criação de animais **numa perspectiva de subsistência**, ou seja, sem fins comerciais e em menores proporções/áreas.

Por se tratar de **agricultura de pequeno porte**, apenas com vistas à subsistência, tem-se que as lavouras são igualmente pequenas, assim como a própria dimensão da área agricultável.

Assim sendo, considero o valor de R$ 10.000,00 (dez mil reais) adequado e suficiente para **indenização da lavoura, destruição de cercas, mourões e porteiras**.

Busca-se por meio da presente decisão uma **solução coletiva comum**, fundada no padrão mediano, resguardado o direito daquele que, se entender viável, buscar na esfera individual aquilo que entende pertinente.

Assim, para os fins exclusivos desta decisão, **ACOLHO** o pleito das COMISSÃO DE ATINGIDOS, e arbitro, para os "agricultores/produtores rurais/ilheiros – para consumo

próprio", o valor de R$ 10.000,00 (dez mil reais), a título de indenização pela perda de lavouras em geral, destruição de cercas, porteiras e mourões.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos dessa decisão e como presunção geral e "**solução média**" aplicável a todos os "agricultores/produtores rurais/ilheiros – consumo próprio" – entendo que os mesmos fazem jus aos seguintes valores de indenização:

DANOS MATERIAIS (**danos emergentes**): Adoção do valor **integral** da cesta básica (aplicada no DIEESE), equivalente a R$ 480,03 (quatrocentos e oitenta reais e três centavos)" multiplicado pelo total de meses retroativos e prospectivos relacionados à impossibilidade de uso do rio para fins de agricultura de subsistência (71 meses), totalizando R$ 34.082,13.

DANOS MATERIAIS (**danos emergentes**): R$ 10.000,00 (dez mil reais), a título de indenização pela perda de lavouras em geral, destruição de cercas, porteiras e mourões.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "agricultores/produtores rurais/ilheiros – para consumo próprio" que desejarem aderir à presente matriz de danos e consequente sistema de indenização, mediante quitação, serão indenizadas nos seguintes valores:

DANOS MATERIAIS = R$ 44.082,13.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 54.082,13

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos desta decisão,

FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 54.082,13 (cinquenta e quatro mil, oitenta e dois reais e treze centavos)**, relativamente à categoria dos "agricultores/produtores rurais/ilheiros – **para consumo próprio/subsistência**", para fins de quitação definitiva.

DOS AGRICULTORES / PRODUTORES RURAIS / ILHEIROS – PARA COMERCIALIZAÇÃO INFORMAL"

DO RECONHECIMENTO JUDICIAL DA CATEGORIA DOS "AGRICULTORES / PRODUTORES RURAIS / ILHEIROS – COMERCIALIZAÇÃO INFORMAL"

Segundo as COMISSÕES DE ATINGIDOS, os "**agricultores, produtores rurais e ilheiros – comercialização informal"** alegam terem sofrido a interrupção imediata de seu ofício (profissão) imediatamente após o Evento danoso, perdendo sua fonte de renda, já que dependiam diretamente dos rios Carmo, Doce e/ou Piranga para produzir e comercializar.

Da análise dos autos, constata-se que a própria Fundação Renova já emprestou internamente o reconhecimento jurídico aos "agricultores/produtores rurais/ilheiros – comercialização informal" como categoria atingida, em razão da indiscutível perda de renda.

A realidade da época (pré-desastre) mostrava que os agricultores que comercializam sua produção, ainda que de modo *informal* constituíam sim um ofício existente no município de Ponte Nova, já que se utilizavam dos rios Carmo, Doce e/ou Piranga **para o cultivo e comercialização**, e consequente obtenção de fonte de renda.

A realidade pós-desastre evidenciou que, com a chegada da pluma de rejeitos, este ofício foi comprometido, praticamente desapareceu, pois – evidentemente – não se vislumbrou mais a viabilidade de utilização da fonte hídrica dos rios Carmo, Doce e Piranga (*últimos 2km*) para fins de agricultura, de modo que a *produção/comércio/consumo* restou integralmente comprometida.

É inequívoco, portanto, o fato de que os "agricultores/produtores rurais/ilheiros – comercialização informal" eram realidade presente e, com a chegada da pluma de

rejeitos, perderam sua profissão, com grave comprometimento de sua (legítima) fonte de renda.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "AGRICULTORES, PRODUTORES RURAIS, ILHEIROS – COMERCIALIZAÇÃO INFORMAL" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "agricultores, produtores rurais e ilheiros – comercialização informal" que já trabalhavam em Ponte Nova no período pré-desastre, e consequentemente faziam desse ofício o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Esses agricultores/produtores, portanto, devem comprovar, nos termos dessa decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DO OFÍCIO

Os "agricultores, produtores rurais e ilheiros – comercialização informal" que pretenderem aderir ao sistema de indenização previsto nesta decisão deverão comprovar, por meio idôneo, a sua condição.

As COMISSÕES DE ATINGIDOS informaram a necessária aplicação dos mesmos parâmetros de comprovação do ofício adotados em outros precedentes do *sistema indenizatório simplificado* já devidamente sentenciados por este juízo.

As empresas rés (SAMARCO, VALE e BHP), por sua vez, inferiram apenas a ausência de impactos direitos ou indiretos no município ora em comento.

Pois bem.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização.

De outro lado, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples não pode ser admitida como elemento (absoluto) constitutivo do direito.

Aliás, a utilização da autodeclaração pura e simples revelou-se um verdadeiro novo desastre na bacia do rio Doce, **pois deu origem a milhares de fraudes, prestigiando-se a ação de oportunistas e aproveitadores**, em detrimento dos legítimos atingidos.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, não pode significar um incentivo às fraudes e um prêmio aos fraudadores, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, no mínimo, comprovar o fato constitutivo do seu direito.

As próprias COMISSÕES DE ATINGIDOS, de forma absolutamente leal e correta, não vieram a juízo, em momento algum, defender a autodeclaração pura e simples, **pois esta, ao que tudo indica, só é defendida por aqueles que prestigiam a má fé e se aproveitam das reiteradas fraudes**.

O que se buscou, evidentemente, foi flexibilização dos critérios (rígidos) de comprovação do ofício exigidos pela Fundação Renova. E, nesse sentido, a flexibilização dos critérios é perfeitamente adequada e compatível com a realidade (simples e humilde) da bacia do rio Doce.

Nesta esteira, requereram, de forma absolutamente legítima, categórica e contundente, a adoção dos mesmos parâmetros de elegibilidade relativos ao PJE 1055212-69.2020.4.01.3800 (RIO DOCE/MG).

Evidentemente, quem alega possuir uma profissão (um ofício gerador de renda) certamente tem condições (ainda que mínimas) de provar essa alegação.

Se de um lado, não se deve admitir a autodeclaração pura e simples, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, não se pode admitir – decorridos mais de 05 anos do Desastre - a exigência de uma gama de documentos formais (registrados em cartório) de categorias sabidamente informais.

No caso da categoria dos "**agricultores/produtores rurais/ilheiros/ meeiros/arrendatários e aquicultores: – comercialização informal**", o pleito de flexibilização e adoção dos mesmos parâmetros fixados em outros precedentes do sistema indenizatório, apresentado pelas COMISSÕES DE ATINGIDOS é perfeitamente legítimo, pois se trata de categoria informal, raramente registrada e/ou documentada. Exigir uma gama de "documentos formais" seria o mesmo que inviabilizar, por vias transversas, o próprio exercício do direito à indenização.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício, os "**agricultores/produtores rurais/ilheiros/ meeiros/ arrendatários e aquicultores – comercialização informal**" deverão apresentar **pelo menos DOIS documentos**, dentre as seguintes possibilidades:

1. autodeclaração, sob as penas da Lei, com firma reconhecida em cartório pelo "agricultor/produtor rural/ilheiro/meeiros/arrendatários e aquicultores;

2. declaração, sob as penas da Lei, de vizinhos do "agricultor/produtor rural", com firma reconhecida em cartório, que deverá obrigatoriamente conter:

    - qualificação do declarante, inclusive os dados de RG e/ou CPF/CNPJ, além do endereço completo;

    - identificação da localidade do imóvel/área rural que se atesta ser de propriedade/posse/detenção do atingido;

    - identificação do modo/atividades desenvolvidas na referida área;

3. matrícula do imóvel atualizada;
4. escritura pública/contrato de compra e venda/doação do imóvel ou outro título aquisitivo;
5. certidão ou declaração de imposto de renda sobre a propriedade rural – ITR;
6. sentença proferida na ação de usucapião;
7. formal de partilha, certidão em que conste o teor de sentença que tenha homologado a partilha ou instrumento público de partilha amigável;
8. declaração de imposto de renda;
9. Certidão ou espelho de IPTU;
10. certidão de cadastro ambiental rural – CAR;
11. certidão de cadastro de imóvel rural – CIR;
12. certidão de cadastro de imóveis rurais - CAFIR;
13. contrato de aluguel/arrendamento/contrato de cessão/contrato de comodato;
14. certidão emitida pelo INCRA;
15. declaração de aptidão ao PRONAF – DAP
16. Cadastro perante o IMA, IDAF, IEF e IGAM.

E, ainda, tratando-se de categoria que realizava a **comercialização de produtos**, além dos dois documentos (nos termos acima determinados), deverá o atingido apresentar uma **comprovação específica relativamente ao labor mercantil**, a saber:

1. livros-caixa;
2. notas fiscais;
3. cartão de vacinação;
4. declaração de clientes, sob as penas da Lei, devendo conter:
    - qualificação do declarante, inclusive os dados de RG e CPF/CNPJ, além do endereço completo;
    - identificação da região em que o comércio foi realizado;

- identificação do produto vendido (tipo, qualidade e quantidade);
- indicação dos valores pagos;
- indicação da periodicidade da venda/fornecimento dos produtos.

5. contratos junto a instituições financeiras/cooperativas visando a obtenção de crédito agrícola;
6. registro de funcionários,
7. área agricultável compatível com volumes produzidos.

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado noPJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão da qualidade da água para fins de irrigação encontra-se *sub judice*, no âmbito dos Eixos Prioritários 6 e 9, ambos voltados para a realização de prova pericial (técnica) com vistas a equacionar, em definitivo, as dúvidas existentes.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda tem fundado receio de utilização das águas dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Com efeito, é perfeitamente legítimo afirmar que até a presente data os atingidos ("agricultores/produtores rurais/ilheiros – comercialização informal") ainda possuem fundado receio de retorno ao uso da fonte hídrica oriunda dos rios Carmo, Doce e Piranga (*últimos 2km*) para fins de plantio e dessedentação de animais, exatamente pela ausência de laudo técnico definitivo, imparcial e produzido em juízo, que ateste a sua segurança.

Somente a produção de prova técnica em juízo será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para que os atingidos possam novamente voltar a utilizar a água dos rios Carmo, Doce e Piranga.

Para a categoria dos "agricultores/produtores rurais/ilheiros – comercialização informal", as COMISSÕES DE ATINGIDOS apresentaram concordância com o *quantum* indenizatório de R$94.195,00, para fins de quitação definitiva, **com utilização dos mesmos parâmetros e valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Contudo, aqueles que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando outros valores que entenderem cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daqueles que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma solução coletiva comum para a referida categoria, fundada na noção de *justiça possível.*

O que se pretende encontrar, portanto, é o **valor indenizatório médio** que, minimamente, corresponda, com segurança, ao padrão mediano de todos aqueles que se enquadrem na referida categoria.

Cuida-se aqui de definir uma **solução indenizatória comum** de caráter coletivo, em que se possa presumir, com segurança, o enquadramento mediano de todos eles, sem levar em conta as situações individuais.

Reforço, uma vez mais, que a presente decisão terá **natureza facultativa**, de modo que aquele que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando ao juízo competente a comprovação pertinente.

Examino, assim, a proposta de quitação definitiva formulada pelas COMISSÕES DE ATINGIDOS quanto aos "agricultores/produtores rurais/ilheiros – comercialização informal", **com base nos valores fixados em outros precedentes do *sistema indenizatório simplificado* sentenciados por este juízo.**

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

A experiência cotidiana revela que **categorias informais** como os "agricultores/produtores rurais/ilheiros – **comercialização informal**", como regra, tem por remuneração média o salário mínimo.

Evidentemente um ou outro poderá demonstrar rendimento maior, mas, conforme já dito, busca-se aqui encontrar um **padrão indenizatório comum**, aplicável com segurança a todos indistintamente, sem levar em consideração as situações individuais.

Assim sendo, adoto o salário mínimo vigente na data dos precedentes do *sistema indenizatório simplificado* (R$ 1.045,00) como valor-base.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "agricultores/produtores rurais/ilheiros – comercialização informal" encontram-se impossibilitados de utilizarem a fonte hídrica dos rios Carmo, Doce e Piranga (*últimos 2km*), seja pela percepção geral de que a qualidade da água daquele permanece imprópria para consumo, seja pela ausência de laudo técnico oficial, na via judicial, atestando a referida segurança alimentar e de qualidade da água.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que nos próximos meses a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) sobre a qualidade da água dos rios Carmo, Doce e Piranga (segurança e tratabilidade) encontra-se em andamento, com previsão de término (ou pelo menos de algum resultado parcial) apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades de irrigação, sobretudo para consumo.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "agricultores/produtores rurais/ilheiros – comercialização informal" deverão ser indenizados pela perda de renda em razão da impossibilidade de **uso da fonte hídrica do rio Doce**.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

PERDA DE LAVOURAS EM GERAL/DESTRUIÇÃO DE CERCAS, PORTEIRAS E MOURÕES

Embora se reconheça a possibilidade de perda de lavouras/destruição de cercas, dada a natureza da condição de "agricultores/produtores rurais – *comercialização informal*", entendo a necessidade de arbitramento proporcional/médio.

Busca-se por meio da presente decisão uma solução coletiva, resguardado o direito daquele que, se entender viável, buscar na esfera individual aquilo que entender pertinente.

Assim sendo, para os fins exclusivos desta decisão, ACOLHO o pleito das COMISSÕES DE ATINGIDOS, e arbitro, para os "agricultores/produtores rurais/ilheiros/meeiros/ arrendatários e aquicultores – comercialização informal", o valor de R$ 10.000,00 (dez mil reais), a título de **indenização pela perda de lavouras em geral, destruição de cercas, porteiras e mourões**.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos desta decisão e como presunção geral e "**solução média comum**" aplicável a todos os "agricultores/produtores rurais/ilheiros – comercialização informal" – entendo que os mesmos fazem jus aos seguintes valores de indenização:

DANOS MATERIAIS (lucros cessantes): Adoção do salário mínimo vigente na data dos precedentes (R$ 1.045,00) multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda (71 meses), totalizando R$ 74.195,00.

DANOS MATERIAIS (**danos emergentes**): R$ 10.000,00 (dez mil reais), a título de indenização pela perda de lavouras em geral, destruição de cercas, porteiras e mourões.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "**agricultores/produtores rurais/ilheiros – comercialização informal**" que desejarem aderir à presente matriz de danos e consequente sistema de indenização, mediante **quitação definitiva**, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 84.195,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 94.195,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos desta decisão, FIXO o quantum indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 94.195,00 (noventa e quatro mil, cento e noventa e cinco reais)**, relativamente à categoria dos "agricultores/produtores rurais/ilheiros/meeiros/ arrendatários e aquicultores – **comercialização informal**", para fins de quitação definitiva.

DOS AGRICULTORES, PRODUTORES RURAIS E ILHEIROS ("FORMAIS") DE GRANDE PORTE

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "AGRICULTORES, PRODUTORES RURAIS, ILHEIROS (FORMAIS) DE GRANDE PORTE"

As COMISSÕES DE ATINGIDOS informaram que os "**AGRICULTORES, PRODUTORES RURAIS, ILHEIROS (FORMAIS) DE GRANDE PORTE**" sofreram a interrupção de suas *atividades produtivas* imediatamente após o evento danoso, perdendo a fonte de renda/receita, já que dependiam direta e indiretamente da água dos rios Carmo, Doce e/ou Piranga para produção agropecuária.

A realidade da época (pré-desastre) mostrava que os "**AGRICULTORES (FORMAIS) DE GRANDE PORTE**" constituíam sim uma *atividade produtiva* existente no município de Ponte Nova, dependente da água, ligada à produção (**formal - regular**) agropecuária na região dos rios Carmo, Doce e/ou Piranga.

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, esta atividade foi severamente prejudicada, pois – evidentemente – não se vislumbrou mais a viabilidade de utilização da água dos rios Carmo, Doce e Piranga (*últimos 2km*) para fins de irrigação e dessedentação de animais, de modo que as atividades produtivas restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os "**AGRICULTORES (FORMAIS) DE GRANDE PORTE**" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua atividade mercantil com grave comprometimento de sua (legítima) fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "**AGRICULTORES, PRODUTORES RURAIS E ILHEIROS (FORMAIS) DE GRANDE PORTE**" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "**AGRICULTORES, PRODUTORES RURAIS E ILHEIROS (FORMAIS) DE GRANDE PORTE**", devidamente constituídos (regulares) e que já produziam em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício/atividade o meio pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os integrantes dessa categoria, portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL

Os "**AGRICULTORES, PRODUTORES RURAIS E ILHEIROS (FORMAIS) DE GRANDE PORTE**" que pretenderem aderir ao novo sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua atividade mercantil regular e devidamente constituída.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a *autodeclaração pura e simples* não pode ser admitida como elemento (absoluto) constitutivo do direito, ainda mais quando se trata de atividade comercial regular de médio e grande porte (devidamente constituída).

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício/atividade mercantil, os "**AGRICULTORES, PRODUTORES RURAIS E ILHEIROS (FORMAIS) DE GRANDE PORTE**" deverão apresentar **cumulativamente** os seguintes documentos:

- Cartão do CNPJ com data de abertura anterior a 05.11.2015, e com endereço da empresa em Ponte Nova;
- Ato constitutivo atualizado (contrato social ou equivalente);
- Documentos pessoais dos sócios – Identidade e CPF;
- **Tratando exclusivamente de PRODUTOR PESSOA FÍSICA**, serão admitidos, como prova da regularidade mercantil, a Guia do Imposto sobre a Propriedade Territorial Rural (ITR) em nome do atingido nos meses de outubro, novembro e dezembro de 2015 **OU** Certidão de Cadastro Ambiental Rural (CAR) expedida entre 5.11.2015 e 2019, em nome do atingido;

- Documentação contábil de 2014 a 2019, exceto se for MEI;
- Declaração do Resultado do Exercício entre 2014 e 2019, assinada por Contador inscrito no Conselho Regional de Contabilidade;
- Notas fiscais emitidas ou recebidas em nome da PJ ou PF no período de dez/2014 a abr/2019, para os casos de MEI;
- Declaração atestando o impacto direto a partir de análise dos documentos contábeis apresentados, em especial a dependência e relação direta do negócio com os rios Carmo, Doce e/ou Piranga (*últimos 2km*).

DO *QUANTUM* INDENIZATÓRIO

As COMISSÕES DE ATINGIDOS pleitearam a aplicação do mesmo *quantum* indenizatório fixado no PJE 1055212-69.2020.4.01.3800 (**RIO DOCE/MG**), para a categoria em questão.

Pois bem.

A indenização dos "**AGRICULTORES, PRODUTORES RURAIS E ILHEIROS (FORMAIS) DE GRANDE PORTE**" deve corresponder aos prejuízos suportados, nos termos em que comprovados pelos *documentos contábeis* da empresa.

Por se tratar de atividade comercial regular exige-se, nos termos da Lei, a perfeita *escrituração contábil* feita por profissional habilitado.

Aqui **não cabe** falar em *flexibilização* dos meios de prova, já que se espera do comerciante regular (médio e grande porte) a **devida** *escrituração contábil* de seus lucros e prejuízos nos balanços financeiros da empresa.

Logo, o *quantum indenizatório*, tal como requerido pelas próprias COMISSÕES DE ATINGIDOS, reclama a confecção de **LAUDO individual**, personalíssimo, a partir da documentação contábil e financeira apresentada.

Nesse sentido, a situação dos "**AGRICULTORES, PRODUTORES RURAIS E ILHEIROS (FORMAIS) DE GRANDE PORTE**" comporta três situações fáticas distintas, a saber:

A. ATINGIDOS "**AGRICULTORES, PRODUTORES RURAIS E ILHEIROS (FORMAIS) DE GRANDE PORTE**") QUE **JÁ POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto ao atingido que já possui LAUDO confeccionado, inclusive com proposta indenizatória, caberá ao mesmo, juntamente com seu advogado, decidir se **aceita (ou não)** o valor ofertado no Laudo.

Em caso de concordância, o atingido, por intermédio de seu advogado, deverá acessar a *plataforma online*, manifestando sua adesão ao sistema indenizatório simplificado, instruindo-a **apenas** com o LAUDO e os documentos pessoais e de regularidade da empresa, dispensada a apresentação da escrituração contábil.

Assim, caso haja - desde logo - **concordância** pelo atingido (e seu advogado) com o valor constante do LAUDO TÉCNICO (**Synergia**) ter-se-á como liquidado os valores e definitiva a indenização, sem qualquer discussão ou contestação por parte da Fundação Renova.

Noutras palavras: em caso de concordância pelo atingido, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO TÉCNICO, **após homologação judicial**.

De outro lado, caso o atingido **discorde** do valor constante do LAUDO (**Synergia**), poderá solicitar, através da *plataforma online*, a revisão do LAUDO pela Fundação Renova, instruindo e apresentando a comprovação contábil pertinente.

Na sequência, caberá à Fundação Renova, no prazo de 30 dias, apresentar ao atingido o **LAUDO TÉCNICO revisado**, devidamente individualizado e fundamentado.

Nesse caso, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO, após homologação judicial.

B. ATINGIDOS ("**AGRICULTORES, PRODUTORES RURAIS E ILHEIROS (FORMAIS) DE GRANDE PORTE**") QUE **NÃO POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto aos atingidos que NÃO possuem LAUDO confeccionado, deverão acessar a *plataforma online*, manifestando sua **adesão** ao sistema indenizatório simplificado, instruindo-a com **todos** os documentos relacionados nesta decisão, notadamente os documentos contábeis que comprovam o prejuízo alegado.

Na sequência, caberá à Fundação Renova confeccionar, no prazo máximo de 30 dias, **LAUDO individualizado**, personalíssimo, sobre a situação (fática e jurídica) apresentada na *escrituração contábil* pelo comerciante, inclusive com proposta indenizatória (se cabível).

Para a confecção do LAUDO, a Renova deverá examinar toda a documentação contábil apresentada, assim como informações constantes de bancos de dados públicos, podendo – inclusive - realizar vistorias e inspeções *in loco*.

Confeccionado o LAUDO, o atingido poderá (**ou não**) aceitar o valor proposto pela Fundação Renova, com todas as consequências jurídicas daí decorrentes.

Em caso de concordância, via manifestação na *plataforma online*, cumprirá à Renova efetuar o pagamento correspondente, após homologação judicial.

C. ATINGIDOS ("**AGRICULTORES, PRODUTORES RURAIS E ILHEIROS (FORMAIS) DE GRANDE PORTE**") QUE – POR QUALQUER MOTIVO - **NÃO CONSEGUEM** COMPROVAR A REGULARIDADE DO COMÉRCIO OU O PREJUÍZO ALEGADO

Os atingidos dessa categoria que, por qualquer motivo, não conseguirem comprovar a regularidade formal do seu comércio (ou mesmo não tiverem documentação contábil regular) poderão, após a confecção do **LAUDO negativo** pela Fundação Renova, manifestar o desejo de se enquadrarem na categoria de "**AGRICULTORES, PRODUTORES RURAIS E ILHEROS INFORMAIS**", fazendo jus à indenização

correspondente, desde que cumpridos todos os requisitos desta decisão para a categoria pretendida.

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência FIXO o procedimento relativo à confecção dos **laudos individuais** pela Fundação Renova e o correspondente pagamento das indenizações aos "**AGRICULTORES, PRODUTORES RURAIS E ILHEIROS (FORMAIS) DE GRANDE PORTE**".

DOS "AMBULANTES EM GERAL/CAMELÔS/ BARRAQUEIROS/FEIRANTES/PROMOTORES DE FESTAS E EVENTOS/ PEQUENOS COMERCIANTES INFORMAIS"

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "AMBULANTES EM GERAL / CAMELÔS / BARRAQUEIROS / PROMOTORES DE EVENTOS / FEIRANTES / PROMOTORES DE FESTAS E EVENTOS / PEQUENOS COMERCIANTES INFORMAIS"

As COMISSÕES DE ATINGIDOS informaram que os "**ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais**" sofreram a interrupção de seu ofício (profissão) imediatamente após o Evento danoso, perdendo sua fonte de renda, já que dependiam direta (e indiretamente) dos rios Carmo, Doce e/ou Piranga.

A realidade da época (pré-desastre) mostrava que os "*ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais*" constituíam sim um ofício existente no município de Ponte Nova, cujo exercício de sua respectiva profissão e obtenção de fonte de renda estava ligada ao comércio de pequenos produtos, alimentos, frutas, verduras e utensílios em geral, assim como do turismo nos rios Doce, Carmo e/ou Piranga.

A realidade pós-desastre evidencia que, com a chegada da pluma de rejeitos, esta profissão praticamente desapareceu, pois – evidentemente – não se vislumbrou mais a viabilidade de utilização dos insumos e água dos rios Carmo, Doce e Piranga (*últimos*

2km), de modo que as atividades ligadas ao comércio informal restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os "***ambulantes em geral/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais***" eram realidade presente e, com a chegada da pluma de rejeitos, perderam seu ofício, com grave comprometimento de sua (legítima) fonte de renda.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **RECONHEÇO** os "ambulantes em geral/ camelôs/ barraqueiros/ feirantes/ promotores de festas e eventos/ pequenos comerciantes informais" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "*ambulantes/ camelôs/ barraqueiros/ feirantes/ promotores de eventos/ pequenos comerciantes informais*" que já trabalhavam na localidade antes do Desastre, e consequentemente faziam desse ofício o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os "*ambulantes/ camelôs/ barraqueiros/ feirantes/ promotores de eventos/ pequenos comerciantes informais*", portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DO OFÍCIO

Os "*ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais*" que pretenderem aderir ao sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, o seu ofício.

Como regra geral e apenas a título de *numerus apertus*, a categoria dos *ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais* compreende as seguintes atividades:

(i) ambulantes e camelôs em geral;

(ii) feirantes e barracas de comidas e bebidas típicas;

(iii) serviços de brinquedos e atividades recreativas;

(iv) promotores de festas, eventos e recreações.

Pois bem.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação quanto ao programa de reparação e indenização.

De outro lado, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples não pode ser admitida como elemento (absoluto) constitutivo do direito.

Aliás, a utilização da autodeclaração pura e simples revelou-se um verdadeiro novo desastre na bacia do rio Doce, **pois deu origem a milhares de fraudes, prestigiando-se a ação de oportunistas e aproveitadores**, em detrimento dos legítimos atingidos.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, não pode significar um incentivo às fraudes, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, no mínimo, comprovar o fato constitutivo do seu direito.

As próprias COMISSÕES DE ATINGIDOS, de forma absolutamente leal e correta, não vieram a juízo, em momento algum, defender a autodeclaração pura e simples, **pois esta só é defendida por aqueles que prestigiam a má fé e se aproveitam das reiteradas fraudes.**

O que se buscou, evidentemente, foi a *flexibilização dos critérios* (rígidos) de comprovação do ofício exigidos pela Fundação Renova. E, nesse sentido, a flexibilização dos critérios é perfeitamente adequada e compatível com a realidade (simples e humilde) da bacia do rio Doce.

Nesta esteira, requereu, de forma absolutamente legítima e categórica, a adoção dos mesmos parâmetros de elegibilidade relativos ao PJE 1055212-69.2020.4.01.3800 (RIO DOCE/MG).

Evidentemente, quem alega possuir uma profissão (um ofício gerador de renda) certamente tem condições (ainda que mínimas) de provar essa alegação.

Se de um lado, não se deve admitir a autodeclaração pura e simples, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, não se pode admitir – decorridos mais de 05 anos do Desastre - a exigência de uma gama de documentos formais (registrados em cartório) de categorias sabidamente informais.

No caso da categoria dos "*ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais*", o pleito de *flexibilização* e adoção dos mesmos parâmetros fixados em outros precedentes do *sistema indenizatório simplificado*, apresentado pelas COMISSÕES DE ATINGIDOS **é perfeitamente legítimo**, pois se trata de categoria informal, raramente registrada e/ou documentada. Exigir uma gama de "documentos formais" seria o mesmo que inviabilizar, por vias transversas, o próprio exercício do direito à indenização.

Assim sendo, DETERMINO que, para fins de comprovação do ofício, os "*ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais*" deverão apresentar **pelo menos DOIS documentos**, dentre as seguintes possibilidades:

1. autodeclaração, sob as penas da Lei, com firma reconhecida pelo atingido em cartório;

2. declaração, sob as penas da Lei, do comprador/usuário dos produtos e mercadorias e/ou serviços, com firma reconhecida em cartório, que deverá obrigatoriamente conter:

    - qualificação do declarante, inclusive os dados de RG e CPF/CNPJ, além do endereço completo;
    - identificação da região/modo onde/em os produtos foram comercializados/fornecidos;
    - identificação do trabalhador que comercializou o produto;
    - indicação dos valores pagos;
    - indicação da periodicidade da comercialização/fornecimento dos produtos e mercadorias.

3. registro de MEI;
4. notas de compras de materiais (contemporâneos ao Evento e autenticado)
5. certidão de casamento ou nascimento dos filhos;
6. certidão de batismo dos filhos;
7. registro em livros de entidades religiosas (participação em batismo, crisma, casamento ou em outros sacramentos);
8. livros de caixa informal (contemporâneos ao Evento e autenticado).

DO *QUANTUM* INDENIZATÓRIO

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão da segurança alimentar dos produtos irrigados com a água dos rios Carmo, Doce e Piranga encontra-se *sub judice* no âmbito dos Eixos Prioritários 6 e 9, ambos

voltados para a realização de **prova pericial (técnica)** com vistas a equacionar, em definitivo, as dúvidas existentes.

Com efeito, é perfeitamente legítimo afirmar que até a presente data os atingidos ainda possuem fundado receio de retorno ao consumo dos insumos produzidos e/ou irrigados com a água dos rios Carmo, Doce e Piranga, exatamente pela ausência de laudo técnico definitivo, imparcial e produzido em juízo, que ateste a sua segurança.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda tem fundado receio de utilização da água dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de prova técnica em juízo será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para que os atingidos possam novamente voltar a consumir os produtos.

Do mesmo modo, é fato inconteste que o setor de turismo na região dos rios Carmo, Doce e Piranga (*últimos 2km*) foi igualmente impactado, trazendo, com isso, uma significativa diminuição do número de turistas nas localidades, o que, inevitavelmente, afetou a venda de produtos e mercadorias por esses comerciantes informais (camelôs, barraqueiros, feirantes e ambulantes).

Conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma solução indenizatória média, de caráter geral, serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Por outro lado, aqueles "*ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais*" que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entender pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entender cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daquelas que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

Entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma **solução coletiva comum** para a pretensão indenizatória dos "*ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais*".

O que se pretende encontrar, portanto, é o **valor indenizatório médio** que corresponda, com segurança, ao padrão de todos os "*ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais*".

Cuida-se aqui de definir uma solução indenizatória comum, de caráter geral, em que se possa presumir, com segurança, o enquadramento médio de todos os "*ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais*", **sem levar em conta as situações individuais de cada um.**

Reforço, uma vez mais, que a presente decisão terá **natureza facultativa**, de modo que aquele que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

A experiência cotidiana claramente demonstra que **categorias informais** como os "*ambulantes/ camelôs/ barraqueiros/ feirantes/pequenos comerciantes informais*", como regra, tem por remuneração média o salário mínimo.

Assim sendo, adoto o salário mínimo vigente na data dos precedentes do sistema indenizatório simplificado (R$ 1.045,00) como valor-base.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "*ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais*" encontram-se impossibilitados de

exercerem o seu ofício, seja pela percepção geral de inviabilidade de turismo e utilização da água nos rios Carmo, Doce e Piranga (*últimos 2km*) (**com repercussão direta em toda a gama de atividades que giram em torno dessa atividade**), seja pela ausência de laudo técnico oficial, na via judicial, atestando o retorno à condição ambiental anterior ao evento danoso.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que no curto prazo a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) sobre a qualidade da água do rio Doce encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "*ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais*" devem ser indenizadas pela perda da renda, em razão da interrupção de suas atividades.

DANO MATERIAL: "materiais utilizados pelos camelôs e ambulantes"

Com a interrupção abrupta das atividades laborativas dos "*ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais*", é mais do que adequado presumir que o longo tempo de paralisação acarretou danos/inutilização de *produtos estocados e equipamentos*, razão pela qual , neste particular, FIXO o valor de **R$ 6.000,00 (seis mil reais)**, a título de indenização pela perda (ou inutilização) das matérias-primas, estoques e produtos.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos desta decisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todos os "*ambulantes/ camelôs/ barraqueiros/ feirantes/ promotores de eventos/ pequenos comerciantes informais*" – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do salário mínimo vigente na data dos precedentes (R$ 1.045,00) multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda (71 meses), totalizando R$ 74.195,00.

DANOS MATERIAIS (danos emergentes): R$ 6.000,00 (seis mil reais), a título de indenização pela perda (ou inutilização) das matérias-primas, estoques e produtos.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "*ambulantes/ camelôs/ barraqueiros/ feirantes/ pequenos comerciantes informais*" que desejarem aderir à presente *matriz de danos* e consequente sistema de indenização, mediante quitação definitiva, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 80.195,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 90.195,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos desta decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 90.195,00 (noventa mil e cento e noventa e cinco reais)**, relativamente à categoria dos "*ambulantes em geral/ camelôs/ barraqueiros/ feirantes/promotores de festas e eventos/ pequenos comerciantes informais*", para fins de **quitação definitiva**.

DOS "DIARISTAS / COLONOS / SAFRISTAS / AUTÔNOMOS / MÚSICOS / ARTISTAS / BORDADEIRAS / COSTUREIRAS / PROFISSIONAIS LIBERAIS / TRABALHADORES EM GERAL COM PERDA DE EMPREGO E RENDA"

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "DIARISTAS / COLONOS / SAFRISTAS / AUTÔNOMOS / MÚSICOS / ARTISTAS / BORDADEIRAS / COSTUREIRAS / PROFISSIONAIS LIBERAIS / TRABALHADORES EM GERAL COM PERDA DE EMPREGO E RENDA"

As COMISSÕES DE ATINGIDOS informaram que os "**diaristas / colonos / safristas / autônomos / músicos / artistas / bordadeiras / costureiras / profissionais liberais / trabalhadores em geral com perda de emprego e renda**" sofreram a interrupção de seu ofício (profissão) imediatamente após o Evento danoso, perdendo sua fonte de renda, já que dependiam direta (e indiretamente) dos rios Carmo, Doce e/ou Piranga.

A realidade da época (pré-desastre) mostrava que os "*diaristas / colonos / safristas / autônomos / músicos / artistas / bordadeiras / costureiras /profissionais liberais / trabalhadores em geral com perda de emprego e renda*" constituíam sim um ofício existente no município de Ponte Nova, cujo exercício de sua respectiva profissão e

obtenção de fonte de renda estava ligada ao desempenho de tarefas agropecuárias nos sítios e fazendas da região (diaristas, colonos e safristas), assim como do turismo nos rios Doce, Carmo e/ou Piranga, a exemplo dos trabalhadores dos restaurantes e quiosques.

A realidade pós-desastre evidencia que, com a chegada da pluma de rejeitos, esta profissão/atividade praticamente desapareceu, pois – evidentemente – não se vislumbrou mais a viabilidade de utilização dos insumos e água dos rios Carmo, Doce e Piranga (*últimos 2km*).

É inequívoco, portanto, o fato de que os "*diaristas / colonos / safristas / autônomos / músicos / artistas / bordadeiras / costureiras / profissionais liberais / trabalhadores em geral com perda de emprego e renda*" eram realidade presente e, com a chegada da pluma de rejeitos, perderam seu ofício, com grave comprometimento de sua (legítima) fonte de renda.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **RECONHEÇO** os *"diaristas / colonos / safristas / autônomos / músicos / artistas / bordadeiras / costureiras / profissionais liberais / trabalhadores em geral com perda de emprego e renda* " como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "*diaristas / colonos / safristas / autônomos / músicos / profissionais liberais / trabalhadores em geral com perda de emprego e renda*" que já trabalhavam nas localidades antes do Desastre, e consequentemente faziam desse ofício o meio de vida pelo qual proviam a sua fonte de renda, é que possuem direito a postularem indenização.

Os "*diaristas / colonos / safristas / autônomos / músicos / bordadeiras / costureiras / profissionais liberais / trabalhadores em geral com perda de emprego e renda* ", portanto, devem comprovar, nos termos desta decisão, a **presença no território** por

ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DO OFÍCIO

Os "*diaristas / colonos / safristas / autônomos / músicos / profissionais liberais / bordadeiras / costureiras / trabalhadores em geral com perda de emprego e renda*" que pretenderem aderir ao sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, o seu ofício.

Como regra geral e apenas a título de *numerusapertus*, a categoria dos *diaristas / colonos / safristas / autônomos / profissionais liberais / trabalhadores em geral com perda de emprego e renda* compreende as seguintes atividades:

(i) trabalhadores rurais (diaristas, colonos, parceiros e meeiros rurais, safristas);

(ii) trabalhadores e profissionais autônomos (músicos, artistas em geral, bordadeiras, costureiras, porteiros, equipe de limpeza e faxina, vigilantes, garçonetes e garçons;

(iii) trabalhadores em geral que perderam o emprego e a renda em decorrência do rompimento da barragem de Fundão (trabalhadores da UHE Risoleta Neves, assim como de suas terceirizadas (PROMEL/RIPE), trabalhadores dos alambiques, trabalhadores das fazendas produtoras de queijos, produtos gastronômicos e artesanatos, trabalhadores dos restaurantes e quiosques do Lago de Candonga).

Pois bem.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação quanto ao programa de reparação e indenização.

De outro lado, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples não pode ser admitida como elemento (absoluto) constitutivo do direito.

Aliás, a utilização da autodeclaração pura e simples revelou-se um verdadeiro novo desastre na bacia do rio Doce, **pois deu origem a milhares de fraudes, prestigiando-se a ação de oportunistas e aproveitadores**, em detrimento dos legítimos atingidos.

A alegação de hipossuficiência, utilizada para justificar a adoção da autodeclaração pura e simples, não pode significar um incentivo às fraudes, sob pena de manifesta contrariedade ao ordenamento jurídico, que impõe ao lesado (a vítima) a obrigação de, no mínimo, comprovar o fato constitutivo do seu direito.

As próprias COMISSÕES DE ATINGIDOS, de forma absolutamente leal e correta, não vieram a juízo, em momento algum, defender a autodeclaração pura e simples, **pois esta só é defendida por aqueles que prestigiam a má fé e se aproveitam das reiteradas fraudes.**

O que se buscou, evidentemente, foi a *flexibilização dos critérios* (rígidos) de comprovação do ofício exigidos pela Fundação Renova. E, nesse sentido, a flexibilização dos critérios é perfeitamente adequada e compatível com a realidade (simples e humilde) da bacia do rio Doce.

Evidentemente, quem alega possuir uma profissão (um ofício gerador de renda) certamente tem condições (ainda que mínimas) de provar essa alegação.

Se de um lado, não se deve admitir a autodeclaração pura e simples, porque contrária ao ordenamento jurídico e claramente incentivadora de fraudes e ação de oportunistas, de outro lado, não se pode admitir – decorridos mais de 05 anos do Desastre - a exigência de uma gama de documentos formais (registrados em cartório) de categorias sabidamente informais.

No caso da categoria dos "*diaristas / colonos / safristas / autônomos / músicos / artistas / bordadeiras / profissionais liberais / trabalhadores em geral com perda de emprego e renda*", o pleito de *flexibilização*, apresentado pelas COMISSÕES DE ATINGIDOS **é perfeitamente legítimo**, pois se trata, via de regra, de categoria informal, raramente

registrada e/ou documentada. Exigir uma gama de "documentos formais" seria o mesmo que inviabilizar, por vias transversas, o próprio exercício do direito à indenização.

Assim sendo, DETERMINO que, para fins de comprovação do ofício, os "*diaristas / colonos / safristas / autônomos / profissionais liberais / trabalhadores em geral com perda de emprego e renda*" deverão apresentar **pelo menos DOIS documentos**, dentre as seguintes possibilidades:

1. autodeclaração, sob as penas da Lei, com firma reconhecida pelo atingido em cartório;
2. declaração, sob as penas da Lei, do comprador/usuário/contratante dos produtos/mercadorias e/ou serviços, com firma reconhecida em cartório, que deverá obrigatoriamente conter:
    - qualificação do declarante, inclusive os dados de RG e CPF/CNPJ, além do endereço completo;
    - identificação da região/modo onde/em os produtos/serviços foram comercializados/fornecidos;
    - identificação do trabalhador que comercializou o produto/serviço;
    - indicação dos valores pagos;
    - indicação da periodicidade da comercialização/fornecimento dos produtos e mercadorias.
3. registro de MEI;
4. notas de compras de materiais (contemporâneos ao Evento e autenticado)
5. certidão de casamento ou nascimento dos filhos;
6. certidão de batismo dos filhos;
7. registro em livros de entidades religiosas (participação em batismo, crisma, casamento ou em outros sacramentos);
8. livros de caixa informal (contemporâneos ao Evento e autenticado).

DO *QUANTUM* INDENIZATÓRIO

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de

rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

A questão da segurança alimentar dos produtos irrigados com a água dos rios Carmo, Doce e Piranga encontra-se *sub judice* no âmbito dos Eixos Prioritários 6 e 9, ambos voltados para a realização de **prova pericial (técnica)** com vistas a equacionar, em definitivo, as dúvidas existentes.

Com efeito, é perfeitamente legítimo afirmar que até a presente data os atingidos ainda possuem fundado receio de retorno ao consumo dos insumos produzidos e/ou irrigados com a água dos rios Carmo, Doce e Piranga, exatamente pela ausência de laudo técnico definitivo, imparcial e produzido em juízo, que ateste a sua segurança.

Muitos atingidos até hoje, decorridos mais de 05 anos, ainda tem fundado receio de utilização da água dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de prova técnica em juízo será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para que os atingidos possam novamente voltar a consumir os produtos.

Do mesmo modo, é fato inconteste que o setor de turismo na região dos rios Carmo, Doce e Piranga (*últimos 2km*) foi igualmente impactado, trazendo, com isso, uma significativa diminuição do número de turistas nas localidades, o que, inevitavelmente, afetou a venda de produtos e mercadorias por esses comerciantes informais (camelôs, barraqueiros, feirantes e ambulantes).

Conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma solução indenizatória média, de caráter geral, serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Por outro lado, aqueles "*diaristas / colonos / safristas / autônomos / músicos / artistas / profissionais liberais / trabalhadores em geral com perda de emprego e renda*" que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entender pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entender cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daquelas que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

Entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma **solução coletiva comum** para a pretensão indenizatória dos "*diaristas / colonos / safristas / autônomos / músicos / artistas / profissionais liberais / trabalhadores em geral com perda de emprego e renda*".

O que se pretende encontrar, portanto, é o **valor indenizatório médio** que corresponda, com segurança, ao padrão de todos os "*diaristas / colonos / safristas / autônomos / músicos / artistas / bordadeiras /profissionais liberais / trabalhadores em geral com perda de emprego e renda*".

Cuida-se aqui de definir uma solução indenizatória comum, de caráter geral, em que se possa presumir, com segurança, o enquadramento médio de todos os "*diaristas / colonos / safristas / autônomos / músicos / artistas / bordadeiras / profissionais liberais / trabalhadores em geral com perda de emprego e renda*", **sem levar em conta as situações individuais de cada um.**

Reforço, uma vez mais, que a presente decisão terá **natureza facultativa**, de modo que aquele que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

A experiência cotidiana claramente demonstra que **categorias informais** como os "*diaristas / colonos / safristas / autônomos / músicos / artistas / bordadeiras /*

costureiras / profissionais liberais / trabalhadores em geral com perda de emprego e renda", como regra, tem por remuneração média o salário mínimo.

Assim sendo, adoto o salário mínimo vigente na data dos precedentes do sistema indenizatório simplificado (R$ 1.045,00) como valor-base.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "*diaristas / colonos / safristas / autônomos / músicos / profissionais liberais / trabalhadores em geral com perda de emprego e renda*" encontram-se impossibilitados de exercerem o seu ofício, seja pela percepção geral de inviabilidade de turismo e utilização da água nos rios Carmo, Doce e Piranga (*últimos 2km*) (**com repercussão direta em toda a gama de atividades que giram em torno dessa atividade**), seja pela ausência de laudo técnico oficial, na via judicial, atestando o retorno à condição ambiental anterior ao evento danoso.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que no curto prazo a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) sobre a qualidade da água do rio Doce encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "*diaristas / colonos / safristas / autônomos / músicos / artistas / bordadeiras / costureiras / profissionais liberais / trabalhadores em geral com perda de emprego e renda*" devem ser indenizadas pela perda da renda, em razão da interrupção de suas atividades.

DANO MATERIAL: “materiais utilizados pelos diaristas, colonos, safristas, músicos, artistas e trabalhadores em geral com perda de renda e emprego”

Com a interrupção abrupta das atividades laborativas dos "*diaristas / colonos / safristas / autônomos / músicos / artistas / bordadeiras / costureiras /profissionais liberais / trabalhadores em geral com perda de emprego e renda*", é mais do que adequado presumir que o longo tempo de paralisação acarretou danos/inutilização de *produtos estocados e equipamentos*, razão pela qual , neste particular, FIXO o valor de **R$ 6.000,00 (seis mil reais)**, a título de indenização pela perda (ou inutilização) das matérias-primas, estoques e produtos.

DANO MORAL

O valor pretendido a título de DANO MORAL pelas COMISSÕES DE ATINGIDOS é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos desta decisão e como presunção geral e verdadeira “**solução média comum**” aplicável a todos os "*diaristas / colonos / safristas / autônomos / músicos / artistas / bordadeiras / costureiras / profissionais liberais / trabalhadores em geral com perda de emprego e renda*" – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do salário mínimo vigente na data dos precedentes (R$ 1.045,00) multiplicado pelo total de meses retroativos e

prospectivos relacionados à paralisação da atividade geradora de renda (71 meses), totalizando R$ 74.195,00.

DANOS MATERIAIS (danos emergentes): R$ 6.000,00 (seis mil reais), a título de indenização pela perda (ou inutilização) das matérias-primas, estoques e produtos.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "*diaristas / colonos / safristas / autônomos / músicos / artistas / bordadeiras / costureiras / profissionais liberais / trabalhadores em geral com perda de emprego e renda*" que desejarem aderir à presente *matriz de danos* e consequente sistema de indenização, mediante quitação definitiva, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 80.195,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 90.195,00

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos desta decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e DANOS MORAIS) em **R$ 90.195,00 (noventa mil e cento e noventa e cinco reais)**, relativamente à categoria dos "*diaristas / colonos / safristas / músicos / artistas em geral / bordadeiras / costureiras / autônomos / profissionais liberais / trabalhadores em geral com perda de emprego e renda*", para fins de **quitação final e definitiva**.

DOS PROPRIETÁRIOS ("INFORMAIS") DE ALAMBIQUES E CACHAÇARIAS ARTESANAIS

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "PROPRIETÁRIOS ("INFORMAIS") DE ALAMBIQUES E CACHAÇARIAS ARTESANAIS"

As COMISSÕES DE ATINGIDOS, ao concordarem com a aplicação das mesmas *categorias/requisitos/critérios/valorações* relativos aos outros precedentes do *sistema indenizatório simplificado*, inferem, em adição, que os "**proprietários ("informais") de alambiques e cachaçarias artesanais**" alegam terem sofrido a interrupção de sua atividade econômica imediatamente após o evento danoso, perdendo a sua fonte de renda/receita, já que também dependiam diretamente do turismo local.

Cuida-se, aqui, de processo artesanal de produção de cachaça exercido em âmbito familiar, desde a cultura do canavial até o processo industrial e comercial.

A realidade da época (pré-desastre) mostrava que os "**alambiques e cachaçarias artesanais**" constituíam sim uma *atividade comercial* existente na localidade de Ponte Nova, ligada ao turismo de bebida artesanal.

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, esta atividade foi severamente prejudicada, pois – evidentemente – os canaviais foram impactados, além do que esse tipo de turismo na localidade se tornou impossível, de modo que as atividades ligadas à produção de cachaças artesanais restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os "**proprietários ("informais") de alambiques e cachaçarias artesanais**" eram realidade presente e, com a chegada da pluma de rejeitos, perderam sua atividade produtiva e mercantil com grave comprometimento de sua fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "**proprietários ("informais") de alambiques e cachaçarias artesanais**" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles proprietários de alambiques que já operavam e produziam em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício/atividade o meio de vida pelo qual proviam a sua fonte de renda/receita, é que possuem direito a postularem indenização.

Os "**proprietários ("informais") de alambiques e cachaçarias artesanais**", portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL

Os "**proprietários ("informais") de alambiques e cachaçarias artesanais**" que pretenderem aderir ao novo sistema de indenização previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua atividade produtiva e/ou comercial.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum atingido/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a autodeclaração pura e simples não pode ser admitida como elemento (absoluto) constitutivo do direito, **ainda mais quando se trata de atividade comercial de porte médio, praticada com uso de equipamentos e maquinário**.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTA** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação do ofício/atividade, os "**proprietários ("informais") de alambiques**

e cachaçarias artesanais" deverão apresentar **cumulativamente** os documentos a seguir:

- Declaração, sob as penas da Lei, com firma reconhecida em cartório, atestando o impacto direto na atividade produtiva/comercial, em especial a dependência e relação direta do negócio/exploração com o turismo artesanal na localidade;

- Comprovação de posse/propriedade de alambiques, equipamentos e locais destinados à fabricação, produção e comercialização de cachaça;

- Declaração prestada, sob as penas da lei, por **terceiro adquirente**, com identificação do material produzido e comercializado pelo respectivo atingido (tipo, qualidade, quantidade e indicação de origem) **OU** apresentação de Livro de caixa informal ou caderneta de controle contemporâneos ao Evento e autenticados.

DO *QUANTUM* INDENIZATÓRIO

O rompimento da Barragem de Fundão, ocorrido em 05 de novembro de 2015, desencadeou a liberação de, aproximadamente, 50 milhões de metros cúbicos de lama de rejeitos no meio ambiente. Parcela substancial do rejeito foi carreado ao rio Carmo, assim como ao rio Doce, comprometendo toda a bacia hidrográfica.

Trata-se, assim, do maior desastre ambiental do Brasil e suas repercussões no meio ambiente, em seu contexto mais amplo, são observados até os dias de hoje.

Com efeito, é perfeitamente legítimo afirmar que até a presente data os usuários e turistas ainda possuem fundado receio de retorno ao uso e turismo no local, exatamente pela ausência de laudo técnico definitivo, imparcial e produzido em juízo, que ateste a segurança das condições da água, do rio, e dos canaviais.

Muitos usuários até hoje, decorridos mais de 05 anos, ainda têm fundado receio de utilização da água e insumos dos rios Carmo, Doce e/ou Piranga (*últimos 2km*) para os mais diversos fins.

Somente a produção de *prova técnica* em juízo será capaz de afastar qualquer dúvida a esse respeito, trazendo conforto para que os atingidos (e população em geral) possam novamente voltar a utilizar os insumos e produtos da localidade.

Por outro lado, conforme já ressaltado anteriormente, a *matriz de danos* e o sistema indenizatório criado, os quais buscam uma **solução indenizatória média**, de caráter geral, serão de **adesão facultativa** pelos atingidos, de modo que para fins de adesão, haverá um **novo fluxo de comprovação e pagamento perante a Fundação Renova**, desenvolvido especialmente para o atendimento dessa decisão judicial.

Quanto aos valores pretendidos, de se ressaltar que nem todos os "**proprietários ("informais") de alambiques e cachaçarias artesanais**" possuíam a mesma força e capacidade de trabalho; nem todos possuíam a mesma agilidade e eficiência para a atividade, bem como comercialização de bens e/ou serviços; uns possuíam alambiques de menor porte e outros possuíam equipamentos mais modernos e eficientes, de maior porte. Tudo isto demonstra que a **situação individual** de cada um era diferente, pela própria natureza da produção e da atividade.

Do mesmo modo, no âmbito processual, enquanto alguns poucos conseguirão demonstrar e comprovar os danos, certamente a imensa maioria, dada a *informalidade* da atividade produtiva, não terá prova de nada, a exemplo de registros contábeis e documentação fiscal.

Assim sendo, aqueles "**proprietários ("informais") de alambiques e cachaçarias artesanais**" que dispuserem de documentação idônea, capaz de comprovar cabalmente seu direito, poderão – se entenderem pertinente - ajuizar ação própria a fim de demonstrar em juízo sua situação individual, buscando os valores que entenderem cabíveis. Com essa medida, preserva-se o amplo acesso à justiça daquelas que, porventura, queiram demonstrar em juízo sua particular situação jurídica.

De outro lado, entretanto, cabe a este juízo federal, decorridos mais de 05 anos do rompimento da barragem, apresentar uma **solução indenizatória comum** para a pretensão indenizatória, fundada na noção de *rough justice*, a partir da flexibilização dos *standards* probatórios.

O que se pretende encontrar, portanto, é o valor indenizatório médio que corresponda, com segurança, ao padrão (comum) dos integrantes da categoria.

Cuida-se aqui de definir uma **solução indenizatória comum**, de caráter geral, em que se possa presumir, com segurança, o enquadramento médio de todos os "**proprietários ("informais") de alambiques e cachaçarias artesanais**", sem levar em conta as situações individuais de cada um.

Reforço, uma vez mais, que a presente decisão terá **natureza facultativa**, de modo que aquele que pretenda seguir lutando por valores diversos poderá fazê-lo por meio de ajuizamento de ação individual, levando a juízo a comprovação pertinente.

Examino, articuladamente, a composição do cálculo:

VALOR BASE:

Adoto R$ 1.500,00 como VALOR-BASE.

MESES RETROATIVOS E PROSPECTIVOS

Com efeito, sabe-se que até a presente data os "**proprietários ("informais") de alambiques e cachaçarias artesanais**" encontram-se impossibilitados de exercerem a sua atividade, seja pela destruição dos canaviais, seja pela percepção geral de inviabilidade do turismo e do uso dos insumos (**água**) oriundos dos rios Carmo, Doce e Piranga (*últimos 2km*) (*com repercussão direta em toda a gama de atividades que giram em torno dessa atividade*), seja pela ausência de laudo técnico, na via judicial, atestando o retorno à condição ambiental anterior ao Evento.

Portanto, desde a data do rompimento da barragem de Fundão (05/11/2015) até a presente data (junho/2021), já transcorreram **67 meses** de total paralisação/interrupção das atividades.

Ademais, não há nenhum indicativo concreto de que no curto prazo a situação se modifique. Isto porque a perícia judicial (Eixos 6 e 9) encontra-se em andamento, com previsão de término apenas daqui a 04 meses.

Portanto, entendo adequado ao cálculo a adição de mais **04 meses**, prazo em que a perícia judicial estará em andamento e, possivelmente, ainda existirão fundadas dúvidas sobre o retorno seguro das atividades.

Logo, para os fins exclusivos desta decisão, considero pertinente e adequado fixar em **71 meses** o período em que os "**proprietários ("informais") de alambiques e cachaçarias artesanais**" devem ser indenizados pela perda da renda/receita, em razão da interrupção de suas atividades.

DANO MATERIAL: "*indenização pela paralisação dos alambiques e cachaçarias artesanais*".

Com efeito, a interrupção abrupta das atividades produtivas/mercantis faz presumir que o longo tempo de paralisação dos alambiques acarretou danos/inutilização aos produtos estocados e aos equipamentos utilizados, razão pela qual, neste particular, FIXO o valor de **R$ 10.000,00 (dez mil reais)**, a título de indenização pela paralisação (ou inutilização) dos alambiques, equipamentos e das matérias-primas.

DANO MORAL

O valor pretendido a título de DANO MORAL é perfeitamente adequado e encontra-se em plena sintonia com o ordenamento jurídico.

A passagem da pluma de rejeitos pelos rios Carmo e Doce, até mesmo pelo rio Piranga, devido ao retorno da onda de rejeitos em virtude do choque desta contra a parede do reservatório de UHE Risoleta Neves, além da consequente interrupção instantânea de uma atividade tradicional (legítima) exercida há vários anos, configura dano moral, passível de indenização.

Assim sendo, ACOLHO o valor de R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

QUANTUM **INDENIZATÓRIO**

Consoante fundamentação exposta, para os fins exclusivos dessa decisão e como presunção geral e verdadeira "**solução média comum**" aplicável a todos os "**proprietários ("informais") de alambiques e cachaçarias artesanais**" – entendo que os mesmos fazem jus aos seguintes valores de indenização.

DANOS MATERIAIS (lucros cessantes): Adoção do valor-base (R$ 1.500,00) multiplicado pelo total de meses retroativos e prospectivos relacionados à paralisação da atividade geradora de renda/receita (71 meses), totalizando R$ 106.500,00.

DANOS MATERIAIS (danos emergentes): R$ 10.000,00 (dez mil reais), a título de indenização pela paralisação dos alambiques, equipamentos e das matérias-primas, estoques e produtos.

DANOS MORAIS: R$ 10.000,00 (dez mil reais) a título de indenização (individual) por dano moral.

Logo, os "**proprietários ("informais") de alambiques e cachaçarias artesanais**" que desejarem aderir à presente *matriz de danos* e consequente sistema de indenização simplificado, mediante quitação final, única e definitiva, serão indenizados nos seguintes valores:

DANOS MATERIAIS = R$ 116.500,00.

DANO MORAL: R$ 10.000,00

TOTAL: R$ 126.500,00

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, para os fins exclusivos dessa decisão, FIXO o *quantum* indenizatório (DANOS MATERIAIS e

DANOS MORAIS) em **R$ 126.500,00 (cento e vinte e seis mil e quinhentos reais)**, relativamente à categoria dos "**proprietários ("informais") de alambiques e cachaçarias artesanais**", para fins de **quitação final, única e definitiva**.

DOS PROPRIETÁRIOS "FORMAIS" (REGULARES) DE ALAMBIQUES E CACHAÇARIAS ARTESANAIS

DO RECONHECIMENTO JUDICIAL DA CATEGORIA "PROPRIETÁRIOS "FORMAIS" (REGULARES) DE ALAMBIQUES E CACHAÇARIAS ARTEASANAIS"

As COMISSÕES DE ATINGIDOS, ao concordarem com a aplicação das mesmas *categorias/requisitos/critérios/valorações* relativos aos outros precedentes do *sistema indenizatório simplificado*, inferem, em adição, que os "**proprietários ("FORMAIS") de alambiques e cachaçarias artesanais**" alegam terem sofrido a interrupção de sua atividade econômica imediatamente após o evento danoso, perdendo a sua fonte de renda/receita, já que também dependiam diretamente dos canaviais e do turismo local.

Cuida-se, aqui, de processo artesanal de produção de cachaça exercido em âmbito familiar, desde a cultura do canavial até o processo industrial e comercial.

A realidade da época (pré-desastre) mostrava que os "**alambiques e cachaçarias artesanais**" constituíam sim uma *atividade comercial* existente na localidade de Ponte Nova, ligada ao turismo de bebida artesanal.

A realidade pós-desastre claramente evidencia que, com a chegada da pluma de rejeitos, esta atividade foi severamente prejudicada, pois – evidentemente – os canaviais foram impactados, além do que esse tipo de turismo na localidade se tornou impossível, de modo que as atividades ligadas à produção de cachaças artesanais restaram integralmente comprometidas.

É inequívoco, portanto, o fato de que os "**proprietários ("FORMAIS") de alambiques e cachaçarias artesanais**" eram realidade presente e, com a chegada

da pluma de rejeitos, perderam sua atividade produtiva e mercantil com grave comprometimento de sua fonte de renda/receita.

Assim sendo, entendo que a referida categoria deve sim ser judicialmente reconhecida como elegível para fins de reparação e indenização.

Ante o exposto, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, **RECONHEÇO** os "**proprietários ("FORMAIS") de alambiques e cachaçarias artesanais**" como categoria atingida, portanto, elegível nos termos desta decisão para fins de obtenção de reparação/indenização pelo comprometimento da renda/receita.

DA NECESSIDADE DE COMPROVAÇÃO DA PRESENÇA NO TERRITÓRIO NO PERÍODO DO EVENTO DANOSO

Evidentemente, somente aqueles "**proprietários ("FORMAIS") de alambiques e cachaçarias artesanais**", devidamente constituídos (**regulares**) e que já exerciam a produção e exploração em Ponte Nova antes do Desastre, e consequentemente faziam desse ofício/atividade mercantil, é que possuem direito a postularem indenização.

Os integrantes dessa categoria, portanto, devem comprovar, nos termos desta decisão, a **presença no território** por ocasião do rompimento da barragem de Fundão, nos meses de outubro/2015 ou novembro/2015 ou dezembro/2015 (**princípio da contemporaneidade**).

DA NECESSIDADE DE COMPROVAÇÃO DA ATIVIDADE MERCANTIL E DOS PREJUÍZOS CONTÁBEIS

Os "**proprietários ("FORMAIS") de alambiques e cachaçarias artesanais**" que pretenderem aderir ao novo sistema de indenização simplificado previsto nesta decisão **deverão** comprovar, por meio idôneo, a sua atividade produtiva/mercantil regular e devidamente constituída.

Conforme já ressaltado, os critérios de elegibilidade da Fundação Renova aplicados até o presente momento são tão rigorosos que – na prática – quase nenhum produtor/comerciante se enquadra, o que se comprova facilmente pelo altíssimo grau de insatisfação (e exclusão) quanto ao programa de reparação e indenização existente ("PIM").

De outro lado, tem inteira razão as empresas rés quando afirmam que a *autodeclaração pura e simples* não pode ser admitida como elemento (absoluto) constitutivo do direito, ainda mais quando se trata de atividade comercial/produtiva regular de médio e grande porte (**devidamente constituída)**.

Assim sendo, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, DETERMINO que, para fins de comprovação da atividade mercantil, os "**proprietários ("FORMAIS") de alambiques e cachaçarias artesanais**" deverão apresentar **cumulativamente** os seguintes documentos:

- Alvará de Licença e Localização;
- Cartão do CNPJ com data de abertura anterior a 05.11.2015, e com endereço da empresa em Ponte Nova;
- Ato constitutivo atualizado (contrato social ou equivalente);
- Documentos pessoais dos sócios – Identidade e CPF;
- Documentação contábil de 2014 a 2019, exceto se for MEI;
- Declaração do Resultado do Exercício entre 2014 e 2019, assinada por Contador inscrito no Conselho Regional de Contabilidade;
- Notas fiscais emitidas ou recebidas em nome da PJ ou PF no período de dez/2014 a abr/2019, para os casos de MEI;
- Declaração atestando o impacto direto a partir de análise dos documentos contábeis apresentados, em especial a dependência e relação direta do negócio com o turismo local.

DO *QUANTUM* INDENIZATÓRIO

A indenização dos "**proprietários ("FORMAIS") de alambiques e cachaçarias artesanais**" deve corresponder aos prejuízos suportados, na exata extensão e nos termos em que comprovados pelos documentos contábeis da empresa.

Por se tratar de atividade comercial regular exige-se, nos termos da Lei, a perfeita *escrituração contábil* feita por profissional habilitado.

Aqui **não cabe** falar em *flexibilização* dos meios de prova, já que se espera do comerciante/produtor regular (médio e grande porte) a devida *escrituração contábil* de seus lucros e prejuízos nos balanços financeiros da empresa.

Logo, o *quantum indenizatório* reclama a confecção de **LAUDO individual**, personalíssimo, a partir da documentação contábil e financeira apresentada.

Nesse sentido, a situação dos "**proprietários ("FORMAIS") de alambiques e cachaçarias artesanais**" comporta três situações fáticas distintas, a saber:

B. ATINGIDOS ("**proprietários ("FORMAIS") de alambiques e cachaçarias artesanais**") QUE **JÁ POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto ao atingido que já possui LAUDO confeccionado, inclusive com proposta indenizatória, caberá ao mesmo, juntamente com seu advogado, decidir se **aceita (ou não)** o valor ofertado pela Fundação Renova.

Em caso de concordância, o atingido, por intermédio de seu advogado, deverá acessar a *plataforma online*, manifestando sua adesão ao sistema indenizatório simplificado, instruindo-a **apenas** com o LAUDO e os documentos pessoais e de regularidade da empresa, dispensada a apresentação dos documentos contábeis.

Assim, caso haja - desde logo - **concordância** pelo atingido (e seu advogado) com o valor constante do LAUDO TÉCNICO (**Synergia**) ter-se-á como liquidado os valores e definitiva a indenização, sem qualquer discussão ou contestação por parte da Fundação Renova.

Noutras palavras: em caso de concordância pelo atingido, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO TÉCNICO, **após homologação judicial**.

De outro lado, caso o atingido **discorde** do valor constante do LAUDO (**Synergia**), poderá solicitar, através da *plataforma online*, a revisão do LAUDO pela Fundação Renova, instruindo e apresentando a comprovação contábil pertinente.

Na sequência, caberá à Fundação Renova, no prazo de 30 dias, apresentar ao atingido o **LAUDO TÉCNICO revisado**, devidamente individualizado e fundamentado.

Nesse caso, caberá à Fundação Renova efetuar o pagamento da indenização, nos exatos termos em que consignado no LAUDO, após homologação judicial.

C. ATINGIDOS ("**proprietários ("FORMAIS") de alambiques e cachaçarias artesanais**") QUE **NÃO POSSUEM** LAUDO CONFECCIONADO PELA FUNDAÇÃO RENOVA

Quanto aos atingidos que NÃO possuem LAUDO confeccionado, deverão acessar a *plataforma online*, manifestando sua adesão ao *sistema indenizatório simplificado*, instruindo-a com **todos** os documentos relacionados nesta decisão, notadamente a escrituração contábil que comprova o prejuízo alegado.

Na sequência, caberá à Fundação Renova confeccionar, no prazo máximo de 30 dias, **LAUDO individualizado**, personalíssimo, sobre a situação (fática e jurídica) apresentada na *escrituração contábil* pelo comerciante, inclusive com proposta indenizatória (se for o caso).

Para a confecção do LAUDO, a Renova deverá examinar toda a documentação contábil apresentada, assim como informações constantes de bancos de dados públicos (se existentes), podendo – inclusive - realizar vistorias e inspeções *in loco*.

Confeccionado o LAUDO, o atingido poderá (ou não) aceitar o valor proposto pela Fundação Renova.

Em caso de concordância, via manifestação na *plataforma online*, cumprirá à Renova efetuar o pagamento correspondente, após homologação judicial.

D. ATINGIDOS (“**proprietários ("FORMAIS") de alambiques e cachaçarias artesanais**”) QUE – POR QUALQUER MOTIVO - **NÃO CONSEGUEM** PROVAR A REGULARIDADE DO COMÉRCIO OU O PREJUÍZO ALEGADO

Os atingidos (“**proprietários ("FORMAIS") de alambiques e cachaçarias artesanais**”) que, por qualquer motivo, não conseguirem comprovar a regularidade formal do seu comércio (ou mesmo não tiverem documentação contábil regular) poderão, após a confecção de eventual **LAUDO negativo** pela Fundação Renova, manifestar, *ainda na plataforma online*, a opção de se enquadrarem na categoria de "“**proprietários ("informais") de alambiques e cachaçarias artesanais**”", fazendo jus à indenização correspondente, desde que cumpridos todos os requisitos desta decisão para a categoria pretendida.

Ante o exposto e fiel a essas considerações, **ACOLHO** o pedido formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO) e, via de consequência, FIXO o procedimento relativo à confecção dos **LAUDOS individuais**, personalíssimos, pela Fundação Renova e o correspondente pagamento das indenizações aos “**proprietários ("FORMAIS - REGULARES") de alambiques e cachaçarias artesanais**”.

DA NECESSIDADE DE INSTITUIÇÃO DE UM FLUXO PRÓPRIO E ESPECÍFICO (*PLATAFORMA ONLINE)* PARA O CUMPRIMENTO DA PRESENTE DECISÃO

A presente decisão, ao tentar endereçar uma solução pragmática (**e definitiva**) para o complexo problema da indenização aos atingidos, buscou sua fundamentação teórica na ideia do *rough justice***.**

A construção decisória partiu da premissa que o tema da indenização aos atingidos deveria ser **simplificado**, utilizando-se de critérios médios, *standards*, aplicáveis indistintamente a todos integrantes de uma dada categoria, **sem ater-se a situações individuais ou personalíssimas**.

Nesse sentido, houve clara "*flexibilização*" em favor dos atingidos dos requisitos probatórios e dos parâmetros de quantificação do direito. Como contrapartida a essa simplificação e flexibilização, a decisão apresentou **valores médios de indenização**, buscando abranger todos aqueles que se encontram na categoria.

Diante desse cenário, é imprescindível que na fase de operacionalização (execução) dessa decisão, a Fundação Renova desenvolva um *fluxo próprio e específico*, **igualmente simplificado**, afastando-se do burocrático e ineficiente sistema do "PIM".

Nesse sentido, por se tratar de um sistema indenizatório muito particular, **de natureza facultativa** e **simplificada**, entendo oportuno que a Fundação Renova desenvolva um sistema próprio (**plataforma *online***), totalmente digital e acessível pela internet, a fim de facilitar e dar efetivo cumprimento à presente decisão.

A **plataforma *online*** deve ter uma estrutura simplificada, com requisitos de segurança, que contemple as seguintes etapas:

1. Formulário Eletrônico para fins de adesão e cadastramento de dados pelo advogado;

2. Fase de apresentação dos documentos comprobatórios pertinentes (*upload* da documentação);

3. Fase de processamento das informações e validação (conferência) pela Fundação Renova;

4. Fase de confecção do **Termo de Adesão, Indenização e Quitação**, nos termos dessa decisão, para fins de conferência e ACEITE por parte do atingido;

5. Fase de DESISTÊNCIA DO ACEITE antes de ser encaminhado para homologação judicial;

6. Apresentação em juízo da listagem de atingidos elegíveis, **maiores e capazes**, validada pela Fundação Renova, antes da efetuação do pagamento, para fins de homologação;

7. Homologação pelo juízo dos **TERMOS DE ADESÃO, INDENIZAÇÃO E QUITAÇÃO** dos atingidos elegíveis, com todas as consequências jurídico-processuais daí decorrentes, e consequente determinação de pagamento;

8. Realização do pagamento final pela Fundação Renova;

9. Recurso para o Juiz nas situações de discordância com o posicionamento da Fundação Renova.

Quanto à etapa *(3)*, esclareço que é direito da Fundação Renova examinar **individualmente** cada uma das solicitações de adesão ao novo sistema indenizatório simplificado, verificando se as solicitações estão (**ou não**) em estrita conformidade com os termos desta SENTENÇA.

Em caso de dúvida quanto a interpretação fática e jurídica dos termos da SENTENÇA, bem como o enquadramento da Fundação Renova, será facultada a **interposição de recurso ao Juiz**, que deliberará – em definitivo – sobre a questão.

Conforme já afirmado, a premissa fundamental para o correto enquadramento do atingido na *matriz de danos* judicialmente fixada é a **informação** (**o relato, a narrativa**) que o próprio atingido forneceu para a Fundação Renova quando da *solicitação/registro/cadastro*.

O enquadramento interno realizado pela Fundação Renova é irrelevante, até mesmo porque a Fundação Renova sempre aplicou uma política restritiva (e de exclusão) quanto ao reconhecimento das categorias impactadas.

É o **relato (a narrativa)** que o próprio atingido fez - **em data pretérita** - por ocasião do *registro/solicitação/protocolo/entrevista/cadastro* que deve prevalecer.

Prestigia-se, assim, a palavra e a boa-fé do atingido.

Evidentemente, se de um lado o atingido **não pode** agora - sob pena de flagrante má fé - mudar a sua versão (*alterar a sua narrativa*) com o objetivo de se enquadrar em outra categoria, cujo valor da indenização é superior, **também NÃO pode a Fundação Renova buscar (adotar, implementar) critérios outros de comprovação do ofício e/ou presença no território distintos daqueles fixados nesta SENTENÇA.**

Na hipótese de encontrar alguma inconsistência e/ou inconformidade e/ou indício de fraude, ou a necessidade de novos documentos, **desde que adstritos aos termos da sentença**, a Fundação Renova deverá lançar a informação de que o procedimento se encontra com "**pendência**", indicando de forma clara, precisa e individualizada qual a situação de inconformidade, inconsistência ou fraude a ser sanada.

Nas hipóteses em que as solicitações de adesão NÃO se enquadrem nos parâmetros determinados nesta Sentença, ou quando não sanadas as inconsistências/inconformidades, a Fundação Renova tem direito a REJEITAR e INDEFERIR o requerimento, sujeito a recurso, devendo, nesse caso, **emitir decisão clara, precisa, fundamentada e individualizada, indicando os fundamentos de fato e de direito que conduziram ao indeferimento**.

Assim sendo, **CONCEDO** o prazo improrrogável até 23 de junho de 2021 para que a FUNDAÇÃO RENOVA desenvolva a referida **plataforma *online***, na mesma linha da plataforma já inaugurada para BAIXO GUANDU/ES, NAQUE/MG,SÃO MATEUS/ES, LINHARES/ES, ARACRUZ/ES, CONCEIÇÃO DA BARRA/ES, ITUETA/MG, BAGUARI/MG, PEDRA CORRIDA/MG, IPABA DO PARAÍSO/MG, CACHOEIRA ESCURA/MG, REVÉS DO BELÉM/MG, COLATINA/MG, RIO DOCE/MG, AIMORÉS/MG, BUGRE/MG, FERNANDES TOURINHO/MG, IPABA/MG, CARATINGA/MG, SEM PEIXE/MG, RESPLENDOR/MG, PERIQUITO/MG, MARILÂNDIA/ES, GALILEIA/MG, PINGO D'ÁGUA/MG, SÃO JOSÉ DO GOIABAL/MG, SANTA CRUZ DO ESCALVADO/MG, disponibilizando-a aos atingidos e seus advogados/defensores públicos, a partir de 24 de junho de 2021.

DA INSTÂNCIA RECURSAL – POSSIBILIDADE DE INTERPOSIÇÃO DE RECURSO AO JUIZ PROLATOR DA SENTENÇA – *PLATAFORMA ON LINE* – UNIFORMIDADE DE ENTENDIMENTO – TRATAMENTO ISONÔMICO AOS ATINGIDOS - NECESSIDADE

Consoante já afirmado, cabe à FUNDAÇÃO RENOVA, em primeiro nível, receber os pedidos de adesão formulados, bem como processar e examinar a documentação apresentada, a fim de verificar se o atingido se enquadra (**ou não**) aos termos de conformidade da sentença, fazendo jus (**ou não**) à correspondente indenização pelo sistema indenizatório simplificado.

É evidente, nessa linha de raciocínio, que a FUNDAÇÃO RENOVA **não pode** ter a palavra final sobre a interpretação dos critérios de elegibilidade (fáticos e jurídicos) estabelecidos na sentença.

Noutras palavras: o atingido/advogado que discordar do pronunciamento administrativo da Fundação Renova terá garantido – **em atenção ao devido processo legal e ao tratamento isonômico entre os atingidos** – meios e formas adequadas de **recorrer judicialmente** dessa decisão, a fim de que haja uma revisão (técnica e independente), pelo juiz prolator da sentença e idealizador do sistema indenizatório simplificado, dos fatos e fundamentos jurídicos em disputa.

Assim sendo, esclareço que **toda e qualquer manifestação** de indeferimento, negativa (ou inconformidade) ou pronunciamento administrativo pela Fundação Renova no âmbito do ***sistema indenizatório simplificado*** (*plataforma online*), seja de fato, seja de direito, estará, a requerimento do atingido/advogado/defensor público, **sujeita ao controle judicial**, garantindo-se, dessa forma, uma revisão técnica, jurídica e independente.

Via de consequência, determino à FUNDAÇÃO RENOVA o desenvolvimento da **fase de instância recursal** no âmbito da *plataforma online*, permitindo, assim, que o advogado/defensor público possa, no prazo de 15 dias, interpor **recurso** ao juiz contra qualquer decisão de indeferimento, negativa (ou inconformidade), trazendo todas as razões (fato e direito) que entender pertinentes.

Apresentado o recurso, o setor jurídico da Fundação Renova poderá, igualmente no prazo de 15 dias, reconsiderar a decisão proferida **ou**, mantendo-a, apresentar contrarrazões, trazendo razões (fato e direito) que entender pertinentes.

Na sequência, o RECURSO deverá ser trazido à apreciação desse **juízo federal** que – valendo-se do auxílio de perito judicial – deliberará sobre a controvérsia em definitivo, imprimindo-se, com isso, **uniformidade de entendimento e tratamento isonômico** entre todos os atingidos da bacia do rio Doce e região oceânica.

DO PERITO JUDICIAL – NECESSIDADE DE ANÁLISE TÉCNICA E DILIGÊNCIAS EM CAMPO – NOMEAÇÃO

In casu, consoante afirmado, os atingidos que **discordarem** do posicionamento da Fundação Renova no âmbito da *plataforma online* poderão recorrer a este juízo, através da ***fase recursal*** disponibilizada ao advogado.

Em razão da quantidade de *potenciais* usuários do *sistema indenizatório simplificado*, bem como a necessidade – em muitos casos - de **diligências em campo e análises técnicas**, especialmente nas categorias formais (médio e grande porte), inclusive com acesso aos sistemas informatizados da Fundação Renova, entendo necessária a designação de Perito para auxiliar o juízo.

Assim sendo, demonstrada a necessidade de *auxílio técnico* ao Juiz, especialmente na realização das matérias técnicas e diligências em campo, **NOMEIO** como **perito oficial do juízo** (art. 156 c/c 465 do CPC) a **KEARNEY**, na pessoa do **Dr. MARK ESSLE**, Managing Director da A.T. Kearney na América Latina, sociedade empresária com endereço na Av. Presidente Juscelino Kubitscheck 1455, 12. Andar, São Paulo, SP, Brasil, Tel: +551130406262, a quem competirá definir o time de especialistas para atuar no presente caso.

A **KEARNEY** se caracteriza por ser uma das mais qualificadas consultorias de gestão do mundo. Trata-se de empresa sólida, com ampla atuação internacional, com **sede em Chicago (USA)**.

Fundada em 1926, em Chicago, EUA, onde mantém sua sede atual, a **KEARNEY** possui mais de 3,600 empregados em 40 países, com mais de 340 sócios. Receita anual de US$1.2 Bilhões de Dólares.No Brasil, atua desde 1993, com mais de 120 profissionais, tendo como clientes grandes corporações como *General Motors, VW, Ford, CCR, Braskem, BR Distribuidora, Petrobras, Usiminas, Votorantim, Grupo BIG, Oba, Nestlé, Coca Cola e Heineken*.

Ostenta, portanto, as credenciais necessárias para atuar perante a **JUSTIÇA FEDERAL** como Perito Judicial no âmbito do *sistema indenizatório simplificado* - Desastre de Mariana ("CASO SAMARCO").

Intime-se o perito da sua nomeação, **advertindo-o** das penalidades constantes do artigo 158 do Código de Processo Civil.

Fica, desde já, o Sr. Perito **ciente** das seguintes disposições:

A) O perito deve assegurar aos assistentes das partes o acesso e o acompanhamento das diligências e dos exames que realizar, com prévia comunicação, comprovada nos autos (art. 466, § 2º, CPC);

B) O laudo pericial deverá conter (art. 473 do CPC):

I - a exposição do objeto da perícia;

II - a análise técnica ou científica realizada pelo perito;

III - a indicação do método utilizado, esclarecendo-o e demonstrando ser predominantemente aceito pelos especialistas da área do conhecimento da qual se originou;

IV - resposta conclusiva a todos os quesitos apresentados pelo juiz, pelas partes e pelo órgão do Ministério Público.

C) No laudo, o perito deve apresentar sua fundamentação em linguagem simples e com coerência lógica, indicando como alcançou suas conclusões; (§1º, art. 473 do CPC)

D) É vedado ao perito ultrapassar os limites de sua designação, bem como emitir opiniões pessoais que excedam o exame técnico ou científico do objeto da perícia; (§2º, art. 473 do CPC)

E) Para o desempenho de sua função, o perito e os assistentes técnicos podem valer-se de todos os meios necessários, **ouvindo testemunhas, obtendo informações, solicitando documentos que estejam em poder da parte, de terceiros ou em repartições públicas, bem como instruir o laudo com planilhas, mapas, plantas, desenhos, fotografias ou outros elementos necessários ao esclarecimento do objeto da perícia**; (§3º, art. 473 do CPC)

Fica o Sr. Perito Judicial, doravante, ciente de sua responsabilidade e da sua especial condição jurídica **("Auxiliar da Justiça"**).

Toda e qualquer manifestação deve ser endereçada exclusivamente ao juiz do processo, **vedada, em qualquer hipótese, tratamento privilegiado, antecipação de informação (ou conclusão de laudo) a qualquer das partes, às quais impõe-se o tratamento isonômico.**

O perito judicial, no exercício de seu mister e mediante cláusula de observância do sigilo, deverá ter acesso a todos os sistemas informatizados e bancos de dados da Fundação Renova.

Caberá às empresas rés, por intermédio da Fundação Renova, o *ônus processual* de arcar com os *honorários periciais*.

DA PRESENÇA OBRIGATÓRIA DE ADVOGADO/DEFENSOR PÚBLICO EM FAVOR DOS ATINGIDOS NA FASE DE ADESÃO (FASE 2)

Consoante já afirmado no decorrer do processo, coube à COMISSÃO DE ATINGIDOS apresentar a pretensão de definição judicial da *matriz de danos* (Fase 1), permitindo que os atingidos em geral, na fase subsequente (Fase 2), pudessem optar pela adesão (**ou não**).

Evidentemente, a **adesão** pelo atingido à *matriz de danos* fixada nesta decisão, não obstante toda a flexibilização empreendida, **traz consequências jurídicas**, daí porque reputo absolutamente imprescindível que o mesmo, por ocasião da adesão (**e durante toda a Fase 2)**, esteja *representado/assistido* **por advogado/defensor público**, permitindo-lhe adequada orientação jurídica.

A presença obrigatória de advogado/defensor público escolhido pelo próprio atingido em todas as fases da plataforma *online* é medida salutar e indispensável, pois traz o conforto necessário de que os interesses jurídicos do atingido estão adequada e suficientemente protegidos, contribuindo para a necessária segurança jurídica.

Assim sendo, esclareço que a adesão do atingido (Fase 2), por implicar *consequências jurídicas*, a exemplo da **QUITAÇÃO AMPLA, FINAL e DEFINITIVA**, nos termos dessa decisão, deverá obrigatoriamente contar com a presença de advogado/defensor público.

Noutras palavras: somente o advogado constituído poderá, através de Certificação Digital, acessar e instruir a plataforma *online* (formulário eletrônico) perante a Fundação Renova, sendo-lhe indispensável a apresentação de **PROCURAÇÃO COM "PODERES ESPECÍFICOS"** para adesão ao ***sistema indenizatório simplificado***, acesso ao "formulário *online*" e assinatura de termo de quitação.

DA POSSIBILIDADE DE SUBSTITUIÇÃO DO ADVOGADO CONSTITUÍDO NA FASE DE ADESÃO (FASE 2) – REVOGAÇÃO DA PROCURAÇÃO – DIREITO POTESTATIVO - HONORÁRIOS PROPORCIONAIS

A entrada em operação da *plataforma online* em outros territórios mostrou que, por vezes, a exemplo do que ocorre rotineiramente nos processos judiciais, o atingido deseja **substituir** no curso de seu requerimento o advogado inicialmente contratado.

Não há qualquer dúvida de que o atingido, segundo a legislação pátria, tem o **direito potestativo** de substituir o seu advogado a qualquer momento, revogando a procuração anteriormente outorgada.

A situação, no entanto, tem ocasionado conflitos, pois muitas das vezes a **revogação da procuração** se dá já na fase avançada de assinatura da adesão (FASE ACEITE), quando o advogado até então constituído já teria realizado **todo** o trabalho na plataforma, prejudicando-lhe, assim, o recebimento de seus honorários.

Cabe, portanto, fixar as diretrizes de revogação do mandato pelo atingido na *plataforma online* e suas repercussões no destaque (proporcional) dos honorários advocatícios.

Por instrumento público, o atingido poderá – **a qualquer momento** – mediante direito potestativo, **REVOGAR** a procuração anteriormente outorgada, constituindo, assim, novo procurador para cuidar de seu requerimento (adesão) no âmbito da *plataforma online*.

Caso, porém, a revogação ocorra **após a FASE de apresentação dos documentos relacionados à comprovação dos danos** (FASE – DOCUMENTAÇÃO DOS DANOS), o advogado inicialmente contratado terá garantido a **reserva** de 6% (seis por cento) do destaque autorizado dos honorários.

Vale dizer: **após a apresentação dos documentos relacionados à comprovação dos danos** (FASE – DOCUMENTAÇÃO DOS DANOS), tem-se que do destaque máximo permitido, o novo advogado terá proporcionalmente direito a 4% (quatro por cento) e o advogado inicialmente contratado terá **reservado** o percentual de 6% (seis por cento) pelo trabalho até então desenvolvido.

A equipe de TI da Fundação Renova deverá implementar, com prioridade, as modificações necessárias na *plataforma online*.

DA FIXAÇÃO DE PRAZO PARA ADESÃO AO NOVO SISTEMA INDENIZATÓRIO IMPLEMENTADO POR MEIO DA PRESENTE DECISÃO

A presente decisão, ao *flexibilizar* claramente em favor dos atingidos (MAIORES e CAPAZES) os requisitos probatórios, com arbitramento de valores indenizatórios médios, cumpreo propósito de oferecer uma solução possível, pragmática, uma autêntica **nova porta** de acesso ao recebimento da indenização.

Evidentemente, o atingido, após consultar as pessoas de sua confiança e, sobretudo, após obter orientação jurídica com seu advogado/defensor público sobre as consequências da adesão, deverá, em prazo adequado, decidir se aceita (ou não) a presente matriz de danos.

Decorridos mais de 05 anos do Desastre de Mariana, os atingidos já conhecem bem a realidade, conscientes, portanto, das situações que envolvem o "Caso Samarco".

Como bem ressaltado, os atingidos precisam, após ciência e conscientização de seus direitos, **assumir as responsabilidades pelas escolhas que vierem a adotar.**

Ademais, a fixação de prazo é igualmente importante para a própria *programação financeira* da Fundação Renova.

Cabe, portanto, delimitar, desde já, o período de ciência e divulgação dessa decisão, assim como o subsequente período em que estarão abertas as adesões.

PERÍODO DE CIÊNCIA

Disponibilizada a presente decisão no PJE, FIXO o prazo até 23 de junho de 2021 para ciência dos termos da presente decisão, **e ampla divulgação pela COMISSÃO DE ATINGIDOS DE PONTE/MG, pela COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO) e sua advogada.**

PERÍODO DE ADESÃO

Conhecidos os termos da decisão, os atingidos **deverão** decidir pela adesão (ou não) ao sistema indenizatório simplificado, no prazo compreendido entre 24 de junho de 2021 a 31 de julho de 2021, acessando a *plataforma online* da Fundação Renova.

DO PRAZO PARA CONFERÊNCIA E ACEITE DO TERMO DE ADESÃO, INDENIZAÇÃO E QUITAÇÃO

Após o preenchimento do requerimento, apresentação e validação de todos os documentos pertinentes (pessoais e comprovação dos danos), caberá à FUNDAÇÃO RENOVA confeccionar e disponibilizar no âmbito da **plataforma *online*** – em formato eletrônico - o **TERMO DE ADESÃO, INDENIZAÇÃO E QUITAÇÃO** correspondente, disponibilizando-o ao advogado para conferência e ACEITE.

Uma vez disponibilizado o **TERMO DE ADESÃO, INDENIZAÇÃO E QUITAÇÃO**, o atingido/advogado terá o prazo máximo de 5 dias corridos para manifestar (ou não) o **ACEITE** ao referido TERMO.

A manifestação do ACEITE deverá, obrigatoriamente, se dar por meio de CERTIFICADO DIGITAL (chave criptografada) do advogado/defensor público.

Cuida-se, aqui, de período em que o advogado poderá **conferir** as informações constantes do TERMO DE ADESÃO, INDENIZAÇÃO E QUITAÇÃO, explicando, uma vez mais, ao atingido as *consequências jurídico-processuais* decorrentes da adesão voluntária.

Decorrido o prazo sem manifestação expressa do ACEITE, presume-se a desistência da adesão e o **requerimento deverá ser imediatamente CANCELADO no sistema**.

DA POSSIBILIDADE DE DESISTÊNCIA DO ACEITE AO TERMO DE ADESÃO, INDENIZAÇÃO E QUITAÇÃO

Após a formalização do **ACEITE** ao **TERMO DE ADESÃO, INDENIZAÇÃO E QUITAÇÃO**, o advogado/atingido/defensor público terá, ainda, **por cautela**, o prazo de 48 horas (após o ACEITE) para formalização, no âmbito da *plataforma online*, da DESISTÊNCIA DO REQUERIMENTO/ACEITE.

A desistência do ACEITE deverá, obrigatoriamente, se dar por meio de CERTIFICADO DIGITAL (chave criptografada) do advogado/defensor público.

Formalizada a DESISTÊNCIA, **o requerimento será imediatamente cancelado**.

Decorrido o prazo de 48 horas sem manifestação expressa de desistência, **esta não será mais possível**, concluindo-se o ciclo do ato jurídico perfeito, devendo o referido TERMO ser trazido a juízo para exame e homologação.

DA FIXAÇÃO DE PRAZO PARA PRONUNCIAMENTO ADMINISTRATIVO DA FUNDAÇÃO RENOVA EM FACE DOS REQUERIMENTOS E DAS CONTESTAÇÕES APRESENTADAS

Durante o trâmite da fase administrativa na *plataforma online*, há uma contínua interlocução entre os interessados e a Fundação Renova, mediante formulação de requerimentos/pedidos/contestações/solicitações por parte dos atingidos quanto aos enquadramentos e/ou interpretações por parte da Fundação.

Consoante consignado nessa decisão, o atingido (advogado) que discordar do pronunciamento administrativo (enquadramento e/ou interpretação) da Fundação Renova terá o direito de, no prazo de 15 dias, interpor **recurso** ao juiz contra a decisão de indeferimento, negativa (inconformidade ou enquadramento), trazendo todas as razões (fato e direito) que entender pertinentes.

A esse respeito, constata-se, não obstante, que a dinâmica da ***plataforma online*** mostrou ser igualmente necessária a **fixação de prazo** para que a Fundação Renova aprecie e delibere sobre os pedidos, requerimentos e contestações apresentados pelos atingidos (advogados).

A ausência de prazo em desfavor da Fundação Renova conduz a uma situação injusta de não-decisão, não-pronunciamento administrativo, impedindo que o atingido possa interpor o recurso ao Juiz.

Por outro lado, se o atingido possui prazo judicial para se manifestar no sistema, do mesmo modo e por isonomia, a Fundação Renova também deve ter prazo para examinar e se pronunciar.

Assim sendo, CONCEDO à Fundação Renova o prazo de 30 dias corridos, prorrogável uma única vez, para examinar e decidir, como entender de direito, **todos** os requerimentos, pedidos, solicitações e contestações formulados no âmbito da *plataforma online*, **sob pena de, não o fazendo, tornar preclusa sua manifestação, com automático acolhimento do pedido formulado e/ou contestação apresentada**.

Ciência à Fundação Renova.

DAS CATEGORIAS DE ATINGIDOS QUE POSSUEM LAUDO TÉCNICO EMITIDO PELA FUNDAÇÃO RENOVA (SYNERGIA)

Consoante tratado nessa decisão, algumas categorias de atingidos, especialmente as formais, possuem laudo técnico confeccionado pela Fundação Renova.

Nessas situações, quanto ao atingido que já possui LAUDO confeccionado, inclusive com proposta indenizatória, caberá ao mesmo, juntamente com seu advogado/defensor público, decidir se **aceita (ou não)** o valor ofertado pela Fundação Renova.

Em caso de concordância, o atingido, por intermédio de seu advogado/defensor público, deverá acessar a *plataforma online*, manifestando sua adesão ao ***sistema indenizatório simplificado***, instruindo-a **apenas** com o LAUDO e os documentos pessoais e de regularidade da empresa (no caso de pessoa jurídica), **dispensada a necessidade de comprovação dos danos e/ou apresentação da escrituração contábil**.

Assim, caso haja - desde logo - **concordância** pelo atingido (e seu advogado/defensor público) com o valor constante do LAUDO TÉCNICO (**Synergia**) ter-se-á como imediatamente liquidado os valores e tornada definitiva a indenização, sem qualquer discussão ou contestação por parte da Fundação Renova.

Esclareço, por fim, que tanto o atingido pessoa jurídica (**CNPJ**), quanto o atingido pessoa física (**CPF**), desde que tenha Laudo confeccionado pela própria Fundação Renova (Synergia) em seu favor, faz jus ao enquadramento como categoria detentora de Laudo Técnico, beneficiando-se do sistema simplificado.

DA FLEXIBILIZAÇÃO DOS CRITÉRIOS PROBATÓRIOS EM FAVOR DOS ATINGIDOS E DA NECESSIDADE DE DESISTÊNCIA/RENÚNCIA DAS AÇÕES INDENIZATÓRIAS AJUIZADAS NO EXTERIOR

A presente decisão funda-se na *simplificação* e *flexibilização* dos critérios probatórios em favor dos atingidos, permitindo que um maior contingente seja incorporado ao **sistema de indenização simplificado**, se comparado com a dinâmica atual empregada pela Fundação Renova.

Ao viabilizar uma solução indenizatória comum para as diversas categorias de atingidos, a decisão estabeleceu uma consistente matriz de danos, fundada na concepção de "justiça possível" (*rough justice*), com o nítido propósito de resolver de forma pragmática, célere e definitiva a controvérsia.

Trata-se, portanto, de uma decisão claramente benéfica e favorável aos atingidos.

De outro lado, entretanto, sabe-se que muitas categorias (*"associações", "hotéis", "empresas", "comerciantes" e "demais atingidos"*) entenderam por bem **litigar nos foros estrangeiros** contra as empresas rés (VALE e BHP), o que, *a priori*, afigura-se possível.

Entretanto, **descabe** permitir que essas categorias se "aproveitem" da *flexibilização* empreendida neste processo para receber a indenização aqui no Brasil **e** também no exterior (obtenção de dupla indenização pelo mesmo fato), **em inaceitável** *bis in idem*, quer do ponto de vista jurídico (*ninguém pode ser punido duas vezes pelo mesmo fato*), quer do ponto de vista filosófico (*ninguém pode se aproveitar do sistema para receber duas vezes*).

A obtenção de dupla indenização pelo mesmo fato configura *enriquecimento sem causa*, **vedado** pelo ordenamento jurídico brasileiro (art. 884 do Código Civil).

Assim sendo, o atingido que pretender se **beneficiar** da presente matriz de danos (e toda a sua flexibilização probatória), inclusive da TUTELA DE URGÊNCIA deferida, deverá *desistir/renunciar* ao recebimento da indenização nos foros internacionais.

Ante o exposto e fiel a essas considerações, DETERMINO que, por ocasião da fase de adesão (Fase 2), o atingido apresente à Fundação Renova o indispensável **TERMO DE DESISTÊNCIA/RENÚNCIA** a eventual ação ajuizada no foro estrangeiro versando sobre pedido de indenização, em decorrência do rompimento da barragem de Fundão ("Caso Samarco").

DO DESTAQUE DOS HONORÁRIOS CONTRATUAIS NA FASE 2

Consoante já afirmado, a presença do advogado é obrigatória na Fase 2 (fase de adesão), já que caberá ao mesmo prestar assistência jurídica ao atingido, explicando-lhe os termos da decisão (matriz de danos), **inclusive advertindo-lhe dos ônus e consequências jurídicas**.

Tem absoluta razão a COMISSÃO DE ATINGIDOS ao afirmar que a imensa maioria dos atingidos **são pessoas extremamente simples e humildes, muitas das quais vulneráveis**.

Cabe a este juízo federal, portanto, atuar para preservar, na Fase 2, a integridade dos direitos dos atingidos.

Se de um lado, é natural e legítimo que o advogado seja remunerado pelo seu trabalho de assessoramento (e preenchimento do formulário eletrônico), de outro lado é cristalino que a atuação do mesmo na Fase 2 se limita à **mera conferência** de dados e documentos, sem qualquer complexidade adicional.

Na Fase 2 **não há** lide, **não há** pretensão resistida, **não há** disputa, **não há** qualquer litigância.

Nessa linha de raciocínio, por inexistir complexidade jurídica, FIXO em no máximo 10% (dez por cento) o **destaque** dos honorários contratuais a ser realizado diretamente pela Fundação Renova.

Portanto, ao preencher o "formulário eletrônico", o advogado interessado no destaque de seus honorários deverá indicar separadamente as contas bancárias, fazendo o *upload* do contrato de honorários em que esteja previsto o destaque, **limitado a no máximo 10% (dez por cento)**, vedado o pagamento de qualquer valor adicional.

Ao realizar o pagamento, a Fundação Renova deverá observar a indicação do referido destaque.

DA AUSÊNCIA DE HONORÁRIOS DE SUCUMBÊNCIA NA FASE DE ADESÃO PELOS ATINGIDOS (FASE 2)

Conforme afirmado, na Fase 2 (fase de adesão pelo atingido) não há lide, não há pretensão resistida, não há disputa.

Cuida-se de fase meramente administrativa em que o atingido, por intermédio de seu advogado, decide pela adesão ao sistema indenizatório, instruindo-o com os documentos pertinentes.

Logo, por inexistir pretensão resistida, **não há** condenação em honorários de sucumbência na Fase 2.

DOS HONORÁRIOS DE SUCUMBÊNCIA EM FAVOR DA ADVOGADA DA COMISSÃO DE ATINGIDOS DE PONTE NOVA E DA COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL - (FASE 1) AJUIZAMENTO DA AÇÃO DE CONHECIMENTO

A atuação da ilustre Advogada da COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG e da COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO) **Dr.ª Helena de Araújo Jorge** foi diferenciada, em consonância com a norma constitucional segundo a qual "*o advogado é indispensável à administração da Justiça*" (art. 133, CF/88).

Não obstante a nomenclatura dada, trata-se a presente ação, em real verdade, de **AÇÃO ORDINÁRIA (comum)**, ajuizada pela COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG e pela COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO) em benefício de **atingidos maiores e capazes**, versando exclusivamente sobre direitos individuais, patrimoniais e disponíveis.

Decorridos mais de 05 anos do Desastre de Mariana, foi a advogada **Dr.ª Helena de Araújo Jorge** quem conseguiu viabilizar concretamente em favor dos **atingidos do município de Ponte Nova/MG** uma solução efetiva e adequada, apresentando sólida construção jurídica para o tema das indenizações.

Portanto, diferentemente do que alegam as empresas rés, o *grau de zelo profissional* da advogada verificado no presente caso **foi impecável**, a natureza e a importância da causa **são incomensuráveis** [*pois basta lembrar que – passados mais de 05 anos - trata-se da primeira decisão que, em termos práticos e jurídicos, estabelece e determina o pagamento de indenização aos atingidos de Ponte Nova*], o trabalho e o tempo exigido da advogada pode ser testemunhado pelo juízo nos constantes pedidos de despachos judiciais.

O **valor da causa é inestimável**, quer pela importância da mesma, quer pela impossibilidade de se definir quantos e quais atingidos irão aderir à matriz de danos fixada nesta decisão.

A fixação dos ***honorários de sucumbência***, portanto, deve ser arbitrada por este juízo, por apreciação equitativa, nos termos do artigo 85, §8º, do CPC. *In verbis*:

> § 8º Nas causas em que for inestimável ou irrisório o proveito econômico ou, ainda, quando o valor da causa for muito baixo, o juiz fixará o valor dos honorários por apreciação equitativa, observando o disposto nos incisos do § 2º.

Assim sendo, considerando a importância da demanda, a abrangência territorial (**todo o município de Ponte Nova, excetuando-se apenas o distrito Chopotó**) e o contingente de pessoas supostamente beneficiadas, FIXO os *honorários de sucumbência* em favor da Advogada **Dr.ª Helena de Araújo Jorge** em R$ 70.000,00 (setenta mil reais).

Registro que o presente valor levou em consideração o ineditismo e o pioneirismo da demanda e da solução pragmática apresentada para a localidade de Ponte Nova, contornando mais de 05 anos de espera, viabilizando uma **solução real (efetiva)** para os atingidos de Ponte Nova, inclusive com antecipação da tutela de urgência.

Foram as atuações das COMISSÕES DE ATINGIDOS, por intermédio de sua advogada, que permitiram o encaminhamento do tema na via judicial, fazendo renascer a fé e a esperança em todos os atingidos do Desastre de Mariana.

Registro, por dever de consciência, que o presente valor **NÃO constitui** precedente para qualquer outro caso, **nem mesmo para aqueles patrocinados pela referida advogada**.

Trata-se de valor singular, rigorosamente pontual, em razão da **importância** da demanda de Ponte Nova, como precedente positivo, para toda a bacia do rio Doce.

DO DISPOSITIVO

Ante o exposto e fiel a essas considerações, **JULGO PROCEDENTE** o pedido (**resolução total do mérito**) formalizado pela COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG e pela COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL (DISTRITO) para, nos exatos termos, condições e limites dessa decisão, estabelecer em favor dos atingidos MAIORES e CAPAZES o ***sistema indenizatório simplificado***, versando sobre direitos individuais, patrimoniais e disponíveis, de *adesão facultativa* e presença obrigatória de advogado/defensor público em todas as fases, com sua correspondente *matriz de danos*.

Via de consequência, **RESOLVO integralmente o mérito**, nos termos do artigo 356, inciso II, do CPC, quanto às categorias contempladas na presente matriz de danos, a fim de que surta os seus jurídicos e legais efeitos.

DA TUTELA PROVISÓRIA DE URGÊNCIA

Por intermédio da PETIÇÃO (ID 422587873) a **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e a **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO), aduziram a necessidade de concessão **imediata** da **TUTELA DE URGÊNCIA**, ante a situação *precária* e *calamitosa* dos atingidos, que perderam as suas profissões (e consequente fonte de renda), **agravada, atualmente, pela situação de Pandemia do Covid-19**. *In verbis*:

> "(...)
>
> Conforme preceitua o nosso Código de Processo Civil, em seu artigo 300, caberá a tutela de urgência, quando houver a probabilidade do direito e o perigo de dano ao resultado útil do processo.
>
> A probabilidade da direito está evidenciada diante da tragédia sem precedentes no país, onde **o Rio Doce e seus afluentes foram transformados em rejeito de minérios, extinguindo qualquer vida orgânica nos Rios, causando impactos aos atingidos** desta comissão. Não resta, porém, qualquer duvida sobre o impacto e a relação direta com o Rompimento da Barragem do Fundão.
>
> O perigo de dano ao resultado útil do processo resta também comprovado, diante da necessidade urgente dos atingidos serem indenizados, pois que, **já se passaram mais de 5 anos da tragédia, e estes foram impactados, sem qualquer assistência das Rés. Largados a sorte e muitos em condições de miserabilidade**. Caso não seja decidida como medida de urgência a prestação jurisdicional, a situação dos atingidos de grande vulnerabilidade pode se tornar insustentável, causando graves danos a comunidade, e seus familiares, agravando a situação de pobreza extrema.
>
> Desta forma, pleiteia os atingidos o deferimento da tutela de urgência para que as Rés indenizem os atingidos logo que seja decidida a sentença parcial de mérito relativa à sentença indenizatória.
>
> Assim, requer os atingidos, em pedido de tutela de urgência a condenação das Rés nas categorias de lavadeiras, artesãos, produtores e agricultores de atividade, formal e informal, agricultores de

> subsistência, pescadores de subsistência, pescador artesanal/amador/de fato, revendedores de pescado formal e informal, demais atingidos na cadeia de pesca, pescador profissional, comerciantes formais e informais de areia e argila, proprietários e exploradores de lavras minérios/ ouro/areia/pedras preciosas, garimpeiros, faiscadores, operadores de draga e demais atingidos na cadeia mineraria." (grifo nosso)

Pois bem.

Para a concessão da **tutela provisória de urgência**, os pressupostos acham-se previstos no art. 300, *caput*, do CPC, quais sejam a *probabilidade do direito invocado* e o *perigo de dano ou o risco ao resultado útil do processo*.

> Art. 300. A tutela de urgência será concedida quando houver elementos que evidenciem a probabilidade do direito e o perigo de dano ou o risco ao resultado útil do processo.

A regra processual dispõe, então, que a tutela de urgência poderá ser concedida liminarmente ou após justificação prévia quando houver elementos que evidenciem a probabilidade do direito (*fumus boni iuris*) e o perigo de dano ou risco ao resultado útil do processo (*periculum in mora*).

Buscam as COMISSÕES DE ATINGIDOS, em sede de tutela de urgência, determinação para que as empresas rés (SAMARCO, VALE e BHP) cumpram **imediatamente** a obrigação de efetivar a **reparação integral**, com a consequente indenização aos atingidos.

A pretensão merece acolhimento.

Examinando a questão agora em *juízo de cognição exauriente*, verifico que estão configurados os pressupostos que autorizam a concessão de tutela provisória requerida.

O *fumus boni iuris* encontra-se claramente demonstrado, ante a procedência da pretensão indenizatória, corroborada pela fixação judicial da matriz de danos.

O *periculum in mora* igualmente se caracteriza, uma vez que as categorias atingidas perderam a fonte de renda e/ou subsistência, fato que com o decurso do tempo somente se agrava, notadamente em tempos de pandemia.

A cada dia a situação de vulnerabilidade de muitos atingidos se agrava, quer pela perda da profissão e consequente perda da fonte de renda, quer pelo comprometimento da subsistência.

Os atingidos não aguentam mais esperar!

Assim sendo, entendo restar configurado, em juízo de cognição exauriente, os elementos que autorizam o deferimento da tutela de urgência pleiteada.

Ante o exposto e fiel a essas considerações, **DEFIRO** o pedido de tutela provisória de urgência formulado pela **COMISSÃO DE ATINGIDOS DE PONTE NOVA/MG** e pela **COMISSÃO DE ATINGIDOS DE ROSÁRIO DO PONTAL** (DISTRITO), para determinar às empresas rés (SAMARCO, VALE e BHP) e também à Fundação Renova que, a partir de **24 de junho de 2021** (*data em que será disponibilizada a plataforma online*), sejam admitidas e processadas as formalizações de adesão à matriz de danos fixada nesta decisão, com o consequente pagamento após a homologação judicial dos elegíveis.

Por fim, com o objetivo de dar cumprimento à presente SENTENÇA, oficie-se, com urgência, a **SECRETARIA DE AQUICULTURA E PESCA - SAP, do Ministério da Agricultura, Pecuária e Abastecimento (MAPA)** requisitando as seguintes informações:

a. LISTA OFICIAL de pescadores "**REGISTRADOS**" no estado de MINAS GERAIS junto ao Registro Geral da Atividade Pesqueira – RGP, **datada entre 1.1.2014 até 5.11.2015**, disponibilizada e chancelada pela SECRETARIA DE AQUICULTURA E PESCA - SAP, do Ministério da Agricultura, Pecuária e Abastecimento (MAPA); e

b. LISTA OFICIAL de pescadores "**PROTOCOLADOS**" no estado de MINAS GERAIS **datada entre 1.1.2014 até 5.11.2015**, disponibilizada e chancelada pela SECRETARIA DE AQUICULTURA E PESCA - SAP, do Ministério da Agricultura, Pecuária e Abastecimento (MAPA).

Publique-se. Registre-se.

CUMPRA-SE.

Belo Horizonte/MG, *data e hora do sistema*.
